Program Evaluations

The purpose of program evaluations, gauges, and summaries in the Clear Creek Independent School District (CCISD) is multi-faceted and shall result in findings, conclusions, and recommendations that:

- Ensure program alignment with District goals and vision;
- Assess strengths and weaknesses of the program;
- Measure the success of the program in meeting its expressed goals; and/or
- Result in improvements in, revisions to, or discontinuation of the program.

Alignment to Community-based Accountability Pillars

The following program evaluation aligns with the following pillars of the Community-based Accountability System:

- Student Learning and Progress – the program aims to provide lessons, learning activities, and assessments to increase student mastery of required learning standards.
- Professional Learning and Quality Staff – the program aims to offer on-demand professional learning and support to teachers, and the District has led training courses to teachers on best practices of using the program.

Alignment to the CCISD Strategic Plan 2020-2025

- Inspire Student Achievement, Agency and Growth
 1. Expanded learning opportunities to foster growth for each learner – the program aims to accommodate for students' need by providing necessary scaffolding for students with disabilities.
 3. Learning opportunities to ensure each student achieves high levels of learning – the program aims to provide lessons appropriate to multiple learning levels of students with learning disabilities.
 4. Educational tools and learning spaces to improve the student learning experience – the program aims to be a resource for students to access the curriculum at their current level of understanding to promote student engagement.
- Expand the Organization's Capacity
 1. Professional learning supports and resources to enhance employee capacity – the program aims to be supported by training resources produced by the program's company and developed by district staff and instructional specialists.

Alignment to 2021-22 Superintendent Targets

- Resources have been created, revised, and promoted and teams have been established – this evaluation aims to equip stakeholders to identify opportunities to promote the program in areas in which it is effective and to revise it in areas of potential growth.

Background Information: n2y and Alternative Academics/Structured Learning Lab – Learning to Learn

n2y Program Background

According to the company website (www.n2y.com/who-w-are), the stated mission of n2y is that it “provides technology-forward, age-appropriate solutions that enrich the lives of individuals with unique learning needs and those who support them.” This mission began in 1997 when a speech language pathologist created News2You™, a monthly newspaper of current events presented at different reading levels for different students. As the company transformed from a print to a digital platform, it also expanded its offerings to include, first, Unique Learning System®, a standards-based program to increase student access to the general curriculum, and SymbolStix PRIME®, an online repository of symbol sets for creating tools to support communication. While n2y does offer additional educational programs, including classroom management and IEP tools, the three primary components used by CCISD are News2You™, Unique Learning System®, and SymbolStix PRIME®.

News2You™ has morphed from a monthly, print newspaper to a weekly, digital newspaper that contains articles and activities to engage learners in current events. The articles are available in four different reading levels with SymbolStix PRIME® integrated support plus one text-only version. The articles are accessible online or can be printed. The software also supports text to speech.

Unique Learning System® is a resource repository of lessons and activities that are differentiated to allow diverse learners to access the standards-based curriculum. New lessons and activities are released monthly on a three-year cycle with each month presenting a new topic, alternating between science and social studies themes, that is applied across all reading and math content. The lessons, all of which are aligned to state standards, are subdivided into six grade bands: Pre-K, Elementary (K-2), Intermediate (3-5), Middle School (6-8), High School (9-12), and Transition. Each lesson is differentiated to address the learning needs for students of varying ability levels. Between the grade bands and the differentiation, Unique Learning System® provides multiple options to meet the needs of diverse learners. In addition to the lessons and activities, Unique Learning System® allows teachers and team leads the ability to track student progress and monitor IEP goals and objectives.

SymbolStix PRIME® is a comprehensive symbol library with over 60,000 symbols referenced to English, Spanish, and ten other languages. SymbolStix PRIME® provides continuity of symbol use across grade levels and campuses and is integrated in all aspects of n2y such as News2You™ and Unique Learning System®. Additionally, SymbolStix PRIME® allows users to create custom materials that are easily shared digitally or in print.

Alternative Academics and Structured Learning Lab – Learning to Learn Student Background

The CCISD website describes Alternative Academics (AA) as a program within the Department of Special Services in which “[s]tudents...receive modified academic instruction in a structured, consistent, small group setting, accessing the TEKS through pre-requisite skills. Alternative Academic services are designed to provide students with cognitive disabilities a curriculum that encompasses functional and academic skills for communication, social, vocational and independent living skills to support post-secondary school goals” (*Special education*). AA services are administered in a self-contained setting, described as “an instructional arrangement for providing special education instruction and related services for 50 percent or more of the school day on a regular school campus” (Department of Special Services, 12) but not in a general education classroom. In addition to AA, the Department of Special Services also provides support through Structured Learning Lab (SLL) – Learning to Learn (LtoL). The CCISD website describes SLL – LtoL as such: “The purpose of SLL-LtoL is to provide a highly structured, predictable environment for early elementary students with disabilities who require a more restrictive setting to meet their specific communication, social and behavioral needs. Students in SLL-LtoL require intensive instruction to increase functional communication and social skills while working to address problematic behavior interfering in the learning of the student and/or others” (*Special education*).

Alternative Academics and Structured Learning Labs present multiple opportunities and challenges for educating students. First, since alternative academics educates students with intellectual disabilities, educators must balance academic objectives with functional objectives (Sparks, et al, 331). Second, the disabilities manifested among students vary widely and can include any or a combination of the following: intellectual, physical, regulatory, speech/verbal, sensory, health-related, and more. Third, mental, emotional, and physical development among students in alternative academics are highly individualized and do not progress as predictably as neurotypical students. Despite these challenges, however, research studies consistently indicate that, given the proper environment and educational supports and practices, students with intellectual disabilities do exhibit academic and functional growth (Lee, et al, 245; Ryan, et al, 433; Smith, et al, 18; Sparks, et al, 341).

Over the last five years, the percentage of students in CCISD who received alternative academic services averaged 1.36% with a low end of 1.26% in 2017-18 and a high end of 1.48% in 2020-21.¹ The table (Table 1) below displays the student participation counts for alternative academics by school level.

¹ Unless otherwise indicated, student participation numbers will reference Snapshot records, which are collected on the last Friday of October in each academic year.

Table 1: Five-year Alternative Academics/SLL - LtoL Student Participation Counts

	2017-18	2018-19	2019-20	2020-21	2021-22
Total Students in Alternative Academics/SLL - LtoL	533	554	578	602	574
% of Total Enrollment	1.26%	1.31%	1.36%	1.48%	1.41%
High School Students in Alternative Academics	147	149	148	154	146
Intermediate School Students in Alternative Academics	124	129	142	128	110
Elementary School Students in Alternative Academics/SLL - LtoL	262	276	288	320	318
Number of Campuses Housing Alternative Academics/SLL - LtoL Programs	29	29	32	34	33

While the participation counts of students in AA/SLL - LtoL have remained consistent in number and relative percent of the District's total enrollment, further demographic analysis reveals other trends that indicate changes in the composition of students in AA/SLL - LtoL. First, our current year AA/SLL - LtoL students represent a 56% increase in students identified as economically disadvantaged as compared to the AA/SLL - LtoL students in 2017-18. The 56% increase (19.6% absolute increase) in AA/SLL - LtoL students identified as economically disadvantaged is compared to a 22% increase (6.5% absolute increase) in students identified as economically disadvantaged among the total enrollment of the district for the same period of time. Furthermore, the trend of an increasing percentage of economically disadvantaged AA/SLL - LtoL students is consistent overall from 2017-18 to 2021-22 with greater increases during the two most recent years. See the table below for further details.

Table 2: Five-year Alternative Academics/Structured Learning Lab - Learning to Learn Student Participation, Percent Economically Disadvantaged

	2017-18	2018-19	2019-20	2020-21	2021-22
High School	18.7%	25.5%	35.6%	40.4%	45.9%
Intermediate School	33.7%	38.0%	44.8%	47.3%	60.0%
Elementary School	41.2%	37.7%	42.9%	48.8%	57.2%
District Total	35.3%	34.5%	41.5%	46.3%	54.9%

Along racial and ethnic identification, relative percentages of the student population among AA/SLL - LtoL students fluctuated slightly year-to-year. The consistent trend is the increasing representation of Hispanic students among AA/SLL - LtoL students. The table below shows the demographic percentages for race/ethnicity for the five highest populated groups for the last five years.

Table 3: Five-year Alternative Academics/Structured Learning Lab - Learning to Learn Student Participation, Percent by Race/Ethnicity

	2017-18	2018-19	2019-20	2020-21	2021-22
Asian	9.8%	10.1%	8.7%	9.5%	11.0%
Black or African American	13.7%	13.9%	14.4%	12.5%	12.2%
Hispanic	37.5%	37.5%	41.0%	40.7%	43.2%
Two or more races	3.4%	4.0%	3.6%	4.5%	4.4%
White	35.1%	33.9%	32.2%	32.6%	28.6%

Alternative Academics and Structured Learning Lab – Learning to Learn Staffing Background

Thirty-four campuses have supported Alternative Academics/Structured Learning Lab - Learning to Learn programs for at least one of the five years evaluated in this report. These thirty-four campuses include all five comprehensive high schools, all ten intermediate schools, and nineteen elementary schools. During this same period Falcon Pass Elementary has supported both AA and SLL - LtoL. The schools are included in the table below, and the years in which the campus housed a program are indicated.

Table 4: Five-year Alternative Academics SLL - LtoL Campus List

Campus	Years with an AA/SLL - LtoL program
Clear Brook High School	2017-18 through 2021-22
Clear Creek High School	2017-18 through 2021-22
Clear Falls High School	2017-18 through 2021-22
Clear Lake High School	2017-18 through 2021-22
Clear Springs High School	2017-18 through 2021-22
Bayside Intermediate School	2017-18 through 2021-22
Brookside Intermediate School	2017-18 through 2021-22
Clear Creek Intermediate School	2017-18 through 2021-22
Clear Lake Intermediate School	2017-18 through 2021-22
Creekside Intermediate School	2017-18 through 2021-22
League City Intermediate School	2017-18 through 2020-21
Seabrook Intermediate School	2017-18 through 2021-22
Space Center Intermediate School	2017-18 through 2021-22
Victory Lakes Intermediate School	2017-18 through 2021-22
Westbrook Intermediate School	2017-18 through 2021-22
Armand Bayou Elementary School	2019-20 through 2021-22
Bauerschlag Elementary School	2017-18 through 2021-22
Bay Elementary School	2017-18 through 2018-19; 2020-21 through 2021-22
Brookwood Elementary School	2017-18 through 2021-22
Campbell Elementary School	2019-20 through 2021-22
Falcon Pass Elementary School	2017-18 through 2021-22
Goforth Elementary School	2017-18 through 2021-22
Greene Elementary School	2017-18 through 2021-22
Hyde Elementary School	2020-21 through 2021-22
League City Elementary School	2017-18 through 2021-22
McWhirter Elementary School	2017-18 through 2021-22

Campus	Years with an AA/SLL - LtoL program
Mossman Elementary School	2017-18 through 2021-22
North Pointe Elementary School	2019-20 through 2021-22
Parr Elementary School	2017-18 through 2021-22
Robinson Elementary School	2019-20 through 2021-22
Ross Elementary School	2017-18 through 2021-22
Weber Elementary School	2017-18 through 2021-22
Wedgewood Elementary School	2017-18 through 2021-22
Whitcomb Elementary School	2017-18 through 2021-22

Staffing trends have largely mirrored student enrollment trends, with one exception being at intermediate schools during the 2021-22 school year. The table below details the number of AA and SLL – LtoL teachers at each school level and the student to teacher ratio for each school year from 2017-18 to 2020-21.

Table 5: Five-year Alternative Academics/SLL - LtoL Teacher Counts and Student to Teacher Ratios

	2017-18	2018-19	2019-20	2020-21	2021-22
High School Teachers for Alternative Academics	12	14	14	15	14
High School Student to Teacher Ratio	12 : 1	11 : 1	11 : 1	10 : 1	10 : 1
Intermediate Teachers for Alternative Academics	15	16	17	18	17
Intermediate School Student to Teacher Ratio	8 : 1	8 : 1	8 : 1	7 : 1	6 : 1
Elementary Teachers for Alternative Academics/SLL - LtoL	36	38	38	44	46
Elementary School Student to Teacher Ratio	7 : 1	7 : 1	8 : 1	7 : 1	7 : 1
Total Teachers for Alternative Academics/SLL – LtoL	63	68	69	77	77
Total Student to Teacher Ratio	8 : 1	8 : 1	8 : 1	8 : 1	7 : 1

The total student to teacher ratio has remained consistent at 8 : 1 until this current school year. During this school year, intermediate school AA enrollment decreased by eighteen students and the teacher count reduced by one. Staffing counts are further complicated, though, with the steady increase in student enrollment at the elementary level that will presumably extend to the intermediate schools in the coming years.

Financial Background

The Department of Special Services first purchased n2y for the 2016-17 school year. Initially, fifty licenses were purchased for both ULS and News2You™. According to the purchase order, the fifty ULS licenses cost \$19,980.00, and the fifty News2You™ licenses cost \$6,930.00 for a total of \$26,910.00. The unit costs for each component calculates to \$399.60 per ULS license and \$138.60 per News2You™ license.

For the 2021-22 school year, the Department of Special Services purchased ninety-eight licenses of ULS at \$582.24 per license, ninety-eight licenses of News2You™ at \$199.68 per license, and one hundred fifty-three licenses of SymbolStix PRIME® at \$129.00 per license. The

totals for each component is \$57,059.52 for ULS, \$19,568.64 for News2You™, and \$19,737.00 for SymbolStix PRIME®, for a total program cost of \$96,365.16. Per student cost for each of these components calculates to \$99.41 per student for ULS, \$34.09 per student for News2You™, \$34.39 per student for SymbolStix PRIME®, and a total for all of n2y of \$167.88 per student.

The unit cost of n2y has increased since 2016-17. For the components which we can compare unit costs, ULS units costs increased 46%, and News2You™ costs increased 44%. Total program cost has also increased over the years as the total number of licenses purchased has increased, from one hundred licenses in 2016-17 to three hundred forty-nine licenses in 2021-22.

