Members of the District community, which includes students or Third Parties, who believe they have been discriminated/retaliated against are entitled to utilize the complaint process set forth below. Initiating a complaint, whether formally or informally, will not adversely affect the Complainant's employment or participation in educational or extra-curricular programs. While there are no time limits for initiating complaints under this policy, individuals should make every effort to file a complaint as soon as possible after the conduct occurs while the facts are known and potential witnesses are available.

If during an investigation of alleged bullying, aggressive behavior and/or harassment in accordance with Policy 5517.01 - Bullying, the Principal believes that the reported misconduct may constitute discrimination based on a Protected Class, the Principal shall report the act to one of the COs, who shall investigate the allegation in accordance with this policy. While the CO investigates the allegation, the Principal shall suspend the Policy 5517.01 investigation to await the CO's written report. The CO shall keep the principal informed of the status of the Policy 2260 investigation and provide the Principal with a copy of the resulting written report.

The COs will be available during regular school/work hours to discuss concerns related to discrimination/retaliation. COs shall accept reports of discrimination/retaliation directly from any member of the District community or a Third Party and reports that initially are made to another District employee. Upon receipt of a report of alleged discrimination/retaliation, the CO will contact the Complainant and begin either an informal or formal complaint process (depending on the Complainant's request and the nature of the alleged discrimination/retaliation) or designate a specific individual to conduct such a process.

The CO will provide a copy of this policy to the Complainant and the Respondent. In the case of a formal complaint, the CO will prepare recommendations for the District Administrator or oversee the preparation of such recommendations by a designee. All members of the District community must report incidents of discrimination/retaliation that are reported to them to the CO within two (2) days of learning of the incident/conduct.

Any District employee who directly observes discrimination/retaliation of a student is obligated, in accordance with this policy, to report such observations to one of the COs within two (2) days. Additionally, any District employee who observes an act of discrimination/retaliation is expected to intervene to stop the misconduct unless circumstances make such an intervention dangerous, in which case the staff member should immediately notify other District employees and/or local law enforcement officials, as necessary, to stop the misconduct. Thereafter, the CO/designee must contact the Complainant if age eighteen (18) or older or the Complainant's parents/guardians if the student is under the age of eighteen (18) within two (2) days to advise of the Board's intent to investigate the alleged wrongdoing.

- A. on the School District's website.
- B. in the staff and student handbooks.

A CO will be available during regular school/work hours to discuss concerns related to student discrimination in educational opportunities under this policy.

Investigation and Complaint Procedure (see Form 2260 F2)

The CO shall investigate any complaints brought under this policy. Throughout the course of the process as described herein, the CO should keep the parties reasonably informed of the status of the investigation and the decision-making process.

All complaints must include the following information to the extent known: a description of the alleged violation, the identity of the Respondent; a detailed description of the facts upon which the complaint is based (i.e., when, where, and what occurred); a list of potential witnesses; and the resolution sought by the Complainant.

If the Complainant is unwilling or unable to provide a written statement including the information set forth above, the CO shall ask for such details in an oral interview. Thereafter the CO will prepare a written summary of the oral interview, and the Complainant will be asked to verify the accuracy of the reported charge by signing the document.

Upon receiving a complaint, the CO will consider whether any action should be taken during the investigatory phase to protect the Complainant from further loss of educational opportunity, including but not limited to a change of work assignment or class schedule for the Complainant, tentative enrollment in a program, or other appropriate action. In making such a determination, the CO should consult the Complainant to assess whether the individual agrees with the proposed action. If the Complainant is unwilling to consent to the proposed change, the CO still may take whatever actions are deemed appropriate in consultation with the District Administrator.

As soon as appropriate in the investigation process, the CO will inform the Respondent, that a complaint has been received. The person(s) must also be provided an opportunity to respond to the complaint.

All investigations shall be commenced as soon as practicable upon receipt of a complaint and concluded as expeditiously as feasible, in consideration of the circumstances, while taking measures to complete a thorough investigation. The complaining party shall be notified in writing of receipt of the complaint within forty-five (45) days of the complaint and shall reach a determination concerning the complaint within ninety (90) days of receipt unless additional time is agreed to by the complaining party.

The investigation will include:

- A. interviews with the Complainant;
- B. interviews with the Respondent;
- C. interviews with any other witnesses who reasonably may be expected to have any information relevant to the allegations, as determined by the CO;
- D. consideration of any documentation or other evidence presented by the Complainant, Respondent, or any other witness which is reasonably believed to be relevant to the allegations, as determined by the CO.

At the conclusion of the investigation, the CO or designee shall prepare and deliver a written report to the District Administrator which summarizes the evidence gathered during the investigation and provides recommendations based on the evidence and the definitions in this Policy, as well as in State and Federal law as to whether the Complainant has been denied access to educational opportunities on the basis of one of the protected classifications, based on a preponderance of evidence standard. The CO's recommendations must be based upon the totality of the circumstances, including the ages and maturity levels of those involved.

The CO may consult with the Board's attorney during the course of the investigatory process and/or before finalizing the report to the District Administrator.

In cases where no District CO is able to investigate a complaint due to concerns regarding conflicts, bias or partiality, or for other reasons that impair the CO's ability to conduct an investigation, the CO may in consultation with the District Administrator or Board President, if the matter involves the District Administrator, engage outside legal counsel to conduct the investigation consistent with this policy.

Absent extenuating circumstances, within five (5) days of receiving the report of the CO or designee, the District Administrator either must issue a written decision regarding whether the charges have been substantiated or request further investigation. A copy of the District Administrator's final decision will be delivered to both the Complainant and Respondent. The District Administrator may redact information from the decision in the event the release of information raises concerns regarding the integrity of the complaint or investigation process. The Board authorizes the District Administrator to consult with legal counsel to determine the extent to which information in an investigation report must be provided to either the Complainant or Respondent.

If the District Administrator requests additional investigation, the District Administrator must specify the additional information that is to be gathered, and such additional investigation must be completed within five (5) days. At the conclusion of the additional investigation, the District Administrator must issue a final written decision as described above. The decision of the District Administrator will be reviewed by the Board upon request.

If the Complainant feels that the decision does not adequately address the complaint s/he may appeal the decision to the State Superintendent of Public Instruction by submitting a written request to the Wisconsin Department of Public Instruction, Pupil Nondiscrimination Program, or by contacting the DPI Pupil Nondiscrimination Program at (608) 267-9157. Any person, including the Respondent in a complaint, who is subject to disciplinary action up to and including termination as a result of a complaint may choose to file a grievance utilizing the District's grievance procedure as outlined in Policy 3340 or Policy 4340.

The Board reserves the right to investigate and resolve a complaint or report regardless of whether the member of the School District community or third party chooses to pursue the complaint. The Board also reserves the right to have the complaint investigation conducted by an external person in accordance with this policy or in such other manner as deemed appropriate by the Board.

The parties may be represented, at their own cost, at any of the above-described meetings/hearings.

The right of a person to a prompt and equitable resolution of the complaint shall not be impaired by the person's pursuit of other remedies such as the filing of a complaint with the Office for Civil Rights, the filing of charges with local law enforcement, or the filing of a civil action in court. Use of this internal complaint process is not a prerequisite to the pursuit of other remedies.

Additional School District Action

If the evidence suggests that any conduct at issue violates any other policies of the Board, is a crime, or requires mandatory reporting under the Children's Code (Sec. 48.981, Wis. Stat.) (Policy 8462), or threats of violence (Policy 8462.01), the CO or District Administrator shall take such additional actions as necessary and appropriate under the circumstances, which may include a report to the appropriate social service and/or law enforcement agency charged with responsibility for handling such investigations.

Privacy/Confidentiality

The District will make reasonable efforts to protect the privacy of any individuals involved in the investigation process. Confidentiality cannot be guaranteed, however. Additionally, the Respondent must be provided the Complainant's identity.

During the course of an investigation, the CO or designee will instruct all members of the School District community and third parties who are interviewed about the importance of maintaining confidentiality. Any individual who is interviewed as part of an investigation is expected not to disclose any information that is learned or provided during the course of the investigation.

Remedial Action and Monitoring

If warranted, appropriate remedial action shall be determined and implemented on behalf of the Complainant, including but not limited to counseling services, reinstatement of leave taken because of the discrimination, the opportunity to complete assignments missed due to absences related to the discrimination, or other appropriate action.

The Board may appoint an individual, who may be a District employee, to follow up with the Complainant to ensure no further discrimination or retaliation has occurred and to take action to address any reported occurrences promptly.

Sanctions and Disciplinary Action

The Board shall vigorously enforce its prohibitions against discrimination/retaliation by taking appropriate action reasonably calculated to stop and prevent further misconduct.

While observing the principles of due process, a violation of this policy may result in disciplinary action up to and including the discharge of an employee or the suspension/expulsion of a student. All disciplinary action will be taken in accordance with applicable State law and the terms of any relevant codes of conduct.

When imposing discipline, the District Administrator shall consider the totality of the circumstances involved in the matter, including the ages and maturity level of any student involved. In those cases where discrimination/retaliation is not substantiated, the Board may consider whether the alleged conduct nevertheless warrants discipline in accordance with other Board policies.

Where the Board becomes aware that a prior disciplinary action has been taken against the Respondent, all subsequent sanctions imposed by the Board and/or District Administrator shall be reasonably calculated to end such conduct, prevent its reoccurrence, and remedy its effects.

Retaliation

Retaliation against a person who makes a report or files a complaint alleging harassment/retaliation or participates as a witness in an investigation is prohibited. Neither the Board nor any other person may intimidate, threaten, coerce or interfere with any individual because the person opposed any act or practice made by any Federal or State civil rights law, or because that individual made a report, formal complaint, testified, assisted or participated or refused to participate in any manner in an investigation, proceeding, or hearing under those laws and/or this policy, or because that individual exercised, enjoyed, aided or encouraged any other person in the exercise or enjoyment of any right granted or protected by those laws and/or this policy.

