To the Board of Education Minooka Community Consolidated School District 201 Minooka, Illinois

Independent Auditor's Report

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of Minooka Community Consolidated School District 201, Minooka, Illinois, (the District), as of and for the year ended June 30, 2021, and the related notes to the financial statements which collectively comprise the District's basic financial statements as listed in the table of contents.

Qualified Opinion on Regulatory Basis of Accounting

In our opinion, except for the effects, if any, of the matters described in the "Basis for Qualified Opinion on Regulatory Basis of Accounting" paragraph, the accompanying financial statements present fairly, in all material respects, the assets and liabilities arising from cash transactions of the District as of June 30, 2021, and its revenue received and expenditures disbursed during the fiscal year then ended, on the basis of the financial reporting provisions of Illinois State Board of Education as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" section of our report, the financial statements referred to in the first paragraph do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the District as of June 30, 2021, or the changes in its financial position for the year then ended.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Qualified Opinion on Regulatory Basis of Accounting

The District's accounting records reflect only the aggregate cost of its general fixed assets; it was not practicable for us to satisfy ourselves as to the detail of the related aggregate amounts at June 30, 2021. Consequently, the scope of our work was not sufficient to enable us to express an opinion on the accompanying financial statements of the General Fixed Assets Account Group. The District has omitted disclosures required by Governmental Accounting Standards Board Statement 75 Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The amount by which this disclosure would affect the basic financial statements is not reasonably determinable.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by the District on the basis of accounting practices prescribed or permitted by the Illinois State Board of Education to demonstrate compliance with the requirements of the Illinois State Board of Education's regulatory basis of accounting and budget laws, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the basic financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting practices prescribed or permitted by the Illinois State Board of Education to demonstrate compliance with the Illinois State Board of Education's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

• Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Change in Accounting Principle

As discussed in Note 1 to the financial statements, the District adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities, in 2021. Our opinion is not modified with respect to this matter.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The Other Information, Other Supplementary Information, and Other Supplemental Schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Other Supplementary Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Other Supplementary Information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Management is responsible for the Other Information and Other Supplemental Schedules. The Other Information and Other Supplemental Schedules have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Notes to Financial Statements June 30, 2021

1. Summary of Significant Accounting Policies

The District's accounting policies conform to the modified cash basis of accounting as defined by 23 Illinois Administrative Code 100. The following is a summary of the more significant accounting policies of the District.

Principles Used to Determine Scope of the Reporting Entity

As defined by accounting principles generally accepted in the United States of America established by the Governmental Accounting Standards Board, the financial reporting entity consists of all funds and functions of the primary government, the District as well as its component units, which are legally separate organizations for which the elected officials of the primary government are financially accountable. Financial accountability is defined as:

- Appointment of a voting majority of the component unit's board, and either (a) the ability to impose will by the primary government, or (b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government; or
- 2) Fiscal dependency on the primary government.

The District does not currently have any external component units that meet the above requirements for inclusion in this report. Also, the District is not included as a component unit in any other governmental reporting entity, as defined by Governmental Accounting Standards Board pronouncements.

Basis of Presentation - Fund Accounting

The accounts of the District are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets and liabilities, fund balance, cash receipts and cash disbursements. The District maintains individual funds required by the State of Illinois. The various funds are summarized by type in the financial statements. These funds are grouped as required for reports filed with the Illinois State Board of Education. District resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The following fund types and account groups are used by the District.

Governmental Fund Types

Governmental funds are those through which most governmental functions of the District are financed. The acquisition, use and balances of the District's expendable financial resources and the related liabilities are accounted for through Governmental Funds.

The General Fund, which consists of the Educational Fund, the Operations and Maintenance Fund, the Working Cash Fund, and the Tort Fund, is the general operating fund of the District. It is used to account for and report all financial resources not accounted for and reported in another fund. Special Education is included in the Educational Fund.

Notes to Financial Statements June 30, 2021

1. Summary of Significant Accounting Policies

The Working Cash Fund accounts for financial resources held by the District to be used for temporary interfund loans to other funds. Money loaned by the Working Cash Fund to other funds must be repaid upon the collection of property taxes. As allowed by the School Code of Illinois, the Board of Education may permanently abolish this fund and transfer its balances to the Educational Fund.

