

How Do I Calculate My Grade Point Average (GPA)?

A student's cumulative grade point average (GPA) is calculated at the end of each year beginning in the freshman year. The student receives a point value for each letter grade, the sum of which is divided by the total number of credits (courses) attempted. A student's GPA becomes important when applying for college admissions, various programs, and scholarships. While a student can mostly use their weighted GPA (to recognize and encourage taking tougher courses), please note that some colleges and scholarships may require that the student's GPA be reported only on an unweighted 4.0 scale (no items are weighted; all use the 4.0 scale). Both unweighted and weighted GPAs are reported on the student's transcript.

At the end of each quarter, a student in Grades 7-12 can calculate their own GPA to see if they've earned Honors or High Honors for the quarter. All MS *and* HS courses are listed below for the purposes of learning how to calculate a student's GPA:

The courses that are weighted on the 4.5 scale are as follows:

| | | |
|--------------------|---------------------|-----------------------|
| Honors English 7 | Honors Math 7 | Pre-Calculus |
| Honors English 8 | Honors Algebra I | Anatomy & Physiology |
| Honors English I | Honors Geometry | Environmental Science |
| Honors English II | Honors Algebra II | Physics I |
| Honors English III | Probability & Stats | Spanish III |

The courses that are weighted on the 5.0 scale are as follows:

| | | |
|-----------|---------------|---|
| AP Art IV | AP Spanish IV | All Dual-Credit Courses (Gateway, NKU, etc) |
|-----------|---------------|---|

ALL OTHER classes other than those listed above are calculated on the unweighted 4.0 scale.

Unweighted Scale

- A = 4.00 points
- B = 3.00 points
- C = 2.00 points
- D = 1.00 point
- F = 0.00 points

Weighted Scale

- A = 4.50 points
- B = 3.375 points
- C = 2.25 points
- D = 1.125 points
- F = 0.00 points

AP / Dual Credit

- A = 5.00 points
- B = 3.75 points
- C = 2.50 points
- D = 1.25 points
- F = 0.00 points

Grading Scale

- A:** 93-100
- B:** 85-92
- C:** 76-84
- D:** 70-75
- F:** 0-69

Calculate MY GPA:

Class 1: _____ → Grade: _____ → Points: _____

Class 2: _____ → Grade: _____ → Points: _____

Class 3: _____ → Grade: _____ → Points: _____

Class 4: _____ → Grade: _____ → Points: _____

Class 5: _____ → Grade: _____ → Points: _____

Class 6: _____ → Grade: _____ → Points: _____

Class 7: _____ → Grade: _____ → Points: _____

Class 8: _____ → Grade: _____ → Points: _____

Class 9: _____ → Grade: _____ → Points: _____

Class 10: _____ → Grade: _____ → Points: _____

(10 are listed because 7th/8th graders have rotation classes/grades)

1. Fill in the information for all of your classes.
2. Add up the total number of points you earned.
3. Take that sum and divide it by the number of classes you have. This answer is your GPA.

My Math: _____

To earn Honors for a quarter, your weighted GPA must be between 3.0 and 3.99. To earn High Honors for a quarter, your weighted GPA must be 4.0 or higher.
