I. Introduction

The Public-Private Education Facilities and Infrastructure Act of 2002 (the “PPEA”) grants the Poquoson City School Board (“School Board” or “PCPS”), a responsible public entity as defined by the Act, the authority to create public-private partnerships for the development of a wide range of projects for public use if the School Board determines there is a need for the project and that private involvement may provide the project to the public in a timely or cost-effective fashion. Individually negotiated interim or comprehensive agreements between a private entity and the School Board will define the respective rights and obligations of the School Board and the private entity. Although guidance with regard to the application of the PPEA is provided herein, it will be incumbent upon the School Board and all private entities to comply with the provisions of the PPEA as applicable. A copy of the PPEA is annexed as Appendix I.

For a project to come under the PPEA, it must meet the definition of a “qualifying project.” The PPEA contains a broad definition of qualifying projects that includes, but is not limited to, public buildings and facilities of all types, for example:

- An education facility, including but not limited to, a school building (including any stadium or other facility primarily used for school events), and functionally related and subordinate facility and land to a school building and any depreciable property provided for use in a school facility that is operated as part of the public school system or as an institution of higher education;
- A building or facility that meets a public purpose and is developed or operated by or for any public entity;
- Improvements, together with equipment, necessary to enhance public safety and security of buildings to be principally used by a public entity;
- Utility and telecommunications and other communications infrastructure;
- A recreational facility;
- Technology infrastructure, including, but not limited to, telecommunications, automated data processing, work processing and management information systems, and related information, equipment, goods and services;
- Technology, equipment, or infrastructure designed to deploy wireless broadband services to schools, businesses, or residential areas;
- Services designed to increase the productivity or efficiency through the use of technology or other means; or
- Any improvements necessary or desirable to any unimproved locally- or state-owned real estate.

The PPEA establishes requirements that the School Board must adhere to when reviewing and approving proposals received pursuant to the PPEA. In addition, the PPEA specifies the criteria that must be used to

select a proposal and the contents of the interim or comprehensive agreement detailing the relationship between the School Board and the private entity.

The School Board adopted these guidelines to implement the PPEA. Therefore, the School Board will follow these guidelines to receive and evaluate any proposal submitted to the School Board under the provisions of the PPEA. The procedures provided in this policy may be amended only by act of the School Board; however, the Division Superintendent of Schools (“Superintendent”) is authorized to the fullest extent permitted by law to implement these guidelines and take action on behalf of the School Board as to any PPEA matter or transaction in any instance when these guidelines make reference to the “School Board.”

These Guidelines shall govern all Poquoson City School Board PPEA projects. The Superintendent shall evaluate any and all proposals and negotiate any Interim Agreement or Comprehensive Agreement. The Superintendent is authorized to designate a Selection Committee (the “Selection Committee”) to be responsible for evaluating proposals and negotiating any Interim Agreement and Comprehensive Agreement. The Superintendent shall serve as the point of contact for implementation of these Guidelines, to receive proposals submitted under the PPEA, and to respond to inquiries regarding the PPEA or these Guidelines.

In the event that the PPEA is amended in a manner that either conflicts with these Guidelines or concerns material matters not addressed by these Guidelines, the School Board shall appropriately amend the Guidelines. If the Guidelines are not amended prior to the effective date of the new law, these Guidelines nonetheless shall be interpreted in a manner to conform to the PPEA as amended.

Because the PPEA is intended to encourage innovative partnerships between responsible public entities and private entities, the School Board will maintain an open dialogue with private entities to discuss the need for infrastructure improvements.

II. General Provisions

A. Proposal Submission

A proposal may be either solicited by the School Board or delivered by a private entity on an unsolicited basis. Proposers may be required to follow a two-part proposal submission process consisting of an initial conceptual phase and a detailed phase. The initial phase of the proposal should contain specified information on proposer qualifications and experience, project characteristics, project financing, anticipated public support or opposition, or both, and project benefit and compatibility. The detailed proposal should contain specified deliverables.

The PPEA allows private entities to include innovative financing methods, including the imposition of user fees or service payments, in a proposal. Such financing arrangements may include the issuance of debt instruments, equity or other securities or obligations, including, if applicable the portion of the tax-

exempt private activity bond limitation amount to be allocated annually by the Commonwealth of Virginia pursuant to the Economic Growth and Tax Relief Reconciliation Act of 2001 for the development of education facilities using the public-private partnerships, and to provide for carryovers for any unused limitation amount. The PPEA is a flexible development tool that allows the use of innovative financing techniques. Depending on the School Board's authority and the circumstances of each transaction, financing options might include the use of special purpose entities, sale and lease back transactions, enhanced use leasing, property exchanges, development agreements, conduit financing and other methods allowed by law.

Proposals should be prepared simply and economically, providing a concise description of the proposer's capabilities to complete the proposed qualifying project and the benefits derived from the project by the School Board. Project benefits to be considered are those occurring in the construction, renovation, expansion or improvement phase during the life cycle of a project. Proposals also should include a scope of work and a financial plan for the project, containing enough detail to allow an analysis by the School Board of the financial feasibility of the proposed project. The cost analysis of a proposal should not be linked solely to the financing plan, as the School Board may determine to finance the project through other available means.

The School Board shall establish clearly delineated criteria for: (i) selecting among competing proposals; and (ii) the use of an accelerated documentation, review and selection process for proposals involving a qualifying project that the School Board deems a priority. In addition, to facilitate the flow of critical information, the School Board may establish criteria by which the proposer may provide clarification to a submitted proposal.

B. Affected Jurisdiction

Any private entity requesting approval from or submitting a conceptual or detailed proposal to the School Board must provide each affected jurisdiction with a copy of the private entity's request or proposal by certified mail, express delivery, or hand delivery. Affected jurisdictions that are not "responsible public entities" ("RPEs") under the proposed qualifying project shall have sixty (60) days from the receipt of the request or proposal to submit written comments to PCPS and to indicate whether the proposed qualifying project is compatible with the (i) local comprehensive plan, (ii) local infrastructure development plans, or (iii) capital improvements budget or other government spending plan. Comments received within the 60-day period shall be given consideration by the School Board, and no negative inference shall be drawn from the absence of comment by an affected jurisdiction.

C. Proposal Review Fee

The School Board shall receive an analysis of the proposal from appropriate internal staff or outside advisors or consultants with relevant experience in determining whether to enter into an agreement with the private entity. For proposals submitted under the PPEA, the School Board shall require an initial processing fee of \$0 to cover the costs of processing, reviewing and evaluating any unsolicited proposal or competing unsolicited proposal submitted under the PPEA, including the costs of outside attorneys, consultants and financial advisors. The initial processing fee shall be submitted with the initial

proposal or competing proposal. Upon the School Board's decision to proceed with a detailed stage of review, the proposer shall submit an additional review fee calculated at the rate of 0 percent (0%) of the reasonably anticipated total cost of the proposed project, but not less than (\$0), at the time of the submittal of the detailed stage of review. The School Board will refund any portion of fees paid in excess of its direct costs which include, but are not limited to, all staff costs, outside consultants, financial advisors, engineers and attorney's fees associated with evaluating the proposal. In the event either the initial processing fee of \$0 or the additional proposal fee is determined by the Superintendent to be insufficient to cover all of the direct costs incurred or expected to be incurred by the School Board in reviewing the proposal, the proposer shall pay the additional amount(s) as specified by the Superintendent. Any proposal submitted without payment of the required fee or any failure to pay the additional amount(s) as specified by the Superintendent within 5 days shall result in the proposal not being considered. The proposal fee may cover all or part of the initial review process. For example, the School Board may require a proposal fee in the amount sufficient to cover all anticipated direct costs associated with evaluating the proposal, or the School Board may require the smaller initial processing fee with an additional proposal fee to be charged should the project proceed beyond the initial review.

D. Freedom of Information Act

1. General applicability of disclosure provisions.

Proposal documents submitted by private entities are generally subject to the Virginia Freedom of Information Act ("FOIA") except that subdivision 11 of Virginia Code Section 2.2-3705.6 exempts certain documents from public disclosure. FOIA exemptions, however, are discretionary, and the School Board may elect to release some or all of the documents except to the extent documents are:

(a) Trade secrets of the private entity as defined by the Uniform Trade Secrets Act (§ 59.1-336 et seq.);

(b) Financial records of the private entity that are not generally available to the public through regulatory disclosure or otherwise, including, but not limited to, balance sheets and financial statements; or

(c) Other information submitted by a private entity, where if the record or document were made public prior to the execution of an interim or comprehensive agreement the financial interest or bargaining position of the public or private entity would be adversely affected.

Additionally, to the extent access to proposal documents submitted by private entities are compelled or protected from disclosure by a court order, The School Board will comply with the provisions of such order.

2. Protection from mandatory disclosure for certain documents submitted by a private entity.

Before a document of a private entity may be withheld from disclosure, the private entity must make a written request to the School Board at the time the documents are submitted designating with specificity the documents for which the protection is being sought and a clear statement of the reasons for invoking the protection with reference to one or more of three classes of records listed in Section I.D.1.

