New Smyrna Beach High School is please to be able to offer a wide variety of technology and software programs. In order to insure that all members of the high school community benefit from this, certain rules and guidelines have been developed.

ACCESS TO INTERNET

Access to the Internet at New Smyrna Beach High School affords students the benefit of expanding classroom learning dramatically by making available vast resources including original source material from all over the world. While the benefits of Internet use are enormous, parents need to be aware that there are areas of materials not appropriate for high school students. Although the New Smyrna Beach High School faculty and staff make every attempt to eliminate access to controversial material it is possible that your child may encounter such material. Guidelines covered in the Volusia County Student Code of Conduct govern all Internet use. Ultimately, parents/guardians are responsible for setting and conveying the standards that their child should follow. To that end, New Smyrna Beach High School supports and respects families' rights to decide whether or not their children should be permitted access to the Internet.

PARENT PERMISSION FOR INTERNET ACCESS

Having read the above on Internet access, I hereby **GRANT** my son/daughter access to the Internet at New Smyrna Beach High School for educational purposes for the years that my child will be in attendance. I recognize that it is impossible to restrict access to all inappropriate material and will not hold New Smyrna Beach High School, The School Board of Volusia County, and its employees responsible.