Teacher Survey Participant Background

A survey was sent to representative teachers to collect data on their use and opinions regarding n2y and its components. The survey also collected data referencing teacher experience. The tables and graphs below demonstrate the experiential breakdown of teachers across the district and by school level.

First, Table 6 shows the teacher participation breakdown.

Table 6: Spring 2022 n2y Program Evaluation Survey Teacher Participation

Teacher Level	# Participated	% of Total Participants
Elementary	26	59%
Secondary	18	41%
Total	44	100%

n = 44

Figure 1: Total Years as a Teacher – District

n = 44

Figure 2: Total Years as a Teacher – Secondary

n = 18

Figure 3: Total Years as a Teacher – Elementary

n = 26

Based on teachers' self-reports on the survey, secondary teachers have more experience than elementary teachers, but both groups have more experienced teachers (four or more years) than new teachers (three years or less). The comparison of new teachers is 16.7% for secondary and 19.2% for elementary. The secondary/elementary gap widens some when experience is compared as years teaching Alternative Academics/Structured Learning Lab – LtoL specifically in CCISD, in which 27.8% of secondary teachers report one to three years of experience, and 50% of elementary teachers report one to three years of experience.

Figure 4: Years as an AA/SLL – LtoL Teacher in CCISD

n = 44

Figure 5: Years as an AA Secondary Teacher in CCISD

n = 18

Figure 6: Years as an AA/SLL – LtoL in CCISD

n = 26

Given the unique challenges in education brought on by the pandemic a couple of years ago, and the educational disruption and learning loss experienced by students across the country, the Department of Assessment and Evaluation, with the Department of Special Services, identified n2y for a program evaluation to 1) determine how teachers use the program to benefit students, 2) determine how the program supports teachers in addressing the multiple learning styles of the students in Alternative Academics and Structured Learning Labs – Learning to Learn, and 3) identify educator practices in connection with n2y that promote student success, as well as educator practices that may hinder student success.

In order to meet the aims of this program evaluation, the evaluation committee identified these four questions to be researched:

- 1. How appropriately does n2y content connect to Texas curricular standards?**
- 2. In what ways do CCISD teachers utilize n2y and its various components?**
- 3. To what extent does n2y empower CCISD alternative academics teachers?**
- 4. To what extent has n2y affected student performance?**

Evaluation Question 1: How appropriately does n2y content connect to Texas curricular standards?

Descriptions of Associated Curricular Standards

According to the Texas Education Agency (TEA), Texas Essential Knowledge and Skills, or TEKS, delineate the state standards describing what students should know and be able to do during each year of their K-12 academic journeys. The TEKS broadly define student expectations, allowing local education agencies (LEAs) or school districts flexibility in developing curricula that specify the sequence of knowledge and skills that will culminate in a mastery of the TEKS by the end of each academic year. CCISD uses two different tools to sequence the district curriculum: learning progressions for elementary courses and Years-at-a-Glance for secondary courses. These tools do not represent the curricula in their entirety, but rather, they provide a sequence and pacing for teachers and students to use to guide the learning throughout the year.

Defining curriculum and determining sequencing is even more difficult for students receiving AA or SLL - LtoL services, as these students are often learning to master prerequisite skills for their current grade level's TEKS. Prerequisite skills are the knowledge and skills that need to be mastered before a student is ready to master current grade level knowledge and skills (ESC 20, 28). For students in AA or SLL - LtoL in CCISD, these prerequisite skills will be documented in the student's Individualized Education Program (IEP) as academic goals, and the need for the prerequisite skill will be described in the student's Present Levels of Academic Achievement and Functional Performance, or PLAAFP (ESC 20, 28). While these academic goals do not define the curricula for students with an IEP, goal statements should be aligned with the general education curriculum and "bridge the gap" between the student's current academic level and that of the grade level standards (ESC 20, 4).

The Department of Special Services of CCISD supports students and teachers with identifying and sequencing prerequisite skills by issuing frameworks that correlate grade level expectations both to prerequisite skills and district curricula scopes and sequences. District scopes and sequences differ between elementary and secondary courses. For elementary courses, the scopes and sequences follow yearly learning progressions assessed through a standards-based grading system. For secondary courses, the scopes and sequences follow year-at-a-glance pacing guides delineated by units of study with a suggested length of time for each unit. See Appendix A for an example of the elementary framework.

In order to account for grade level expectations and prerequisite skills for an alternative academics class, a teacher must balance multiple degrees of mastery within each learning progression or unit of study. In addition to the district provided curricula and prerequisite frameworks, district Special Services staff also correlate these resources with lessons available through the various components of the n2y suite of programs. As previously mentioned, ULS lessons update monthly, alternating between science and social studies topics. English

Language Arts and math lessons are embedded in each monthly topic. Since ULS subdivides its lessons among six grade bands, teachers can plan for the multiple levels of prerequisite skills. News2You™, too, supports teachers with planning for multiple levels of prerequisite skills by leveling reading passages and providing a wide array of learning activities across multiple subjects. Beyond designing n2y programs to support learners with disabilities in accessing the general curriculum through prerequisite skills, n2y, through ULS and News2You™, also loosely correlates its lessons to the Texas state curriculum and the TEKS.

Even though n2y has publicly aligned its lessons to the TEKS, this evaluation is tasked with analyzing how closely it is aligned both with the TEKS and with other district curricular sources. The evaluation committee proposed two methods to evaluate the curricular alignment: 1) a teacher survey to gauge the professional users' perspective of the accuracy and comprehensiveness of the TEKS alignment; and 2) focus groups of Special Services instructional specialists to elicit their perspective of the accuracy and comprehensiveness of the TEKS alignment.

Analysis of Curricular Alignment

Survey Analysis of Curricular Alignment

The pertinent questions from the teacher survey to this part of the evaluation are as follows:

18. Rate your level of agreement with each statement below regarding curricular alignment of n2y programs. (Each statement below was rated on a Likert scale: Strongly agree, Agree, Neutral, Disagree, or Strongly disagree.)
- News2You™ resources are aligned with state curricular standards.
 - News2You™ resources are aligned with district learning progression (elementary) or years-at-a-glance (secondary).
 - Unique Learning System® resources are aligned with state curricular standards in Reading Language Arts.
 - Unique Learning System® resources are aligned with district learning progression (elementary) or years-at-a-glance (secondary) in Reading Language Arts.
 - Unique Learning System® resources are aligned with state curricular standards in Mathematics.
 - Unique Learning System® resources are aligned with district learning progression (elementary) or years-at-a-glance (secondary) in Mathematics.
 - Unique Learning System® resources are aligned with state curricular standards in Science.
 - Unique Learning System® resources are aligned with district learning progression (elementary) or years-at-a-glance (secondary) in Science.
 - Unique Learning System® resources are aligned with state curricular standards in Social Studies.
 - Unique Learning System® resources are aligned with district learning progression (elementary) or years-at-a-glance (secondary) in Social Studies.

- SymbolStix PRIME® resources are aligned with state curricular standards.
- SymbolStix PRIME® resources are aligned with district learning progression (elementary) or years-at-a-glance (secondary).
- Overall, n2y aligns well with state and district curricula and is geographically appropriate for students living along the Texas Gulf Coast.

The results of the survey below will include the total respondent percentage for each identified component on a Likert scale, and it will disaggregate the total to show the percentages for elementary teachers and secondary teachers. Table 6 (above, page 10) shows the teacher participation breakdown.

Table 7 reveals the teacher response to the final alignment survey question regarding their overall perception of n2y and its alignment to state and district curricula.

Table 7: Overall, n2y aligns well with state and district curricula...

Teacher Level	Strongly agree	Agree	Neutral	Disagree	Strongly disagree	No response
Elementary	11.5%	38.5%	26.9%	15.4%	7.7%	0.0%
Secondary	22.2%	27.8%	27.8%	11.1%	5.6%	5.6%
Total	15.9%	34.1%	27.3%	13.6%	6.8%	2.3%

n = 44

In total, half of the survey respondents (at all levels: elementary, secondary, and total) agreed that n2y elements aligned with state and district curricula while about 20% disagreed that they are aligned. Discrepancies in teacher perception arise, however, when analyzed by the program within n2y, the core content area, district or state curricula, and teacher level. For example, compare Table 8 and Table 9 below. Table 8 indicates the percentage of teachers who agree or disagree with the idea that News2You™ content, specifically aligns with the *state* curriculum. Table 9 shows the percentage of teachers who agree or disagree with the idea that News2You™ content, specifically, aligns with the *district* curriculum.

Table 8: News2You™ resources are aligned with state curricular standards

Teacher Level	Strongly Agree + Agree	Strongly Disagree + Disagree
Elementary	61.5%	11.5%
Secondary	61.1%	5.6%
Total	61.3%	9.0%

n = 44

Table 9: News2You™ resources are aligned with district learning progressions (elementary) or years-at-a-glance (secondary)

Teacher Level	Strongly Agree + Agree	Strongly Disagree + Disagree
Elementary	57.7%	11.5%
Secondary	38.9%	22.3%
Total	50.0%	15.9%

n = 44

At the secondary level in particular, teachers note a significant difference of opinion regarding the alignment of News2You™ resources with state curriculum compared to district curriculum. In this case, both the percent that agree they are aligned to district standards decreased (by 22.2%) and the percent that disagreed that they are aligned increased (by 16.7%). The survey data show a pattern among secondary teachers that they believe n2y resources are better aligned to state standards than district curriculum.

Table 10: Secondary teachers who agree or disagree that n2y resources are aligned to state or district curricula

Program and Alignment	Strongly Agree + Agree	Strongly Disagree + Disagree
News2You™ - state	61.1%	5.6%
News2You™ – district	38.9%	22.3%
Unique Learning - state	45.8%	18.1%
Unique Learning - district	41.6%	23.9%

n = 44

The disparity of state to district alignment is not as great for Unique Learning as it is for News2You™. Still, fewer than half the teachers who responded to the survey agree that ULS resources are aligned to the district curriculum, and almost one out of five actively disagree that they are aligned.

The disparities between elementary and secondary teachers continues when analyzed by content area. As a point of reference, the lowest total agreement rate (strongly agree plus agree) for any elementary content area for Unique Learning resources is 57.7% for district alignment in science and social studies. The highest total disagreement rate (strongly disagree + disagree) for elementary is 26.9% for state alignment in math and district alignment in social studies. Table 11, below, reveals comparable measures for secondary teachers.

Table 11: Secondary teachers who agree or disagree that ULS resources are aligned to state or district curricula

Content Area and Alignment	Strongly Agree + Agree	Strongly Disagree + Disagree
ELA – state	44.4%	11.1%
ELA – district	33.4%	27.8%
Math – state	61.1%	11.2%
Math – district	38.9%	27.8%
Science – state	38.9%	27.8%
Science – district	27.8%	33.4%
Social Studies – state	38.9%	22.3%
Social Studies – district	33.3%	27.8%

n = 44

Except for math alignment to state standards, fewer than half of the teachers who responded agree that ULS resources are aligned to any standards, with district standards scoring substantively lower than state standards in every content area. Science alignment to

district standards ranks the lowest on the agree percentage and highest of the disagree percentages, in which more teachers actively disagree that they are aligned than agree they are aligned.

While the survey results identify the disparity between elementary and secondary teacher perceptions of the alignment of n2y resources to both state and district curricula, it does not indicate a cause for the disparity. Further investigation is needed to determine why the different levels of teacher responded differently and what actions would effectively address these differences.

Focus Group Analysis of Curricular Alignment

A focus group conducted with Alternative Academics/SLL Instructional Specialists reveals some insight into the Likert ratings for, particularly, secondary teachers. According to focus group participants, secondary teachers generally view Unique Learning math lessons as “deficient.” The math lessons are “not progressive,” according to one participant. The lessons “repeat monthly, just with different topics.” Participants also state that teachers often supplement their math lessons with other resources. Additionally, the monthly rotation of science and social studies topics typically do not coincide with the district’s years-at-a-glance for intermediate grades nor the course specific requirements of high school. One final misalignment of curriculum concerns ELA and the lack of any poetry or reading across genre lessons, both of which are included in state and district curricula and are assessed by the STAAR Alt 2.

Analysis of Geographic Appropriateness of n2y

Another concern raised by the focus group is the geographic appropriateness of content for students living along the Texas Gulf Coast. For example, sledding down a hill of snow, watching leaves change color in the fall, or riding trains or subways are not common experiences for any student in this region. Therefore, the survey asked teachers to rate their perception of the geographic appropriateness of n2y resources in relation to a student living along the Texas Gulf Coast.

18. Rate your level of agreement with each statement below regarding curricular alignment of n2y programs. (Each statement below was rated on a Likert scale: Strongly agree, Agree, Neutral, Disagree, or Strongly disagree.)

- News2You™ resources are geographically appropriate for students living on the Texas Gulf Coast.
- Unique Learning System® resources are geographically appropriate for students living on the Texas Gulf Coast.
- SymbolStix PRIME® resources are geographically appropriate for students living on the Texas Gulf Coast.
- Overall, n2y aligns well with state and district curricula and is geographically appropriate for students living along the Texas Gulf Coast.

Survey data disagree with the perception of the instructional specialists. Over half the respondents strongly agree or agree that the n2y components are geographically appropriate for students living along the Texas Gulf Coast.

Table 12: n2y resources are geographically appropriate

Teacher Level	Strongly Agree + Agree	Strongly Disagree + Disagree
News2You™	52.3%	22.7%
Unique Learning System®	50.0%	18.2%
SymbolStix PRIME®	52.3%	6.8%
n2y	50.0%	20.4%

n = 44

Evaluation Question 2: In what ways do CCISD teachers utilize n2y and its various components?

Description of Staff Roles who Utilize n2y Components

Based on information from the Alternative Academics/SLL Instructional Specialists focus group, AA and SLL – LtoL teachers are the primary users of n2y and its resources, but not the only users. Below is a list of other users of n2y, which components they primarily use, and the reason for using n2y.

Speech Language Pathologists, Occupational Therapists, Physical Therapists, and other related service providers often use SymbolStix PRIME® to assist them in supporting students in meeting IEP goals.

Behavior specialists also use SymbolStix PRIME®. They create behavior charts and visual schedules to support student decision making tasks.

Alternative Academics paraprofessionals sometimes use News2You™ or ULS resources for reteach or extra skill lessons.