Upon receipt of a written request for protection of documents, the School Board shall determine whether the documents contain (i) trade secrets, (ii) financial records, or (iii) other information that would adversely affect the financial interest or bargaining position of the School Board or private entity in accordance with Section I.D.1. The School Board shall make a written determination of the nature and scope of the protection to be afforded by the School Board under this subdivision. If the written determination provides less protection than requested by the private entity, the private entity should be afforded an opportunity to withdraw its proposal. Nothing shall prohibit further negotiations of the documents to be afforded protection from release although what may be protected must be limited to the categories of records identified in Section I.D.1

Once a written determination has been made by the School Board, the documents afforded protection under this subdivision shall continue to be protected from disclosure when in the possession of the School Board or any affected jurisdiction to which such documents are provided.

If a private entity fails to designate trade secrets, financial records, or other confidential information or proprietary information from protection for disclosure, such information, records or documents shall be subject to disclosure under FOIA.

3. Protection from mandatory disclosure for certain documents produced by the School Board.

The School Board may withhold from disclosure memoranda, staff evaluations, or other records prepared by the School Board, its staff, outside advisors, or consultants exclusively for the evaluation and negotiation of proposals where (i) if such records were made public prior to or after the execution of an interim or comprehensive agreement, the financial interest or bargaining position of the School Board would be adversely affected, and (ii) the basis for the determination required in clause (i) is documented in writing by the School Board.

Cost estimates relating to a proposed procurement transaction prepared by or for the School Board shall not be open to public inspection.

4. Poquoson City Public Schools may not withhold from public access:

- (a) procurement records other than those subject to the written determination of the School Board;
- (b) information concerning the terms and conditions of any interim or comprehensive agreement, service contract, lease, partnership, or any agreement of any kind entered into by the School Board and the private entity;
- (c) information concerning the terms and conditions of any financing arrangement that involves the use of public funds; or

(d) information concerning the performance of any private entity developing or operating a qualifying transportation facility or a qualifying project.

However, to the extent that access to any procurement record or other document or information is compelled or protected by a court order, then the School Board must comply with such order.

E. Use of Public Funds

Virginia constitutional and statutory requirements as they apply to appropriation and expenditure of public funds apply to any interim or comprehensive agreement entered into by the PPEA. Accordingly, the process and procedural requirements associated with the expenditure or obligation of public funds shall be incorporated into planning for any PPEA project or projects.

F. Applicability of Other Laws

Nothing in the PPEA shall affect the duty of the School Board to comply with all other applicable law not in conflict with the PPEA. The applicability of the Virginia Public Procurement Act (“VPPA”) is as set forth in the PPEA.

III. Solicited Proposals

The School Board may issue Requests for Proposals (RFPs) or Invitations for Bids (IFBs) inviting proposals from private entities to develop or operate qualifying projects. The School Board may use a two-part proposal process consisting of an initial conceptual phase and a detailed phase. An RFP may invite proposers to submit proposals on individual projects identified by the School Board. In such a case the School Board should set forth in the RFP the format and supporting information that is required to be submitted, consistent with the provisions of the PPEA. The School Board may establish suggested timelines for selecting proposals for the review and selection of solicited proposals.

The RFP should specify, but not necessarily be limited to, information and documents that must accompany each proposal and the factors that will be used in evaluating the submitted proposals. The RFP will be posted in such public areas as are normally used for posting of the School Board notices, including the School Board’s website. Notices should also be published in a newspaper or other publication of general circulation and advertised in *Virginia Business Opportunities* and posted on the Commonwealth's electronic procurement site. In addition, solicited proposals should be posted pursuant to Section IV(B). The RFP should also contain or incorporate by reference other applicable terms and conditions, including any unique capabilities or qualifications that will be required of the private entities submitting proposals. Pre-proposal conferences may be held as deemed appropriate by the School Board.

IV. Unsolicited Proposals

The PPEA permits the School Board to receive, evaluate and select for negotiations unsolicited proposals from private entities to develop or operate a qualifying project. The School Board may publicize its need and may encourage interested parties to submit unsolicited proposals subject to the terms and conditions of the PPEA. When such a proposal is received without issuance of a solicitation, the proposal shall be treated as an unsolicited proposal. The School Board may establish suggested timelines for selecting proposals and for the review and selection of unsolicited proposals.

A. Decision to Accept and Consider Unsolicited Proposals

1. Upon receipt of any unsolicited proposal or group of proposals and payment of any required fee by the proposer or proposers, the School Board should determine whether to accept the unsolicited proposal for the purpose of publication and conceptual-phase consideration. If the School Board determines not to accept the proposal and proceed to publication and conceptual-phase consideration, it should return the proposal, together with all fees and accompanying documentation, to the proposer. If the School Board rejects a proposal that includes cost savings to the School District, the School Board shall specify the basis for the rejection.

2. If the School Board chooses to accept an unsolicited proposal for publication and conceptual-phase consideration, it shall post a notice in a public area regularly used by the School Board for posting of public notices, including the School Board's website, for a period of not fewer than 45 days. The School Board shall also publish the same notice for a period of not fewer than 45 days in one or more newspapers or periodicals of general circulation in the jurisdiction to notify any parties that may be interested in submitting competing unsolicited proposals. In addition, the notice should be advertised in *Virginia Business Opportunities* and on the Commonwealth's electronic procurement website. The notice shall state that the School Board (i) has received an unsolicited proposal under the PPEA, (ii) intends to evaluate the proposal, (iii) may negotiate an interim or comprehensive agreement with the proposer based on the proposal, and (iv) will receive for simultaneous consideration any competing proposals that comply with the procedures adopted by the School Board and the PPEA. The notice also shall summarize the proposed qualifying project or projects, and identify their proposed locations.

To ensure that sufficient information is available upon which to base the development of a serious competing proposal, representatives of the School Board familiar with the unsolicited proposal and the guidelines established by the PPEA shall be made available to respond to inquiries and meet with private entities that are considering the submission of a competing proposal. The School Board shall conduct an analysis of the information pertaining to the proposal included in the notice to ensure that such information sufficiently encourages competing proposals. Further, the School Board shall establish criteria, including key decision points and approvals to ensure proper consideration of the extent of competition from available private entities prior to selection.

B. Posting Requirements

Conceptual proposals, whether solicited or unsolicited, shall be posted by the School Board within 10 working days after acceptance of such proposals in the following manner:

Posting shall be on the School Board's website or by publication in a newspaper of general circulation in the area in which the contract is to be performed, and shall include a summary of the proposals and the location where copies of the proposals are available for public inspection. Posting may also be made on the Department of General Services' centralized electronic procurement website.

Nothing shall be construed to prohibit the posting of the conceptual proposals by additional means deemed appropriate by the School Board so as to provide maximum notice to the public of the opportunity to inspect the proposals.

In addition to the posting requirements described in this section, at least one copy of the proposals shall be made available for public inspection. Trade secrets, financial records, or other records of the private entity excluded from disclosure under the provisions of subdivision 11 of § 2.2-2705.6 shall not be required to be posted, except as otherwise agreed to by the School Board and the private entity. Any inspection of procurement transaction records shall be subject to reasonable restrictions to ensure the security and integrity of the records.

C. Initial Review by the School Board at the Conceptual Stage

1. Only proposals complying with the requirements of the PPEA that contain sufficient information for a meaningful evaluation and that are provided in an appropriate format shall be considered by the School Board for further review at the conceptual stage. Formatting suggestions for proposals at the conceptual stage are found in Section V(A).

2. The School Board should determine at this initial stage of review whether it will proceed using:

- a. Standard procurement procedures consistent with the VPPA; or
- b. Guidelines developed by the School Board that are consistent with procurement of "other than professional services" through "competitive negotiation" as the terms are set forth in § 2.2-4302.2 and § 2.2-4310(B) of the Code of Virginia. The School Board may proceed using such guidelines only if it makes a written determination that doing so is likely to be advantageous to the School Board and the public based upon either (i) the probable scope, complexity or priority of need; (ii) the risk sharing including guaranteed cost or completion guarantees, added value or debt, or equity investments proposed by the private entity; or (iii) the increase in funding, dedicated revenue or other economic benefit that would otherwise not be available.

3. After reviewing the original proposal and any competing proposals submitted during the notice period, the School Board may determine:

- a. not to proceed further with any proposal;
- b. to proceed to the detailed phase of review with the original proposal;

- c. to proceed to the detailed phase with a competing proposal;
- d. to proceed to the detailed phase with multiple proposals; or
- e. to request modifications or amendments to any proposals.

In the event that more than one proposal will be considered in the detailed phase of review, the School Board will consider whether the unsuccessful proposer should be reimbursed for costs incurred in the detailed phase of review, and such reasonable costs may be assessed to the successful proposer in the comprehensive agreement.

4. Discussions between the School Board and private entities about the need for infrastructure improvements shall not limit the ability of the School Board to later determine to use standard procurement procedures to meet its infrastructure needs. The School Board retains the right to reject any proposal at any time prior to the execution of an interim or comprehensive agreement.

