

4160 PHYSICAL EXAMINATION

The Board of Education requires each candidate for employment who receives a conditional offer of employment to undergo a physical examination(s) to determine whether the candidate is able to perform with reasonable accommodation job-related functions pursuant to P.L. 101-336, Americans with Disabilities Act of 1990 (ADA).

If upon completing an examination(s) it is determined a candidate for employment who received a conditional offer of employment is unable to perform with reasonable accommodation job-related functions pursuant to the provisions of the ADA, the conditional offer of employment will be rescinded either by the Superintendent of Schools, if the Board has not yet approved the appointment, or by the Board, if the Board had approved the appointment at a Board meeting.

The physical examination shall include, but is not limited to, a health history to include past serious illnesses and injuries; current health problems; allergies; and a record of immunizations. The physical examination shall also include a health screening to include, but not limited to: height and weight; blood pressure; pulse and respiratory rate; vision screening; and hearing screening.

Candidates for employment who have received a conditional offer of employment will also be required to undergo a comprehensive fitness for duty examination. This examination shall not be used to determine a candidate's disabilities and shall be used only to determine whether the applicant is able to perform with reasonable accommodation job-related functions pursuant to ADA. Comprehensive fitness for duty examinations, if required by the Board, will be required for all support staff, student teachers, school bus drivers (including those bus drivers on contract with the district), and contractors who have contact with the students.

Candidates for employment who have received a conditional offer of employment will be required to be tested for the usage of controlled dangerous substances as they are defined in N.J.S.A. 2C:35-2. This testing will be completed in accordance with New Jersey Department of Health and Department of Education guidelines. Testing for the usage of controlled or dangerous substances, if required by the Board, will be required for all support staff, student teachers, school bus drivers (including those bus drivers on contract with the district), and contractors who have contact with the students.

Pursuant to N.J.S.A. 18A:16-3, the Board shall bear the cost of physical examinations required by this Policy performed by a physician or institution designated by the Board. However, the candidate shall bear the cost if the examination is performed by a physician or institution designated by the candidate with approval of the Board. In the event the Board approves the

physician or institution designated by the candidate to complete an examination required by this Policy, the candidate will be provided with the detailed requirements of the examination.

School employee physicals, examinations, and/or annual medical updates do not require screening or disclosure of HIV status.

A Mantoux tuberculosis test shall be given to all support staff, student teachers, school bus drivers (including those bus drivers on contract with the district), and contractors who have contact with the students.

All staff members' medical and health records, including computerized records, will be secured, stored, and maintained separately from other personnel files. The information contained in medical records will be kept confidential. Only the staff member, the Superintendent, and the school medical inspector shall have access to medical information regarding an individual employee. Health records may be shared only with authorized individuals in accordance with N.J.S.A. 18A:16-5. The staff member may provide health-status information, including medications that may be of value to medical personnel in the event of an emergency requiring treatment. In such instances, the staff member may also choose to share with the staff member's Building Principal and, if desired, with the certified school nurse, information regarding current health status to assure ready access in a medical emergency.

Additional individual psychiatric or physical examinations of any staff member may be required by the Board whenever, in the judgment of the Board, a staff member shows evidence of deviation from normal physical or mental health. Any additional individual examinations will be pursuant to the requirements of N.J.A.C. 6A:32-6.3. Additional examinations and/or certifications may be required to verify fitness in accordance with Policy 4161 or disability in accordance with Policies 4425 and 4435.