Teachers of other Special Services programs such as resource teachers sometimes access n2y resources from each of the components for resources related to prerequisite skill lessons.

While substitute teachers do not access n2y resources, teachers often leave n2y lesson resources when a substitute is required because it provides consistent learning expectations for students even when the teacher is absent.

Analysis of Teacher Use of the n2y Program

As Alternative Academics and SLL teachers are the primary users of the program, the Spring 2022 n2y Program Evaluation survey did ask them several questions regarding how they used the program. Below are the relevant questions from the survey.

10. How often do you access information (lesson supports or student data) from the n2y program, or any of its components? [Daily, A few times a week, Once a week, A few times a month, Seldom, Never]

11. Check which components of n2y you have ever used. (check all that apply)
[News2You™, SymbolStix PRIME®, Unique Learning System® (ULS)]

12. Check which components of n2y you use regularly. (check all that apply)
[News2You™, SymbolStix PRIME®, Unique Learning System® (ULS)]

13. What types of resources from n2y and its components have you ever used? (check all that apply) [Digital student assessments, Non-digital student assessments, Digital learning activities for students, Non-digital learning activities for students, Lesson

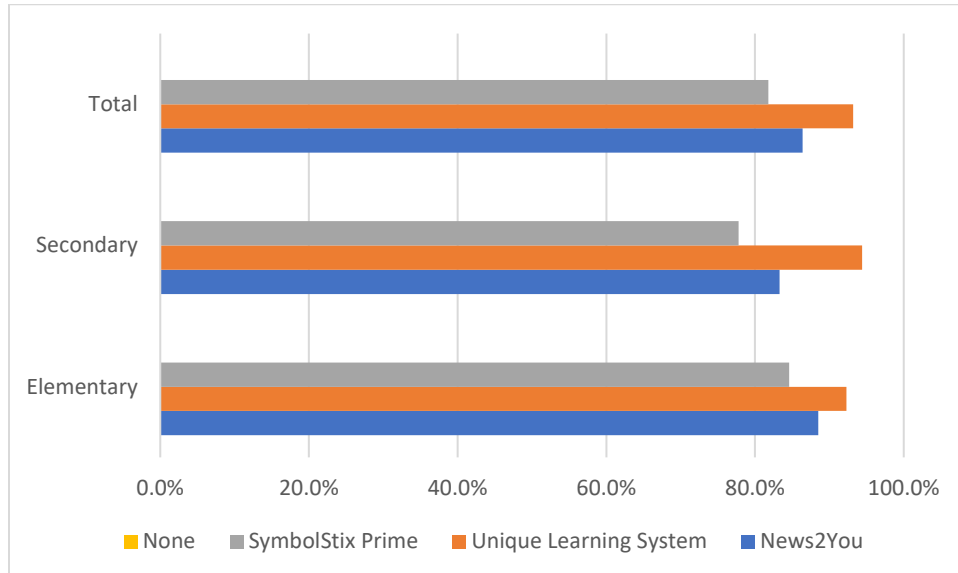

planning resources for teachers, Accommodation supports for students (e.g., symbol stories, directions, or communication aids), Modification supports for students (e.g., leveled reading passages or skill practices)]

14. What types of resources from n2y and its components do you use regularly? (check all that apply) [Digital student assessments, Non-digital student assessments, Digital learning activities for students, Non-digital learning activities for students, Lesson planning resources for teachers, Accommodation supports for students (e.g., symbol stories, directions, or communication aids), Modification supports for students (e.g., leveled reading passages or skill practices)]

15. What information sources do you consider when planning lessons throughout the year? Rank the following information sources in order from most influential (top) to least influential (bottom). [CCISD learning progressions (elementary) or years-at-a-glance (secondary), IEP goals, Lessons from past experiences and prior years, Resources from Unique Learning, State curriculum, Student performance data]

The figures below depict the response rates for teacher use of the different components of n2y: News2You™, Unique Learning, and SymbolStix PRIME®. Figure 7 displays the percentages of teachers who used any of the components at least once; Figure 8 displays the percentages of teachers who use any of the components regularly. The term “regularly” was intentionally undefined to measure the personal perceptions of each respondent.

Figure 7: Percentages of teachers who have ever accessed components of n2y

n = 44

Figure 8: Percentages of teachers who regularly access components of n2y

n = 44

The graphs above indicate that approximately four out of five teachers have accessed each of the n2y components at some point in their careers. However, regular use and access declines by at least 20% for all components at all levels except ULS use at the elementary and total group levels. SymbolStix PRIME® exhibits the largest decline in “regular” use by teachers at all levels. Interestingly, 16.7% of secondary respondents indicated they regularly access none of the n2y components.

Beyond which components teachers are using regularly is why and how the teachers are using the resources. The following figures detail the response percentages of the types of resources teacher have ever used and regularly use from n2y.

Figure 9: Types of n2y resources ever accessed by teachers

n = 44

Figure 10: Types of n2y resources regularly accessed by teachers

n = 44

Among elementary teachers, learning activities and accommodation/modification supports are the most used resources. Secondary teachers indicated they have a more even use of the various resources available in n2y. The variability of use among elementary teachers suggests that further training could help equip teachers to utilize the various resources more fully. While the relatively flat shape of the secondary teacher data coupled with the 16.7% of teachers who responded they regularly use none of the components of n2y suggests that roughly half the teachers are using n2y comprehensively while the other half uses it very little.

Further analysis supports the observation that elementary teachers use n2y less broadly than secondary teachers. The survey which the teachers completed included seven different types of resources available to teachers. 65.4% of elementary teachers indicated they used between zero and three types of resources, while only 33.4% of secondary teachers reported using between zero and three types of resources. To be clear, the number of types of resources used, does not indicate the frequency nor mastery of resource use. It may suggest, though, more familiarity with the full breadth of the program by secondary teachers than by elementary teachers.

Analysis of n2y as a Curricular Resource rather than a Curriculum

The last survey item related to teacher utilization of n2y asked respondents to rank sources of information in order of influence as they pertain to planning lessons. Those information sources include IEP goals, CCISD district curricular resources (learning progressions and years-at-a-glance), lesson resources from Unique Learning, student performance data, TEKS and the state curriculum standards, and lessons from past experiences or prior years. The purpose of this survey item was to measure teacher perception of n2y resources, generally, and Unique Learning resources, specifically, as either the curriculum or as supplementary to the curriculum. The overall results of the ranking among all survey respondents are as follows:

1. IEP goals
2. CCISD district curricular resources
3. Resources from Unique Learning
4. Student performance data
5. State curriculum
6. Lessons from past experiences or prior years

In all, 9.3% of respondents selected “Resources from Unique Learning” as the *most* important resource, but an overwhelming 41.9% of respondents chose IEP goals most important, followed by 30.1% choosing CCISD curricular resources as the most important resource. The state curriculum, which ranked second to last most important, provided an interesting data breakdown, in which 11.6% of respondents ranked the state curriculum as most important (third highest resource), but 37.2% of respondents ranked the state curriculum as the least important resource, which was the highest percentage for the lowest ranked resource. Relevant to this evaluation, the 9.3% of respondents who ranked ULS resources as most important is contrasted with 23.3% of respondents who ranked it as least important. That 23.3% of respondents who ranked ULS as the least important curricular resource is consistent with the 18.2% of respondents who indicated they do not use Unique Learning regularly.

Evaluation Question 3: To what extent does n2y empower CCISD alternative academics teachers?

Analysis of the Extent to which n2y Empowers Teachers

One of the purported reasons for using n2y is to increase teacher efficiency in planning lessons for diverse learners, teaching lessons incorporating a variety of accommodations and modifications, and analyzing student data. The teacher survey gathered the perceptions of teachers on the effectiveness of n2y in increasing their efficiency in each of these three areas.

19. Rate your level of agreement with each statement below regarding time management and n2y programs. (Each statement below was rated on a Likert scale: Strongly agree, Agree, Neutral, Disagree, or Strongly disagree.)

- News2You™ resources enable me to be more efficient with time when planning lessons.
- News2You™ resources enable me to be more efficient with time when teaching lessons.
- News2You™ resources enable me to be more efficient with time when analyzing student data.
- Unique Learning System® resources enable me to be more efficient with time when planning lessons.
- Unique Learning System® resources enable me to be more efficient with time when teaching lessons.
- Unique Learning System® resources enable me to be more efficient with time when analyzing student data.
- SymbolStix PRIME® resources enable me to be more efficient with time when planning lessons.
- SymbolStix PRIME® resources enable me to be more efficient with time when teaching lessons.
- SymbolStix PRIME® resources enable me to be more efficient with time when analyzing student data.
- Overall, n2y resources improve my time management during planning, teaching, and analyzing.

Tables 13 and 14 below display overall efficiency ratings for News2You™ and ULS for all elementary teachers, secondary teachers, and all teachers together.

Table 13: Overall News2You™ efficiency rating among teachers

Teacher Level	Strongly Agree + Agree	Strongly Disagree + Disagree
Elementary	43.6%	23.1%
Secondary	55.5%	24.1%
Total	48.5%	23.5%

n = 44

Table 14: Overall Unique Learning System® efficiency rating among teachers

Teacher Level	Strongly Agree + Agree	Strongly Disagree + Disagree
Elementary	61.5%	17.9%
Secondary	57.4%	24.1%
Total	59.9%	20.5%

n = 44

Secondary teachers rated efficiency consistently across both components. Elementary teachers rated the efficiency of ULS significantly higher than that of News2You™. Both levels rated the efficiency of SymbolStix PRIME® lower than either News2You™ or ULS.

Another disparity between secondary and elementary is the rating of the efficiency of analyzing student data in the ULS platform. This disparity is more clearly discerned when looking at the ratio of Strongly Agree + Agree to Strongly Disagree + Disagree. For elementary teachers that ratio is 4.3 to 1, and for secondary teachers the ratio is 1.8 to 1.

Table 15: Unique Learning System® analysis efficiency rating among teachers

Teacher Level	Strongly Agree + Agree	Strongly Disagree + Disagree
Elementary	65.3%	15.3%
Secondary	50.0%	27.8%
Total	59.1%	20.4%

n = 44

Analysis of the Extent to which n2y Integrates with CCISD Technologies

As CCISD continues to prioritize the use of technology and technological innovation in teaching and learning, the survey sought the perceptions from teachers regarding the integration of n2y components with available classroom technology. The survey categorized technology three ways: adaptive technology – specialized technology designed to accommodate for specific disabilities, student technology – devices to which students have access and use to engage in learning, e.g., laptops, tablets, mobile phones, and classroom technology – devices the teacher uses during classroom instruction, e.g., district-issued laptops, projectors, and interactive white boards. The survey statements are listed below.

21. Rate your level of agreement with each statement below regarding classroom technology and n2y programs. (Each statement below was rated on a Likert scale: Strongly agree, Agree, Neutral, Disagree, or Strongly disagree.)

- News2You™ resources are easily integrated with adaptive devices.
- News2You™ resources are easily integrated with personal student devices, e.g., laptops, mobile phones, tablets.
- News2You™ resources are easily integrated with classroom technology, e.g., projectors, document cameras.
- Unique Learning System® resources are easily integrated with adaptive devices.
- Unique Learning System® resources are easily integrated with personal student devices, e.g., laptops, mobile phones, tablets.

- Unique Learning System® resources are easily integrated with classroom technology, e.g., projectors, document cameras.
- SymbolStix PRIME® resources are easily integrated with adaptive devices.
- SymbolStix PRIME® resources are easily integrated with personal student devices, e.g., laptops, mobile phones, tablets.
- SymbolStix PRIME® resources are easily integrated with classroom technology, e.g., projectors, document cameras.
- Overall, n2y resources easily integrate with technology currently in my classroom.

Overall, technology integration with n2y resources scored high.

Table 16: n2y technology integration rating among teachers (all programs, all devices)

Teacher Level	Strongly Agree + Agree	Strongly Disagree + Disagree
Elementary	65.4%	11.5%
Secondary	66.7%	5.6%
Total	65.9%	9.1%

n = 44

Elementary teachers rated ULS integration with student devices lower than secondary teachers.

Table 17: ULS technology integration with student devices rating among teachers

Teacher Level	Strongly Agree + Agree	Strongly Disagree + Disagree
Elementary	46.2%	26.9%
Secondary	66.7%	5.6%
Total	54.6%	18.2%

n = 44

Although the percentages of integration of n2y resources with adaptive devices and SymbolStix PRIME® do not lean toward disagreement, the lower agree percentages suggest that additional support for teachers on integrating adaptive devices might be useful.

Table 18: ULS technology integration with adaptive devices (data indicative of other components, also)

Teacher Level	Strongly Agree + Agree	Strongly Disagree + Disagree
Elementary	46.2%	19.2%
Secondary	50.0%	22.3%
Total	47.7%	20.4%

n = 44

Table 19: SymbolStix PRIME® technology integration rating (all devices)

Teacher Level	Strongly Agree + Agree	Strongly Disagree + Disagree
Elementary	34.6%	21.7%
Secondary	50.0%	3.7%
Total	40.9%	14.4%

n = 44

Evaluation Question 4: To what extent has n2y affected student performance?

Analysis of the Effect of n2y on Student Outcomes

Ultimately, the success of a program that purports to impact student outcomes must also be evaluated on its effect on student performance. To answer this research question, teachers were surveyed, performance on the state assessment STAAR Alt2 was analyzed, and student IEP goal progress was analyzed.

Survey Analysis of Effect of n2y on Student Outcomes

Teacher survey data regarding n2y effectiveness in promoting student progress toward IEP goals, district curricular standards, and development of life skills varies greatly between elementary and secondary teachers. Elementary teachers have a more favorable perception that n2y supports student academic progress than secondary teachers. The statements from the survey and data summary are below:

20. Rate your level of agreement with each statement below regarding student success and n2y programs. (Each statement below was rated on a Likert scale: Strongly agree, Agree, Neutral, Disagree, or Strongly disagree.)
- News2You™ resources assist students in making progress toward IEP goals.
 - News2You™ resources assist students in making progress along district learning progressions (elementary) and years-at-a-glance (secondary).
 - News2You™ resources assist students in making progress in functional life skills.
 - Unique Learning System® resources assist students in making progress toward IEP goals.
 - Unique Learning System® resources assist students in making progress along district learning progressions (elementary) and years-at-a-glance (secondary).
 - Unique Learning System® resources assist students in making progress in functional life skills.
 - SymbolStix PRIME® resources assist students in making progress toward IEP goals.
 - SymbolStix PRIME® resources assist students in making progress along district learning progressions (elementary) and years-at-a-glance (secondary).
 - SymbolStix PRIME® resources assist students in making progress in functional life skills.
 - Overall, n2y resources assist student in making academic and functional progress.