V. Proposal Preparation and Submission

A. Format for Submissions at Conceptual Stage

The School Board requires that proposals at the conceptual stage contain information in the following areas: (i) qualifications and experience, (ii) project characteristics, (iii) project financing, (iv) anticipated public support or opposition, or both, (v) project benefit and compatibility and (vi) any additional information as the School Board may reasonably request to comply with the requirements of the PPEA. Suggestions for formatting information to be included in proposals at this stage include the items listed below, as well as any additional information or documents that the School Board may request:

1. Qualifications and Experience

- a. Identify the legal structure of the firm or consortium of firms making the proposal. Identify the organizational structure for the project, the management approach and how each partner and major subcontractor in the structure fits into the overall team.
- b. Describe the experience of the firm or consortium of firms making the proposal and the key principals involved in the proposed project including experience with projects of comparable size and complexity. Describe the length of time in business, business experience, public sector experience and other engagements of the firm or consortium of firms. Include the identity of any firms that will provide design, construction and completion guarantees and warranties, and a description of such guarantees and warranties.
- c. Provide the names, addresses, and telephone numbers of persons within the firm or consortium of firms who may be contacted for further information.

- d. Provide a current or most recently audited financial statement of the firm or firms and each partner with an equity interest of twenty percent or greater.
- e. Identify any persons known to the proposer who would be obligated to disqualify themselves from participation in any transaction arising from or in connection to the project pursuant to the Virginia State and Local Government Conflict of Interests Act, Chapter 31 (§ 2.2-3100 et seq.) of Title 2.2.

2. Project Characteristics

- a. Provide a description of the project, including the conceptual design. Describe the proposed project in sufficient detail so that type and intent of the project, the location, and the communities that may be affected are clearly identified.
- b. Identify and fully describe any work to be performed by the School Board.
- c. Include a list of all federal, state, and local permits and approvals required for the project and a schedule for obtaining such permits and approvals.
- d. Identify any anticipated adverse social, economic, and environmental impacts of the project. Specify the strategies or actions to mitigate known impacts of the project.
- e. Identify the projected positive social, economic, and environmental impacts of the project.
- f. Identify the proposed schedule for the work on the project, including the estimated time for completion.
- g. Propose allocation of risk and liability for work completed beyond the agreement's completion date, and assurances for timely completion of the project.
- h. State assumptions related to ownership, legal liability, law enforcement, and operation of the project and the existence of any restrictions on the School Board's use of the project.
- i. Provide information relative to phased or partial openings of the proposed project prior to completion of the entire work.
- j. List any other assumptions relied on for the project to be successful.
- k. List any contingencies that must occur for the project to be successful.

3. Project Financing

- a. Provide a preliminary estimate and estimating methodology of the cost of the work by phase, segment, or both.

- b. Submit a plan for the development, financing, and operation of the project showing the anticipated schedule on which funds will be required. Describe the anticipated costs of and proposed sources and uses for such funds including any anticipated debt service costs. The operational plan should include appropriate staffing levels and associated costs. Include supporting due diligence studies, analyses, or reports.
- c. Include a list and discussion of assumptions underlying all major elements of the plan. Assumptions should include all significant fees associated with financing given the recommended financing approach. In addition complete disclosure of interest rate assumptions should be included. Any ongoing operational fees, if applicable, should also be disclosed as well as any assumptions with regard to increases in such fees.
- . Identify the proposed risk factors and methods for dealing with these factors.
- d. Identify any local, state, or federal resources that the proposer contemplates requesting for the project. Describe the total commitment, if any, expected from governmental sources and the timing of any anticipated commitment. Such disclosure should include any direct or indirect guarantees or pledges of the School Board's credit or revenue.
 - a. Identify the amounts and the terms and conditions for any revenue sources.
 - b. Identify any aspect of the project that could disqualify the project from obtaining tax-exempt financing.

4. Project Benefit and Compatibility

- a. Identify who will benefit from the project, how they will benefit, and how the project will benefit the overall community, region, or state.
- b. Identify any anticipated public support or opposition, as well as any anticipated government support or opposition, for the project.
- c. Explain the strategy and plans that will be carried out to involve and inform the general public, business community, and governmental agencies in areas affected by the project.
- d. Describe the anticipated significant benefits to the community, region or state, including anticipated benefits to the economic condition of the School Board and whether the project is critical to attracting or maintaining competitive industries and businesses to the School Board, Poquoson City, or the surrounding region.
- e. Describe compatibility with the local comprehensive plan, local infrastructure development plans, the capital improvements budget, or other government spending plan.
- f. Provide a statement setting forth participation efforts that are intended to be undertaken in connection with this project with regard to the following types of businesses: (i) minority-owned businesses, (ii) woman-owned businesses, and (iii) small businesses.

B. Format for Submissions at Detailed Stage

If the School Board decides to proceed to the detailed phase of review with one or more proposals, the following information should be provided by the private entity unless waived by the School Board:

1. A topographical map (1:2,000 or other appropriate scale) depicting the location of the proposed project;
2. A list of public utility facilities, if any, that will be crossed by the qualifying project and a statement of the plans of the proposer to accommodate such crossings;
3. A statement and strategy setting out the plans for securing all necessary property;
4. A detailed listing of all firms that will provide specific design, construction and completion guarantees and warranties, and a brief description of such guarantees and warranties;
5. A total life-cycle cost specifying methodology and assumptions of the project or projects and the proposed project start date. Include anticipated commitment of all parties; equity, debt, and other financing mechanisms; and a schedule of project revenues and project costs. The life-cycle cost analysis should include, but not be limited to, a detailed analysis of the projected return, rate of return, or both, expected useful life of facility, and estimated annual operating expenses;
6. A detailed discussion of assumptions about user fees or rates, and usage of the project or projects;
7. Identification of any known government support or opposition, or general public support or opposition for the project. Government or public support should be demonstrated through resolution of official bodies, minutes of meetings, letters, or other official communications;
8. Demonstration of consistency with appropriate local comprehensive or infrastructure development plans or indication of the steps required for acceptance into such plans;
9. Explanation of how the proposed project would impact local development plans of each affected jurisdiction;
10. Identification of the executive management and the officers and directors of the firm or firms submitting the proposal. In addition, identification of any known conflicts of interest or other disabilities that may impact the School Board 's consideration of the proposal, including the identification of any persons known to the proposer who would be obligated to disqualify themselves from participation in any transaction arising from or in connection to the project pursuant to the Virginia State and Local Government Conflict of Interest Act, Chapter 31 (§ 2.2-3100 et seq.) of Title 2.2;
11. Additional material and information as the School Board may reasonably request.

VI. Proposal Evaluation and Selection Criteria

There are several factors that the School Board may wish to consider when evaluating and selecting a proposal under the PPEA. The following are some of the factors that may be considered by the School Board in the evaluation and selection of PPEA proposals; however, the School Board reserves the right to reject any request or proposal at any time for any reason whatsoever.

A. Qualifications and Experience

Factors to be considered in either phase of the School Board's review to determine whether the proposer possesses the requisite qualifications and experience include:

1. Experience with similar projects;
2. Demonstration of ability to perform work;
3. Leadership structure;
4. Project manager's experience;
5. Management approach;
6. Financial condition; and
7. Project ownership.

B. Project Characteristics

Factors to be considered in determining the project characteristics include:

1. Project definition;
2. Proposed project schedule;
3. Operation of the project;
4. Technology; technical feasibility;
5. Conformity to laws, regulations, and standards;
6. Environmental impacts;
7. Condemnation impacts;
8. State and local permits; and
9. Maintenance of the project.

C. Project Financing

Factors to be considered in determining whether the proposed project financing allows adequate access to the necessary capital to finance the project include:

1. Cost and cost benefit to the School Board;
2. Financing and the impact on the debt burden of the School Board or locality;
3. Financial plan, including the degree to which the proposer has conducted due diligence investigation and analysis of the proposed financial plan and the results of any such inquiries or studies;
4. Opportunity costs assessment;
5. Estimated cost;
6. Life-cycle cost analysis;
7. The identity, credit history, past performance of any third party that will provide financing for the project and the nature and timing of its commitment, as applicable; and
8. Such other items as the School Board deems appropriate.

In the event that any project is financed through the issuance of obligations that are deemed to be tax-supported debt of the School Board or locality, or if financing such a project may impact the School Board or locality's debt rating or financial position, the School Board or locality may select its own finance team, source, and financing vehicle.

D. Project Benefit and Compatibility

Factors to be considered in determining the proposed project's compatibility with the appropriate local or regional comprehensive or development plans include:

1. Community benefits;
2. Community support or opposition, or both;
3. Public involvement strategy;
4. Compatibility with existing and planned facilities; and
5. Compatibility with local, regional, and state economic development efforts.

E. Other Factors

Other factors that may be considered by the School Board in the evaluation and selection of PPEA proposals include:

1. The proposed cost of the qualifying project;
2. The general reputation, industry experience, and financial capacity of the private entity;
3. The proposed design of the qualifying project;
4. The eligibility of the project for accelerated documentation, review, and selection;
5. Local citizen and government comments;
6. Benefits to the public, including financial and nonfinancial;
7. The private entity's compliance with a minority business enterprise participation plan or good faith effort to comply with the goals of such plan;
8. The private entity's plans to employ local contractors and residents;
9. The recommendation of a committee of representatives of members of the School Board and the appropriating body which may be established to provide advisory oversight for the project; and
10. Other criteria that the School Board deems appropriate.