Special Revenue Funds, which include the Transportation Fund and the Municipal Retirement / Social Security Fund, are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

The Debt Service Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditure for principal and interest.

The Capital Projects Funds, which include the Capital Projects Fund and the Fire Prevention and Safety Fund, are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Fiduciary Fund Types

Fiduciary Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments, or other funds.

The Agency Funds (Activity Funds) include Student Activity Funds. They account for assets held by the District as an agent for the students. These funds are custodial in nature and do not involve the measurement of the results of operations. The amounts due to the activity fund organizations are equal to the assets.

Government Funds - Measurement Focus

The financial statements of all funds focus on the measurement of spending or "financial flow" and the determination of changes in financial position rather than upon net income determination. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources." Governmental fund operating statements present increases (cash receipts and other financing sources) and decreases (cash disbursements and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

General Fixed Assets and General Long-Term Debt Account Groups

The accounting and reporting treatment applied to the fixed assets and long-term liabilities associated with a fund is determined by its measurement focus. Fixed assets used in governmental fund type operations are accounted for in the General Fixed Assets Account Group, rather than in governmental funds. Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group, not in the governmental funds.

Notes to Financial Statements June 30, 2021

1. Summary of Significant Accounting Policies

The two account groups are not "funds." They are concerned only with the measurement of financial position. They are not involved with the measurement of results of operations.

Basis of Accounting

Basis of accounting refers to when revenues received and expenditures disbursed are recognized in the accounts and how they are reported on the financial statements. The District maintains its accounting records for all funds and account groups on the modified cash basis of accounting under guidelines prescribed by the Illinois State Board of Education. Accordingly, revenues are recognized and recorded in the accounts when cash is received. In the same manner expenditures are recognized and recorded upon the disbursement of cash. Assets of a fund are only recorded when a right to receive cash exists which arises from a previous cash transaction. Liabilities of a fund result from previous cash transactions.

Modified cash basis financial statements omit recognition of receivables and payables and other accrued and deferred items that do not arise from previous cash transactions.

Proceeds from sales of bonds are included as other financing sources in the appropriate fund on the date received. Related bond principal payable in the future is recorded at the same time in the General Long-Term Debt Account Group.

Budgets and Budgetary Accounting

The budget for all Governmental Funds was prepared on the modified cash basis of accounting, which is the same basis that is used in financial reporting. This allows for comparability between budget and actual amounts. This is an acceptable method in accordance with 105 ILCS 5/17-1 of the Illinois Compiled Statutes. The budget for the year ended June 30, 2021 was passed on September 21, 2020.

For each fund, total fund expenditures disbursed may not legally exceed the budgeted amounts. The budget lapses at the end of each fiscal year.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- 1. Prior to July 1, the Superintendent submits to the Board of Education a proposed operating budget for the fiscal year commencing on that date. The operating budget includes proposed disbursements and the means of financing them.
- 2. A public hearing is conducted to obtain taxpayer comments.
- 3. Prior to October 1, the budget is legally adopted by the Board of Education through passage of a resolution.
- 4. Formal budgetary integration is employed as a management control device during the year.

Notes to Financial Statements June 30, 2021

1. Summary of Significant Accounting Policies

- 5. The Board of Education may make transfers between the various items in any fund not exceeding in the aggregate 10% of the total of such funds as set forth in the budget.
- 6. The Board of Education may amend the budget (in other ways) by the same procedures required of its original adoption.

Investments

Investments are stated at cost. Gains or losses on the sale of investments are recognized upon realization. The District has adopted a formal written investment and cash management policy. The institutions in which investments are made must be approved by the Board of Education.

Capital Assets

Capital assets have been acquired for general governmental purposes. At the time of payment, assets are recorded as disbursements in the Governmental Funds and capitalized at cost in the General Fixed Assets Account Group. Depreciation accounting is not considered applicable (except to determine the per capita tuition charge).

Interfund Transactions

Quasi-external transactions between funds are accounted for as revenues or expenditures. Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. All other interfund transactions are reported as transfers. Temporary interfund loans that exist at year end are reported as "loans to / from other funds"

Restricted Resources Policy

When expenditures are incurred for purposes for which both restricted and unrestricted resources are available, it is the District's policy to apply restricted resources first, then unrestricted resources as needed.

