Dietary Restrictions, Religious considerations, and Allergy Needs

Amanda-Clearcreek recognizes the dietary restrictions and needs of all students when it comes to the provision of meals within our schools. In our commitment to each student's needs, the District makes necessary preparations to meet these dietary needs by working with families to prepare meal alternatives and take necessary precautions when it comes to allergies when we are made aware of these requests.

In the event you would like to make the District aware of any special dietary restrictions, religious considerations, or allergy needs please contact Food Services Supervisor, Kimberly Dum, 740-969-7450 or kdum@amanda.k12.oh.us