Retaliation against a person for making a report of discrimination, filing a formal complaint, or participating in an investigation or meeting is a serious violation of this policy that can result in the imposition of disciplinary sanctions/consequences and/or other appropriate remedies.

Formal complaints alleging retaliation may be filed according to the internal complaint process set forth above.

The exercise of rights protected under the First Amendment of the United States Constitution does not constitute retaliation prohibited under this policy.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of discriminatory practices. The District Administrator shall provide appropriate information to all members of the School District community related to the implementation of this policy and shall provide training for District students and staff where appropriate. All training, as well as all information, provided regarding the Board's policy and discrimination in general, will be age and content appropriate.

Retention of Investigatory Records and Materials

The Compliance Officer(s) is responsible for overseeing retention of all records that must be maintained pursuant to this policy. All individuals charged with conducting investigations under this policy shall retain all information, documents, electronically stored information ("ESI"), and

electronic media (as defined in Policy 8315) created and received as part of an investigation, including but not limited to:

8330 - STUDENT RECORDS

In order to provide appropriate educational services and programming, the Board must collect, retain, and use information about individual students. Simultaneously, the Board recognizes the need to safeguard students' privacy and restrict access to students' personally identifiable information.

Student "personally identifiable information" includes, but is not limited to: the student's name; the name of the student's parent or other family members; the address of the student or student's family; a personal identifier, such as the student's social security number, student number, or biometric record; other indirect identifiers, such as the student's date of birth, place of birth, and mother's maiden name; other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or information requested by a person who the District reasonably believes knows the identity of the student to whom the education record relates.

The Board is responsible for the records of all students who attend or have attended schools in this District. Only records mandated by the State or Federal government and/or necessary and relevant to the function of the School District or specifically permitted by this Board will be compiled by Board employees.

In all cases, permitted, narrative information in student records shall be objectively based on the personal observation or knowledge of the originator.

Student records shall be available only to students and their parents, eligible students, designated school officials who have a legitimate educational interest in the information, or to other individuals or organizations as permitted by law.

Address Confidentiality Program

Students who are verified participants in the Safe at Home/Address Confidentiality Program administered by the Wisconsin Department of Justice shall be permitted to use their substitute assigned address for all District purposes. The Board shall refrain from including the student's actual/confidential residential address in any student records or files (including electronic records and files) or disclosing the student's actual/confidential residential address when releasing student records. The Board shall only list the address designated by the Wisconsin Department of Justice to serve as the student's address in any student records or files, including electronic records and files. Further, the Board shall use the student's substitute assigned address for any and all communications and correspondence between the Board and the parent(s) of the student (or adult student). The student's actual/confidential residential address shall be maintained in a separate confidential file that is not accessible to the public or any employees without a legitimate purpose. The intentional disclosure of a student's actual/confidential residential address is prohibited.

The Board may enter into a memorandum of understanding with a county department under State statutes(s. 46.215, 46.22 or 46.23) or a tribal organization, as defined under Federal law, that permits disclosure of information contained in student records as provided under State law in cases in which the student's parent, if the student is a minor, or the student, if the student is an adult, does not grant permission for such disclosure.

The term "parents" includes legal guardians or other persons standing in loco parentis (such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the welfare of the child). The term "eligible student" or "adult student" refers to a student who is eighteen (18) years of age or older.

Both parents shall have equal access to student records unless stipulated otherwise by court order or law. In the case of adult students, parents may be allowed access to the records without the student's consent, provided the student is considered a dependent under section 152 of the Internal Revenue Code, and provided that the student has not made a written request to the District that his/her parents not be permitted access to personally identifiable information from his/her records.

A school official is a person employed by the Board as an administrator, supervisor, teacher/instructor (including substitutes), or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board; a person or company

with whom the Board has contracted to perform a special task (such as an attorney, auditor, or medical consultant); a contractor, consultant, volunteer or other party to whom the Board has outsourced a service otherwise performed by Board employees (e.g. a therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks (including volunteers).

"Legitimate educational interest" is defined as a "direct or delegated responsibility for helping the student achieve one (1) or more of the educational goals of the District" or if the record is necessary in order for the school official to perform an administrative, supervisory, or instructional task or to perform a service or benefit for the student or the student's family. The Board directs that reasonable and appropriate methods (including but not limited to physical and/or technological access controls) are utilized to control access to student records and to make certain that school officials obtain access to only those education records in which they have legitimate educational interest.

The Board authorizes the administration to:

- A. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a private or public school or school district in which a student of this District is enrolled, seeks or intends to enroll, or is instructed to enroll, on a full-time or part-time basis, upon condition that:
 1. a reasonable attempt is made to notify the student's parent or eligible student of the transfer (unless the disclosure is initiated by the parent or eligible student; or the Board's annual notification - Form 8330 F9 - includes a notice that the Board will forward education records to other agencies or institutions that have requested the records and in which the student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer);
 2. the parent or eligible student, upon request, receives a copy of the record;
 3. the parent or eligible student, upon request, has an opportunity for a hearing to challenge the content of the record; and
 4. no later than the next working day, the District shall transfer to another school, including a private or tribal school, or school district, all student records relating to a specific student if the transferring school district or private school has received written notice from the student if s/he is an adult or his/her parent or guardian if the student is a minor that the student intends to enroll in the other school or school district or written notice from the other school or school district that the student has enrolled or from a court that the student has been placed in a juvenile correctional facility, as defined in s. 938.02(10p), or a secured residential care center for children and youth, as defined in s. 938.02(15g);

In this subsection, "school" and "school district" include any juvenile correctional facility, secured residential care center for children and youth, adult correctional institution, mental health institute, or center for the developmentally disabled that provides an educational program for its residents instead of, or in addition to, that which is provided by public, private, and tribal schools.

- B. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a juvenile detention facility in which the student has been placed, or a juvenile court that has taken jurisdiction of the student;
- C. disclose student records that are pertinent to addressing a student's educational needs to a caseworker or other representative of the department of children and families, a county department under s. 46.215, 46.22, or 46.23, or a tribal organization, as defined in 25 USC 450b(L), that is legally responsible for the care and protection of the student, if the caseworker or other representative is authorized by that department, county department, or tribal organization to access the student's case plan;
- D. provide "personally-identifiable" information to appropriate parties, including parents of an eligible student, whose knowledge of the information is necessary to protect the health or safety of the student or other individuals, if there is an articulable and significant threat to the health or safety of a student or other individuals, considering the totality of the circumstances;
- E. report a crime committed by a child to appropriate authorities, and, with respect to reporting a crime committed by a student with a disability, to transmit copies of the student's special education and disciplinary records to the authorities for their consideration;
- F. release de-identified records and information in accordance with Federal regulations;
- G. disclose personally identifiable information from education records, without consent, to organizations conducting studies "for, or on behalf of" the District for purposes of developing, validating or administering predictive tests, administering student aid programs, or improving instruction;

Information disclosed under this exception must be protected so that students and parents cannot be personally identified by anyone other than representative of the organization conducting the study, and must be destroyed when no longer needed for the study. In order to release information under this provision, the District will enter into a written agreement with the recipient organization that specifies the purpose of the study.

This written agreement must include: (1) specification of the purpose, scope, duration of the study, and the information to be disclosed; (2) a statement requiring the organization to use the personally identifiable information only to meet the purpose of the study; (3) a statement requiring the organization to prohibit personal identification of parents and students by anyone other than a representative of the organization with legitimate interests; and (4) a requirement that the organization destroy all personally identifiable information with it is no longer needed for the study, along with a specific time period in

which the information must be destroyed.

While the disclosure of personally identifiable information without consent is allowed under this exception, it is recommended that whenever possible the administration either release de-identified information or remove the students' names and social security identification numbers to reduce the risk of unauthorized disclosure of personally identifiable information.

- H. disclose personally identifiable information from education records without consent, to authorized representatives of the Federal government, as well as State and local educational authorities;

The disclosed records must be used to audit or evaluate a Federal or State-supported education program, or to enforce or comply with Federal requirements related to those education programs. A written agreement between the parties is required under this exception.

The District will verify that the authorized representative complies with FERPA regulations.

This written authorization must include: (1) designation of the receiving entity as an authorized representative; (2) specification of the information to be disclosed; (3) specification that the purpose of the disclosure is to carry out an audit or evaluation of a government-supported educational program or to enforce or comply with the program's legal requirements; (4) a summary of the activity that includes a description of methodology and an explanation of why personally identifiable information is necessary to accomplish the activity; (5) a statement requiring the organization to destroy all personally identifiable information when it is no longer needed for the study, along with a specific time period in which the information must be destroyed; and (6) a statement of policies and procedures that will protect personally identifiable information from further disclosure or unauthorized use.

Under the audit exception, the District will use "reasonable methods" to verify that the authorized representative complies with FERPA regulations. Specifically, the District will verify, to the greatest extent practical, that the personally identifiable information is used only for the audit, evaluation or enforcement of a government-supported educational program. The District will also ascertain the legitimacy of the audit or evaluation and will only disclose the specific records that the authorized representative needs. Further, the District will require the authorized representative to use the records only for the specified purpose and not to disclose the information any further, such as for another audit or evaluation. Finally, the District will verify that the information is destroyed when no longer needed for the audit, evaluation or compliance activity.

- I. request each person or party requesting access to a student's record to abide by Federal regulations and State laws concerning the disclosure of information.

The Board will comply with a legitimate request for access to a student's records within a reasonable period of time but not more than forty-five (45) days after receiving the request or within such shorter period as may be applicable to students with disabilities. Upon the request of the viewer, a record shall be reproduced, unless said record is copyrighted, or otherwise restricted, and the viewer may be charged a fee equivalent to the cost of handling and reproduction. Based upon reasonable requests, viewers of education records will receive explanation and interpretation of the records.