Table 20: n2y supports student academic and functional progress

Teacher Level	Strongly Agree + Agree	Strongly Disagree + Disagree
Elementary	65.4%	23.0%
Secondary	27.8%	50.0%
Total	50.0%	34.1%

n = 44

Focus Group Analysis of n2y Effect on Student Outcomes

Anecdotal evidence from the focus groups with instructional specialists reveals that secondary teachers often feel less supported by n2y resources in the subjects of math, science, and social studies, and must supplement their instruction with other resources. In particular, the rigor of math skills presented by n2y do not increase as students enter intermediate and high school. Also, the monthly schedule of topics that alternate between science topics and social studies topics mostly do not align with the subject specific courses in which secondary students are enrolled.

Elementary instructional specialists appreciate the repetition of skills in reading and math, as these skills are very appropriate for the levels at which they are currently learning. Because the skills align so well, elementary teachers are further able to corroborate IEP goal progress with the student's progress through the n2y lessons.

Standardized Test Analysis of n2y Effect on Student Outcomes

Data from student STAAR Alt 2 performance probably indicate more the effect of COVID-19 on student performance than the effect of any curricular resources. Furthermore, since the District has been using n2y since 2016-17, the current analysis does not compare student performance before n2y versus since n2y. When looking at all test results, 2021 results show a performance decline in both reading and science. When looking at high school results, the largest decline was in math, which may be in line with teacher perception that n2y is not as effective for math instruction at the secondary level. Tables 21 through 24 show the number of tests and percentage of students who Did Not Meet or Meet qualifying standards.

Table 21: STAAR Alt 2 Performance, 2018-2021, All Levels

	2018			2019			2021			3 Year Average		
	# Tests	Level 1	Level 2	# Tests	Level 1	Level 2	# Tests	Level 1	Level 2	# Tests	Level 1	Level 2

Conclusions and Summary

1. Secondary teachers question the alignment of n2y resources to the state or district curricula, especially science and social studies, and district math standards.

An unusually high percentage of secondary teachers responded they do not use n2y regularly (as compared to the overall percentage); plus, half the secondary respondents reported they disagree that n2y supports student academic and functional progress. Furthermore, secondary instructional specialists report that math lessons are not advanced enough to support student progress, and science and social studies lessons are sporadic and often misaligned with course requirements.

2. Secondary teachers who use n2y use the breadth of the resources available (See training materials for secondary teachers in Appendix B). However, a significant group of secondary teachers self-report not using the program regularly at all.

The appearance is that some secondary teachers have not had success aligning n2y resources to student outcomes and have seemingly stopped using it altogether, while other teachers found success integrating the resources, or at least supplementing lessons with resources. Unfortunately, the survey was anonymous, so additional analysis cannot be conducted that might correlate proximity of teachers who use n2y with fidelity and those teachers who seldom use it at all.

3. Elementary teachers who use n2y resources appear to use specific resources, such as lessons, assessments, or accommodation/modification supports and do not appear to use the full breadth of its content.

Focus group responses described how n2y training was disrupted by the COVID-19 pandemic. This disruption could account for the tendency of elementary teachers to use resources with which they are more familiar. A larger percentage of elementary AA/SLL – LtoL teachers are newer to the profession and to CCISD than that of secondary teachers. Implicitly, then, a larger group of teachers will have had less time in the program than others. Less experience and interrupted training opportunities can account for the disparate use of resources.

4. Teachers at all levels report significant agreement that News2You™ and ULS resources integrate well with student and classroom devices, with the exception of elementary student devices.

As the district has continued to emphasize one-to-one devices for students, especially for upper elementary through high school, the integration of the newer models of technology with n2y is generally successful. Elementary teachers reported both lower agreement and higher disagreement than secondary teachers that ULS and SymbolStix PRIME® resources integrate well with student devices.

5. Analysis of student actual performance data is hindered by the lack of data due to the closure of in-person school in the Spring of 2020.

The analysis of student performance is hindered both by the pandemic disruption, including the lack of data for Spring 2020 and the learning loss resulting from the disruption. Additionally, the district has been using n2y for as long as the current metrics have been in place. For example, grade tracking in Skyward began the same year n2y was adopted, in 2016-17. STAAR Alt 2 in its current form was instituted since the district adopted n2y. Therefore, data comparison from before the adoption of n2y is difficult.

6. Secondary and elementary teachers disagree on how well n2y resources support student academic achievement. Elementary teachers are more optimistic of its efficacy than secondary teachers.

Elementary instructional specialists have provided documents to teachers that align state and district curricula to specific n2y lessons and resources. Secondary teachers reported struggling to connect n2y resources to the performance levels or topics most relevant to their students.

Superintendent Recommendations

1. Conduct a TEKS-District Curriculum-n2y learning standards crosswalk for secondary core courses.

In response to the low agreement rates of secondary teachers to n2y resources alignment with state and district standards, invite instructional and curricular specialists and a group of teachers to correlate current state and district standards with available n2y lessons and resources. This document can serve as a reference for all teachers when developing lessons for specific student outcomes.

2. Professional Learning for all teachers.

Using the data from the teacher survey and this evaluation, structure n2y training to address some noted needs of teachers, such as the breadth of resources available for elementary teachers and aligning n2y resources to curriculum for secondary teachers.

3. Research comparable programs with teacher input.

With such a high percentage of secondary teachers believing that n2y does not align with state, district, and IEP outcomes, the district can research other available supports or programs to see if another product better suits the needs of the students.

Appendix A: Elementary Learning Standard Crosswalk

CCISD Special Programs Elementary Learning Progressions K-5 Framework 2021-2022

Understanding Your Students Progress Report and Report Card

This report is designed to inform you about your student's progress towards achieving skills required to access the Texas Essential Knowledge and Skills (TEKS). The Learning Progressions along with the IEP expectations individualized for your student establishes high and challenging expectations for their school year. They will serve as a basis for curriculum, instruction, and assessment for the Elementary Special Programs in the Clear Creek Independent School District. The curriculum for each content is based on the TEKS aligned to the prerequisite skills needed in each area. This report should be considered with other information you receive from your student's teacher (ie: your student's IEPs, work, and conferences throughout the school year). Ongoing communication between the family and school staff is highly encouraged. If you have any questions or concerns, please contact you student's teacher.

Please refer to the CCISD Special Programs Elementary Learning Progression packet for further explanation of where your student is performing within each learning progression. All accommodations and modifications have been implemented during instruction for this reporting period.

ESL Correlations for Reading and Writing are addressed in the academic sections of the Learning Progressions.

These learning progressions are designed for elementary students participating in the Alternative Academics program and the SLL: Learning to Learn program.

CCISD Special Programs K-5 Learning Progressions

Reading Objectives

1. Students will demonstrate knowledge of the alphabet
 - a. Students will identify and name letters
 - b. Students will demonstrate letter-sound knowledge
2. Students will demonstrate phonological awareness
 - a. Students will identify smaller units of sound
 - b. Students will identify alliteration
 - c. Students will identify rhyme
3. Students will demonstrate knowledge and comprehension of print
 - a. Students will use, interact, and appreciate books
 - b. Students will use print concepts to demonstrate emergent reading skills
 - c. Students will comprehend a text read aloud
4. Students will demonstrate an understanding of new vocabulary words using a variety of strategies
5. Students will read and comprehend environmental print in schools and the community
6. Students will demonstrate an understanding of the elements of independently read leveled text

Writing Objectives

1. Students will demonstrate emergent writing skills
 - a. Students will write their own name
 - b. Students will use phonetic patterns to create/write new words
2. Students will write a simple sentence
 - a. Students will write a simple sentence
 - b. Students will create a brief composition

Mathematics Objective

1. Students recognizes, describes & names attributes of shapes
2. Students will use number concepts and operations
 - a. Students will demonstrate basic counting skills
 - b. Students will connect numerals with their quantities
 - c. Students will demonstrate an understanding of quantifying numbers and objects
 - d. Students will demonstrate an understanding of place value
 - e. Student will demonstrate an understanding of multiplication process
 - f. Student will demonstrate an understanding of division process
 - g. Student will demonstrate and model part to whole (fractions)
3. Students will compare and measure
 - a. Students will demonstrate an understanding of proportional relationships through measurement
 - b. Students will demonstrate and measure time
 - c. Students will use graphs and interpret data
 - d. Students will identify and use Money

Science Objectives

1. Students will utilize basic classification skills
2. Students will implement scientific inquiry skills
3. Students will demonstrate an understanding of the characteristics and life cycles of living things
4. Students will learn about earth and space

Social Studies Objectives

1. Students will demonstrate a knowledge of self and community
 - a. Students will demonstrate a knowledge of self
 - b. Students will show a basic understanding of people and how they live
 - c. Students will show a basic understanding of peers, leaders and community helpers
 - d. Students will demonstrate an understanding of simple geographical knowledge and symbols

Character Values

1. Follows limits and expectations
2. Balances needs and rights of self and others

ELS Correlations

1. Students will demonstrate growth in listening to and understanding English
2. Students will demonstrate growth in speaking English

***Students will work towards mastery of each learning progression using their typical response mode.
Please make notation of the response mode used during assessment.***

***Targets 0.5, 1.5, 2.5, etc. are partial understandings of the proceeding progression
“*” indicates that these targets’ pre-requisite skills have not been mastered to address this target***

Reading Objectives 1: Students will demonstrate knowledge of the alphabet

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

a. Students will identify and name letters

Learning Progression	1	2	3	4	5	6	7
Target	Recognizing and identify all letters in their first name	Identifies as many as 10 letters (differ from the letters of their first name)	Identifies 11–20 upper and 11–20 lowercase letters when presented in random order	Identifies all upper and lowercase letters when presented in random order	Matches all lower-case letters to their matching upper-case letter	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.1, K.3, 1.1, 1.3, 2.2

Aligned UL: pk8, pk15, elm.11, Int.10

b. Students demonstrate letter-sound knowledge

Learning Progression	1	2	3	4	5	6	7	8
Target	Identifies the sounds of at least 10 letters	Identifies the sounds of at least 15 letters	Produces the correct sounds for all letters	Shows understanding that a sequence of letters represents a sequence of spoken sounds EX: “How do you spell cat?”	Applies letter-sound correspondence when attempting to decode simple CVC words EX: Sees the word cat; begins to sound out the word: /k/ /a/ /t/	Applies letter-sound correspondence when attempting to decode closed CVC words EX: pic-nic, hot-dog	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.1, K.3, 1.1, 1.3, 2.2

Aligned UL: pk8, pk15, elm.11, Int.8, 9, 10

Reading Objective 2: Students will demonstrate phonological awareness

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

a. Students will identify smaller units of sound

Learning Progression	1	2	3	4	5	6	7	8	9
Target	Hears and shows awareness of separate words in sentences EX: Joins in clapping each word while chanting, "I like ice cream." EX: Jumps upon hearing a specified word in a story	Hears and shows awareness of separate syllables in words EX: Claps each syllable of name, Trina EX: Puts together pen and cil to say pencil EX: Puts together foot and ball to say football	Separates and blends individual phonemes in words EX: Claps each phoneme of the word hat: /h/ /a/ /t/ EX: Says, "Hat," after hearing /h/ /a/ /t/	Separates and blends onset and rime EX: Says, "Hat," after hearing /h/.../at/ EX: Points to Jonathan when teacher plays game and asks, "Where's Jonathan?"	Identify at least 5 common beginning blends EX: th, sh, ch, bl, fl, st, str, fr, etc.	Identify at least 5 common ending blends EX: -ing, -ock, -ould, -ight, igh, ell, er, or, ed, es, etc.	Decode words with a silent "e" EX: like, cake, came, home, flute,	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.2,1.2, 2.2, 3.2, 4.2, 5.2

Aligned UL: pk7, elm.8, Int.10

b. Students will identify alliteration

Learning Progression	1	2	3	4
Target EX: Groups objects or pictures that begin with the same sound EX: Picks up a toy bear when asked, "What begins the same way as box, baby, and bike?" EX: Says, "Max and Maya...our names start the same!"	Matches beginning sounds of some words EX: Groups objects or pictures that begin with the same sound EX: Picks up a toy bear when asked, "What begins the same way as box, baby, and bike?" EX: Says, "Max and Maya...our names start the same!"	Isolates and identifies the beginning sound of a word EX: Says, "/m-m-m/," when asked "What is the first sound of the word milk?" EX: Responds, "/t/," after being asked, "What's the beginning sound of toy, toe, teeth?"	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.2, 1.2, 2.2

Aligned UL: pk8, elm.11, Int.10

c. Students will identify rhyme

Learning Progression	1	2	3	4	5	6
Target EX: Hums along and joins in random words in rhyme EX: Sings with a group, "One, two, buckle my shoe..."	Joins in rhyming songs and games EX: Hums along and joins in random words in rhyme EX: Sings with a group, "One, two, buckle my shoe..."	Decides whether two words rhyme EX: "Do bear and chair rhyme? What about bear and goat?" EX: Matches rhyming picture cards	Fills in the missing rhyming word; generates rhyming words spontaneously EX: Completes the rhyme in the phrase, "The fat cat sat on the ____ (mat)." EX: Chants spontaneously, "Me, fee, kee, tee, lee, bee."	Generates a group of rhyming words when given a word EX: Says, "Bat, sat, lat," when asked, "What words rhyme with cat?"	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.2, 1.2, 2.2

Aligned UL: pk6, elm.8, 9, 10

Reading Objective 3: Students will demonstrate knowledge and comprehension of print

