** During the first week of school, each class may have a few additional, subject-specific organizational materials that will be suggested.*

Most of these school supplies should remain in your backpack or locker as you will use them during class time.

9th grade students will be provided with an International Academy Student Planner.

Recommended For Home: Access to a printer and a supply of ink for work that is to be submitted in hard copy. Printing before school is strongly discouraged and often results in an unexcused tardy. **We are a Google Apps for Education School and will be also utilizing CANVAS.*