Fund Balances

Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, (GASB 54) requires fund balances of governmental funds to be reported using the following five separate classifications as applicable: nonspendable, restricted, committed, assigned, and unassigned. The District, however, has prepared these financial statements using the regulatory accounting practices prescribed by the Illinois State Board of Education (ISBE), which practices differ from accounting principles generally accepted in the United States of America. The regulatory accounting practices prescribed by the ISBE require the District to report only "reserved" and "unreserved" fund balances. Therefore, the District has not incorporated the reporting requirements of the new GASB 54 fund balance classifications. The District has implemented other requirements of GASB 54 as applicable.

1. Summary of Significant Accounting Policies

Total Memorandum Only

The "Total Memorandum Only" column represents the aggregation (by addition) of the line item amounts reported for each fund type and account group. No consolidations or other eliminations were made in arriving at the total; thus, they do not present consolidated information. These totals are presented only to facilitate financial analysis and are not intended to reflect the financial position or results of operations of the District as a whole.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

New Accounting Pronouncement

The District adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*, during the year ending June 30, 2021. The adoption of this GASB statement required the District to increase the beginning of the year fund balance of the Education Fund by \$151,112 to account for the adjustment to record the cash balance of the District's Agency Fund as of July 1, 2020 in its financial statements.

2. Property Taxes

The District must file its tax levy ordinance by the last Tuesday in December of each year. The District's 2020 levy ordinance was approved during the December 21, 2020 board meeting. The District's property tax is levied each year on all taxable real property located in the District and it becomes a lien on the property on January 1 of that year. The owner of real property on January 1 in any year is liable for taxes of that year.

The District has statutory tax rate limit in various operating funds subject to change only by approval of the voters of the District. Certain bond issue levies and referendum increases are exempt from this limitation.

Property taxes are collected by the Grundy, Will and Kendall County Collectors/Treasurers, who remit to the District its share of collections. Taxes levied in one year become due and payable in two installments: The first due generally on June 1, and the second due generally on September 1. Property taxes are normally collected by the District within 60 days of the respective installment date.

The following are the tax rate limits permitted by the School Code and by local referendum and the actual rates levied per \$100 of assessed valuation:

3. Special Tax Levies

Tort Immunity Levy

Cash receipts and related cash disbursements of this restricted tax levy are accounted for in the Tort Fund. The current fiscal year cash receipts of property taxes were \$1,925,611. All amounts were budgeted to be expended in accordance with 105 ILCS 5/17-2.5 of the Illinois Compiled Statutes. These funds are restricted to use for tort immunity purposes.

Special Education Levy

Cash receipts and related cash disbursements of this restricted tax levy are accounted for in the Educational Fund. The current fiscal year cash receipts of \$197,751 were expended in accordance with 105 ILCS 5/17-2.2a of the Illinois Compiled Statutes.

Fire Prevention and Safety Levy

Cash receipts and related cash disbursements of this restricted tax levy are accounted for in the Fire Prevention and Safety Fund. The current fiscal year property tax cash receipts were \$494,155. Remaining amounts as of June 30, 2021 are budgeted to be expended in accordance with 105 ILCS 5/17-2.11 of the Illinois Compiled Statutes. These funds are restricted to use for fire prevention and safety purposes.

Notes to Financial Statements June 30, 2021

4. Cash and Investments

Common Bank Account

Separate bank accounts are not maintained for all District funds; instead, the individual funds maintain their cash balances in the common checking account, with accounting records being maintained to show the portion of the common account balance attributable to each participating fund.

Occasionally certain funds participating in the common bank accounts will incur overdrafts (deficits) in the account. The overdrafts result from expenditures that have been approved by the Board of Education.

Deposits

Cash deposits consisted of checking accounts which were carried at cost. At June 30, 2021, the carrying amount of the District's deposits was \$25,569,109 (exclusive of \$1,000 held in petty cash funds) and the bank balance was \$25,856,830.

Custodial Credit Risk – this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy requires that all deposits be fully insured or collateralized. As of year-end, all of the District's bank balance was fully insured or collateralized.

Certificates of Deposit

Certificates of Deposit amounted to \$1,202,696 at June 30, 2021. In accordance with District policy, certificates of deposit were collateralized with securities of the U.S. Government. All investments collateral is held in safekeeping in the District's name by financial institutions acting as the District's agent.

