Guidance

Disability

Under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act Amendments Act (ADAAA) of 2008, “a person with a disability” means any person who has a physical or mental impairment which substantially limits one or more major life activities, has a record of such impairment, or is regarded as having such an impairment. According to the ADAAA, most physical and mental impairments constitute a disability.

Major life activities include, but are not limited to, caring for one’s self, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentration, thinking, communicating, and working. Major life activities also include the operation of a major bodily function, including but not limited to, functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions.

U.S. Department of Agriculture (USDA) regulations require reasonable modifications to school meals to accommodate children with disabilities when the disability restricts the child’s diet. Modifications will be determined on a case-by-case basis.

Accommodations for special dietary requests that can be made within the Program meal pattern requirements do not require a medical statement. The School Food Authority may require a medical statement signed by a State licensed healthcare professional be submitted to accommodate the request.

State Licensed Healthcare Professional is a professional who is authorized to write medical prescriptions under State law, and may include a physician, nurse practitioner, or a physician’s assistant. Please refer to the Medical Association of Georgia, **Georgia Prescribers Chart**: <http://www.mag.org/sites/default/files/downloads/georgia-prescribers-chart.pdf>.