The Board shall maintain a record of each request for access and each disclosure of personally identifiable information. Such disclosure records will indicate the student, person viewing the record, their legitimate interest in the information, information disclosed, date of disclosure, and date parental/eligible student consent was obtained (if required).

Only "directory information" regarding a student shall be released to any person or party, other than the student or his/her parent, without the written consent of the parent, or, if the student is an eligible student, without the written consent of the student, except as provided by applicable law.

DIRECTORY INFORMATION

Each year the District Administrator shall provide public notice to students and their parents of the District's intent to make available, upon request, certain information known as "directory information." The Board designates as student "directory information":

- A. a student's name;
- B. photograph
- C. participation in officially recognized activities and sports;
- D. height and/or weight, if a member of an athletic team;
- E. date of graduation;
- F. degrees and awards received.

Parents and eligible students may refuse to allow the Board to disclose any or all of such "directory information" upon written notification to the Board within fourteen (14) days after receipt of the District Administrator's annual public notice or enrollment of the student into the District if such enrollment occurs after the annual public notice. Any parent or eligible student who refuses to allow disclosure of directory data and who participates in the extra-curricular activity must complete the appropriate acknowledgement, which includes a limitation on the

refusal to disclose directory information obtained during the course of the student's participation in extra-curricular activities.

In accordance with Federal and State law, the Board shall release the names, addresses, District assigned e-mail addresses (if available), and telephone listings of secondary students to a recruiting officer for any branch of the United States Armed Forces or an institution of higher education who requests such information. A secondary school student or parent of the student may request in writing that the student's name, address, District assigned e-mail addresses (if available), and telephone listing not be released without prior consent of the parent(s)/eligible student. The recruiting officer is to sign a form indicating that "any information received by the recruiting officer shall be used solely for the purpose of informing students about military service and shall not be released to any person other than individuals within the recruiting services of the Armed Forces." The District Administrator is authorized to charge mailing fees for providing this information to a recruiting officer.

Whenever consent of the parent(s)/eligible student is required for the inspection and/or release of a student's health or education records or for the release of "directory information," either parent may provide such consent unless agreed to otherwise in writing by both parents or specifically stated by court order. If the student is under the guardianship of an institution, the District Administrator shall appoint a person who has no conflicting interest to provide such written consent.

The Board may disclose "directory information," on former students without student or parental consent, unless the parent or eligible student previously submitted a request that such information not be disclosed without their prior written consent.

The Board shall not collect or use personal information obtained from students or their parents for the purpose of marketing or for selling that information.

INSPECTION OF INFORMATION COLLECTION INSTRUMENT

The parent of a student or an eligible student has the right to inspect upon request any instrument used in the collection of personal information before the instrument is administered or distributed to a student. Personal information for this section is defined as individually identifiable information including a student or parent's first and last name, a home or other physical address (including street name and the name of the city or town), a telephone number, or a Social Security identification number. In order to review the instrument, the parent or eligible student must submit a written request to the building principal at least fourteen (14) business days before the scheduled date of the activity. The instrument will be provided to the parent or eligible student within fourteen (14) business days of the principal receiving the request.

The District Administrator shall directly notify the parent(s) of a student and eligible students, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when such activities are scheduled or expected to be scheduled.

This section does not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions, such as the following:

- A. college or other postsecondary education recruitment, or military recruitment;
- B. book clubs, magazine, and programs providing access to low-cost literary products;
- C. curriculum and instructional materials used by elementary and secondary schools;
- D. tests and assessments used by elementary and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments;
- E. the sale by students of products or services to raise funds for school-related or education-related activities;
- F. student recognition programs.

The Board authorizes the use of computer data storage for the recording, filing, maintaining, and preserving of records.

No liability shall attach to any member, officer, or employee of this Board as a consequence of permitting access or furnishing student records in accordance with this policy and regulations.

Any entity receiving personally identifiable information pursuant to a study, audit, evaluation or enforcement/compliance activity must comply with all FERPA regulations. Further, such an entity must enter into a written contract with the Board delineating its responsibilities in safeguarding the disclosed information. Specifically, the entity must demonstrate the existence of a sound data security plan or data stewardship program, and must also provide assurances that the personally identifiable information will not be redisclosed without prior authorization from the Board. Further, the entity conducting the study, audit, evaluation or enforcement/compliance activity is required to destroy the disclosed information once it is no longer needed or when the timeframe for the activity has ended, as specified in its written agreement with the Board.

8330 STUDENT RECORDS

In order to provide appropriate educational services and programming, the Board must collect, retain, and use information about individual students. Simultaneously, the Board recognizes the need to safeguard students' privacy and restrict access to students' personally identifiable information.

Student "personally identifiable information" includes, but is not limited to: the student's name; the name of the student's parent or other family members; the address of the student or student's family; a personal identifier, such as the student's social security number, student number, or biometric record; other indirect identifiers, such as the student's date of birth, place of birth, and mother's maiden name; other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or information requested by a person who the District reasonably believes knows the identity of the student to whom the education record relates.

The Board is responsible for the records of all students who attend or have attended schools in this District. Only records mandated by the State or Federal government and/or necessary and relevant to the function of the School District or specifically permitted by this Board will be compiled by Board employees.

In all cases, permitted, narrative information in student records shall be objectively based on the personal observation or knowledge of the originator.

Student records shall be available only to students and their parents, eligible students, designated school officials who have a legitimate educational interest in the information, or to other individuals or organizations as permitted by law.

Address Confidentiality Program

Students who are verified participants in the Safe at Home/Address Confidentiality Program administered by the Wisconsin Department of Justice shall be permitted to use their substitute assigned address for all District purposes. The Board shall refrain from including the student's actual/confidential residential address in any student records or files (including electronic records and files) or disclosing the student's actual/confidential residential address when releasing student records. The Board shall only list the address designated by the Wisconsin Department of Justice to serve as the student's address in any student records or files, including electronic records and files. Further, the Board shall use the student's substitute assigned address for any and all communications and correspondence between the Board and the parent(s) of the student (or adult student). The student's actual/confidential residential address shall be maintained in a separate confidential file that is not accessible to the public or any employees without a legitimate purpose. The intentional disclosure of a student's actual/confidential residential address is prohibited.

The Board may enter into a memorandum of understanding with a county department under State statutes(s. 46.215, 46.22 or 46.23) or a tribal organization, as defined under Federal law, that permits disclosure of information contained in student records as provided under State law in cases in which the student's parent, if the student is a minor, or the student, if the student is an adult, does not grant permission for such disclosure.

The term "parents" includes legal guardians or other persons standing in loco parentis (such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the welfare of the child). The term "eligible student" or "adult student" refers to a student who is eighteen (18) years of age or older.

Both parents shall have equal access to student records unless stipulated otherwise by court order or law. In the case of adult students, parents may be allowed access to the records without the student's consent, provided the student is considered a dependent under section 152 of the Internal Revenue Code, and provided that the student has not made a written request to the District that his/her parents not be permitted access to personally identifiable information from his/her records.

A school official is a person employed by the Board as an administrator, supervisor, teacher/instructor (including substitutes), or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board; a person or company with whom the Board has contracted to perform a special task (such as an attorney, auditor, or medical consultant); a contractor, consultant, volunteer or other party to whom the Board has outsourced a service otherwise performed by Board employees (e.g. a therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks (including volunteers).

"Legitimate educational interest" is defined as a "direct or delegated responsibility for helping the student achieve one (1) or more of the educational goals of the District" or if the record is necessary in order for the school official to perform an administrative, supervisory, or instructional task or to perform a service or benefit for the student or the student's family. The Board directs that reasonable and appropriate methods (including but not limited to physical and/or technological access controls) are utilized to control access to student records and to make certain that school officials obtain access to only those education records in which they have legitimate educational interest.

The Board authorizes the administration to:

- A. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a private or public school or school district in which a student of this District is enrolled, seeks or intends to enroll, or is instructed to enroll, on a full-time or part-time basis, upon condition that:
 1. a reasonable attempt is made to notify the student's parent or eligible student of the transfer (unless the disclosure is initiated by the parent or eligible student; or the Board's annual notification - Form 8330 F9 - includes a notice that the Board will forward education records to other agencies or institutions that have requested the records and in which the student seeks or intends to enroll or is

already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer);

2. the parent or eligible student, upon request, receives a copy of the record;
3. the parent or eligible student, upon request, has an opportunity for a hearing to challenge the content of the record; and
4. no later than the next working day, the District shall transfer to another school, including a private or tribal school, or school district, all student records relating to a specific student if the transferring school district or private school has received written notice from the student if s/he is an adult or his/her parent or guardian if the student is a minor that the student intends to enroll in the other school or school district or written notice from the other school or school district that the student has enrolled or from a court that the student has been placed in a juvenile correctional facility, as defined in s. 938.02(10p), or a secured residential care center for children and youth, as defined in s. 938.02(15g);

In this subsection, "school" and "school district" include any juvenile correctional facility, secured residential care center for children and youth, adult correctional institution, mental health institute, or center for the developmentally disabled that provides an educational program for its residents instead of, or in addition to, that which is provided by public, private, and tribal schools.