Investments

Credit Risk - The District is allowed to invest in securities as authorized by Sections 2 and 6 of the Public Funds Investment Act (30 ILCS 235); and 105 ILCS 5/8-7 of the School Code. The District's investment policy does not further limit its investment choices. As of June 30, 2021, the District's investment in the Illinois School District Liquid Asset Fund Plus was \$7,174,655. The Fund was rated AAAm by Standard & Poor's.

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The investment policies for the District as it pertains to custodial credit risk for investments were outlined above. The investments held in external investment pools are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form.

Concentration of Credit Risk - The District limits the amount it may invest in the Illinois School District Liquid Asset Fund Plus and carry in the debt service reserve fund up to 33% of the District's investment portfolio. Up to 90% of the District's investment portfolio may be in interest-bearing accounts with a bank, short-term discount obligations of the Federal National Mortgage Association and repurchase agreements of government securities. At year end, the District did not violate these restrictions.

Notes to Financial Statements June 30, 2021

4. Cash and Investments

The Illinois School District Liquid Asset Fund Plus is an external investment pool created by a Trust under the Illinois School Code. The fund invests in U.S. Treasury bills and notes, in fully collateralized time deposits in Illinois financial institutions, in collateralized repurchase agreements, and in treasury mutual funds that invest in U.S. Treasury obligations and collateralized repurchase agreements. The fair value of the position in the Illinois School District Liquid Asset Fund Plus is the same as the value of the pool shares. The Illinois State Treasurer's Investment Advisory Board has oversight responsibility over the Illinois School District Liquid Asset Fund Plus.

Interest Rate Risk - The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Reconciliation of Notes to Financial Statements

A reconciliation of the District's cash and investment balances as reported on the Statement of Assets and Other Debits, Liabilities, and Fund Equity and Other Credits Arising from Cash Transactions All Funds and Account Groups and the bank deposits and investments presented in this note is as follows:

6. Employee Retirement Systems and Plans

Teachers' Retirement System of the State of Illinois

Plan Description

The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a costsharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at https://www.trsil.org/financial/cafrs/fy2020; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling 888-678-3675, option 2.

Benefits Provided

TRS provides retirement, disability, and death benefits. Tier 1 members have TRS or reciprocal system service prior to January 1, 2011. Tier 1 members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest consecutive years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service.

Tier 2 members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the highest four. Disability provisions for Tier 2 are identical to those of Tier 1. Death benefits are payable under a formula that is different than Tier 1.

Essentially all Tier 1 retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier 2 annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier 3 hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2024. One program allows retiring Tier 1 members to receive a partial lumpsum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the state of Illinois.

Notes to Financial Statements June 30, 2021

6. Employee Retirement Systems and Plans

Contributions

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2020, was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On Behalf Contributions to TRS

The state of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2021, state of Illinois contributions recognized by the District were based on the state's proportionate share of the pension expense associated with the District, and the District recognized revenue and expenditures of \$18,427,881 in pension contributions from the state of Illinois.

2.2 Formula Contributions

Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2021, were \$129,307 and are deferred because they were paid after the June 30, 2020 measurement date.

Federal and Special Trust Fund Contributions

When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the employer to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher. For the year ended June 30, 2021, the employer pension contribution was 10.41 percent of salaries paid from federal and special trust funds.

For the year ended June 30, 2021, salaries totaling \$260,585 were paid from federal and special trust funds that required District contributions of \$27,127. These contributions are deferred because they were paid after the June 30, 2020 measurement date.

Notes to Financial Statements June 30, 2021

6. Employee Retirement Systems and Plans

Employer Retirement Cost Contributions

Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary.

