In partnership with the Kentucky Department of Education, the Campbell County School District provides access to and use of various technologies including the Internet and Email as part of the instructional process. Technology resources and network access are intended solely to support educational and instructional goals. All users are expected to use resources responsibly and will be held accountable for their behavior and communications.

Students and parents must sign receipt of the Acceptable Use Policy agreement for access to network services, including electronic mail. However, educators may use and/or provide essential access to the Internet during class directed group activities/demonstrations with or without parental consent. **Students will be held accountable for violations of the Acceptable Use Policy agreement and understand that disciplinary action may be taken.** For K-5 students this agreement must be completed each school year. For 6-12 students this agreement, once signed and filed, remains in effect at that school until revisions require that a new AUP agreement be sent home for signature.