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

a. Students will use, interact, and appreciate books

Learning Progression	1	2	3	4	5	6	7	8
Target EX: Gazes at the pages of a book EX: Brings book to adult to read	Shows interest in books EX: Gazes at the pages of a book EX: Brings book to adult to read	Orients book correctly; turns pages from the front of the book to the back; recognizes familiar books by their covers EX: Hands teacher book and says, "Let's read Corduroy!"	Participates in a listening activity EX: shares relevant comment or ask a relevant question, participates in books discussion	Knows some features of a book (title, author, illustrator); connects specific books to authors EX: Says, "I want to read this Dr. Seuss book today." EX: Says, "Eric Carle wrote this book. He is the author."	Identify various types of books and authors purposes EX: Selects the book about insects to identify the butterfly seen on the playground; real vs fantasy; reading for info vs enjoyment	Identify print/graphics in a text to answer questions about the text EX: charts, bolded or highlighted words; illustrations	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.1, 1.1, 2.1, 3.11, 3.13, 4.3, 4.9, 4.10, 4.11, 4.12, 4.13, 4.27, 4.29, 5.7

Aligned UL: pk1, 3, 5, 11; elm.1, 3, 14, 15, 16; Int. 1, 3

b. Students will use print concepts to demonstrate emergent reading skills

Learning Progression	1	2	3	4	5	6	7
Target	Pretends to read a familiar book, treating each page as a separate unit; names and	Indicates where to start reading and the direction to follow EX: Points to beginning of text	Shows awareness of various features of print: letters, words, spaces, upper- and lowercase	Matches a written word with a spoken word, but it may not be the actual written word; tracks print from the end of a	Matches oral language to words on page; points to words as reads; uses different strategies	Generalizes this skill across multiple settings	Maintains generalized skill independently

	describes what is on each page, using pictures as cues EX: See's the pictures and says a word/phrase related to the picture	on the page when pretending to read and moves finger left to right as she continues down the page	letters, some punctuation EX: Points to the word hippopotamus and says, "That's a long word." EX: Says, "That means stop reading," as he points to a period at the end of a sentence.	line of text to the beginning of the next line EX: Touches each word on the page while reciting the words from Brown Bear, Brown Bear, What Do You See? EX: Picks up finger and returns it to the beginning of the next line when pretend reading	EX: sounding out words, known words, and patterns in text) to make meaning from print		
--	---	---	--	--	---	--	--

Aligned TEKS: K.1, K.6, 1.1, 1.7, 1.12, 1.16, 2.1, 2.6, 2.12, 2.1

Aligned UL: pk1, 3, 11; elm.1, 3, 15, 4, 15, 16; Int. 1, 3, 5, 6

c. Students will comprehend a text read aloud

Learning Progression	1	2	3	4	5	6
Target EX: Contributes particular language from the book at the appropriate time (Brown Bear, Brown Bear, what do you ____) EX: Says, "You're not big enough," when teacher pauses in The Grouchy Ladybug	Sit and attend to a read aloud EX: Contributes particular language from the book at the appropriate time (Brown Bear, Brown Bear, what do you ____) EX: Says, "You're not big enough," when teacher pauses in The Grouchy Ladybug	Asks and answers questions using simple "WH" questions about the text; refers to pictures EX: "how did he feel? Student responds, "He was mad"	Identifies story-related problems, events, and resolutions during conversations with an adult EX: When prompted says, "George got put in jail. He ran out the open door and got out."	Reconstructs story using pictures, text, and props to tell the beginning, middle, and ending of a story	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.6, 1.7, 1.12, 1.16, 2.1, 2.6, 2.12, 2.16, 3.13, 3.29, 4.1, 4.7, 4.27, 5.7

Aligned UL: pk 1, 3; elem. 1, 2, 3, 4, 14, 15, 16; Int. 1, 3, 5, 6

Reading Objective 4: Students will demonstrate an understanding of new vocabulary words using a variety of strategies

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

Learning Progression	1	2	3	4	5	6	7	8
Target	Observes new vocabulary visuals from a story	Matches new vocabulary visuals from a story	Sort new vocabulary visuals into categories	Identifies/ locates new vocabulary words within a read-aloud	Complete a sentences stem using new vocabulary words paired with visuals	Demonstrates an understanding of the functions of objects EX: asked “what do we use a chair for”? or when shown 2-3 pictures of objects, asked, “what do we sit in”?	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: 1.6, 1.14, 2.5, 3.4, 4.2, 5.3, 5.7

Aligned UL: pk2, 4, 9; elm. 12, 18; Int. 11

Reading Objective 5: Students will demonstrate an understanding of environmental print in school and community

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

Learning Progression	1	2	3	4	5	6	7
Target	Identify the meaning of specific signs around school and community EX: Classroom signs, School signs, Traffic signs, bathroom signs	Use graphic features from a text to assist with understanding EX: Reading a menu, Dates and times of events, Costs of items	Locate information on a calendar EX: Days of the week, Specific dates, Holidays, Numbers of days in a month	Students will follow pictorial directions EX: Recipes, Science experiments	Follow written step directions with picture cues to assist with understanding EX: Recipes, Science experiments, Building directions	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.11, 1.15, 2.14, 2.15, 3.15, 3.16, 4.13, 4.14, 5.14

Aligned UL: see monthly lessons

Reading Objective 6: Students will demonstrate an understanding of the elements of independently read leveled text

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

Learning Progression	1	2	3	4	5	6	7	8	9
Target EX: answer "who" questions	Identify characters in a story EX: answer "where" questions	Identify the setting in a story EX: answer "what" questions	Identify the main idea of a story EX: answer "what" questions	Put events of the story in sequential order Ex: pictures or words with pictures	Compare and contrast two texts representing the same or similar genres EX: the three little pigs vs the true story of the three little pigs; if you give a mouse a cookie vs if you give a moose a muffin vs if you give a pig a pancake	Identify a problem in a story EX: answer "what" questions	Identify a solution in a story EX: answer "what" questions	Generalizes this skill across multiple settings	Maintains generalized skill independently

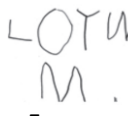

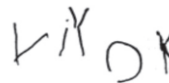

Aligned TEKS: K.6, K.8, 1.9, 2.9, 3.8, 3.9, 4.8, 5.4, 5.5

Aligned UL: pk1, 3; elm. 15; Int. 2, 4

Writing Objective 1: Students will demonstrate emergent writing skills

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

a. Students will write their own name

Learning Progression	1	2	3	4	5
Targets:	Scribbles or marks EX: Scribble writes deliberately on paper EX: Makes marks that appear to adults to be in random order  Carolyn	Controlled linear scribbles EX: Scribbles lines, circle, or zigzags in rows. Often repeats actions and forms  Lilly	Mock letters or letter like forms EX: Writes segments of letter forms, e.g., lines, curves EX: May use too many segments to create a letter EX: May not orient letter segments correctly  Paula	Letter Strings EX: Writes some letters correctly EX: Writes letters in unconventional order  Emma	Partially Accurate Name EX: Writes all the letters of own name, although some may not be sequenced correctly EX: Writes all the letters of own name, but some of the letters are not formed or oriented correctly  Vicky

6	7	8	9	10	11
Accurate first name EX: Writes all the letters of own name in correct sequence, form and orientation EX: Uses upper and lowercase letters (or a combination of both) when writing name  Brooke	Accurate full name EX: Writes all the letters of first and last name with proper spacing in correct sequence, form and orientation EX: Uses upper and lowercase letters (or a combination of both) when writing first and last name	Spacing of full name EX: Can write first and last name within a space provided maintaining legibility.	Develops a cursive signature	Generalizes this skill across multiple settings	Maintains generalized skill independently

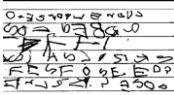

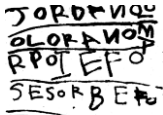

Aligned TEKS: K.14, K.15, K.17, 1.18, 1.19, 1.21, 2.18, 2.19, 2.22, 2.23, 3.22, 3.23, 3.24, 4.21, 5.21

Aligned UL: pk 14, 15, 21; elm. 17; Int. 8, 9, 10

Visual Examples for the Writing Learning Progressions:

Objectives for Development and Learning: Birth through Kindergarten. (n.d.). Retrieved February 20, 2017, from https://gold.teachingstrategies.com/content/GOLD/helpitems/GOLD_Progressions_EN.pdf

b. Students will use phonetic patterns to create/write new words

Learning Progression	1	2	3	4	5	6	7	8	9	10
Targets	Scribbles or marks EX: Scribbles writes deliberately EX: Makes marks that appear to adults to be in random order  <i>Layla says, "Here mommy, read this"</i>	Controlled linear scribbles EX: Scribbles, lines, circle, or zigzags in rows. Often repeats action and forms  <i>April says, "Here is my phone number, now you can call me"</i>	Mock letters or letter-like forms EX: Writes segments of letter forms, e.g., lines, curves EX: May use too many segments to create a letter, e.g., five horizontal lines on the letter E EX: May not orient letter segments correctly  <i>Preston says, "look I am writing my ABCs just like you!"</i>	Letter Strings EX: Writes strings of letters. Writes some letters correctly. EX: Writes letters in unconventional order. EX: Begins to separate groups of letters with spaces. May copy environmental print.  <i>Raymond says, "this is my Christmas list, now you know what I want"</i>	Early invented spelling EX: Uses first letter of word to represent the whole word Writes initial and or final sounds of a word to represent the whole word ** Note: In Spanish, early invented spelling may consist primarily of vowels. Y K L a I L V U  <i>Aiden wrote "uncle Max I love you"</i>	Late invented spelling EX: Begins to include beginning, middle, and ending sounds heard in words in the correct order EX: Represents most of the sounds heard in words in the correct order  <i>Jena says, "I need to buy some blackberries at the store"</i>	Late invented spelling and spacing between words EX: Includes beginning, middle, and ending sounds heard in multiple words in the correct order with spacing between two or more words EX: written with left to right progression.	Use letter/sound patterns. EX: Correctly spell most CVC words including those with simple blends and diagraphs.	Use letter sound patterns. EX: Correctly spell most CVCE words including those with simple blends and diagraphs.	Add inflectional endings to simple base words. EX: s, es, d, ed, ing

Aligned TEKS: K.14, K.15, K.17, 1.18, 1.19, 1.21, 2.18, 2.19, 2.22, 2.23, 3.22, 3.23, 3.24, 4.2, 5.2,

Aligned UL: pk 5, 15, 21; elm. 6, 7, 8, 9, 30; Int. 14, 15, 30

Visual Examples for the Writing Learning Progressions:

Objectives for Development and Learning: Birth through Kindergarten. (n.d.). Retrieved February 20, 2017, from https://gold.teachingstrategies.com/content/GOLD/helpitems/GOLD_Progressions_EN.pdf

Writing Objective 2: Students will write a simple sentence

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

a. Students will write a simple sentence.

Learning Progression	1	2	3	4	5	6	7	8	9
Targets:	Form all upper/lower case letters legibility with correct spacing within multiple words with left to right progression.	Write/copy high frequency words using resources from word walls or personal dictionary using correct spacing.	Put 3-5 words together containing a noun and a verb that makes a complete thought.	Capitalize the first letter of names, pronoun I, and first letter of the beginning of a sentence.	Use/place correct punctuation mark at the end of a sentence. (. ! ?)	Generate a complete sentence with appropriate beginning and ending punctuation and	Add details to a sentence to lengthen and give the sentence more meaning.	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.16, K.17, 1.18, 1.19, 1.21, 1.22, 2.22, 2.23, 3.22, 3.23, 3.24, 4.3, 4.11, 5.3, 5.11

Aligned UL: pk5, 15; elm. 6, 7, 8, 9; Int. 14, 15, 30

b. Students will create a brief composition.

Learning Progression	1	2	3	4	5
Targets:	Draw or color a picture and label the drawing or picture.	Complete a patterned/predictable sentence with an original idea or an idea from a word bank or picture bank presented.	Create a plan to write a composition about a self-selected topic of interest by writing or orally stating a list of 2-3 ideas or facts about a topic.	Build or write a topic sentence about a self-selected or given topic or idea.	Build or write 2-3 sentences containing details/facts about a self-selected topic.

6	7	8	9	10
Build or write a concluding sentence about a self-selected topic.	Include pictures or illustrations to support the meaning of words on the page of written composition.	Use an appropriate mode of delivery, whether written, oral, or multimodal, to present to an audience	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.13, K.14, K.15, K.22, 1.17, 1.18, 1.19, 2.17, 2.19, 3.17, 3.19, 3.20, 4.11, 4.12, 4.13, 5.11, 5.12, 5.13

Aligned UL: pk 5, 15; elm. 6, 7, 8, 9, 30; Int. 14, 15, 30

Mathematics Objective 1: Students recognize, describes & names attributes of shapes

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

Learning Progression	1	2	3	4	5	6	7	8	9
Target	Matches two identical shapes EX: Puts a circular puzzle piece in the circular space EX: Places shapes in a shape sorting box	Identifies a few basic shapes (circle, triangle, square) Extension: Identifies complex shapes such as rhombus, trapezoid, and hexagon	Identify basic shapes in any orientation EX: recognizes that a triangle is triangle regardless which direction it is presented	breaks apart or combines shapes to create different shapes and sizes EX: Cuts apart a rectangle to make two squares	Describes basic two-dimensional shapes EX: Sorting shapes according to attributes such as sides & vertices	Identify and/or classify three dimensional shapes by attributes EX: Match shapes according to attributes such as: faces, edges, and vertices <i>Extension:</i> Identifies complex shapes such as: cube, sphere, rectangular prism, triangular prism, cone,	Describe three dimensional shapes by attributes Ex: a cube has 6 faces	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.6, 1.6, 2.8, (K.7 & K.8 sci.), 3.6, 4.3, 4.6, 5.5,

Aligned UL: pk 16; elm. 24; Int. 23

Mathematics Objective 2: Students will use number concepts and operations

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

a. Students will demonstrate basic counting skills

Learning Progression	1	2	3	4	5	6	7	8	9
Target EX: Says, "one, two, ten," as she pretends to count	Rote counts (not always in the correct order) EX: Says, "one, two, ten," as she pretends to count	Rote counts to 10 accurately	Rote counts to 20 accurately	Counts five objects accurately, using one number name for each object EX: Counts to ten when playing "hide and Seek" EX: Counts out four scissors and puts them at the table	Counts 10-20 objects accurately; knows the last number states how many in all; tells what number (1-10) comes next in order by counting EX: Counts to twenty while walking across the room EX: Counts then plastic worms and says, "I have ten worms" When asked, "What comes after six?" says, "One, two, three, four, five, six, seven...seven"	Counts 30 objects accurately; tells what number comes before and after a specified number up to 20 EX: Counts twenty-eight steps to the cafeteria When asked what comes after fifteen, says "Sixteen"	Uses number names while counting to 100; 250 EX: Counts a hundred beads for 100 th Day of School EX: Will skip count by two, fives, and tens, to 250	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.2, 1.2, 1.5, 2.2, 3.2, 4.2