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2021, the District was not required to make any payments to TRS for employer contributions due on salary increases in excess of 6 percent or for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the District follows below:

| District's Proportionate Share of the Net Pension Liability | \$ 2,209,132 |
|---|----------------|
| State's Proportionate Share of the Net Pension Liability | |
| Associated with the District | 173,030,689 |
| Total | \$ 175,239,821 |

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019 and rolled forward to June 30, 2020. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2020, relative to the contributions of all participating TRS employers and the state during that period. At June 30, 2020, the District's proportion was .002562 percent, which was a decrease of .000019 from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the District recognized pension expense of \$18,427,881 and revenue of \$18,427,881 for support provided by the state. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows in these reporting years:

Actuarial Assumptions

The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Notes to Financial Statements June 30, 2021

6. Employee Retirement Systems and Plans

| Inflation | 2.50 Percent |
|---------------------------|---|
| Salary Increases | Varies by Amount of Service Credit |
| Investment Rate of Return | 7.00 Percent, Net of Pension Plan Investment Expense, Including Inflation |

In the June 30, 2020 actuarial valuation, mortality rates were based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates are based on a fully-generational basis using projection table MP-2017. In the June 30, 2019 actuarial valuation, mortality rates were also based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully-generational basis using projection table MP-2014.

The long-term (20-year) expected rate of return on pension plan investments was determined using a building- block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|----------------------------------|----------------------|---|

Discount Rate

At June 30, 2020, the discount rate used to measure the total pension liability was 7.0 percent, which was the same as the June 30, 2019 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions and state contributions will be made at the current statutorily-required rates.

Notes to Financial Statements June 30, 2021

6. Employee Retirement Systems and Plans

Based on those assumptions, TRS's fiduciary net position at June 30, 2020 was projected to be available to make all projected future benefit payments to current active and inactive members and all benefit recipients. Tier 1's liability is partially funded by Tier 2 members, as the Tier 2 member contribution is higher than the cost of Tier 2 benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage- point higher (8.00 percent) than the current rate.

Illinois Municipal Retirement Fund

Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position and required supplementary information. The report is available for download at www.imrf.org.

6. Employee Retirement Systems and Plans

Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date). The District participates in the Regular Plan.

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

At December 31, 2020, the following employees were covered by the benefit terms:

| Inactive Plan Members and Beneficiaries Currently Receiving Benefits | 94 |
|--|-----|
| Inactive Plan Members Entitled to but Not Yet Receiving Benefits | 282 |
| Active Plan Members | 258 |
| Total | 634 |

Contributions

As set by statute, the District's regular plan members are required to contribute 4.5 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute. The District's annual contribution rate for calendar year 2020 was 8.48 percent. For the fiscal year ended June 30, 2021, the District contributed \$519,044 to the plan.

6. Employee Retirement Systems and Plans

Net Pension Liability

The District's net pension liability was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2020:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.25%.
- Salary Increases were expected to be 2.85% to 13.75%, including inflation.
- The Investment Rate of Return was assumed to be 7.25%.
- Projected Retirement Age was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2020 valuation according to an experience study from years 2017 to 2019.
- An IMRF specific mortality table was used. For non-disabled retirees, the Pub-2010, Amount Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, belowmedian income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| | | Long-Term |
|-------------------------|------------|------------|
| | | Expected |
| | Target | Real Rate |
| Asset Class | Percentage | of Return |
| Domestic Equity | 37.00% | 5.00% |
| International Equity | 18.00% | 6.00% |
| Fixed Income | 28.00% | 1.30% |
| Real Estate | 9.00% | 6.20% |
| Alternative Investments | 7.00% | 2.85-6.95% |
| Cash Equivalents | 1.00% | 0.70% |
| Total | 100.00% | |

Notes to Financial Statements June 30, 2021

6. Employee Retirement Systems and Plans

Discount Rate

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 2.00%, and the resulting single discount rate was 7.25%.

7. Postemployment Benefits Other than Pensions

Healthcare Benefits

The District is legally required to offer postemployment healthcare benefits to former employees and retirees. Former employees, who are not retirees, are provided healthcare benefits mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). Former employees, who are qualified under COBRA, may apply for coverage by the District's health plan. The cost is 100% funded on a monthly pay-as-you-go basis by the former employee based upon the actual cost of the health plan for the chosen level of coverage.

Illinois statutes mandate that a municipal government must offer its retirees a health insurance plan equivalent to that offered to active employees. Illinois statutes enable a government to make the health plan benefits supplemental to Medicare and to offer these supplemental benefits at a different retiree contribution rate than regular benefits provided by the group plan. State statutes do not presently require the government to pay any portion of the cost of the plan for retired employees. Retired employees covered under the District's plan are required to pay 100% of the cost of their insurance based on the rates paid by the District. Retired employees must be covered under the District's health insurance plan at the time of retirement to receive this benefit and must continue coverage with the District's plan to maintain this benefit.