- B. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a juvenile detention facility in which the student has been placed, or a juvenile court that has taken jurisdiction of the student;
- C. disclose student records that are pertinent to addressing a student's educational needs to a caseworker or other representative of the department of children and families, a county department under s. 46.215, 46.22, or 46.23, or a tribal organization, as defined in 25 USC 450b(L), that is legally responsible for the care and protection of the student, if the caseworker or other representative is authorized by that department, county department, or tribal organization to access the student's case plan;
- D. provide "personally-identifiable" information to appropriate parties, including parents of an eligible student, whose knowledge of the information is necessary to protect the health or safety of the student or other individuals, if there is an articulable and significant threat to the health or safety of a student or other individuals, considering the totality of the circumstances;
- E. report a crime committed by a child to appropriate authorities, and, with respect to reporting a crime committed by a student with a disability, to transmit copies of the student's special education and disciplinary records to the authorities for their consideration;
- F. release de-identified records and information in accordance with Federal regulations;

- G. disclose personally identifiable information from education records, without consent, to organizations conducting studies "for, or on behalf of" the District for purposes of developing, validating or administering predictive tests, administering student aid programs, or improving instruction;

Information disclosed under this exception must be protected so that students and parents cannot be personally identified by anyone other than representative of the organization conducting the study, and must be destroyed when no longer needed for the study. In order to release information under this provision, the District will enter into a written agreement with the recipient organization that specifies the purpose of the study.

This written agreement must include: (1) specification of the purpose, scope, duration of the study, and the information to be disclosed; (2) a statement requiring the organization to use the personally identifiable information only to meet the purpose of the study; (3) a statement requiring the organization to prohibit personal identification of parents and students by anyone other than a representative of the organization with legitimate interests; and (4) a requirement that the organization destroy all personally identifiable information with it is no longer needed for the study, along with a specific time period in which the information must be destroyed.

While the disclosure of personally identifiable information without consent is allowed under this exception, it is recommended that whenever possible the administration either release de-identified information or remove the students' names and social security identification numbers to reduce the risk of unauthorized disclosure of personally identifiable information.

- H. disclose personally identifiable information from education records without consent, to authorized representatives of the Federal government, as well as State and local educational authorities;

The disclosed records must be used to audit or evaluate a Federal or State-supported education program, or to enforce or comply with Federal requirements related to those education programs. A written agreement between the parties is required under this exception.

The District will verify that the authorized representative complies with FERPA regulations.

This written authorization must include: (1) designation of the receiving entity as an authorized representative; (2) specification of the information to be disclosed; (3) specification that the purpose of the disclosure is to carry out an audit or evaluation of a government-supported educational program or to enforce or comply with the program's legal requirements; (4) a summary of the activity that includes a description of methodology and an explanation of why personally identifiable information is necessary to accomplish the activity; (5) a statement requiring the organization to destroy all personally identifiable information when it is no longer needed for the study, along with a specific time period in which the information must be destroyed; and (6) a statement of policies and procedures that will protect personally identifiable information from further

disclosure or unauthorized use.

Under the audit exception, the District will use "reasonable methods" to verify that the authorized representative complies with FERPA regulations. Specifically, the District will verify, to the greatest extent practical, that the personally identifiable information is used only for the audit, evaluation or enforcement of a government-supported educational program. The District will also ascertain the legitimacy of the audit or evaluation and will only disclose the specific records that the authorized representative needs. Further, the District will require the authorized representative to use the records only for the specified purpose and not to disclose the information any further, such as for another audit or evaluation. Finally, the District will verify that the information is destroyed when no longer needed for the audit, evaluation or compliance activity.

- I. request each person or party requesting access to a student's record to abide by Federal regulations and State laws concerning the disclosure of information.

The Board will comply with a legitimate request for access to a student's records within a reasonable period of time but not more than forty-five (45) days after receiving the request or within such a shorter period as may be applicable to students with disabilities. Upon the request of the viewer, a record shall be reproduced, unless said record is copyrighted, or otherwise restricted, and the viewer may be charged a fee equivalent to the cost of handling and reproduction. Based upon reasonable requests, viewers of education records will receive explanation and interpretation of the records.

The Board shall maintain a record of each request for access and each disclosure of personally identifiable information. Such disclosure records will indicate the student, person viewing the record, their legitimate interest in the information, information disclosed, date of disclosure, and date parental/eligible student consent was obtained (if required).

Only "directory information" regarding a student shall be released to any person or party, other than the student or his/her parent, without the written consent of the parent, or, if the student is an eligible student, without the written consent of the student, except as provided by applicable law.

Any parent or eligible student who refuses to allow disclosure of directory data and who participates in the extra-curricular activity must complete the appropriate acknowledgement, which includes a limitation on the refusal to disclose directory information obtained during the course of the student's participation in extra-curricular activities.

In accordance with Federal and State law, the Board shall release the names, addresses, District assigned e-mail addresses (if available), and telephone listings of secondary students to a recruiting officer for any branch of the United States Armed Forces or an institution of higher education who requests such information. Consistent with parental rights, the Board directs building and program administrators to:

- A. notify parents in writing of any surveys, analyses, or evaluations, which may reveal any of the information, as identified in A-H above, in a timely manner, and which allows interested parties to request an opportunity to inspect the survey, analysis, or evaluation; and the administrator to arrange for inspection prior to initiating the activity with students;

Parents have the right to inspect, upon request, any instructional material used as part of the educational curriculum of the student. The parent will have access to the instructional material within a reasonable period of time after the request is received by the building principal. The term instructional material means instructional content that is provided to a student, regardless of its format, including printed and representational materials, audio-visual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). The term does not include academic tests or assessments.

For purposes of this policy, the term "parent" includes a legal guardian or other person standing in loco parentis (such as grandparent or stepparent with whom the child lives, or a person who is legally responsible for the welfare of the child).

7440.01 - VIDEO SURVEILLANCE AND ELECTRONIC MONITORING

The Board authorizes the use of video surveillance and electronic monitoring equipment at various facilities and school sites throughout the District and on school buses. Wherever the terms video surveillance or electronic monitoring are used, such reference includes both video and audio surveillance as possible technologies employed.

The District Administrator is responsible for determining where to install and operate fixed-location video surveillance/electronic monitoring equipment in the District. The determination of where and when to use video surveillance/electronic monitoring equipment will be made in a nondiscriminatory manner. Video surveillance/electronic monitoring equipment may be placed in common areas in school buildings (e.g. school hallways, entryways, the front office where students, employees and visitors are permitted to freely come and go, gymnasiums, cafeterias, libraries), the school parking lots and other outside areas, and in school buses. Except in extraordinary circumstances and with the written authorization of the District Administrator, video surveillance/electronic monitoring equipment shall not be used in areas where persons have a reasonable expectation of privacy (e.g. restrooms, locker rooms, changing areas, private offices (unless there is express consent given by the office occupant),

or conference/meeting rooms), or in individual classrooms during instructional times. Security staff and administrators are authorized to carry and use portable video cameras when responding to incidents.

Any person who takes action to block, move, or alter the location and/or viewing angle of a video camera shall be subject to disciplinary action.

Legible and visible signs shall be placed at the main entrance to buildings and in the areas where video surveillance/electronic monitoring equipment is in use to notify people that their actions/behavior are subject to being monitored/recorded, which may include video footage, audio recording, or both. Additionally, the Superintendent is directed to annually notify parents and students through the Student Handbook, and staff via the Staff Handbook(s), of the use of video surveillance/electronic monitoring systems in their schools which may include either video or audio footage, or both. In cases approved by the District Administrator, camera surveillance may be used for investigatory purposes without staff, student, or public notice if the usage is calculated to further investigation into misconduct believed to have occurred or believed to be ongoing.

Any information obtained from video surveillance/electronic monitoring systems may only be used to support the orderly operation of the School District's schools and facilities, and for law enforcement purposes, and not for any other purposes. As such, recordings obtained through the use of video surveillance/electronic monitoring equipment may be used as evidence in any disciplinary proceedings, administrative proceeding or criminal proceeding, subject to Board policy and regulations. Further, such recordings may become a part of a student's education record or staff member's personnel file.

The Board will not use video surveillance/electronic monitoring equipment to obtain information for the purpose of routine staff appraisal/evaluation or monitoring; however, video footage captured in the normal course of surveillance which shows information pertinent to staff performance or conduct may be used for that purpose.

Additionally, prerecorded lessons or observations of online or virtual learning sessions may be included as part of an employee's evaluation.

Further, if an employee is assigned to work remotely (i.e., telework), the administration is authorized to conduct observations that consist of the supervisor reviewing video-recordings of the employee working and/or watching the employee perform his/her job responsibilities through means of a live-stream that includes both video and audio.

Additionally, nothing herein shall prevent the administration from using information gathered through electronic means (i.e., viewing a video-recording or live-stream of an employee working) for employment purposes, including but not limited to completing components of an evaluation.

Recordings that capture students may be student records and as such will be treated as confidential, subject to the Board's public records and student records policies.

Retention, Secure Storage, Access to and Disposal of Video Recordings

The Board shall maintain video surveillance/electronic monitoring recordings for a limited period. Any request to view a recording under this policy must be made within seven (7) days of the event/incident in order to assure its availability. Inquiries after that time period may be available depending on current retention capabilities. Unless a is separated and maintained for some reason by the District, any recording may be destroyed after fourteen (14) days. If, however, action is taken by the Board/administration, as a result of a formal complaint or incident, recordings shall be kept consistent with the Board's record retention policy depending on the nature of the video record retained, but for a minimum of one (1) year from the date of the action taken.

Video recordings, if stored on a removable/portable device or on a locally hosted server, when not in use, shall be stored in a locked, fire-resistant cabinet or room in an area to which students and the public do not normally have access. The recordings must be clearly and properly labeled and entered into a storage log. Any video data stored on a cloud-based server system must be stored pursuant to a vendor agreement that assures the confidentiality of data accessible only to school officials.

Access to and viewing of video recordings is limited to authorized personnel. The building principal is responsible for maintaining a proper audit trail for all video recordings (i.e., logs must be maintained of all instances of access to, and use of, recorded material – the log must document the person accessing the recording, the date and time of access, and the purpose). The building principal shall approve requests for access to recorded and stored video images. The building principal may authorize the viewing of recorded images in the event of an ongoing law enforcement investigation, an incident involving property damage or loss, or for other reasons deemed appropriate.