Aligned UL: pk 17; elm. 19; Int. 16a

b. Students will connect numerals with their quantities

Learning Progression	1	2	3	4	5	6	7	8	9
Target	Recognizes and names a few numerals EX: points to the 1 when the teacher says "Where is the numeral 1?" EX: Notices numerals around the room and calls some of them by name	Identifies numerals to 5 by name and connects each to counted objects EX: Says, "Five" as she attaches five clothespins to the 5 cards EX: Tell her friend, "that's a 3, and there are three puppies on this page."	Identifies numerals to 10 by name and connects each to counted objects EX: Shouts "Seven," and jumps seven times when the teacher holds up the number 7 card EX: Says, "I put nine buttons in the 9 boxes."	Identifies numerals to 20 by name and connects each to counted objects EX: Says, "Bob put the 12 cars and twelve beads on his necklace." EX: Says, "I drew fifteen flowers to go on page 15 of our number book."	Identifies numerals to 32 by name and connects each to counted objects EX: Places 30 cotton balls on a monthly calendar to represent 30 days in a month	Identifies numerals to 50 by name and connects each to counted objects EX: Counts out 50 beads to make a necklace when asked to make a necklace with 50 beads	Identifies ordinal numbers to 5 EX: 1 st , 2 nd , 3 rd , 4 th , 5 th ; first, middle, last	Generalizes this skill utilizing a calculator EX: typing in numbers to 50	Maintains generalized skill independently

Aligned TEKS: K.2, 1.2, 2.2, 3.2, 4.2

Aligned UL: pk17; elm. 19; Int. 16a

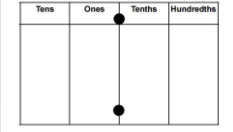

c. Students will demonstrate an understanding of quantifying number and objects

Learning Progression	1	2	3	4	5	6	7	8	9
Target	<p>Demonstrates understanding of the concepts of zero, one, two, and more</p> <p>EX: Says, "More apple," to indicate he wants more pieces than given</p> <p>EX: Takes two crackers when prompted, "Take two crackers"</p>	<p>Makes sets of objects up to 10</p> <p>EX: Looks at the sand table and says instantly, without counting, "There are three children at the table."</p> <p>EX: Says, "I have four cubes. Two are red and two are blue."</p> <p>EX: Puts three bunnies in the box with the two bears. Counts and says, "Now I have five."</p>	<p>Makes sets of objects up to 20</p> <p>EX: Says' "I have eight big buttons. We have the same."</p> <p>EX: Tosses ten puff balls at the hoop. When three lands outside She says, "More went inside."</p> <p>EX: Puts two dominoes together, says, "five dots" and counts on "six, seven, eight. Eight dots all together."</p>	<p>Identifies which number or group of objects is more, less, and same</p>	<p>Uses a variety of strategies (counting objects or fingers, counting on, or counting back) to find the sum of single-digit problems</p> <p>EX: Says, "I have five cars. Mom gave two more. I now have seven cars."</p> <p>EX: Uses two-sided counters to determine different number combinations to ten</p>	<p>Uses a variety of strategies (counting objects or fingers, counting on, or counting back) to find the difference to single-digit problems</p> <p>EX: Uses ladybug counters to solve the problem, "You had eight ladybugs. Two flew away. How many ladybugs are left?"</p>	<p>Uses a variety of strategies (counting objects or fingers, counting on, or counting back) to find the sum or difference to solve word problems</p>	<p>Generalizes this skill utilizing a calculator</p>	<p>Maintains generalized skill independently</p>

Aligned TEKS: K.2, 1.2, 1.5, 2.4, 3.4, 4.3, 4.4

Aligned UL: pk 17, elm. 19, Int. 16a

d. Students will demonstrate an understanding of place value

Learning Progression	1	2	3	4	5
Target	<p>Use concrete or pictorial models to represent whole numbers in the <u>ones</u> and <u>tens</u> place</p> <p>Ex: using base ten blocks to build their working number</p> <p>Draw pictorial representations of their working number</p>	<p>Use standard, word, and/or expanded form to represent their working number up to the tens place</p> <p>EX: writing out the number 27 as twenty-seven and/or $20+7$</p>	<p>Use concrete or pictorial models to represent whole numbers to the <u>hundreds</u> place</p> <p>Ex: using base ten blocks to build their working number</p> <p>Draw pictorial representations of their working number</p>	<p>Use standard, word, and/or expanded form to represent their working number up to the <u>hundreds</u> place</p> <p>EX: writing out the number 127 as one hundred twenty-seven and/or $100+20+7$</p>	<p>Use visual representation to illustrate or compare decimals to the tenths place</p> <p>Ex:</p> 

Aligned TEKS: 1.2, 2.2, 3.2, 4.2,

Aligned UL: elm. 19; Int. 16a

e. Student will demonstrate an understanding of multiplication process

Learning Progression	1	2	3	4	5	6	7	8
Target	Count sets of objects in a given array	Sort a given number of objects into an equal group (arrays)	Identify that "x" is the multiplication symbol	<p>Demonstrate an understand of the mathematical relationship between addition and multiplication</p> <p>EX: $3+3+3 = 9$ is the same as $3 \times 3 = 9$</p>	<p>Model one-digit by one-digit multiplication problems using manipulatives</p> <p>EX: see lesson 16d UL</p>	<p>Solve one-digit by one-digit multiplication problems using manipulatives</p> <p>EX: see lesson 16d UL</p>	Generalize this skill utilizing a calculator or multiplication chart	Maintains generalized skill independently

Aligned TEKS: 2.6, 3.4, 3.5, 4.3, 5.3, 5.4

Aligned UL: elm. 25; Int. 16d

f. Student will demonstrate an understanding of division process

Learning Progression	1	2	3	4	5	6
Target	Divide sets of objects into equal groups	Acting out division stories using real objects	Identify that is the division symbol \div	Recording the division experience by writing a number sentence and/or utilizing a calculator	Generalize this skill utilizing a calculator or multiplication chart	Maintains generalized skill independently

Aligned TEKS: 2.6, 3.4, 3.5, 4.4, 5.3

Aligned UL: elm. 25; Int. 16d

g. Student will demonstrate and model part to whole (fractions)

Learning Progression	1	2	3	4	5	6	7
Target	<p>Make a selection of smaller shapes to group together to build a larger shape</p> <p>EX: UL PreK L16 and Elem. UL L24</p>	<p>Partition a shape into two equal parts (halves)</p> <p>EX: UL PreK L16 and Elem. UL L24</p>	<p>Partition a shape into three equal parts (thirds)</p> <p>EX: UL PreK L16 and Elem. UL L24</p>	<p>Partition a shape into four equal parts (fourths)</p> <p>EX: UL PreK L16 and Elem. UL L24</p>	<p>Describe the parts of the fraction halves, thirds and fourths</p> <p>EX: UL PreK L16 and Elem. UL L24</p>	Generalize this skill	Maintains generalized skill independently

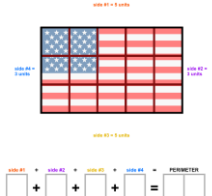

Aligned TEKS: 1.6, 2.6, 3.6, 4.3, 5.3

Aligned UL: pk16, 25; elm. 24, 26; Int. 20

Mathematics Objective 3: Students will compare and measure

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

a. Students demonstrate an understanding of proportional relationships through measurement

Learning Progression	1	2	3	4	5	6	7
Target EX: Pours sand or water from one container to another EX: Indicates which ball is bigger when shown a tennis ball and beach ball	Makes simple comparisons between two objects EX: Pours sand or water from one container to another EX: Indicates which ball is bigger when shown a tennis ball and beach ball	Compares and orders a small set of objects as appropriate according to size, length, weight EX: Puts blocks side by side in order of length EX: Lays two short blocks on top of a long block to see if it's the same length	Uses non-standard units to measure objects and report your measurement EX: Measures by using paper clips, cubes, string, hands, feet, or other objects and share that your "pen was 6 paperclips long" EX: Measures block tower with linking cubes and says, "I made mine fifteen cubes high!!!"	Uses standard units to measure objects and report your measurement EX: Measures a book using a ruler and shares "my book is 6 inches long"	Determine the perimeter EX: $P =$ the sum of all the sides 	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.7, 1.7, 2.9, 3.3, 3.6, 3.7, 4.4, 4.5, 4.8, 5.2, 5.5,

Aligned UL: pk 18, 20; elm. 21; Int. 21, 23

b. Students will demonstrate and measure time

Learning Progression	1	2	3	4	5	6	7	8	9	9
Target	Participates in a daily schedule (visual, object, or written)	Sequences daily events EX: 1. Breakfast 2. Lunch 3. Dinner Get dressed before going to school	Identifies an analog and digital clock as a tool to tell time	Manipulate the hands on a clock to tell time to the hour	Manipulate the hands on a clock to tell time to the half-hour	Manipulate the hands on a clock to tell time to the quarter-hour	Match a digital time to an analog time (or vice versa)	Demonstrates an understanding of elapsed time forwards and backwards EX: your lunch break starts at 12pm, you have 1 hour. What time do you return? Cooking time in the oven	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.1, K.7, 1.5, 1.7, 2.9, 3.7, 4.8, 5.1

Aligned UL: pk 19; elm. 23, 29; Int. 19, 29

c. Students will use graphs and interpret data

Learning Progression	1	2	3	4	5	6	7
Target	Gather simple data EX: have a class vote; conduct a simple survey	Sort the data EX: classify the data into categories and count and compare the numbers in each category	Analyze the data EX: Display the data on a picture or bar graph	Use and analyze the graph to answer “wh” questions pertaining to information presented on the graph. EX: which has more, which has less, are any the same	Provide student with blank graphing chart, objects or picture cards and they create a graph.	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K. 8, 1.8, 2.10, 3.8, 4.9, 5.9

Aligned UL: pk 18; elm. 20; Int. 17

d. Students will identify and use Money

Learning Progression	1	2	3	4	5	6	7	8	9	10
Target	Identify the penny, nickel, dime and quarter	Identify value penny, nickel, dime and quarter	Identify dollar bills: one, five, ten and twenty	Recognize the need for monetary transaction EX: on CBI's; class stores; classroom token economy; school store	Count by 1 and 5 using a group the same coins to equal \$1.00 or paper currency	Count by 10 and 25 using a group the same coins to equal \$1.00 or paper currency	Exchange a small number of mixed coins for an equivalent value in less coins EX: 2 dimes and a nickel for a quarter; 4 quarters for a dollar; 5 or 10 pennies for a nickel or dime	Counting an array of coins and bills EX: one dollar and 5 pennies; a group of different bills and coins	Generalizes this skill utilizing a calculator	Maintains generalized skill independently

Aligned TEKS: K.1, K.4, 1.1, 1.4, 2.1, 2.5, 3.1, 4.1, 5.10

Aligned UL: elm. 22; Int. 18

Science Objectives 1: Students will utilize basic classification skills

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

Learning Progression	1	2	3	4	5	6
Target	Matches two identical colors EX: Puts a red puff ball on the red spot EX: Places a yellow bear on a yellow bear	Sort objects in two or more groups based on in a single characteristic EX: color, size, or shape Extension: using non-traditional items, sort items by similar attributes (ie: soft, rough, shiny, squishy, etc.)	Sort objects by more than one characteristic at the same time EX: red circles and blue square	Explain the attributes Ex: by matter (solid, liquid, and gas); by color, by shape, by size, by living/non-living, by 5 senses, etc. EX: switches sorting rules when asked, and explains the reasons	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.5, 1.5, 2.5, 3.5, 4.5, 5.5

Aligned UL: pk2, 9; elm. 18; Int. 11

Science Objectives 2: Students will implement scientific inquiry skills

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

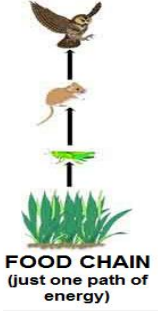

Learning Progression	1	2	3	4	5	6	6	7
Target	<p>Actively participate in a scientific process by demonstrating safe practices during classroom and outdoor investigations</p> <p>EX: hot vs. cold & wet vs. dry; understands safe practices of hot vs. cold</p>	<p>Select appropriate equipment or technology for cooking or an experiment</p> <p>EX: Selects measuring cup to measure 1 cup of sugar</p>	<p>Make a supported observation using simple equipment such as hand lenses, primary balances, and nonstandard measurement tools</p>	<p>Make predictions (guess/hypothesis) based upon experimental or cooking activities</p>	<p>Gather and record observations</p>	<p>Interpret and record conclusion</p>	<p>Generalizes this skill across multiple settings</p>	<p>Maintains generalized skill independently</p>

Aligned TEKS: K.1 K.2, 1.1, 1.2, 2.1, 2.2, 3.1, 3.2, 4.1, 4.2, 4.3, 4.4, 5.1, 5.2, 5.3, 5.4

Aligned UL: pk 23; elm. 28; Int. 28

Science Objectives 3: Students will demonstrate an understanding of the characteristics and life cycles of living things

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

Learning Progression	1	2	3	4	5	6	7	8
Target	Explores and observes the stage of the life cycle of an organism such as a baby, dog, cat, and chicken	Match the animals to their habitat Ex: A shark to the ocean	Describes a variety of common characteristics of living things using correct terms and vocabulary EX: A cat has fur. A bird has feathers. A fish has fins.	Order or records the stage of a life cycle Extension: use sequential vocabulary to describe stages of the life cycle	Describes the characteristics of a physical environment Ex: An ocean has coral	Describes or illustrates a simple food chain 	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.9, 1.9, 2.9, 3.9, 4.2, 4.4, 4.9, 4.10, 5.9, 5.10