Other Postemployment Benefits

The District's teacher's contract requires the District to pay additional postemployment benefits to retirees. The benefit comes in the form of three annual payments of 5 percent, 10 percent, 15 percent or 20 percent of the teacher's final creditable earning amount, based upon the number of years of service to the school in five-year increments (15 years to 30 years of service).

Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions (GASB 75) became applicable for the District's year ended June 30, 2018. That Statement requires the District to disclose the obligation for other postemployment benefits (OPEB) and actuarial accrued liabilities associated with OPEB and whether and to what extent progress is being made in funding the plan. The District did not implement the provisions of GASB 75 and therefore the amount by which this disclosure would affect the financial statements is not reasonably determinable.

Teacher Health Insurance Security Fund

Plan Description

The District participates in the Teacher Health Insurance Security (THIS) Fund of the state of Illinois (also known as the Teachers Retirement Insurance Program "TRIP"), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. Detailed information about the OPEB plan's fiduciary net position is available in the separately issued publicly available financial report that can be obtained at https://www.auditor.illinois.gov/Audit-Reports/Compliance-Agency-List/CMS/THISF/FY20-CMS-THISF-Fin-Full.pdf.

Notes to Financial Statements June 30, 2021

7. Postemployment Benefits Other than Pensions

Benefits Provided

The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental, or life insurance benefits to annuitants of the TRS. Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. The plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to the THIS Fund.

Contributions

Active members were required to contribute 1.24 percent of pay during the year ended June 30, 2021 to the THIS Fund. The District also makes contributions to the THIS Fund. The employer THIS Fund contribution was 0.92 percent during the year ended June 30, 2021. For the year ended June 30, 2021, the District paid \$205,108 to the THIS Fund, which was 100 percent of the required contribution.

The percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

On Behalf Contributions to the THIS Fund

The state of Illinois makes employer retiree health insurance contributions on behalf of the District. The District recognized \$859,432 of revenue and expenditures during the year.

The District uses the Debt Service Fund to retire long-term debt.

At June 30, 2021, the following bonds were outstanding:

2010 Series Bonds

The 2010B Series bonds are general obligation capital appreciation refunding bonds issued in the amount of \$5,984,860 on March 10, 2010. These bonds are payable in annual installments beginning October 15, 2022. The interest rate of these bonds is 7.50 percent. These bond series, along with the 2010A Series Bonds were issued to advance refund \$7,935,000 of the 2002 Series Bonds, \$3,360,000 of the 2004 Series Bonds, \$130,000 of the 2007B Series Bonds and \$37,005,000 of the 2008 Series Bonds.

8. General Long-Term Debt

2012 Series Bonds

The 2012 Series bonds are general obligation refunding bonds issued in the amount of \$6,165,000 on July 19, 2012. These bonds were issued to advance refund \$1,680,000 of the 2002 Series Bonds and \$4,740,000 of the 2004 Series Bonds. These bonds are payable in annual installments beginning October 15, 2012. Interest rates range from 4.00 percent to 5.00 percent.

2013 Series Bonds

The 2013 Series bonds are general obligation refunding bonds issued in the amount of \$9,990,000 on July 29, 2013. These bonds were issued to advance refund \$8,240,000 of the 2008 Series Bonds. These bonds are payable in annual installments beginning October 15, 2013. Interest rates range from 2.00 percent to 2.50 percent.

2017 Series Bonds

The 2017 Series bonds are taxable general obligation school bonds issued in the amount of \$3,995,000 on October 17, 2017. These bonds were issued for the purpose of increasing the Working Cash Fund. These bonds are payable in annual installments beginning October 15, 2018. Interest rates range from 2.00 percent to 5.00 percent.

2019 Series Bonds

The 2019 Series bonds are general obligation refunding school bonds issued in the amount of \$39,330,000 on August 7, 2019. These bonds were issued to advance refund \$1,105,000 of the 2008 Series Bonds and \$42,335,000 of the 2010A Series Bonds. These bonds are payable in annual installments beginning October 15, 2020. Interest rates range from 3.00 percent to 5.00 percent.

