Summer Assignment Details:

We trust everyone is having a wonderful summer. We are really excited about having each and every one of you in APUSH this year! We are expecting to have a great year together.

The College Board has divided American history into nine historical periods, and your APUSH summer assignment covers the first of those historical periods, the years 1491-1607, and begins the second of those historical periods.

The assignment is pretty straightforward: complete the Period One reading packet, take four quizzes over the Period One reading packet, and complete the Period Two: European Colonization reading packet. The readings must be completed, and the quizzes taken and submitted by 7:00 pm on Tuesday, August 9th.

As for the accompanying quizzes, there are four total. All of the quizzes are multiple choice; a lot of the questions have multiple answers.

Please pay careful attention to the following expectations regarding these quizzes:

- Be sure to complete the assigned reading for each quiz before taking the quiz. (Do not try to take the quiz while you are completing or doing the reading.)
- Each quiz is untimed and open-note. Even though there is not a time-limit for the quizzes, each quiz should take approximately 10 to 15 minutes to complete.
- You are only permitted to use your reading packet, your notes over the reading packet, and your textbook on each quiz. No other resources are permitted.
- Please do not use the search function in Adobe Acrobat or in the pdf file to search for information or key terms in the document while you are taking the quiz. Searching for a term using a search function so that you can find where information or a key term is in a document is not one of the skills that APUSH has been designed to develop and assess.
- Please do your own work in terms of the reading and the quizzes. Please do not share quiz answers/responses with anyone, and please do not solicit the help of anyone else on the quizzes.
- You may continue re-taking each of the four quizzes until you have earned a perfect score.

We will have a quiz early in the semester over the Period Two: European Colonization portion of the reading (although this quiz will not be during the first two days of the semester).

If you have any questions about the summer assignment, please do not hesitate to ask. The best way to get ahold of us during the summer is through email (mlo@brebeuf.org or atague@brebeuf.org).

Have a wonderful summer, and best of luck with this assignment!

Mr. Lo and Mr. Tague
