RE: Public Comment to the Board

Can the board please revisit the district policy on sex education?

Linn county clearly suffers with rates of teen pregnancy and teens being screened with STIs. At this point, it is clear that the district cares more about self serving religious doctrine than helping the students of their community. Community resources are not enough. It is time for the schools to update their practices and values to match the times we are in.

Thank you, and I hope for the children's sake, the board will consider putting aside their personal beliefs for this issue.