VII. Additional Review Procedures.

A. Public Private Partnership Oversight Advisory Committee

The School Board may, at its discretion, invite the Board of Supervisors, or members thereof, to serve on a joint advisory committee to review the terms of a proposed interim or comprehensive agreement. Such review of terms should include, but not be limited to, the scope, total cost and duration of the proposed project, and whether the project involves or impacts multiple public entities. Timelines for such work committee should be developed and made available to proposers. There is no requirement for a joint review committee.

B. Appropriating Body

Prior to the execution of any proposed interim or comprehensive agreement, a draft shall be forwarded to the Board of Supervisors for review.

VIII. Interim and Comprehensive Agreements

Prior to developing or operating the qualifying project, the selected private entity shall enter into a comprehensive agreement with the School Board. Prior to entering a comprehensive agreement, an interim agreement may be entered into that permits a private entity to perform compensable activities related to the project. The School Board may designate a working group to be responsible for negotiating

any interim or comprehensive agreement. Any interim or comprehensive agreement shall define the rights and obligations of the School Board and the selected proposer with regard to the project.

A. Interim Agreement Terms

The scope of an interim agreement may include but is not limited to:

1. Project planning and development;
2. Design and engineering;
3. Environmental analysis and mitigation;
4. Survey;
5. Ascertaining the availability of financing for the proposed facility through financial and revenue analysis;
6. Establishing a process and timing of the negotiation of the comprehensive agreement; and
7. Any other provisions related to any aspect of the development or operation of a qualifying project that the parties may deem appropriate prior to the execution of a comprehensive agreement.

B. Comprehensive Agreement Terms

The scope of the comprehensive agreement shall include but not be limited to:

1. The delivery of maintenance, performance and payment bonds or letters of credit in connection with any acquisition, design, construction, improvement, renovation, expansion, equipping, maintenance, or operation of the qualifying project;
2. The review of plans and specifications for the qualifying project by the School Board;
3. The rights of the School Board to inspect the qualifying project to ensure compliance with the comprehensive agreement;
4. The maintenance of a policy or policies of liability insurance or self-insurance reasonably sufficient to insure coverage of the project and the tort liability to the public and employees and to enable the continued operation of the qualifying project;
5. The monitoring of the practices of the private entity by the School Board to ensure proper maintenance;
6. The terms under which the private entity will reimburse the School Board for services provided;

7. The policy and procedures that will govern the rights and responsibilities of the School Board and the private entity in the event that the comprehensive agreement is terminated or there is a material default by the private entity including the conditions governing assumption of the duties and responsibilities of the private entity by the School Board and the transfer or purchase of property or other interests of the private entity by the School Board;
8. The terms under which the private entity will file appropriate financial statements on a periodic basis;
9. The mechanism by which user fees, lease payments, or service payments, if any, may be established from time to time upon agreement of the parties. Any payments or fees shall be set at a level that is the same for persons using the facility under like conditions and that will not materially discourage use for the qualifying project;
 - a. A copy of any service contract shall be filed with the School Board.
 - b. A schedule of the current user fees or lease payments shall be made available by the private entity to any member of the public upon request.
 - c. Classifications according to reasonable categories for assessment of user fees may be made.
10. The terms and conditions under which the School Board may contribute financial resources, if any, for the qualifying project;
11. The terms and conditions under which existing site conditions will be assessed and addressed, including identification of the responsible party for conducting the assessment and taking necessary remedial action;
12. The terms and conditions under which the School Board will be required to pay money to the private entity and the amount of any such payments for the project;
13. Other requirements of the PPEA or other applicable law; and
14. Such other terms and conditions as the School Board may deem appropriate.
15. Any changes in the terms of the interim or comprehensive agreement as may be agreed upon by the parties from time to time shall be added to the interim or comprehensive agreement by written amendment.

The comprehensive agreement may provide for the development or operation of phases or segments of a qualifying project.

C. Notice and Posting requirements

1. In addition to the posting requirements of Section V, the School Board shall hold a public hearing on the proposals during the proposed review process, but not later than 30 days prior to entering into an interim or comprehensive agreement.
2. Once the negotiation phase for the development of an interim or a comprehensive agreement is complete and a decision to award has been made by the School Board, the School Board shall post the proposed agreement in the following manner: on the School Board 's website or by publication in a newspaper of general circulation in the area in which the contract work is to be performed, to include a summary of the proposals and the location where copies of the proposals are available for public inspection. Posting may also be on the Department of General Service's centralized electronic procurement website, in the discretion of the local RPE.

In addition to the posting requirements, at least one copy of the proposals shall be made available for public inspection. Trade secrets, financial records, or other records of the private entity excluded from disclosure under the provisions of subdivision 11 of § 2.2-3705.6 shall not be required to be posted, except as otherwise agreed to by the School Board and the private entity.

Any studies and analyses considered by the School Board in its review of a proposal shall be disclosed to the appropriating body at some point prior to the execution of an interim or comprehensive agreement.

3. Once an interim agreement or a comprehensive agreement has been entered into, the School Board shall make procurement records available for public inspection, upon request.
 - a. Such procurement records shall include documents protected from disclosure during the negotiation phase on the basis that the release of such documents would have adverse affect on the financial interest or bargaining position of the School Board or private entity in accordance with Section II.D.
 - b. Such procurement records shall not include (i) trade secrets of the private entity as defined in the Uniform Trade Secrets Act (§ 59.1-336 et seq.) or (ii) financial records, including balance sheets or financial statements of the private entity that are not generally available to the public through regulatory disclosure or otherwise.

To the extent access to procurement records are compelled or protected by a court order, then the School Board must comply with such order.

IX. Governing Provisions

In the event of any conflict between these guidelines and the PPEA, the terms of the PPEA shall control.

X. Terms and Definitions

"Affected jurisdiction" means any county, city, or town in which all or a portion of a qualifying project is located.

"Appropriating body" means the body responsible for appropriating or authorizing funding to pay for a qualifying project.

"Comprehensive agreement" means the comprehensive agreement between the private entity and the responsible public entity that is required prior to the development or operation of a qualifying project.

"Conceptual stage" means the initial phase of project evaluation when the public entity makes a determination whether the proposed project serves a public purpose, meets the criteria for a qualifying project, assesses the qualifications and experience of a private entity proposer, reviews the project for financial feasibility, and warrants further pursuit.

"Cost-benefit analysis" means an analysis that weighs expected costs against expected benefits in order to choose the best option. For example, a city manager may compare the costs and benefits of constructing a new office building to those of renovating and maintaining an existing structure in order to select the most financially advantageous option.

"Detailed stage" means the second phase of project evaluation where the public entity has completed the conceptual stage and accepted the proposal and may request additional information regarding a proposed project prior to entering into competitive negotiations with one or more private entities to develop an interim or comprehensive agreement.

"Develop" or "development" means to plan, design, develop, finance, lease, acquire, install, construct, or expand.

"Interim agreement" means an agreement between a private entity and a responsible public entity that provides for phasing of the development or operation, or both, of a qualifying project. Such phases may include, but are not limited to, design, planning, engineering, environmental analysis and mitigation, financial and revenue analysis, or any other phase of the project that constitutes activity on any part of the qualifying project.

"Lease payment" means any form of payment, including a land lease, by a public entity to the private entity for the use of a qualifying project.

"Lifecycle cost analysis" means an analysis that calculates cost of an asset over its entire life span and includes the cost of planning, constructing, operating, maintaining, replacing, and when applicable,

salvaging the asset. Although one proposal may have a lower initial construction cost, it may not have the lowest lifecycle cost once maintenance, replacement, and salvage value is considered.

"Material default" means any default by the private entity in the performance of its duties that jeopardizes adequate service to the public from a qualifying project.

"Operate" means to finance, maintain, improve, equip, modify, repair, or operate.

"Opportunity cost" means the cost of passing up another choice when making a decision or the increase in costs due to delays in making a decision.

"Private entity" means any natural person, corporation, general partnership, limited liability company, limited partnership, joint venture, business trust, public benefit corporation, nonprofit entity, or other business entity.

"Public entity" means the Commonwealth and any agency or authority thereof, any county, city or town and any other political subdivision of the Commonwealth, any public body politic and corporate, or any regional entity that serves a public purpose.

"Qualifying project" means (i) any education facility, including, but not limited to a school building, any functionally related and subordinate facility and land of a school building (including any stadium or other facility primarily used for school events), and any depreciable property provided for use in a school facility that is operated as part of the public school system or as an institution of higher education; (ii) any building or facility that meets a public purpose and is developed or operated by or for any public entity; (iii) any improvements, together with equipment, necessary to enhance public safety and security of buildings to be principally used by a public entity; (iv) utility and telecommunications and other communications infrastructure; (v) a recreational facility; (vi) technology infrastructure and services, including, but not limited to, telecommunications, automated data processing, word processing and management information systems, and related information, equipment, goods and services; (vii) any services designed to increase the productivity or efficiency of the responsible public entity through the use of technology or other means; or (viii) any technology, equipment, or infrastructure designed to deploy wireless broadband services to schools, businesses or residential areas; (ix) any improvements necessary or desirable to any unimproved locally- or state-owned real estate; or (x) any solid waste management facility as defined in Virginia Code Section 10.1-1400 that produces electric energy from solid waste.