All video recordings to be taken off-site in any portable format must be signed out by the law enforcement officer and the building principal. When returned, the requestor who originally signed the recording out and the building principal shall sign the recording back in. Video files should not be transmitted electronically to sources outside the District except as required or permitted by law and only with the approval of the District Administrator.

All video surveillance/electronic monitoring recording media shall be considered legal evidence and treated as confidential or as directed by Board counsel. The release of original video recordings to individuals or outside agencies may only occur pursuant to subpoena or court order after the same has been reviewed by Board counsel.

Original video recordings shall never be edited or manipulated in any manner. When video recordings are requested by any law enforcement agency as part of an ongoing investigation, a duplicate may be provided for that purpose. The original media shall be protected from accidental overwrite or erasure during the duplicating process. Nothing in this paragraph prohibits the redaction of personally identifiable information from duplicated media when mandated by FERPA.

Video recordings may never be sold publicly, viewed or distributed in any other fashion except as provided for by Board policy and this guideline, and consistent with State and Federal law.

Devices containing video recordings, scheduled to be destroyed must be securely disposed of in such a way that the personal information cannot be reconstructed or retrieved (e.g. shredding, burning, magnetically erasing the personal information).

This policy does not address or cover instances where school officials record a specific event (e.g. a play, music performance, athletic contest, graduation, or Board meeting), or an isolated instance where a classroom is video recorded for educational or research purposes. Authorized video recording for educational, instructional and/or research purposes is permitted and is not addressed by this policy.

Video surveillance is to be implemented in accordance with this policy and the related guidelines, and consistent with the school safety plan. The Board will not accept or tolerate the improper use of video surveillance/electronic monitoring equipment and will take appropriate action in any cases of wrongful use of this policy.

8405 - ENVIRONMENTAL HEALTH AND SAFETY PROGRAM

The Board recognizes its responsibility to provide students, employees, and visitors with a safe and healthful environment. To this end, the Board directs the District Administrator to develop a comprehensive program designed to provide a healthy, safe, and secure environment on District property and at District-sponsored activities. To achieve this, it is the intent of the Board that the District will avail itself of current, proven technologies in the fields of health, safety, and environmental sciences.

INDOOR ENVIRONMENTAL QUALITY PLAN (IEQ)

In accordance with the District's recognition of the importance of a safe and healthful environment to the educational atmosphere, the District Administrator shall develop guidelines to provide for IEQ monitoring and maintenance. The plan developed shall be implemented no later than February 2013. The following must be included in the plan the District establishes:

- A. an employee designated to serve as the IEQ Coordinator for the District.
- B. the following strategies shall be delineated by the IEQ Coordinator
 - 1. methods for communicating with parents, students and other employees regarding any IEQ concerns and remediation plans related to such concerns;
 - 2. a complaint procedure for IEQ concerns of parents, students, or employees;
 - 3. developing a schedule of inspections and routine evaluation of each school buildings' environmental standards consistent with all policies of the District and establish guidelines for remediation of any problems identified in the course of any evaluation or inspection;
 - 4. at least annually review the management plan and provide an update to the Board; and
 - 5. identify additional Board policies governing IEQ issues for consideration.
- C. provides for training on environmental quality standards for maintenance employees and for the IEQ District coordinator;
- D. develops a schedule of and standards for routine maintenance of District properties, including standards for.

The District shall provide a copy of the plan implemented to any person upon request.

STUDENT, EMPLOYEE, AND VISITOR HEALTH AND SAFETY

The District shall develop and implement an environmental health and safety program that is positive, proactive, integrates responsibilities within the District, and promotes and incorporates the following:

- A. Procedures describing a hazard identification and abatement program that requires the periodic inspection of District facilities, the implementation of immediate and programmed corrective actions when deemed necessary by such inspections, and the development of a District-wide hazard reporting procedure that enables employee/stakeholder participation. This program should also provide procedures for identifying and responding to hazards that are created by outside entities, inspecting activities of contractors, and inspecting new facilities to determine whether appropriate requirements for environmental health and safety have been met.
- B. Procedures that promote environmental health and safety awareness among employees, students, and stakeholders. These procedures shall include, but not be limited to, the

establishment of a program of regular communication with students, employees, and stakeholders about pertinent safety and health issues through available mediums in the District and the establishment of a District safety committee.

- C. Procedures directed toward the safety and health of students during transportation to and from school, at school, and during participation in school-related activities. These procedures shall include, but not be limited to, promoting bus safety for students, assessing the safety of school traffic patterns, operating school clinics, administering medication and medical treatment, promoting laboratory and shop safety, promoting safety in sports and other outdoor activities, inspecting playground equipment and promoting safety on playgrounds, and assessing environmental exposure.
- D. Procedures related to District employee health and safety issues that include, but are not limited to, provision of work areas free from recognized hazards and programs that are required by Federal and State law, and defining employer and employee responsibilities and expectations related to health and safety.
- E. Procedures describing an accident reporting and investigation system that provides for identification of root causes, determination of remedial and programmed corrective actions, and communication about accidents to employees and stakeholders.
- F. Procedures for foreseeable emergencies and fire prevention.
- G. Procedures relating to recordkeeping required by State or Federal law.

PHASE-OUT/BANNED PRODUCTS

The District Administrator shall require that any chemicals, insecticides, or other materials that the Federal government is phasing out and/or banning by a certain date be immediately banned from use on Board property.

ANIMALS IN CLASSROOMS

Use of animals in classrooms shall be limited to those that support the educational mission, taking into consideration that some animals can cause or exacerbate allergic reactions, spread bacterial infections, or cause damage and create a hazard if they escape from confinement. Animals in classrooms shall be kept in a healthy condition in appropriate cages or tanks, which are kept clean. (See AG 8405A). Prior approval of the building principal is required before any animal may be kept in a classroom.

INDOOR AIR QUALITY – MICROBIAL ABATEMENT

The Board recognizes that excessive moisture levels within the schools can lead to conditions that are optimum for the development of biological contaminants, such as mold, fungi and other

microbials on building surfaces. The Board further recognizes that the presence of these contaminants can be harmful on contact with respiratory tissue.

Contributing factors to excessive moisture levels include the following:

- A. roof leaks
- B. structural defects in the building
- C. improperly controlled humidity levels
- D. faulty HVAC systems

As preventative measures, the District shall do the following:

address prevention of water intrusion as a priority indoor air quality (IAQ) issue and implement strategies toward its elimination

- A. maintain environmental conditions in occupied areas that are in compliance with applicable regulations and strive to conform to consensus industry standards
- B. implement a preventative maintenance program for HVAC systems which shall include, but not be limited to, periodic filter replacement, inspection, cleaning and disinfecting processes, and procedures to eliminate the contribution to indoor air quality problems caused by this equipment
- C. implement a system for insuring materials used and purchased for use in the construction, furnishing and maintenance, including cleaning of facilities, do not contribute to the health hazards to employees and students by degrading the quality of indoor air. In addition, activities that create indoor air quality health hazards shall not be permitted

In addition, the District Administrator shall develop administrative guidelines for the proper monitoring of the factors that contribute to excessive moisture and for the development of mitigation plan when, and if, problems with IAQ are identified.

DIESEL EXHAUST AND SCHOOL BUS IDLING

In accordance with the Environmental Protection Agency's initiative to reduce pollution that is caused by school buses on school property, the Board will take the recommended steps to reduce the negative effect of diesel exhaust on indoor and outdoor air quality on school

campuses. This effort shall include, but not be limited to, reducing bus idling time and reinforcing smart driving practices.

The District Administrator shall develop the administrative guidelines necessary to establish these practices in the District (see AG 8615).

POLLUTION CONTROL AND PREVENTION

In an effort to comply with the environmental policy and applicable regulations, the District shall develop and implement procedures designed to prevent air and water pollution, minimize or eliminate waste streams where possible, and identify possible sources of air and water pollution as required by State and Federal law.

USE OF FREE-FLOWING MERCURY CONTAINING PRODUCTS

The District shall not purchase or use for any reason free-flowing elemental mercury.

The District shall not purchase or use any products containing mercury as those products are defined by applicable State law, unless no reasonable alternative product is available and the product with the lowest mercury content is used. This rule does not apply to products whose purchase is required by Federal law or products whose only mercury content is in a button cell battery.

2260.01- SECTION 504/ADA PROHIBITION AGAINST DISCRIMINATION BASED ON DISABILITY

Pursuant to Section 504 of the Rehabilitation Act of 1973 ("Section 504"), the Americans with Disabilities Act of 1990, as amended ("ADA"), and the implementing regulations (collectively "Section 504/ADA"), no otherwise qualified individual with a disability shall be excluded from participation in, denied the benefits of, or subjected to discrimination under any program or activity receiving Federal financial assistance solely by reason of disability. The Board does not discriminate in admission or access to, participation in, treatment in its programs or activities. As such, the Board's policies and practices will not discriminate against students with disabilities and the Board will make its facilities, programs, and activities accessible to qualified individuals with disabilities. No discrimination will be knowingly permitted against any individual with a disability on the sole basis of that disability in any of the programs, activities, policies, and/or practices in the District.

Notice of the Board's policy on nondiscrimination in employment practices and the identity of the School District's Compliance Officer(s) (see below) will be published on the District's website, posted throughout the District, and included in the District's recruitment statements or general information publications.

Free Appropriate Public Education

The Board is committed to identifying, evaluating, and providing a free appropriate public education ("FAPE") to students with disabilities within its jurisdiction who are determined eligible for special education and related services under the Individuals with Disabilities Education Act ("IDEA") or Section 504, regardless of the nature or severity of their disabilities.

If a student has a physical or mental impairment that significantly limits one or more major life activities (see Definitions below), the Board shall provide the student a FAPE. An appropriate education may include regular or special education and related aids and services to accommodate the unique needs of students with disabilities. For students with disabilities who are not eligible for specially designed instruction under the IDEA, the related aids and services (including accommodations/modifications/interventions) they need in order to have their needs met as adequately as the needs of students without disabilities are met shall be delineated, along with their placement, in a Section 504 Plan (Form 2260.01A F13).