Notes to Financial Statements June 30, 2021

8. General Long-Term Debt

Prior-Year Defeasance of Debt

In prior fiscal years, the District defeased certain general obligation bonds by placing the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments on the old bonds. Accordingly, the trusts account assets and the liability for the defeased bonds are not included in the District's financial statements. At June 30, 2021, \$9,625,000 of bonds outstanding are considered defeased.

Legal Debt Margin

The District is subject to the Illinois Compiled Statutes which limits the amount of bond indebtedness to 6.9% of the most recent available equalized assessed valuation of the District; the debt limit of 6.9% was increased to 13.12% by referendum. As of June 30, 2021, the statutory debt limit for the District was \$139,662,371 providing a debt margin of \$83,922,511.

9. Required Individual Fund Disclosures

Excess of Expenditures Over Budget

During the fiscal year ended June 30, 2021, State On-Behalf Payments were over budget by \$19,287,313, causing total expenditures of the Educational Fund to exceed budgeted expenditures by \$18,644,423. Expenditures of the Operations and Maintenance Fund exceeded budgeted expenditures by \$495,529.

10. Contingencies

Litigation

From time to time, the District is involved in legal and administrative proceedings with respect to employment, civil rights, property tax protests and other matters. It is the opinion of management, based upon consultation with counsel, that liabilities arising from these proceedings, if any, will not be material to the District's financial position.

State and Federal Grants

The District has received funding from state and federal grants in the current and prior years, which are subject to audits by the granting agencies. The School Board believes any adjustments that may arise from the audits will be insignificant to District operations.

11. Operating Leases

The District leases transportation equipment under lease agreements that expire through fiscal year ending June 30, 2025. Future minimum lease payments required under these leases in years ending June 30 are as follows:

| Fiscal Year Ending June 30, | . <u> </u> | Total |
|-----------------------------|------------|-----------|
| 2022 | \$ | 669,383 |
| 2023 | | 574,063 |
| 2024 | | 323,480 |
| 2025 | | 137,715 |
| Total | \$ | 1,704,641 |

Expenditures under the District's operating leases for the year ended June 30, 2021 were \$1,044,864.

12. Risk Management

The District is exposed to various risks of loss related to torts; professional liability; theft of, damage to, and destruction of assets; and natural disasters. To protect the District from such risks, the District has purchased insurance coverage through DeGeus & Klafter Insurance agency. The District pays annual premiums to the Agency for insurance coverage.

To cover itself against worker's compensation risks, the District has purchased insurance coverage through Arthur J. Gallagher & Co. Insurance agency.

The District is self-insured for medical and dental claims to cover its employees and their qualifying dependents. The District has engaged an outside agency to administer its claims. The District does not assume unlimited liability for medical claims. As of June 30, 2021, the District had purchased (stop-loss) insurance to cover claims in excess of \$90,000 per individual occurrence. The District's self-insured cost for the fiscal year ended June 30, 2021 was \$4,771,016. At June 30, 2021, the District maintained a reserved cash balance for future claims of \$4,407,306, which is included within the cash balances of the Educational, Operations and Maintenance and Transportation Funds.

There were no reductions in insurance coverage during the year. Settled claims have not exceeded the insurance coverage in the last three years.

Changes of Assumptions

For the 2020-2016 measurement years, the assumed investment rate of return was of 7.0%, including an inflation rate of 2.5% and a real return of 4.5%. Salary increases were assumed to vary by service credit, and were consistent in 2019 and 2020. These actuarial assumptions were based on an experience study dated September 18, 2018.

For the 2015 measurement year, the assumed investment rate of return was 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ended June 30, 2014.

* The amounts presented were determined as of the prior fiscal-year end.

Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2020 Contribution Rate* Valuation Date: Notes Actuarially determined contribution rates are calcul

Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2020 Contribution Rates:

| Actuarial Cost Method: Amortization Method: | Aggregate Entry Age Normal Level Percentage of Payroll, Closed |
|--|--|
| Remaining Amortization Period: | 23-Year Closed Period |
| Asset Valuation Method: | 5-Year Smoothed Market; 20% Corridor |
| Wage Growth: | 3.25% |
| Price Inflation: | 2.50% |
| Salary Increases: | 3.35% to 14.25% including Inflation |
| Investment Rate of Return: | 7.25% |
| Retirement Age: | Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of the period 2014-2016. |
| <i>Mortality:</i> | For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Healthy Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience. |