"Responsible public entity" means a public entity that has the power to develop or operate the applicable qualifying project.

"Revenues" means all revenues, income, earnings, user fees, lease payments, or other service payments arising out of or in connection with supporting the development or operation of a qualifying project, including without limitation, money received as grants or otherwise from the United States of America, from any public entity, or from any agency or instrumentality of the foregoing in aid of such facility.

"Service contract" means a contract entered into between a public entity and the private entity pursuant to Virginia Code § 56-575.5.

"Service payments" means payments to the private entity of a qualifying project pursuant to a service contract.

"State" means the Commonwealth of Virginia.

"User fees" mean the rates, fees, or other charges imposed by the private entity of a qualifying project for use of all or a portion of such qualifying project pursuant to the comprehensive agreement pursuant to § Virginia Code §56-575.9.

Appendix I

The Virginia Public-Private Education Facilities and Infrastructure Act of 2002 (“Act”), as amended, is found at Code of Virginia Title 56, Chapter 22.1, Section 56-575.1 thru 56-575.18. Below is the Act as amended through 2010 and as portrayed on the Legislative Information Services Website:

<http://leg1.state.va.us/cgi-bin/legp504.exe?000+cod+TOC5600000002200000000000>.

This Appendix is meant to reserve a place for the most up-to-date and accurate version of the Act. If there is a discrepancy between the language below and the most current codification of the Act, the most current codification of the Act replaces any conflicting or insufficient language in this Appendix.

§ 56-575.1. Definitions.

As used in this chapter, unless the context requires a different meaning:

"Affected jurisdiction" means any county, city or town in which all or a portion of a qualifying project is located.

"Appropriating body" means the body responsible for appropriating or authorizing funding to pay for a qualifying project.

"Commission" means the State Corporation Commission.

"Comprehensive agreement" means the comprehensive agreement between the private entity and the responsible public entity required by § 56-575.9.

"Develop" or "development" means to plan, design, develop, finance, lease, acquire, install, construct, or expand.

"Interim agreement" means an agreement between a private entity and a responsible public entity that provides for phasing of the development or operation, or both, of a qualifying project. Such phases may include, but are not limited to, design, planning, engineering, environmental analysis and mitigation, financial and revenue analysis, or any other phase of the project that constitutes activity on any part of the qualifying project.

"Lease payment" means any form of payment, including a land lease, by a public entity to the private entity for the use of a qualifying project.

"Material default" means any default by the private entity in the performance of its duties under subsection E of § 56-575.8 that jeopardizes adequate service to the public from a qualifying project.

"Operate" means to finance, maintain, improve, equip, modify, repair, or operate.

"Private entity" means any natural person, corporation, general partnership, limited liability company, limited partnership, joint venture, business trust, public benefit corporation, non-profit entity, or other business entity.

"Public entity" means the Commonwealth and any agency or authority thereof, any county, city or town and any other political subdivision of the Commonwealth, any public body politic and corporate, or any regional entity that serves a public purpose.

"Qualifying project" means (i) any education facility, including, but not limited to a school building, any functionally related and subordinate facility and land to a school building (including any stadium or other facility primarily used for school events), and any depreciable property provided for use in a school facility that is operated as part of the public school system or as an institution of higher education; (ii) any building or facility that meets a public purpose and is developed or operated by or for any public entity; (iii) any improvements, together with equipment, necessary to enhance public safety and security of buildings to be principally used by a public entity; (iv) utility and telecommunications and other communications infrastructure; (v) a recreational facility; (vi) technology infrastructure, services, and applications, including, but not limited to, telecommunications, automated data processing, word processing and management information systems, and related information, equipment, goods and services; (vii) any services designed to increase the productivity or efficiency of the responsible public entity through the use of technology or other means, (viii) any technology, equipment, or infrastructure designed to deploy wireless broadband services to schools, businesses, or residential areas; (ix) any improvements necessary or desirable to any unimproved locally- or state-owned real estate; or (x) any solid waste management facility as defined in § 10.1-1400 that produces electric energy derived from solid waste.

"Responsible public entity" means a public entity that has the power to develop or operate the applicable qualifying project.

"Revenues" means all revenues, income, earnings, user fees, lease payments, or other service payments arising out of or in connection with supporting the development or operation of a qualifying project, including without limitation, money received as grants or otherwise from the United States of America, from any public entity, or from any agency or instrumentality of the foregoing in aid of such facility.

"Service contract" means a contract entered into between a public entity and the private entity pursuant to § 56-575.5.

"Service payments" means payments to the private entity of a qualifying project pursuant to a service contract.

"State" means the Commonwealth of Virginia.

"User fees" mean the rates, fees or other charges imposed by the private entity of a qualifying project for use of all or a portion of such qualifying project pursuant to the comprehensive agreement pursuant to § 56-575.9.

§ 56-575.2. Declaration of public purpose.

A. The General Assembly finds that:

1. There is a public need for timely acquisition, design, construction, improvement, renovation, expansion, equipping, maintenance, operation, implementation, or installation of education facilities, technology infrastructure and other public infrastructure and government facilities within the Commonwealth that serve a public need and purpose;

2. Such public need may not be wholly satisfied by existing methods of procurement in which qualifying projects are acquired, designed, constructed, improved, renovated, expanded, equipped, maintained, operated, implemented, or installed;

3. There are inadequate resources to develop new education facilities, technology infrastructure and other public infrastructure and government facilities for the benefit of citizens of the Commonwealth, and there is demonstrated evidence that public-private partnerships can meet these needs by improving the schedule for delivery, lowering the cost, and providing other benefits to the public;

4. Financial incentives exist under state and federal tax provisions that promote public entities to enter into partnerships with private entities to develop qualifying projects;

5. Authorizing private entities to develop or operate one or more qualifying projects may result in the availability of such projects to the public in a more timely or less costly fashion, thereby serving the public safety, benefit, and welfare.

B. An action under § 56-575.4 shall serve the public purpose of this chapter if such action facilitates the timely development or operation of qualifying projects.

C. It is the intent of this chapter, among other things, to encourage investment in the Commonwealth by private entities and facilitate the bond financing provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 or other similar financing mechanisms, private capital and other funding sources that support the development or operation of qualifying projects, to the end that financing for qualifying projects be expanded and accelerated to improve and add to the convenience of the public, and such that public and private entities may have the greatest possible flexibility in contracting with each other for the provision of the public services that are the subject of this chapter.

D. This chapter shall be liberally construed in conformity with the purposes hereof.

§ 56-575.3. Prerequisite for operation of a qualifying project.

A. Any private entity seeking authorization under this chapter to develop or operate a qualifying project shall first obtain approval of the responsible public entity under § 56-575.4. Such private entity may initiate the approval process by requesting approval pursuant to subsection A of § 56-575.4 or the responsible public entity may request proposals or invite bids pursuant to subsection B of § 56-575.4.

B. Any facility, building, infrastructure or improvement included in a proposal as a part of a qualifying project shall be identified specifically or conceptually.

C. Upon receipt by the responsible public entity of a proposal submitted by a private entity initiating the approval process pursuant to subsection A of § 56-575.4, the responsible public entity shall determine whether to accept such proposal for consideration in accordance with § 56-575.16. If the responsible public entity determines not to accept for consideration the proposal submitted by the private entity pursuant to subsection A of § 56-575.4, it shall return the proposal, together with all fees and accompanying documentation, to the private entity.

D. The responsible public entity may reject any proposal initiated by a private entity pursuant to subsection A of § 56-575.4 at any time. If the responsible public entity rejects a proposal initiated by a private entity that purports to develop specific cost savings, the public entity shall specify the basis for the rejection.

§ 56-575.3:1. Adoption of guidelines by responsible public entities.

A. A responsible public entity shall, prior to requesting or considering a proposal for a qualifying project, adopt and make publicly available guidelines that are sufficient to enable the responsible public entity to comply with this chapter. Such guidelines shall be reasonable, encourage competition, and guide the selection of projects under the purview of the responsible public entity.