Parents/guardians/custodians ("parents") are invited and encouraged to participate fully in the evaluation process and development of a Section 504 Plan. The quality of education services provided to students with disabilities shall be equal to the quality of services provided to students without disabilities.

The Board is committed to educating (or providing for the education of) each qualified student with a disability within its jurisdiction with students without disabilities to the maximum extent appropriate. Generally, the District will place a student with a disability in the general education environment unless it is demonstrated that the education of the student in the general education environment, even with the use of supplementary aids and services, cannot be achieved satisfactorily. If the District places a student in a setting other than the general education environment, it shall take into account the proximity of the alternate setting to the student's home. If the Board operates a separate class or facility that is identified as being provided for

students with disabilities, the facility, program, and activities and services must be comparable to the facilities, programs, and activities and services offered to students without disabilities.

The District will provide non-academic extra-curricular services and activities in such a manner as is necessary to afford qualified students with disabilities an equal opportunity for participation in such services and activities. Nonacademic and extra-curricular services and activities may include counseling services, athletics, transportation, health services, recreational activities, special interests groups or clubs sponsored by the District, referrals to agencies that provide assistance to individuals with disabilities, and employment of students. In providing or arranging for the provision of meals and recess periods and nonacademic and extracurricular services and activities, including those listed above, the District will verify that students with disabilities participate with students without disabilities in such services and activities to the maximum extent appropriate.

In accordance with Section 504, parents and students shall be notified of their right to file an internal complaint regarding an alleged violation, misinterpretation, or misapplication of Section 504. In addition, students and their parents shall be notified of their right to file a complaint with the U.S. Department of Education's Office for Civil Rights ("OCR"). Finally, students and parents shall be advised of their right to request a due process hearing before an Impartial Hearing Officer ("IHO") regarding the identification, evaluation, or educational placement of persons with disabilities, and their right to examine relevant education records. (See also AG 2260.01B - Section 504/ADA - Complaint and Due Process Procedures)

Definitions

Words used in this policy shall have those meanings defined herein; words not defined herein shall be construed according to their plain and ordinary meanings.

Complainant: is the individual who alleges or is alleged to have been subjected to discrimination/retaliation, regardless of whether the person files a formal complaint or is pursuing an informal resolution to the alleged discrimination/retaliation.

Respondent: is the individual who is alleged to have engaged in discrimination/retaliation, regardless of whether the Complainant files a formal complaint or is seeking an informal resolution to the alleged discrimination/retaliation.

District community: means students, District employees (i.e., administrators and professional and support staff), and Board members, agents, volunteers, contractors, or other persons subject to the control and supervision of the Board.

Third Parties: include but are not limited to guests and/or visitors on District property (e.g., visiting speakers, participants on opposing athletic teams, parents), vendors doing business with or seeking to do business with the Board, and other individuals who come in contact with members of the District community at school-related events/activities (whether on or off District property).

Day(s): Unless expressly stated otherwise, the term “day” or “days” as used in this policy means business day(s) (i.e., a day(s) that the District office is open for normal operating hours, Monday – Friday, excluding State-recognized holidays).

Individual with a disability: means a person who has, has a record of, or is regarded as having, a physical or mental impairment that substantially limits one or more major life activities.

Major Life Activities

Major life activities are functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, eating, sleeping, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, sitting, reaching, interacting with others, and working.

Major life activities also include the operation of a major bodily function, including, but not limited to, functions of the immune system, special sense organs and skin, normal cell growth, and digestive, genitourinary, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, hemic, lymphatic, musculoskeletal and reproductive functions. The operation of a major bodily function includes the operation of an individual organ within a body system.

Impairment That Substantially Limits a Major Life Activity

The determination of whether an impairment substantially limits a major life activity must be made without regard to the ameliorative effects of mitigating measures such as medication, medical supplies, equipment or appliances, low-vision devices (not including ordinary eyeglasses or contact lenses), prosthetics (including limbs and devices), hearing aids and cochlear implants or other implantable hearing devices, mobility devices, oxygen therapy equipment or supplies, assistive technology, reasonable accommodations or auxiliary aids or services, or learned behavioral or adaptive neurological modifications.

An impairment that is episodic in nature or in remission is considered a disability if it would substantially limit a major life activity when active.

Qualified Individual with a Disability

With respect to public preschool, elementary, and secondary educational services, a qualified individual with a disability means a student with a disability:

- A. who is of an age during which persons without disabilities are provided educational services;
- B. who is of any age during which it is mandatory under Wisconsin law to provide educational services to persons with disabilities; or
- C. to whom the State is required to provide a free appropriate public education pursuant to the IDEA.

With respect to vocational education services, a qualified individual with a disability means a student with a disability who meets the academic and technical standards requisite to admission or participation in the vocational program or activity. The Board will not deny a student with disability access to its vocational education programs or courses due to architectural and/or equipment barriers, or because the student needs related aids or services to receive an appropriate education.

With respect to employment, a qualified individual with a disability means the individual satisfies the requisite skill, experience, education and other job-related requirements of the employment position the individual holds or desires and can perform the essential functions of the job in question, with or without reasonable accommodation.

Reasonable Accommodation

With respect to employment, the Board will provide a reasonable accommodation to a qualified individual who has an actual disability or who has a record of a disability, unless the accommodation would impose an undue hardship on the operation of the Board's program and/or activities. A reasonable accommodation is not required for an individual who is merely regarded as having a disability.

Facilities

No qualified person with a disability will be denied the benefits of, excluded from participation in, or otherwise subjected to discrimination under any program or activity to which Section 504/ADA applies because the District's facilities are inaccessible to or unusable by persons with disabilities.

For facilities constructed or altered after June 3, 1977, the District will comply with applicable accessibility standards. For those existing facilities constructed prior to June 3, 1977, the District is committed to operating its programs and activities so that they are readily accessible to persons with disabilities.

High School Principal
920-668-8686 Ext. 547
321 N. 2nd Street

Cedar Grove, WI 53013

The name(s), title(s), and contact information of this/these individual(s) will be published annually:

- A. on the School District's website.
- B. in the staff and student handbooks.

The COs are responsible for coordinating the District's efforts to comply with applicable Federal and State laws and regulations, including the District's duty to address in a prompt and equitable manner any inquiries or complaints regarding discrimination/retaliation or denial of equal access. The COs also shall verify that proper notice of nondiscrimination for Title II of the Americans with Disabilities Act (as amended), Title VI and Title VII of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973 (as amended), and the Age Discrimination in Employment Act of 1975 is provided to staff members and the general public. A copy of each of the Acts and regulations on which this notice is based will be made available upon request from the CO.

The Board will provide for the prompt and equitable resolution of complaints alleging violations of Section 504/ADA. (See below.) The Board further will establish and implement a system of procedural safeguards in accordance with Section 504, including the right to an impartial due process hearing, for parents of students with disabilities. Finally, students and parents will be advised of their right to request a due process hearing before an Impartial Hearing Officer (IHO) regarding the identification, evaluation or educational placement of persons with disabilities, including the right to participation by the student's parents and representation of counsel, and their right to examine relevant education records.

Reports and Complaints of Discrimination and Retaliation

Students and District employees are required, and all other members of the District community and Third Parties are encouraged, to promptly report incidents of discrimination and/or retaliation to an administrator, supervisor, or other District official so that the Board may address the conduct. Any teacher, administrator, supervisor, or other District employee or official who receives such a complaint shall file it with the CO within two (2) days.

Members of the District community, which includes students or Third Parties, who believe they have been discriminated/retaliated against are entitled to utilize the complaint process set forth below. Initiating a complaint, whether formally or informally, will not adversely affect the Complainant's employment or participation in educational or extra-curricular programs. While there are no time limits for initiating complaints under this policy, individuals should make every effort to file a complaint as soon as possible after the conduct occurs while the facts are known and potential witnesses are available.

A student and/or parent may initiate the internal complaint procedure when they believe that a violation, misapplication or misinterpretation of Section 504 has occurred. Additionally, the following procedure may be used for any disagreement with respect to actions regarding the

identification, evaluation, or educational program or placement of students who are identified as having a disability or believed to have a disability pursuant to Section 504 and are not eligible under the IDEA, except in the case of disciplinary actions where the provisions of the Student Code of Conduct apply. Use of the internal complaint procedure is not a prerequisite to the pursuit of other remedies, including the filing of a complaint with the OCR or requesting an impartial due process hearing.

If during an investigation of alleged bullying, aggressive behavior and/or harassment in accordance with Policy 5517.01 - Bullying, the Principal believes that the reported misconduct may constitute discrimination based on a Protected Class, the Principal shall report the act to one of the COs, who shall investigate the allegation in accordance with this policy. While the CO investigates the allegation, the Principal shall suspend the Policy 5517.01 investigation to await the CO's written report. The CO shall keep the Principal informed of the status of the Policy 2260 investigation and provide the Principal with a copy of the resulting written report.

The COs will be available during regular school/work hours to discuss concerns related to discrimination/retaliation. COs shall accept reports of discrimination/retaliation directly from any member of the District community or a Third Party and reports that initially are made to another District employee. Upon receipt of a report of alleged discrimination/retaliation, the CO will contact the Complainant and begin either an informal or formal complaint process (depending on the Complainant's request and the nature of the alleged discrimination/retaliation) or designate a specific individual to conduct such a process.

The CO will provide a copy of this policy to the Complainant and the Respondent. In the case of a formal complaint, the CO will prepare recommendations for the District Administrator or oversee the preparation of such recommendations by a designee. All members of the District community must report incidents of discrimination/retaliation that are reported to them to the CO within two (2) days of learning of the incident/conduct.

