

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the [Return on Investment of Afterschool Programs in Pennsylvania](#) study determined that for every dollar invested in after-school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link to PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students, examine disproportionate impacts on specific student groups, and highlight the LEA's promising practices in supporting students' needs since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in after-school programming. Include a brief description of the indicators used in the decision-making process.

The after-school tutoring programming will be offered to all students based upon student academic performance including grades and assessments along with teacher input. After-school programming will be targeted for students falling below the set benchmark for performance. Throughout COVID-19, a decrease in student performance was noted among various students due to various learning pathways and other difficulties.

Section: Narratives - After-school Program

After-school Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide after- school programming for their students.

- Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	250	The high school has approximately 250 students from low-income families. Not all students will need after-school programming, but the opportunity is available for students needing additional assistance.
Major Racial and Ethnic Groups	Academic Growth	149	The high school has approximately 149 students from various ethnic groups. Not all students will need after-school programming, but the opportunity is available for students needing additional assistance.
Children with Disabilities	Academic Growth	110	The high school has approximately 110 students who have a disability. Not all students will need after-school programming, but the opportunity is

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
			available for students needing additional assistance.
Students Experiencing Homelessness	Academic Growth	5	The high school has approximately 5 students experiencing homelessness. Not all students will need after-school programming, but the opportunity is available for students needing additional assistance.
Youth in Foster Care	Academic Growth	3	The high school has approximately 3 students in foster care. Not all students will need after-school programming, but the opportunity is available for students needing additional assistance.

3. Describe the evidence-based resources that will be used to support student growth during the after- school program.

The after-school programming will utilize the board-approved curriculum for Chartiers Valley High School. The board-approved curriculum aligns with the Pennsylvania State Standards. Tutoring will be provided in English, Math, and Science. The curriculum provided both textbook and ancillary materials for student growth.

4. Describe the staff that will provide the after- school program (i.e., Internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
3	Internal	Staff members provide curriculum-based instruction and intervention to students for 90 minutes twice per week. Staff members work individually or in small groups with students.

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all after-school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the after-school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Student Academic Performance	Every 9 Weeks	Student academic performance will improve from the baseline score.

6. How will the LEA engage families in the after-school program?

After-school programming is discussed with all families on an as-needed basis. This can include school counselor family check-ins, IEP and 504 meetings, etc. In addition, teacher and parent communication is initiated by both teachers and parents when appropriate. Parent and guardians will also have the ability to complete Needs Assessment and student wellness surveys that can impact academic support needs. Parent/Guardians may establish a parent/teacher conference when necessary.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget
 \$30,010.00
Allocation
 \$30,010.00

Budget Over(Under) Allocation
 \$0.00

Budget Overview

Function	Object	Amount	Description
1200 - SPECIAL PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$25,000.00	Stipend for after-school tutoring of 3 teachers.
1200 - SPECIAL PROGRAMS – ELEMENTARY / SECONDARY	200 - Benefits	\$5,010.00	Benefit cost for after-school tutoring of 3 teachers.