B. For a responsible public entity that is an agency or institution of the Commonwealth, the guidelines shall include, but not be limited to:

1. Opportunities for competition through public notice and availability of representatives of the responsible public entity to meet with private entities considering a proposal;
2. Reasonable criteria for choosing among competing proposals;
3. Suggested timelines for selecting proposals and negotiating an interim or comprehensive agreement;
4. Authorization for accelerated selection and review and documentation timelines for proposals involving a qualifying project that the responsible public entity deems a priority;
5. Financial review and analysis procedures that shall include, at a minimum, a cost-benefit analysis, an assessment of opportunity cost, and consideration of the results of all studies and analyses related to the proposed qualifying project. These procedures shall also include requirements for the disclosure of such analysis to the appropriating body for review prior to execution of an interim or comprehensive agreement;
6. Consideration of the nonfinancial benefits of a proposed qualifying project;
7. A mechanism for the appropriating body to review a proposed interim or comprehensive agreement prior to execution, which shall be in compliance with applicable law and the provisions of subsection I of § 56-575.4 pertaining to the approval of qualifying projects;
8. Establishment of criteria for (i) the creation of and the responsibilities of a public-private partnership oversight committee with members representing the responsible public entity and the appropriating body or (ii) compliance with the requirements of Chapter 42 (§ 30-278 et seq.) of Title 30. Such criteria shall include the scope, costs, and duration of the qualifying project, as well as whether the project involves or impacts multiple public entities. The oversight committee, if formed, shall be an advisory committee to review the terms of any proposed interim or comprehensive agreement;
9. Analysis of the adequacy of the information released when seeking competing proposals and providing for the enhancement of that information, if deemed necessary, to encourage competition pursuant to subsection G of § 56-575.4;
10. Establishment of criteria, key decision points, and approvals required to ensure that the responsible public entity considers the extent of competition before selecting proposals and negotiating an interim or comprehensive agreement; and
11. The posting and publishing of public notice of a private entity's request for approval of a qualifying project, including (i) specific information and documentation to be released regarding the nature, timing,

and scope of the qualifying project pursuant to subsection A of § 56-575.4; (ii) a reasonable time period as determined by the responsible public entity to encourage competition and public-private partnerships in accordance with the goals of this chapter, such reasonable period not to be less than 45 days, during which time the responsible public entity shall receive competing proposals pursuant to subsection A of § 56-575.4; and (iii) a requirement for advertising the public notice in the Virginia Business Opportunities publication and posting a notice on the Commonwealth's electronic procurement website shall be included.

C. For a responsible public entity that is not an agency or institution of the Commonwealth the guidelines may include the provisions set forth in subsection B in the discretion of such public entity. However, the guidelines of a responsible public entity that is not an agency or institution of the Commonwealth shall include:

1. A requirement that it engage the services of qualified professionals, which may include an architect, professional engineer, or certified public accountant, not otherwise employed by the responsible public entity, to provide independent analysis regarding the specifics, advantages, disadvantages, and the long- and short-term costs of any request by a private entity for approval of a qualifying project unless the governing body of the responsible public entity determines that such analysis of a request by a private entity for approval of a qualifying project shall be performed by employees of the responsible public entity; and

2. A mechanism for the appropriating body to review a proposed interim or comprehensive agreement prior to execution.

§ 56-575.4. Approval of qualifying projects by the responsible public entity.

A. A private entity may request approval of a qualifying project by the responsible public entity. Any such request shall be accompanied by the following material and information unless waived by the responsible public entity:

1. A topographic map (1:2,000 or other appropriate scale) indicating the location of the qualifying project;

2. A description of the qualifying project, including the conceptual design of such facility or facilities or a conceptual plan for the provision of services or technology infrastructure, and a schedule for the initiation of and completion of the qualifying project to include the proposed major responsibilities and timeline for activities to be performed by both the public and private entity;

3. A statement setting forth the method by which the private entity proposes to secure necessary property interests required for the qualifying project;

4. Information relating to the current plans for development of facilities or technology infrastructure to be used by a public entity that are similar to the qualifying project being proposed by the private entity, if any, of each affected local jurisdiction;

5. A list of all permits and approvals required for the qualifying project from local, state, or federal agencies and a projected schedule for obtaining such permits and approvals;

6. A list of public utility facilities, if any, that will be crossed by the qualifying project and a statement of the plans of the private entity to accommodate such crossings;

7. A statement setting forth the private entity's general plans for financing the qualifying project including the sources of the private entity's funds and identification of any dedicated revenue source or proposed debt or equity investment on the behalf of the private entity;
8. The names and addresses of the persons who may be contacted for further information concerning the request;
9. User fees, lease payments, and other service payments over the term of the interim or comprehensive agreement pursuant to § 56-575.9 or 56-575.9:1 and the methodology and circumstances for changes to such user fees, lease payments, and other service payments over time; and
10. Such additional material and information as the responsible public entity may reasonably request.

B. The responsible public entity may request proposals or invite bids from private entities for the development or operation of qualifying projects.

C. The responsible public entity may grant approval of the development or operation of the education facility, technology infrastructure or other public infrastructure or government facility needed by a public entity as a qualifying project, or the design or equipping of a qualifying project so developed or operated, if the responsible public entity determines that the project serves the public purpose of this chapter. The responsible public entity may determine that the development or operation of the qualifying project as a qualifying project serves such public purpose if:

1. There is a public need for or benefit derived from the qualifying project of the type the private entity proposes as a qualifying project;
2. The estimated cost of the qualifying project is reasonable in relation to similar facilities; and
3. The private entity's plans will result in the timely development or operation of the qualifying project.

In evaluating any request, the responsible public entity may rely upon internal staff reports prepared by personnel familiar with the operation of similar facilities or the advice of outside advisors or consultants having relevant experience.

D. The responsible public entity may charge a reasonable fee to cover the costs of processing, reviewing and evaluating the request, including without limitation, reasonable attorney's fees and fees for financial, technical, and other necessary advisors or consultants.

E. The approval of the responsible public entity shall be subject to the private entity's entering into an interim or comprehensive agreement pursuant to § 56-575.9 with the responsible public entity.

F. In connection with its approval of the qualifying project, the responsible public entity shall establish a date for the commencement of activities related to the qualifying project. The responsible public entity may extend such date from time to time.

G. The responsible public entity shall take appropriate action to protect confidential and proprietary information provided by the private entity pursuant to an agreement under subdivision 11 of § 2.2-3705.6.

H. Nothing in this chapter or in an interim or comprehensive agreement entered into pursuant to this chapter shall be deemed to enlarge, diminish or affect the authority, if any, otherwise possessed by the responsible public entity to take action that would impact the debt capacity of the Commonwealth.

I. Prior to entering into the negotiation of an interim or comprehensive agreement, each responsible public entity that is an agency or institution of the Commonwealth shall submit copies of detailed proposals to the Public-Private Partnership Advisory Commission as provided by Chapter 42 (§ 30-278 et seq.) of Title 30.

J. Any proposed comprehensive agreement for a qualifying project where the responsible public entity is an agency or institution of the Commonwealth that (i) creates state tax-supported debt, (ii) requires a level of appropriation significantly beyond the appropriation received by the responsible public entity in the most recent appropriation act, or (iii) significantly alters the Commonwealth's discretion to change the level of services or the funding for such services over time, shall be reviewed by the appropriating body prior to execution.

§ 56-575.5. Service contracts.

In addition to any authority otherwise conferred by law, any public entity may contract with a private entity for the delivery of services to be provided as part of a qualifying project in exchange for such service payments and other consideration as such public entity may deem appropriate.

§ 56-575.6. Affected local jurisdictions.

A. Any private entity requesting approval from, or submitting a proposal to, a responsible public entity under § 56-575.4 shall notify each affected local jurisdiction by furnishing a copy of its request or proposal to each affected local jurisdiction.

B. Each affected local jurisdiction that is not a responsible public entity for the respective qualifying project shall, within sixty days after receiving such notice, submit any comments it may have in writing on the proposed qualifying project to the responsible public entity and indicate whether the facility is compatible with the local comprehensive plan, local infrastructure development plans, the capital improvements budget, or other government spending plan. Such comments shall be given consideration by the responsible public entity prior to entering a comprehensive agreement pursuant to § 56-575.9 with a private entity.

§ 56-575.7. Dedication of public property.

Any public entity may dedicate any property interest, including land, improvements, and tangible personal property, that it has for public use in a qualifying project if it finds that so doing will serve the public purpose of this chapter by minimizing the cost of a qualifying project to the public entity or reducing the delivery time of a qualifying project. In connection with such dedication, a public entity may convey any property interest that it has, subject to the conditions imposed by general law governing such conveyances, to the private entity subject to the provisions of this chapter, for such consideration as such public entity may determine. The aforementioned consideration may include, without limitation, the agreement of the private entity to develop or operate the qualifying project. The property interests that the public entity may convey to the private entity in connection with a dedication under this section may include licenses, franchises, easements, or any other right or interest the public entity deems appropriate.

§ 56-575.8. Powers and duties of the private entity.

A. The private entity shall have all power allowed by law generally to a private entity having the same form of organization as the private entity and shall have the power to develop or operate the qualifying project and collect lease payments, impose user fees or enter into service contracts in connection with the use thereof.

B. The private entity may own, lease or acquire any other right to use or operate the qualifying project.

C. Any financing of the qualifying project may be in such amounts and upon such terms and conditions as may be determined by the private entity. Without limiting the generality of the foregoing, the private entity may issue debt, equity or other securities or obligations, enter into sale and leaseback transactions and secure any financing with a pledge of, security interest in, or lien on, any or all of its property, including all of its property interests in the qualifying project.

D. In operating the qualifying project, the private entity may:

1. Make classifications according to reasonable categories for assessment of user fees; and
2. With the consent of the responsible public entity, make and enforce reasonable rules to the same extent that the responsible public entity may make and enforce rules with respect to similar facilities.