Any District employee who directly observes discrimination/retaliation of a student is obligated, in accordance with this policy, to report such observations to one of the COs within two (2) days. Additionally, any District employee who observes an act of discrimination/retaliation is expected to intervene to stop the misconduct unless circumstances make such an intervention dangerous, in which case the staff member should immediately notify other District employees and/or local law enforcement officials, as necessary, to stop the misconduct. Thereafter, the CO/designee must contact the Complainant if age eighteen (18) or older or the Complainant's parents/guardians if the student is under the age eighteen (18) within two (2) days to advise of the Board's intent to investigate the alleged wrongdoing.

Investigation and Complaint Procedure (see Form 2260.01B F2)

The CO shall investigate any complaints brought under this policy. Throughout the course of the process as described herein, the CO should keep the parties reasonably informed of the status of the investigation and the decision-making process.

All complaints must include the following information to the extent known: a description of the alleged violation, the identity of the Respondent; a detailed description of the facts upon which

the complaint is based (i.e., when, where, and what occurred); a list of potential witnesses; and the resolution sought by the Complainant.

If the Complainant is unwilling or unable to provide a written statement including the information set forth above, the CO shall ask for such details in an oral interview. Thereafter the CO will prepare a written summary of the oral interview, and the Complainant will be asked to verify the accuracy of the report by signing the document.

Upon receiving a complaint, the CO will consider whether any action should be taken during the investigatory phase to protect the Complainant from further discrimination or retaliation, including but not limited to a change of work assignment or class schedule for the Complainant and/or the Respondent. In making such a determination, the CO should consult the Complainant to assess whether the individual agrees with the proposed action. If the Complainant is unwilling to consent to the proposed change, the CO still may take whatever actions are deemed appropriate in consultation with the District Administrator.

As soon as appropriate in the investigation process, the CO will inform any individual named by the Complainant in connection with an alleged violation of this policy, that a complaint has been received. The person(s) must also be provided an opportunity to respond to the complaint.

Within two (2) days of receiving the complaint, the CO or designee will initiate an investigation by at a minimum confirming receipt of the complaint with the Complainant and informing the Complainant of the investigation process.

Investigations shall be completed promptly. What constitutes promptness will depend on the complexity of the issues, the number of incidents or factual elements, the number of witnesses and documents to be consulted, and the availability of witnesses and other evidence. The CO shall keep the Complainant reasonably informed of the investigation's progress. The investigation will include:

- A. interview(s) with the Complainant;
- B. interview(s) with the Respondent;
- C. interviews with any other witnesses who reasonably may be expected to have any information relevant to the allegations, as determined by the CO;
- D. consideration of any documentation or other information presented by the Complainant, Respondent, or any other witness which is reasonably believed to be relevant to the allegations, as determined by the CO.

At the conclusion of the investigation, the CO or the designee shall prepare and deliver a written report to the District Administrator which summarizes the evidence gathered during the investigation and provides recommendations based on the evidence and the definition of discrimination/retaliation as provided in Board policy and State and Federal law as to whether the Respondent has engaged in harassment/retaliation of the Complainant. The CO's recommendations must be based upon the totality of the circumstances. In determining if discrimination or retaliation occurred, a preponderance of evidence standard will be used.

The CO may consult with the Board's attorney during the course of the investigatory process and/or before finalizing the report to the District Administrator.

In cases where no District CO is able to investigate a complaint due to concerns regarding conflicts, bias or partiality, or for other reasons that impair the CO's ability to conduct an investigation, the CO may in consultation with the District Administrator or Board President, if the matter involves the District Administrator, engage outside legal counsel to conduct the investigation consistent with this policy.

Absent extenuating circumstances, within five (5) days of receiving the report of the CO or designee, the District Administrator must either issue a final decision regarding whether the charges have been substantiated or request further investigation. A copy of the District Administrator's final decision will be delivered to the Complainant and to the Respondent. The District Administrator may redact information from the decision in the event the release of information raises concerns regarding the integrity of the complaint or investigation process. The Board authorizes the District Administrator to consult with legal counsel to determine the extent to which information in an investigation report must be provided to either the Complainant or Respondent.

If the District Administrator requests additional investigation, the District Administrator must specify the additional information that is to be gathered, and such additional investigation must be completed within five (5) days. At the conclusion of the additional investigation, the District Administrator must issue a final written decision as described above. The decision of the District Administrator will be reviewed by the Board upon request.

If the Complainant feels that the decision does not adequately address the complaint s/he may appeal the decision to the State Superintendent of Public Instruction.

The Board reserves the right to investigate and resolve a complaint or report of discrimination/retaliation regardless of whether the Complainant pursues the complaint. The Board also reserves the right to have the complaint investigation conducted by an external person in accordance with this policy, or in such other manner as deemed appropriate by the Board or its designee.

The parties may be represented, at their own cost, at any of the above-described interviews/meetings.

The right of a person to a prompt and equitable resolution of the complaint shall not be impaired by the person's pursuit of other remedies such as the filing of a complaint with the OCR or ICRC, the filing of charges with local law enforcement, or the filing of a civil action in court. Use of this internal complaint process is not a prerequisite to the pursuit of other remedies.

Additional School District Action

If the evidence suggests that any conduct at issue violates any other policies of the Board, is a crime, or requires mandatory reporting under the Children's Code (Sec. 48.981, Wis. Stat.), the CO or District Administrator shall take additional such actions as necessary and appropriate

under the circumstances, which may include a report to the appropriate social service and/or law enforcement agency charged with responsibility for handling such investigations.

Privacy/Confidentiality

The District will employ all reasonable efforts to protect the rights of the Complainant, the Respondent(s), and the witnesses as much as possible, consistent with the District's legal obligations to investigate, take appropriate action, and comply with any discovery or disclosure obligations. Confidentiality cannot be guaranteed, however. All Complainants proceeding through the investigation process should be advised that as a result of the investigation, allegations against individuals may become known to those individuals, including the Complainant's identity.

All records generated under the terms of this policy shall be maintained as confidential to the extent permitted by law. Confidentiality, however, cannot be guaranteed. Additionally, the Respondent must be provided the Complainant's identity.

During the course of an investigation, the CO or designee will instruct each person who is interviewed about the importance of maintaining confidentiality. Any individual who is interviewed as part of an investigation is expected not to disclose to third parties any information that is learned or provided during the course of the investigation.

Remedial Action and Monitoring

If warranted, appropriate remedial action shall be determined and implemented on behalf of the Complainant, including but not limited to counseling services, reinstatement of leave taken due to the discrimination, the opportunity to complete assignments missed due to absences related to the discrimination, or other appropriate action.

The Board may appoint an individual, who may be a District employee, to follow up with the Complainant to ensure no further discrimination or retaliation has occurred and to take action to address any reported occurrences promptly.

Sanctions and Disciplinary Action

The Board shall vigorously enforce its prohibitions against discrimination by taking appropriate action reasonably calculated to stop and prevent further misconduct.

While observing the principles of due process, a violation of this policy may result in disciplinary action up to and including the discharge of an employee or the suspension/expulsion of a student. All disciplinary action will be taken in accordance with applicable State law and the terms of any relevant code of conduct.

When imposing discipline, the District Administrator shall consider the totality of the circumstances involved in the matter, including the age and maturity level of any student involved. In those cases where discrimination/retaliation is not substantiated, the Board may consider whether the alleged conduct nevertheless warrants discipline in accordance with other Board policies.

Where the Board becomes aware that a prior disciplinary action has been taken against the Respondent, all subsequent sanctions imposed by the Board and/or District Administrator shall be reasonably calculated to end such conduct, prevent its recurrence, and remedy its effect.

Impartial Due Process Hearing

A student and/or parent may request an impartial due process hearing regarding the identification, evaluation, or placement of a student with a disability. The student and/or parent may but are not required to first exhaust the above complaint procedure before requesting an impartial due process hearing. The parent of a student with a disability and a student over eighteen (18) years old (if not under guardianship) or an emancipated student has the right to: (1) examine records or documents that the school relied on in making its decision about the student; (2) request an impartial due process hearing that provides the parent and/or student with an opportunity to participate and permits representation by an attorney; and (3) have an opportunity for review of the decision made at the hearing.

A request for an impartial due process hearing should be made as soon as possible following a dispute in order to ensure that witnesses are available but no more than two years following the date of the matter in dispute. A request for an impartial due process hearing must be put in writing, identify the specific circumstances or areas of dispute that have given rise to the request for a hearing, and offer possible solutions to the dispute. The request for due process hearing must be filed with a District CO within the time limits specified above. The CO is available to assist individuals in filing a request for an impartial due process hearing.

When a request for an impartial due process hearing is received, the aggrieved party will have the opportunity to receive a hearing conducted by an IHO (i.e., by a person not employed by the District, not involved in the education or care of the child, and not having a personal or professional interest that would conflict with the IHO's objectivity in the hearing). The District will maintain a list of trained IHOs that may include IDEA/Article 7 hearing officers, attorneys, and Directors of Special Education outside the District. The District CO will appoint an IHO from that list, and the District will bear the costs of the hearing. The appointment of an IHO will be made within fifteen (15) days after the request for an impartial due process hearing is received.

A party to an impartial due process hearing has the right to:

- A. be accompanied and advised by legal counsel and individuals with special knowledge or training with respect to the problems of students with disabilities at the party's own cost;
- B. present evidence and confront, cross-examine and compel the attendance of witnesses;
- C. a written or electronic verbatim record of the hearing; and
- D. written findings of fact and conclusions of law setting forth the reasons for the decision.

