

Unmanned Aircraft System (UAS) a.k.a. Drone

Any employee or representative of the district operating a district unmanned aircraft system (UAS) shall do so in accordance with this policy, all applicable Federal Aviation Administration (FAA) and Oregon Department of Aviation (ODA) regulations and local laws.

A small unmanned aircraft, as defined by law, may be operated by the district. A small unmanned aircraft must weigh less than 55 pounds, including the weight of anything attached to or carried by the aircraft and must be registered through the FAA and ODA. The district will register as a user of such with ODA.

Publicly supported kindergarten through grade 12 school programs and publicly-supported entities that support K-12 schools or after school K-12 programs are exempt from the requirement to pay the ODA registration fee.

The district recognizes the academic value of student operation of a UAS as one component of curricula pertaining to principles of flight, aerodynamics, and airplane design and construction, and can also serve as an academic tool in other areas such as television, film production or the arts in general.

Prior to operating a UAS, the district will review all airspace, certification, registration, and other requirements. When operating in the National Airspace System (NAS), the supervisor (instructor/teacher) of the education UAS shall hold a current pilot certification described in 14 C.F.R. Part 107 or have a Certificate of Authorization as described in 49 U.S.C. § 44801, so any student(s) can fly under their direct supervision, and to be in compliance with current FAA¹ regulations. District staff will not operate more than one UAS at the same time.

District employees shall work with administrators to ensure that proper insurance, registration as required by FAA and ODA, reporting to FAA, and authorization from district administration are in place prior to use as a part of the district's curriculum.

A UAS shall be operated in accordance with the policies of the Oregon School Activities Association (OSAA)² at OSAA-sanctioned events.

A student in violation of this policy may be subject to disciplinary action, up to and including suspension and/or expulsion.

A staff member in violation of this policy may be subject to disciplinary action, up to and including dismissal.

All data gathered by the district as part of a UAS operation will belong to the district. The data gathering by the district will follow appropriate state and federal laws. Retention of such data will follow state and federal laws.

The superintendent shall develop procedures³ for the implementation of this policy. The district shall post a copy of this policy, associated procedures and a copy of Oregon Revised Statute (ORS) 192.345 on the district's website.

The district will report accidents involving UAS to FAA no later than 10 calendar days after the accident when it involves:

1. Serious injury to any person or any loss of consciousness; or
2. Damage to any property, other than the small UAS, unless the cost of the repair (including materials and labor) does not exceed \$500, or the fair market value of the property does not exceed \$500 in the event of total loss.

Third Party Use

Third party use of a UAS on district property or at district-sponsored events or activities on district property for any purpose is prohibited, unless granted permission from the superintendent.

If permission is granted by the superintendent, the third party operating a UAS will comply with all FAA and ODA registration and use regulations and shall provide the following to the district:

1. Proof of insurance that meets the liability limits established by the district;
2. Proof of UAS registration and authorization (including a certificate identified in 14 C.F.R. Part 107 or a Certificate of Authorization described in 49 U.S.C § 44801) issued by FAA, and proof of user registration with ODA when required⁴; and
3. A signed agreement holding the district harmless from any claims of harm to individuals or damage to property.

END OF POLICY

³Procedures must include: the length of the time data will be retained by the district; specifications for third party storage of data, including handling, security and access to the data by the third party, a policy on disclosure of data through intergovernmental agreements.

⁴A public body, as defined in ORS 174.109, operating an unmanned aircraft system must register as a user with ODA (ORS 837.360)