Aligned UL: see monthly

Science Objectives 4: Students will learn about earth and space

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

Learning Progression	1	2	3	4	5	6	7	8	9
Target EX: you can see the sun and clouds in the day and moon and starts at night <i>Extension:</i> sort activities by day, night or both; Moon phases	Identify characteristics of day and night EX: you can see the sun and clouds in the day and moon and starts at night <i>Extension:</i> sort activities by day, night or both; Moon phases	Observe & describe weather changes daily	Identify the four seasons	Use weather and seasonal information to make choices for appropriate clothing & activities EX: what do you wear when you go swimming?	Sequence the water cycle and identify that it is a continuous process	Identify & describe the earth materials of: Rock, Soil, & Water EX: sort rocks by color, shape, size, texture EX: explore different types of soil EX: identify oceans, rivers, lakes, and streams EX: identify land vs water on a world map	Identify and construct a model of the plants in the solar system and communicate observations EX: identifies the number of planets; name some of the planets; label or place planets in order from the sun	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.2, K.3, K.8, 1.4, 1.7, 1.8, 2.7, 2.8, 3.8, 3.3, 3.4, 4.8, 5.7, 5.8

Aligned UL: See monthly

Social Studies Objectives 1: Students will demonstrate a knowledge of self and community

**Learning progression level achieved using the accommodations and modifications stated in the students ARD*

a. Students will demonstrate a knowledge of self

Learning Progression	1	2	3	4	5	6	7	8
Target	Identifies first name (verbally, pointing, gesturing)	Identifies last name (verbally, pointing, gesturing)	Identifies name of caregiver(s) and gives one attribute EX: name and hair color	Shares 2 more simple pieces of personal information Ex: age or birthday	Shares more than 2 pieces of personal information EX: Address, phone number, siblings name <i>Extension:</i> shares information about their extended family	Identifies traditional family & community customs and traditions Ex: seasonal holidays, cultural events like Houston rodeo, and holidays; Cinco de Mayo, Strawberry Festival	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.11, K.12; 1.15, 2.16, 3.13, 4.16, 4.19, 5.17, 5.22

Aligned UL: see monthly lessons

b. Students will show a basic understanding of people and how they live

Learning Progression	1	2	3	4	5	6	7	8
Target	Indicates needs and wants; participates as adult attends to needs EX: self-awareness;	Seeks to do things for self EX: Attempts to clean up manipulatives, communicates own needs	Demonstrates confidence in meeting own needs EX: Attends to task for an established	Determine differences between needs and wants EX: Identify basic human needs of food, clothing,	Takes responsibility of service in school and local community EX: class jobs,	Demonstrates the purpose of exchanging of good and services in school and community	Generalizes this skill across multiple settings	Maintains generalized skill independently

	Pulls off own external clothes; Reaching for supplies or food;	verbally, pointing, or gesturing	period of time, volunteers to complete a classroom job	and shelter and job home	participates in CBIs	Ex. Going to the class store to give money for items, paying for items during CBIs		
--	--	----------------------------------	--	--------------------------	----------------------	--	--	--

Aligned TEKS: K.7, K.11, K.12; 1.15, 1.7, 1.9, 2.10, 2.16, 3.6, 3.13, 4.13

Aligned UL: pk 29; elm. 29; Int. 29

c. Students will show a basic understanding of peers, leaders and community helpers

Learning Progression	1	2	3	4	5	6	7
Target	Sustains interest in working with familiar people in their environment EX: Continues play with another child or adult for an established period, plays near another child playing	Maintains relationships with familiar people in their environment for an extended period EX: a school semester or more of friendships	Identifies four or more familiar people in their school environment by name EX: - teachers - peers - school - leaders	Identifies community helpers EX: names 5 different community helpers, describes their job, and names at least 1 tool	Identifies community leaders EX: identifies - - City Mayor (identifies they are in charge of the city) - governor (identifies they are in charge of the state) - President (identifies they are in charge of the US, not of Texas) <i>*doesn't need to know the name of the actual person in office just the role and their job</i>	Generalizes this skill across multiple settings	Maintains generalized skill independently

Aligned TEKS: K.11, K.12; 1.15, 2.16, 3.13, 4.15, 4.18, 5.19

Aligned UL: see monthly lessons

d. Students will demonstrate an understanding of simple geographic knowledge and symbols

Learning Progression	1	2	3	4	5	6
Target	Recognizes people, objects, animals, and places in pictures EX: Points to a requested object in a photo,	Locate the key on a map Ex: points to/ Locates	Identify the symbols on the map key and find them on the map	Locate the compass rose on a map	Name the cardinal directions: North, South, East, and West. Ex. Touch the tree go north. The student will look at the compass rose and touch north of the tree or slide finger north of the tree. <i>Extension:</i> Use the compass rose to show relationship between two symbols on the map key	Identify land and water on a Texas map, world map and globe

6	7	8	9	10
Locates community, Texas and United States on a map or globe (verbally or pointing) EX: locates Austin as the state capital; Identifies & locates Houston and Galveston and close major cities	Draw or illustrates a shape and identifies it as a familiar symbol in their environment	Identify the Texas and US symbols: - Texas Flag - US Flag - Texas State Bird - Texas State Flower - US President <i>Extension: all state symbols</i>	Generalizes this skill across multiple settings	Maintains skill independently

Aligned TEKS: K.4, 1.4, 1.5, 2.5,3.5, 4.6, 4.8, 4.16, 4.18, 4.21, 4.26, 5.6, 5.7, 5.8, 5.17

Aligned UL: see monthly lessons

CCISD Special Programs K-2 Character Values

District Character Values Expectations

Responsibility	Trustworthiness	Respect	Citizenship	Fairness	Caring
<ul style="list-style-type: none"> • Do what you are supposed to do • Persevere: Keep on trying! • Always do your best • Use Self- control • Be self-disciplined • Think before you act- consider the consequences • Be accountable for your choices 	<ul style="list-style-type: none"> • Be honest • Don't deceive, cheat, or steal • Be reliable- do what you say you'll do • Have the courage to do the right thing • Build a good reputation • Be loyal- stand by your family, friends, and country 	<ul style="list-style-type: none"> • Treat others with respect • Follow the Golden rule • Be tolerant of differences • Use good manners, not bad language • Be considerate of the feelings of others • Don't threaten, hit or hurt anyone • Deal peacefully with anger, insults, and disagreements 	<ul style="list-style-type: none"> • Cooperate • Get involved in community affairs • Stay informed; vote • Be a good neighbor • Obey laws and rules • Respect authority • Protect the environment 	<ul style="list-style-type: none"> • Play by the rules • Take turns and share • Be open-minded; listen to others • Don't take advantage of others • Don't blame others carelessly 	<ul style="list-style-type: none"> • Be kind • Be compassionate and show you care • Express gratitude • Forgive others • Help people in need

CCISD Special Programs K-2 Character Values (Classroom, Art, Music, and Wellness)

Follows limits and expectations

Learning Progression	Responds to changes in an adult's tone of voice and expression	Accepts redirection from adults	Manages classroom rules, routines, and transitions with occasional reminders	Applies rules in new but similar situations
Target	<ul style="list-style-type: none"> Looks when adult speaks in a soothing voice Appears anxious if voices are loud or unfamiliar Touches the puddle of water when adult smiles encouragingly 	<ul style="list-style-type: none"> Moves to the sand table at suggestion of adult when there are too many at the art table Initially refuses to go inside but complies when the teacher restates the request 	<ul style="list-style-type: none"> Indicates that only four people may play at the water table. Cleans up when music is played Goes to rest area when lights are dimmed 	<ul style="list-style-type: none"> Walks and uses a quiet voice in the library Runs and shouts when in a field trip to the park Listens attentively to a guest speaker

Balances needs and rights of self and others

Learning Progression	Responds appropriately to others' expressions of wants	Takes Turns	Imitates the sharing of materials in the classroom and outdoors	Cooperates and shares ideas and materials in socially acceptable ways
Target	<ul style="list-style-type: none"> Gives another child a ball when asked Makes room on the sofa for a child who wants to look at the book with him 	<ul style="list-style-type: none"> Waits behind another child at the water fountain Says, "It's your turn now; the timer is up." 	<ul style="list-style-type: none"> Gives another child the gold marker to use but asks to use it again when the other is done Invites another child to pull the wagon with her 	<ul style="list-style-type: none"> Leaves enough space for someone else to work at the table Pays attention to group discussions, values the ideas of others, and contributes own ideas in a respectful manner.

Unique Learning Correlating Lessons to CCISD Learning Progressions

Progression: Reading	Pre-K Lesson	Elem. Lessons	Int. Lessons
1a. Students will identify and name letters	8, 15	11	10
1b. Students will demonstrate letter-sound knowledge	8, 15	11	8, 9, 10
2a. Students will identify smaller units of sound	7	8	10
2b. Students will identify alliteration	8	11	10
2c. Students will identify rhyme	6	8, 9, 10	See monthly lessons
3a. Students will use, interact, and appreciate books	1, 3, 5, 11	1, 3, 14, 15, 16	1, 3,
3b. Students will use print concepts to demonstrate emergent reading skills	1, 3, 11	1, 3, 14, 15, 16	1, 3, 5, 6
3c. Students will comprehend a text read aloud	1, 3	1, 2, 3, 4, 14, 15, 16	1, 3, 5, 6
4. Students will demonstrate an understanding of new vocabulary words using a variety of strategies	2, 4, 9,	12, 18	11
5. Students will read and comprehend environmental print in schools and community	See monthly lessons	See monthly lessons	See monthly lessons
6. Students will demonstrate an understanding of the elements of independently read leveled text	1, 3	15	2, 4
Progression: Writing	Pre-K Lesson	Elem. Lessons	Int. Lessons
1a. Students will write their own name	15, 21	17	8, 9, 10
1b. Students will use phonetic patterns to create/write new words	5, 15	6, 7, 8, 9, 30	14, 15, 30
2a. Students will write a simple sentence	5, 15	6, 7, 8, 9, 13, 30	14, 15, 30
2b. Students will create a brief composition	5, 15	6, 7, 8, 9, 30	14, 15, 30

Progression: Mathematics	Pre-K Lesson	Elem. Lessons	Int. Lessons
1. Students recognizes, describes & names attributes of shapes	16	24	23
2a. Students will demonstrate basic counting skills	17	19	16a
2b. Students will connect numerals with their quantities	17	19, 20	16a
2c. Students will demonstrate an understanding of quantifying numbers and objects	17	19, 20	16a
2d. Students will demonstrate an understanding of place value	n/a	19a, 19b	16a
2e. Student will demonstrate an understanding of multiplication process	n/a	25	16d
2f. Student will demonstrate an understanding of division process	n/a	25	16d
2g. Student will demonstrate and model part to whole (fractions)	16, 25	24, 26	n/a
3a. Students will demonstrate an understanding of proportional relationships through measurement	18, 20	21	23
3b. Students will demonstrate and measure time	19	23, 29	19, 29
3c. Students will use graphs and interpret data	18	20	17
3d. Students will identify and use money	n/a	22	18

Progression: Science	Pre-K Lesson	Elem. Lessons	Int. Lessons
1. Students will utilize basic classification skills	2, 9	18	11
2. Students will implement scientific inquiry skills	23	28	28
3. Students will demonstrate an understanding of the characteristics and life cycles of living things	See monthly lessons	See monthly lessons	See monthly lessons
4. Students will learn about earth and space	n/a	n/a	n/a

Progression: Social Studies	Pre-K Lesson	Elem. Lessons	Int. Lessons
1a. Students will demonstrate a knowledge of self	See monthly lessons	See monthly lessons	See monthly lessons
1b. Students will show a basic understanding of familiar people and how they live	29	29	29
1c. Students will show a basic understanding of peers, leaders and community helpers	See monthly lessons	See monthly lessons	See monthly lessons
1d. Students will demonstrate an understanding of simple geographic knowledge and symbols	See monthly lessons	See monthly lessons	See monthly lessons

MY STUDENTS

The screenshot shows a web browser window with the URL `myaccount.n2y.com/myaccount/my-students`. The browser's address bar and tabs are visible at the top. The page header is blue and contains a hamburger menu, the n2y logo, a notification bell, the user email `bclift@ccisd.net`, and a red 'Error' button. Below the header, the main content area is titled 'My Students'. It includes filters for 'All' (selected), 'On My Roster', and 'Shared'. There are also dropdowns for 'Grade Level: All' and 'Solution: All', and a checkbox for 'Hide Sample Students'. A blue button 'Add Student' is in the top right, and a blue link 'Add Assignment(s)' is on the right. Below the filters, it says '19 Students' and 'Select All'. The student list shows three entries: 1. 'BC Brenda Clift' with a 'Not Set' grade and a 'Setup student login.' link. 2. A student with a redacted name and 'Grade 11', showing '0 Today's Assignments' with a progress bar (0/0/0/0). 3. A student with a redacted name and 'Grade 9', also showing '0 Today's Assignments' with a progress bar (0/0/0/0). Each student entry has an eye icon and a gear icon for settings.

Here is where you add new students and set up student profiles. Students may be shared at a campus. If you have trouble adding a student they may be on another teacher's roster.

CLASSROOM SCHEDULE

The screenshot shows a web browser window with the URL `myaccount.n2y.com/Me/MySchedules`. The browser's address bar and tabs are visible at the top. The application interface has a blue header bar with a logo on the left and a user profile icon with the email `bclift@ccisd.net` on the right. The main content area is titled "Classroom Schedule" and features a large orange circular icon with a person at a whiteboard. To the right of this icon are two buttons: "Add Student Schedule" (with a plus icon) and "Remove Student Schedule" (with a minus icon). Below these buttons are two more buttons: "Edit Selected Schedule" (blue) and "Start Over" (red). A "My Schedule Tips" pop-up window is overlaid on the left side of the main content area. It contains a progress bar at 66% and a list of three items: "Getting Started with My Schedules Videos" (checked), "Do you need to create an individual student schedule?" (unchecked), and "Do you need to edit your schedule?" (checked). A "No thanks" link is at the bottom of the pop-up. The main content area also features a table with columns for the days of the week: Sunday, Tuesday, Wednesday, Thursday, Friday, and Saturday. The first row of the table shows "Math" in the Tuesday, Wednesday, Thursday, and Friday columns. The rest of the table is empty.

