	<input type="checkbox"/> Copy of APF given to worker (To show it to employer) <input type="checkbox"/> Talking points (on back) discussed with worker

## Activity Prescription Form (APF) Instructions

To ensure payment, please include all required information as detailed below:

**General Info Section:** All fields in the “General Info” section **MUST** be completed. Patient identification (peel and stick) labels may be used, as long as all the requested information is provided. ICD-9 codes or written diagnoses may be used.

**“Released for Work?” Section:** One box **MUST** be completed to indicate work status; dates or a time span must be included.

**Key Objective Findings:** If the worker is not returned to full duty, objective medical findings (OMF) **MUST** be documented. OMF are verifiable on exam. Examples are: x-rays, swelling, muscle atrophy, decreased ROM. They do not include subjective complaints such as pain, tenderness or fatigue.

**Estimate of Capacities Section:** Restrictions are applicable 24 hours a day, not just at work, so restrictions **MUST** be provided even when the patient is off work. In addition, including current restrictions may enable employers to identify appropriate light/modified duty jobs.

- A provider phone call to the employer is not required but is an advisable best practice. It may be billed for in addition to this form (with proper supporting documentation).
- The note to claim manager is not required. It is intended to assist you in drawing the claim manager’s attention to an issue, i.e. “right shoulder strain should be included on claim.”
- Approved absence dates in the “Other Restrictions/Instructions” section is an optional field that is only required for Boeing employees.

**Plans Section:** Your plan **MUST** be documented. Please include your assessment of progress, any rehabilitation, and if treatment is continuing or concluded. This information is critical for claim management decisions.

**Sign Section:** Your signature, along with the date **MUST** be provided.

**Please note:** This form’s purpose is to give the claim manager timely information for time-loss payment and treatment authorizations. Writing “See chart notes” on an APF is not acceptable because chart notes are not standardized and typically arrive in the claim file later than the APF. To be complete, all relevant information must be stated on this form.