E. The private entity shall:

1. Develop or operate the qualifying project in a manner that is acceptable to the responsible public entity, all in accordance with the provisions of the interim or comprehensive agreement pursuant to § 56-575.9 or 56-575.9:1;
2. Keep the qualifying project open for use by the members of the public at all times, or as appropriate based upon the use of the facility, after its initial opening upon payment of the applicable user fees, lease payments, or service payments; provided that the qualifying project may be temporarily closed because of emergencies or, with the consent of the responsible public entity, to protect the safety of the public or for reasonable construction or maintenance activities. In the event that a qualifying project is technology infrastructure, access may be limited as determined by the conditions of the interim or comprehensive agreement;
3. Maintain, or provide by contract for the maintenance or upgrade of the qualifying project, if required by the interim or comprehensive agreement;
4. Cooperate with the responsible public entity in making best efforts to establish any interconnection with the qualifying project requested by the responsible public entity; and
5. Comply with the provisions of the interim or comprehensive agreement and any lease or service contract.

F. Nothing shall prohibit an private entity of a qualifying project from providing additional services for the qualifying project to public or private entities other than the responsible public entity so long as the provision of additional service does not impair the private entity's ability to meet its commitments to the responsible public entity pursuant to the interim or comprehensive agreement as provided for in § 56-575.9 or 56-575.9:1.

§ 56-575.9. Comprehensive agreement.

A. Prior to developing or operating the qualifying project, the private entity shall enter into a comprehensive agreement with the responsible public entity. The comprehensive agreement shall provide for:

1. Delivery of maintenance, performance and payment bonds, letters of credit in connection with the development or operation of the qualifying project, in the forms and amounts satisfactory to the responsible public entity and in compliance with § 2.2-4337 for those components of the qualifying project that involve construction;
2. Review of plans and specifications for the qualifying project by the responsible public entity and approval by the responsible public entity if the plans and specifications conform to standards acceptable to the responsible public entity. This shall not be construed as requiring the private entity to complete design of a qualifying project prior to the execution of a comprehensive agreement;
3. Inspection of the qualifying project by the responsible public entity to ensure that the private entity's activities are acceptable to the responsible public entity in accordance with the provisions of the comprehensive agreement;
4. Maintenance of a policy or policies of public liability insurance (copies of which shall be filed with the responsible public entity accompanied by proofs of coverage) or self-insurance, each in form and amount satisfactory to the responsible public entity and reasonably sufficient to insure coverage of tort liability to the public and employees and to enable the continued operation of the qualifying project;
5. Monitoring of the practices of the private entity by the responsible public entity to ensure that the qualifying project is properly maintained;
6. Reimbursement to be paid to the responsible public entity for services provided by the responsible public entity;
7. Filing of appropriate financial statements on a periodic basis; and
8. Policies and procedures governing the rights and responsibilities of the responsible public entity and the private entity in the event the comprehensive agreement is terminated or there is a material default by the private entity. Such policies and guidelines shall include conditions governing assumption of the duties and responsibilities of the private entity by the responsible public entity and the transfer or purchase of property or other interests of the private entity by the responsible public entity.

B. The comprehensive agreement shall provide for such user fees, lease payments, or service payments as may be established from time to time by agreement of the parties. A copy of any service contract shall be filed with the responsible public entity. In negotiating user fees under this section, the parties shall establish payments or fees that are the same for persons using the facility under like conditions and that will not materially discourage use of the qualifying project. The execution of the comprehensive agreement or any amendment thereto shall constitute conclusive evidence that the user fees, lease payments, or service payments provided for comply with this chapter. User fees or lease payments established in the comprehensive agreement as a source of revenues may be in addition to, or in lieu of, service payments.

C. In the comprehensive agreement, the responsible public entity may agree to make grants or loans to the private entity from time to time from amounts received from the federal, state, or local government or any agency or instrumentality thereof.

D. The comprehensive agreement shall incorporate the duties of the private entity under this chapter and may contain such other terms and conditions that the responsible public entity determines serve the public purpose of this chapter. Without limitation, the comprehensive agreement may contain provisions under which the responsible public entity agrees to provide notice of default and cure rights for the benefit of the private entity and the persons specified therein as providing financing for the qualifying project. The comprehensive agreement may contain such other lawful terms and conditions to which the private entity and the responsible public entity mutually agree, including, without limitation, provisions regarding unavoidable delays or provisions providing for a loan of public funds to the private entity to develop or operate one or more qualifying projects. The comprehensive agreement may also contain provisions where the authority and duties of the private entity under this chapter shall cease, and the qualifying project is dedicated to the responsible public entity or, if the qualifying project was initially dedicated by an affected local jurisdiction, to such affected local jurisdiction for public use.

E. Any changes in the terms of the comprehensive agreement, as may be agreed upon by the parties from time to time, shall be added to the comprehensive agreement by written amendment.

F. When a responsible public entity that is not an agency or authority of the Commonwealth enters into a comprehensive agreement pursuant to this chapter, it shall within 30 days thereafter submit a copy of the comprehensive agreement to the Auditor of Public Accounts.

G. The comprehensive agreement may provide for the development or operation of phases or segments of the qualifying project.

§ 56-575.9:1. Interim agreement.

Prior to or in connection with the negotiation of the comprehensive agreement, the responsible public entity may enter into an interim agreement with the private entity proposing the development or operation of the qualifying project. Such interim agreement may (i) permit the private entity to commence activities for which it may be compensated relating to the proposed qualifying project, including, but not limited to, project planning and development, design and engineering, environmental analysis and mitigation, survey, and ascertaining the availability of financing for the proposed facility or facilities; (ii) establish the process and timing of the negotiation of the comprehensive agreement; and (iii) contain any other provisions related to any aspect of the development or operation of a qualifying project that the parties may deem appropriate.

§ 56-575.10. Federal, state and local assistance.

A. Any financing of a qualifying facility may be in such amounts and upon such terms and conditions as may be determined by the parties to the interim or comprehensive agreement. Without limiting the generality of the terms and conditions of the financing, the private entity and the responsible public entity may propose to utilize any and all funding resources that may be available to them and may, to the fullest extent permitted by applicable law, issue debt, equity, or other securities or obligations, enter into leases, access any designated trust funds, borrow or accept grants from any state infrastructure bank, and secure any financing with a pledge of, security interest in, or lien on, any or all of its property, including all of its property interests in the qualifying facility.

B. The responsible public entity may take any action to obtain federal, state, or local assistance for a qualifying project that serves the public purpose of this chapter and may enter into any contracts required to receive such assistance. If the responsible public entity is a state agency, any funds received from the state or federal government or any agency or instrumentality thereof shall be subject to appropriation by the General Assembly. The responsible public entity may determine that it serves the public purpose of this chapter for all or any portion of the costs of a qualifying project to be paid, directly or indirectly, from the proceeds of a grant or loan made by the local, state, or federal government or any agency or instrumentality thereof.

§ 56-575.11. Material default; remedies.

A. In the event of a material default by the private entity, the responsible public entity may elect to assume the responsibilities and duties of the private entity of the qualifying project, and in such case, it shall succeed to all of the right, title and interest in such qualifying project, subject to any liens on revenues previously granted by the private entity to any person providing financing thereof.

B. Any responsible public entity having the power of condemnation under state law may exercise such power of condemnation to acquire the qualifying project in the event of a material default by the private entity. Any person who has provided financing for the qualifying project, and the private entity, to the extent of its capital investment, may participate in the condemnation proceedings with the standing of a property owner.

C. The responsible public entity may terminate, with cause, the interim or comprehensive agreement and exercise any other rights and remedies that may be available to it at law or in equity.

D. The responsible public entity may make or cause to be made any appropriate claims under the maintenance, performance, or payment bonds; or lines of credit required by subsection A 1 of § 56-575.9.

E. In the event the responsible public entity elects to take over a qualifying project pursuant to subsection A, the responsible public entity may develop or operate the qualifying project, impose user fees, impose and collect lease payments for the use thereof and comply with any service contracts as if it were the private entity. Any revenues that are subject to a lien shall be collected for the benefit of and paid to secured parties, as their interests may appear, to the extent necessary to satisfy the private entity's obligations to secured parties, including the maintenance of reserves. Such liens shall be correspondingly reduced and, when paid off, released. Before any payments to, or for the benefit of, secured parties, the responsible public entity may use revenues to pay current operation and maintenance costs of the qualifying project, including compensation to the responsible public entity for its services in operating and maintaining the qualifying project. The right to receive such payment, if any, shall be considered just compensation for the qualifying project. The full faith and credit of the responsible public entity shall not be pledged to secure any financing of the private entity by the election to take over the qualifying project. Assumption of operation of the qualifying project shall not obligate the responsible public entity to pay any obligation of the private entity from sources other than revenues.

§ 56-575.12. Condemnation.

At the request of the private entity, the responsible public entity may exercise any power of condemnation that it has under law for the purpose of acquiring any lands or estates or interests therein to the extent that the responsible public entity finds that such action serves the public purpose of this chapter. Any amounts to be paid in any such condemnation proceeding shall be paid by the private entity.

§ 56-575.13. Utility crossing.