Levelled Book, African Safari, Level C

1

Let's go on a safari.
We will see many animals.

2

I see a zebra.
The zebra has stripes.

The screenshot shows a web browser window with the URL `unique.n2y.com/unique/monthly-lessons`. The page header is orange with the 'unique learning system' logo and a user profile for 'bcdlft@ccisd.net'. Below the header, there are tabs for 'May' (selected) and 'Summer'. A notification box states: 'May Lessons will be available until Aug. 4, 2021.' The main title is 'Plant Life' with the subtitle 'Life Science'. A 'Grade Band' dropdown menu is set to 'High School'. A search bar is labeled 'Search For Activities'. On the left, a sidebar lists categories: 'All Lessons' (selected), 'Unit Overview', 'Reading / Language Arts', 'Math', 'Science', 'Social Studies', and 'Life Skills'. The main content area, titled 'All Lessons', displays four lesson cards: 'Unit Overview' (Lesson 0), 'Leveled Book' (Lesson 1), 'Read and Comprehend' (Leveled Book Comprehension), and 'Chapter 1 - Read and Comprehend' (Working With Plants). Each card has icons for a PDF document and an interactive document. Two arrows originate from the text below: a light blue arrow points to the PDF icon on the 'Unit Overview' card, and a dark blue arrow points to the interactive icon on the 'Unit Overview' card.

Lessons can be accessed in pdf or online interactive format
Lessons are done on a three-year cycle though there is more flexibility available for individual scheduling – we will see this on the “Science and Social Studies Courses” page.
Months alternate science and social studies topics.

High School Suggested Monthly Plan

Week 1 Determine if activities will be completed as a whole class or in small groups (times may vary depending on instructional format).

	Day 1	Day 2	Day 3	Day 4	Day 5
Core	Sign-In; Daily Schedule; Greeting Check; Daily Buzz; A.M. Jobs (20–30 minutes)				
Literacy Block: 60–90 minutes					
Reading Leveled Book	Vocabulary • Lesson 15, Activity 3: Introduce Vocabulary (Leveled Book); Standards Connection (15–20) minutes Fluency/Comprehension • Lesson 1, Activity 1: Read Aloud 1 (15–20 minutes) • Lesson 1, Activity 4: Self-Selected Reading; Standards Connection (15–25 minutes)	Vocabulary • Revisit Lesson 15, Activity 3: Review Vocabulary (Leveled Book) (15 minutes) Fluency/Comprehension • Lesson 1, Activity 2: Read Aloud 2 (15–20 minutes) • Lesson 2, Activity 1: Answer Questions (15–20 minutes) • Lesson 1, Activity 4: Self-Selected Reading; Standards Connection (15–25 minutes)	Vocabulary/High-Frequency Words • Lesson 15, Activity 1: Add High-Frequency Words listed in Lesson 1, Activity 3 to Word Study Journal (20 minutes) Small Group Vocabulary/Fluency/Comprehension • Lesson 1, Activity 3: Guided/Shared Reading (15–20 minutes) • Lesson 2, Activity 2: Comprehension Activity; Standards Connection A and/or B (15–20 minutes)	Vocabulary/High-Frequency Words • Lesson 15, Activity 2: Review High-Frequency Words added to the Word Study Journal (15 minutes) Small Group Vocabulary/Fluency/Comprehension • Revisit Lesson 1, Activity 3: Guided/Shared Reading (15–20 minutes) • Revisit Lesson 2, Activity 1: Answer Questions (15 minutes)	Vocabulary/High-Frequency Words • Revisit Lesson 15, Activity 2: Review High-Frequency Words added to the Word Study Journal (20 minutes) • Revisit Lesson 15, Activity 3: Vocabulary (Leveled Book) (15 minutes) Small Group Vocabulary/Fluency/Comprehension • Revisit Lesson 1, Activity 3: Guided/Shared Reading (15 minutes) • Revisit Lesson 2, Activity 2: Comprehension Activity; Standards Connection A and/or B (15–20 minutes)
Meet with individual students to administer Monthly Checkpoint Pre-Tests: Level 2-3 Reading and Word Recognition or Level 1 Combined Content, Reading and Mathematics.					
					Writing • Lesson 17: Real World Writing; Standards Connection (20 minutes)

Instructional Guides
High School Instructional Tips

Although these are presented in worksheet formats, the application for each student may be different. Some students will perform best if the comprehension questions are read aloud. Other students may be able to complete this as an independent seatwork activity.

Printing Read and Answer pages:

- Level 3 pages may be printed and copied as a paper/pencil task.
- Level 2 pages may be printed and copied as a paper/pencil task or printed on cardstock and laminated for students to reuse with a dry erase marker.
- Level 1 pages are intended to be presented as single question cards with picture response cards to be affixed for the answer. For reuse, these cards should be laminated and pictures should be attached with VELCRO®. Laminate and cut apart the larger answer cards for this purpose.

For additional information on printing, please refer to the "Printing Guide" which can be found in the ULS Instructional Guides: Printing Guide.

In order to address the complex needs of students with significant disabilities, choice boards may need to be presented for answers. A simple choice board can be made by using a 4 x 10-inch VELCRO®-sensitive board. Use the sticky VELCRO® on the back of pictures. Place one to three pictures on the choice board.

Present two (or three) picture choices on the board. Display and read the question on the comprehension card. Present the choice board and read each word with a pause between words. Watch for a response from the student to indicate "That's the one." Response modes should be clearly established and read by the partner—are you watching for a smile, a head movement, a vocalization? Respond to the student's response choice and place it on the question card.

1. What animal is in the story?

Errorless choices mean that any one of the choices presented could be the correct answer. A single card presented on the choice board can also be considered an errorless choice. Present one card on the choice board. Present the question and read aloud. Present the single card on the choice board. Watch for a student response mode—again, this might be a smile, a movement or a vocalization. The goal in this instance is to establish a response mode and train it to be consistent.

At this level, the goal is increasing participation and building on the response mode. Is the student demonstrating comprehension of the story question? That is something we cannot answer yet. But without opportunities to participate and respond, we will never know! To increase student participation refer to the document, "Active Participation Guidelines," which can be found in the ULS Instructional Guides: Active Participation Guidelines.

Lesson 2 contains a Standards Connection that expands the lessons through the use of story retell, comprehension and presentations of knowledge. Students are asked to identify key ideas and details through presentation.

- The communication board included in each lesson can be used to arrange sentences or pictures to support story retell.

Alignment Tools
Alignment to STAAR Alternate 2 Social Studies Essence Statements

Introduction

Unique Learning System and News 2-You maintain alignment with state standards through instructional targets. These targets are the bridge between the general content standards adopted by a state and relevant curriculum content for students with significant disabilities. Lesson plans within Unique and News 2-You ensure the most rigorous alignment possible. For students with significant cognitive disabilities, access and participation in the state's adopted content standards are generally addressed through extended standards, which may be reduced in depth and breadth. The n2y Instructional Targets have been developed and are continually updated based on studies of general and extended standards across all 50 states. This document is provided as a tool to assist you in evaluating alignment of the n2y Instructional Targets to the Texas Essential Knowledge and Skills for Social Studies (TEKS) and the STAAR Alternate 2 Essence Statements. It is not a complete listing of alignment of all TEKS to ULS.

Informational sources: <http://ultra.les.edu/cv/ultra/ultra/12/index.html>
<https://tea.texas.gov/assessment/teal/alternates/alternates2-essence-statements>

The chart below describes the sections of this alignment document. Each instructional target is addressed in one or more of the unit lessons. Additionally, differentiated task descriptors are provided to define how students with diverse abilities will have access to essential content of the standards. Lesson plans and materials within Unique and News 2-You ensure the most rigorous alignment possible.

Note: The STAAR Alternate 2 Social Studies assessment is given in grade 6 and the U.S. History STAAR Alternate 2 assessment is given in high school. This document provides the Unique Learning System content information for all grade bands, but only includes the TEKS Knowledge and Skills Statements for the grade bands and courses that have Essence Statements.

Standard	Grade Band
STAAR Reporting Category The STAAR Reporting Categories for the TEKS and STAAR Alternate 2 Essence Statements are the same. They are listed in this section.	Texas Essential Knowledge and Skills for Science (TEKS) The Texas Essential Knowledge and Skills (TEKS) that align to a STAAR Alternate 2 Essence Statement are listed in this section.
Unique Instructional Targets Unique's targets focus on a science or social studies topic each month. All areas of social studies are addressed in a three-year cycle.	STAAR Alternate 2 Essence Statements The STAAR Alternate 2 Essence Statements are listed in this section.
Unique Differentiated Tasks Differentiated task descriptors ensure that students with a wide variety of learning abilities and needs are able to access, participate in and make progress in the standards-based activities. Differentiated task descriptors are written in student performance language.	
Level 1 • Students at this level are expected to reach the highest level of independence.	Level 2 • Students at this level likely will require support in all learning activities.
	Level 3 • Students at this level require maximum support in learning. Increasing participation is the primary goal.

The K-12 Instructional Targets are incorporated into all monthly unit lesson plans and the core materials lesson plans in the K-12 grade bands. These targets reflect the essential content of academic standards. English Language Arts and Mathematics are aligned with the Common Core Standards. Science and Social Studies are based on a national review of rigorous state and national standards.

Reading Standards for Literature (Aligned with Common Core Standards)			
K-2	3-5	6-8	9-12
Key Ideas and Details <ul style="list-style-type: none"> Answer questions about key details of a story. Retell a familiar story, including key details. Extra Materials

During a school year there are new issues each week and always 2 available – current week and last week.

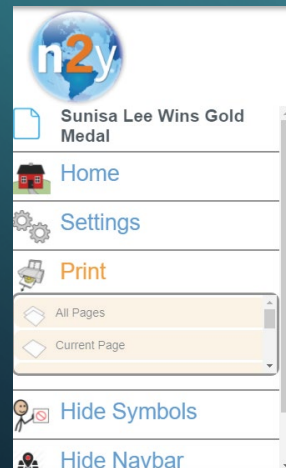

These are 10-11 page stories with visual supports and related activates, including comprehension questions.

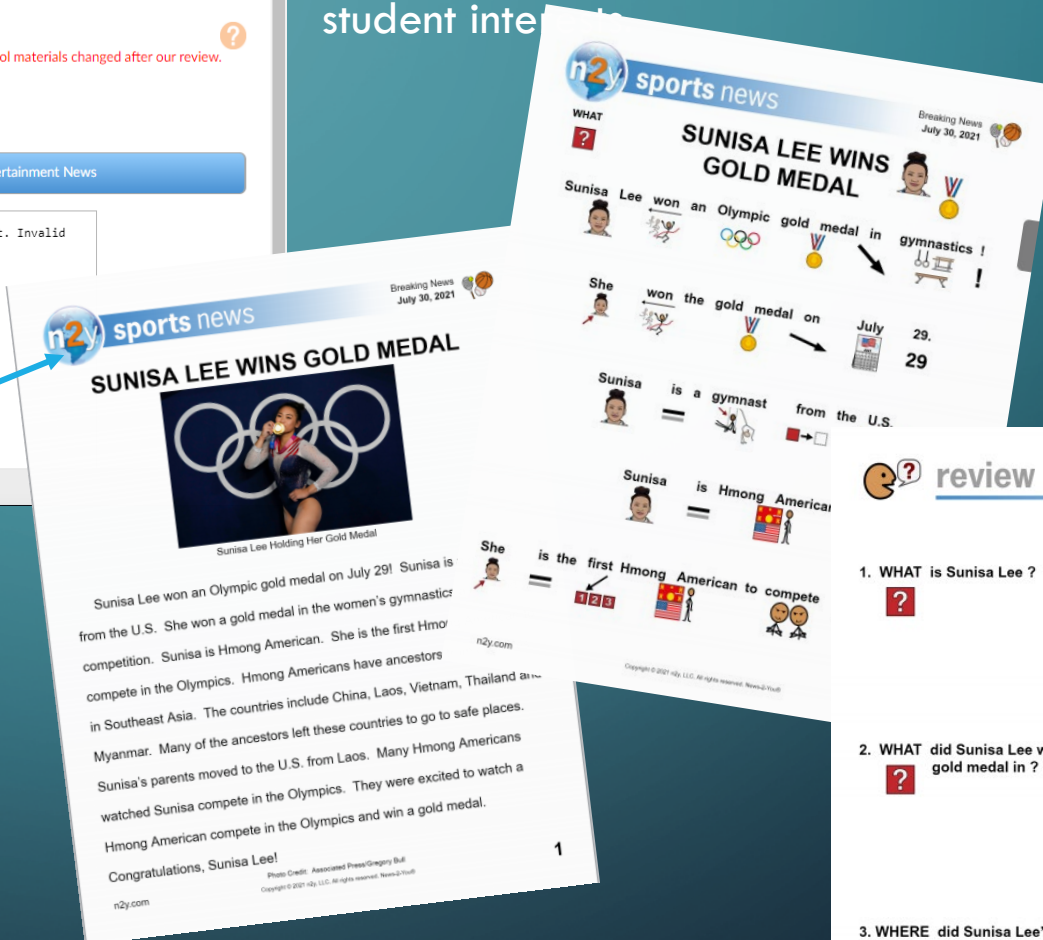

Differentiated levels of text are available and these are also available as pdf or as interactive documents.

Click on the symbol to bring up the menu to print, etc.

These are shorter current event stories, 3 pages with visuals, with a page of comprehension questions. They can be selected for content area – world news, sports news, and entertainment news - to align with student interests.

This allows you, and the students, to use interactive pages to format the news for the day. It could be used as a tool to support morning meetings and scheduling. A great way to prime students when there is an event like CBI or a pep rally coming up, either in days before or on the day of the event.

LABOR DAY

September 7

A Family Having a Picnic to Celebrate Labor Day

Labor Day started in New York City in September 1882. Ten thousand workers stopped working for one day and marched in support of workers' rights. Now in the U.S., Labor Day is celebrated on the first Monday in September. Many businesses and offices close for Labor Day. Labor is a day to relax for many working people. Labor Day celebrations may include having picnics, going to parades and watching fireworks. Labor Day also means summer break is ending and students are returning to school.