The IHO shall conduct the impartial due process hearing within a reasonable period of time (i.e., not to exceed ninety (90) days from the request for a hearing, unless this time-frame is mutually waived by the parties or is determined by the IHO to be impossible to comply with due to

extenuating circumstances). The IHO will give the parent and/or student written notice of the date, time and place of the hearing. Notice will be given no less than twenty-one (21) days prior to the date of the hearing, unless otherwise agreed to by the parent and/or student. The notice shall include:

- A. a statement of the time, place and nature of the hearing;
- B. a statement of the legal authority and jurisdiction under which the hearing is being held;
- C. a reference to the particular section(s) of the statutes and rules involved;
- D. a statement of the availability of relevant records for examination;
- E. a short and plain statement of the matters asserted; and
- F. a statement of the right to be represented by counsel.

The IHO shall conduct the hearing in a manner that will afford all parties a full and fair opportunity to present evidence and otherwise to be heard. The parent and/or student may be represented by another person of the parent or student's choice, including an attorney. The IHO shall make a full and complete record of the proceedings.

The IHO shall render a decision in writing to the parties within thirty (30) days following the conclusion of the hearing. The decision will be based solely on the testimony and demonstrative evidence presented at the hearing and include a summary of the evidence (i.e., findings of fact) and the reason for the decision (conclusions of law). The IHO's decision shall include a statement that either party may appeal the decision.

Appeal of the IHO's decision may be made to a Federal court of competent jurisdiction.

Retaliation

Retaliation against a person who makes a report or files a complaint alleging discrimination/retaliation or participates as a witness in an investigation is prohibited. Neither the Board nor any other person may intimidate, threaten, coerce or interfere with any individual because the person opposed any act or practice made by any Federal or State civil rights law, made a report/formal complaint, testified, assisted or participated, or refused to participate in any manner in an investigation, proceeding, or hearing under those laws and/or this policy, or because that individual exercised, enjoyed, aided or encouraged any other person in the exercise or enjoyment of any right granted or protected by those laws and/or this policy.

Retaliation against a person for making a report of discrimination, filing a formal complaint, or participating in an investigation or meeting is a serious violation of this policy that can result in imposition of disciplinary sanctions/consequences and/or other appropriate remedies.

Formal complaints alleging retaliation may be filed according to the internal complaint process set forth above.

The exercise of rights protected under the First Amendment of the United States Constitution does not constitute retaliation prohibited under this policy.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of discriminatory practices. The District Administrator shall provide appropriate information to all members of the District community related to the implementation of this policy and shall provide training for District students and staff where appropriate. All training and information provided regarding the Board's policy and discrimination in general will be age and content appropriate.

The Board shall provide cafeteria facilities in all school buildings where space permits, and will provide food service for the purchase and consumption of lunch for all students.

The Board does not discriminate on the race, color, national origin, age, sex (including gender status, change of sex, sexual orientation, or gender identity), pregnancy, creed or religion, genetic information, handicap or disability, marital status, citizenship status, veteran status, military service (as defined in 111.32, Wis. Students and all other members of the District community and Third Parties are encouraged to promptly report incidents of discrimination and/or retaliation related to the Food Service program to a teacher, administrator, supervisor, or other official so that the Board may address the conduct. See Policy 2260 – Nondiscrimination and Access to Equal Educational Opportunity.

The food-service program shall comply with Federal and State regulations pertaining to the selection, preparation, delivery, consumption, and disposal of food and beverages including but not limited to the current USDA's school meal pattern requirements and the USDA Smart Snacks in School nutrition standards, as well as to the fiscal management of the program. Further, the food-service program shall comply with Federal and State regulations pertaining to the fiscal management of the program, as well as the requirements pertaining to food service hiring and food service manager/operator licensure and certification. In addition, as required by law, a food safety program based on the principles of the Hazard Analysis and Critical Control Point (HACCP) system shall be implemented with the intent of preventing food-borne illnesses. For added safety and security, access to the facility and the food stored and prepared therein shall be limited to food service staff and other authorized persons.

The Board shall approve and implement nutrition standards governing the types of food and beverages that may be sold on the premises of its schools and shall specify the time and place each type of food or beverage may be sold. In adopting such standards, the Board shall:

- A. consider the nutritional value of each food or beverage;
- B. consult and incorporate to the maximum extent possible the dietary guidelines for Americans jointly developed by the United States Department of Agriculture (USDA) and the United States Department of Health and Human Services; and
- C. consult and incorporate the USDA Smart Snacks in School nutrition guidelines.

No food or beverage may be sold on any school premises except in accordance with the standards approved by the Board.

Dietary Modifications

Substitutions to the standard meal requirements shall be made, at no additional charge, for students for whom a health care provider who has prescriptive authority in the State of Wisconsin has provided medical certification that the student's medical condition restricts his/her diet, in accordance with the criteria set forth in 7 C.F.R. Part 15b.

A request for substitutions to the standard meal requirements shall be made, at no additional charge, for students for whom a health care provider with prescriptive authority in the State of Wisconsin has provided medical certification that the student's medical condition necessitates dietary restrictions for the student. The individual making such a request of the Food Service

Director shall be informed that medical certification that the student has a restricted diet, in accordance with the criteria set forth in 7 C.F.R. Part 15b., must be submitted within five (5) school days from a health care provider with prescriptive authority in the State of Wisconsin or the dietary modification may be discontinued until such statement is received.

The medical certification must identify:

- A. the student's medical condition or symptoms of a condition that restricts one (1) or more major life activity or function;
- B. an explanation of how the condition or symptom affects the student's diet; and
- C. the food(s) to be omitted from the student's diet, and the food or choice of foods that must be substituted (e.g., caloric modifications or use of liquid nutritive formula).

On a case by case basis, substitutions to the standard meal requirements may be made, at no additional charge, for students who provide a signed statement from a qualified medical authority that the student cannot consume certain food items due to medical or other special dietary needs, but which does not comply with the requirements above. To qualify for such consideration and substitutions the medical statement must identify:

- A. the medical or dietary need that restricts the student's diet; and
- B. the food(s) to be omitted from the student's diet and the food(s) or choice of foods that may be substituted.

The District may provide a student with a substitute meal without any certification provided that the meal still meets the USDA meal pattern for reimbursement.

For students who need a nutritionally equivalent milk substitute, only a signed request by a parent is required.

Meal Charges

Lunches sold by the school may be purchased by students and staff members and community residents in accordance with the rules of the District's school lunch program.

The operation and supervision of the food-service program shall be the responsibility of the Food Service Director. Food services shall be operated on a self-supporting basis with revenue from students, staff, Federal reimbursement, and surplus food. The Board shall assist the program by furnishing available space, initial major equipment, and utensils. Maintenance and replacement of equipment is the responsibility of the program.

A periodic review of the food-service accounts shall be made by the Business Manager. Any surplus funds from the National School Lunch Program shall be used to reduce the cost of the service to students or to purchase cafeteria equipment. Surplus funds from a-la-carte foods purchased using funds from the nonprofit food service account must accrue to the nonprofit food service account.

Bad Debt

Bad debt incurred through the inability to collect lunch payment from students is not an allowable cost chargeable to any Federal program. Any related collection cost, including legal cost, arising from such bad debt after they have been determined to be uncollectable are also unallowable. District efforts to collect bad debt shall be in accordance with Policy 6152 - Student Fees, Fines, and Charges.

Bad debt is uncollectable/delinquent debt that has been determined to be uncollectable no sooner than the end of the school year in which the debt was incurred. If the uncollectable/delinquent debt cannot be recovered by the School Meals Program in the year when the debt was incurred, then this is classified as bad debt. Once classified as bad debt, non-Federal funding sources must reimburse the NSFSFA for the total amount of the bad debt. The funds may come from the District general fund, state or local funding, school or community organization such as the PTSO, or any other non-federal source. Once the uncollectable/delinquent debt charges are converted to bad debt, records relating to those charges must be maintained in accordance with the record retention requirements in 7 CFR 201.9(b) (17) and 7 CFR 210.15(b).

Negative Account Balances

Students will be permitted to purchase meals from the District's food service using either cash on hand or a food service account. A student may be allowed to incur a negative food service account balance subject to the following conditions.

Students may be permitted to accumulate negative food service account balance as determined by the District Administrator. The District Administrator shall determine the manner of determining permissible account balances by grade level. A student shall not be permitted to purchase a la carte items without sufficient account balance or cash on hand. Likewise, any student that has a negative account balance may not purchase a la carte items with cash unless the student is also able to bring his/her account current.

A student who has exceeded the permissible negative balance amount in his/her account and does not have cash on hand sufficient to purchase a meal will be treated respectfully. The District will provide meals to students with unpaid meal balances without stigmatizing them, will provide parents of students who charge meals with notification when a student charges a meal, and will make efforts to collect the charges incurred by the students so that the unpaid charges are not classified as bad debt at the end of the school year.

If a student has a significant negative lunch account balance, s/he shall be provided a regular reimbursable meal that follows the USDA meal pattern, the cost of which shall continue to accrue to his/her negative lunch account balance.

This policy and any implementing guidelines shall be provided in writing to all households at the start of each school year and to households transferring to the school or School District during the school year. The policy and implementing guidelines will also be provided to all District staff

with responsibility for enforcing the policies. The policy and guidelines will be posted on the District website.

The food-service program may participate in the "Farm to School Program" using locally grown food in school meals and snacks.

No foods or beverages, other than those associated with the District's food-service program, are to be sold during food-service hours.

The District's food service program shall serve only food items and beverages determined by the Food Service Department to be in compliance with the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in Schools nutrition guidelines. Any competitive food items and beverages that are available for sale to students a la carte in the dining area between midnight and thirty (30) minutes following the end of the school day shall also comply with the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition guidelines, and may only be sold in accordance with Board Policy 8550. Foods and beverages unassociated with the food-service program may be vended in accordance with the rules and regulations set forth in Board Policy 8540.

The District Administrator will require that the food service program serve foods in the schools of the District that are wholesome and nutritious and reinforce the concepts taught in the classroom.

The District Administrator is responsible for implementing the food service program in accordance with the adopted nutrition standards.