The private entity and each public service company, public utility, railroad, and cable television provider, whose facilities are to be crossed or affected shall cooperate fully with the other entity in planning and arranging the manner of the crossing or relocation of the facilities. Any such entity possessing the power of condemnation is hereby expressly granted such powers in connection with the moving or relocation of facilities to be crossed by the qualifying project or that must be relocated to the extent that such moving or relocation is made necessary or desirable by construction of, renovation to, or improvements to the qualifying project, which shall be construed to include construction of, renovation to, or improvements to temporary facilities for the purpose of providing service during the period of construction or improvement. Any amount to be paid for such crossing, construction, moving or relocating of facilities shall be paid for by the private entity. Should the private entity and any such public service company, public utility, railroad, and cable television provider not be able to agree upon a plan for the crossing or relocation, the Commission may determine the manner in which the crossing or relocation is to be accomplished and any damages due arising out of the crossing or relocation. The Commission may employ expert engineers who shall examine the location and plans for such crossing or relocation, hear any objections and consider modifications, and make a recommendation to the Commission. In such a case, the cost of the experts is to be borne by the private entity. Such determination shall be made by the Commission within ninety days of notification by the private entity that the qualifying project will cross utilities subject to the Commission's jurisdiction.

§ 56-575.14. Police powers; violations of law.

All police officers of the Commonwealth and of each affected local jurisdiction shall have the same powers and jurisdiction within the limits of such qualifying project as they have in their respective areas of jurisdiction and such police officers shall have access to the qualifying project at any time for the purpose of exercising such powers and jurisdiction.

§ 56-575.15. Sovereign immunity.

Nothing in this chapter shall be construed as or deemed a waiver of the sovereign immunity of the Commonwealth, any responsible public entity or any affected local jurisdiction or any officer or employee thereof with respect to the participation in, or approval of all or any part of the qualifying project or its operation, including but not limited to interconnection of the qualifying project with any other infrastructure or project. Counties, cities and towns in which a qualifying project is located shall possess sovereign immunity with respect to its design, construction, and operation.

§ 56-575.16. Procurement.

The Virginia Public Procurement Act (§ 2.2-4300 et seq.) and any interpretations, regulations, or guidelines of the Division of Engineering and Buildings of the Department of General Services or the Virginia Information Technologies Agency, including the Capital Outlay Manual and those interpretations, regulations or guidelines developed pursuant to §§ 2.2-1131, 2.2-1132, 2.2-1133, 2.2-1149, and 2.2-1502, except those developed by the Division or the Virginia Information Technologies Agency in accordance with this chapter when the Commonwealth is the responsible public entity, shall not apply to this chapter. However, a responsible public entity may enter into a comprehensive agreement only in accordance with guidelines adopted by it as follows:

1. A responsible public entity may enter into a comprehensive agreement in accordance with guidelines adopted by it that are consistent with procurement through competitive sealed bidding as set forth in § 2.2-4302.1 and subsection B of § 2.2-4310.

2. A responsible public entity may enter into a comprehensive agreement in accordance with guidelines adopted by it that are consistent with the procurement of "other than professional services" through competitive negotiation as set forth in § 2.2-4302.2 and subsection B of § 2.2-4310. Such responsible public entity shall not be required to select the proposal with the lowest price offer, but may consider price as one factor in evaluating the proposals received. Other factors that may be considered include (i) the proposed cost of the qualifying facility; (ii) the general reputation, industry experience, and financial capacity of the private entity; (iii) the proposed design of the qualifying project; (iv) the eligibility of the facility for accelerated selection, review, and documentation timelines under the responsible public entity's guidelines; (v) local citizen and government comments; (vi) benefits to the public; (vii) the private entity's compliance with a minority business enterprise participation plan or good faith effort to comply with the goals of such plan; (viii) the private entity's plans to employ local contractors and residents; and (ix) other criteria that the responsible public entity deems appropriate.

A responsible public entity shall proceed in accordance with the guidelines adopted by it pursuant to subdivision 1 unless it determines that proceeding in accordance with the guidelines adopted by it pursuant to this subdivision is likely to be advantageous to the responsible public entity and the public, based on (i) the probable scope, complexity, or priority of the project; (ii) risk sharing including guaranteed cost or completion guarantees, added value or debt or equity investments proposed by the private entity; or (iii) an increase in funding, dedicated revenue source or other economic benefit that would not otherwise be available. When the responsible public entity determines to proceed according to the guidelines adopted by it pursuant to this subdivision, it shall state the reasons for its determination in writing. If a state agency is the responsible public entity, the approval of the responsible Governor's Secretary, or the Governor, shall be required before the responsible public entity may enter into a comprehensive agreement pursuant to this subdivision.

3. Nothing in this chapter shall authorize or require that a responsible public entity obtain professional services through any process except in accordance with guidelines adopted by it that are consistent with the procurement of "professional services" through competitive negotiation as set forth in § 2.2-4302.2 and subsection B of § 2.2-4310.

4. A responsible public entity shall not proceed to consider any request by a private entity for approval of a qualifying project until the responsible public entity has adopted and made publicly available guidelines pursuant to § 56-575.3:1 that are sufficient to enable the responsible public entity to comply with this chapter.

5. A responsible public entity that is a school board or a county, city, or town may enter into an interim or comprehensive agreement under this chapter only with the approval of the local governing body.

§ 56-575.17. Posting of conceptual proposals; public comment; public access to procurement records.

A. Conceptual proposals submitted in accordance with subsection A or B of § 56-575.4 to a responsible public entity shall be posted by the responsible public entity within 10 working days after acceptance of such proposals as follows:

1. For responsible public entities that are state agencies, authorities, departments, institutions, and other units of state government, posting shall be on the Department of General Services' centralized electronic procurement website; and

2. For responsible public entities that are local bodies, posting shall be on the responsible public entity's website or on the Department of General Services' central electronic procurement website. In addition, such public bodies may publish in a newspaper of general circulation in the area in which the contract is to be performed a summary of the proposals and the location where copies of the proposals are available for public inspection. Such local public bodies are encouraged to utilize the Department of General Services' central electronic procurement website to provide the public with centralized visibility and access to the Commonwealth's procurement opportunities.

In addition to the posting requirements, at least one copy of the proposals shall be made available for public inspection. Nothing in this section shall be construed to prohibit the posting of the conceptual proposals by additional means deemed appropriate by the responsible public entity so as to provide maximum notice to the public of the opportunity to inspect the proposals. Trade secrets, financial records, or other records of the private entity excluded from disclosure under the provisions of subdivision 11 of § 2.2-3705.6 shall not be required to be posted, except as otherwise agreed to by the responsible public entity and the private entity.

B. The responsible public entity shall hold a public hearing on the proposals during the proposal review process, but not later than 30 days prior to entering into an interim or comprehensive agreement.

C. Once the negotiation phase for the development of an interim or a comprehensive agreement is complete, but before an interim agreement or a comprehensive agreement is entered into, a responsible public entity shall make available the proposed agreement in a manner provided in subsection A.

D. Once an interim agreement or a comprehensive agreement has been entered into, a responsible public entity shall make procurement records available for public inspection, upon request. For the purposes of this subsection, procurement records shall not be interpreted to include (i) trade secrets of the private entity as defined in the Uniform Trade Secrets Act (§ 59.1-336 et seq.) or (ii) financial records, including balance sheets or financial statements of the private entity that are not generally available to the public through regulatory disclosure or otherwise.

E. Cost estimates relating to a proposed procurement transaction prepared by or for a responsible public entity shall not be open to public inspection.

F. Any inspection of procurement transaction records under this section shall be subject to reasonable restrictions to ensure the security and integrity of the records.

G. The provisions of this section shall apply to accepted proposals regardless of whether the process of bargaining will result in an interim or a comprehensive agreement.

§ 56-575.17:1. Contributions and gifts; prohibition during approval process.

A. No private entity that has submitted a bid or proposal to a public entity that is an executive branch agency directly responsible to the Governor and is seeking to develop or operate a qualifying project pursuant to this chapter, and no individual who is an officer or director of such a private entity, shall knowingly provide a contribution, gift, or other item with a value greater than \$50 or make an express or implied promise to make such a contribution or gift to the Governor, his political action committee, or the Governor's Secretaries, if the Secretary is responsible to the Governor for an executive branch agency with jurisdiction over the matters at issue, following the submission of a proposal under this chapter until the execution of a comprehensive agreement thereunder. The provisions of this section shall

apply only for any proposal or an interim or comprehensive agreement where the stated or expected value of the contract is \$5 million or more.

B. Any person who knowingly violates this section shall be subject to a civil penalty of \$500 or up to two times the amount of the contribution or gift, whichever is greater. The attorney for the Commonwealth shall initiate civil proceedings to enforce the civil penalties. Any civil penalties collected shall be payable to the State Treasurer for deposit to the general fund.

§ 56-575.18. Auditor of Public Accounts.

The Auditor of Public Accounts shall periodically review interim and comprehensive agreements entered into pursuant to this chapter to ensure compliance with the provisions of this chapter. Copies of the agreements and supporting documents must be electronically filed with the Auditor of Public Accounts. Electronic agreements shall be made available in the online database maintained pursuant to § 30-133.
