

Brock & Company, Inc. is pleased to be the new foodservice company for The St. Paul's Schools.

Brock's menus at St. Paul's will offer fresh and nutritious selections to the community while still offering menu items that the students like to eat. Our philosophy is to create well-balanced menu offerings along with implementing healthier methods of preparation.

Monday through Friday, we will be serving hot and cold breakfast selections in the Main dining hall.

Lunch selections will include Brock's signature stations:

- *Harvest* - salad bar with fresh vegetables and protein options
- *Savor/Discover* – a hot meal selection, including protein, starch, and vegetable
- *Sizzle* – popular items such as chicken fingers, French fries, and a daily special
- *Hearth* – individual cheese, pepperoni, and vegetable pizzas along with a daily special
- *Fresh Flavors* – grab-and-go sandwich, salad, and snack selections

Each week, pre-order meal selections for the lower school students will include:

- *Harvest* – salad selections
- *Savor* – hot meal choices
- *Craft* – sandwich selections
- *Hydration* – choice of juice, milk, or bottled water
- *Fresh Flavors* – snack selections

General Manager Michelle Lew will manage the team in the main dining hall. Menus highlighting the daily specials with nutrition information will be available via <https://brockcafe.com/stpaulsmd/> to allow weekly planning. Michelle can be reached via the contact form or by emailing her directly at mlew@stpaulsmd.org.

Brock will be introducing a new cash register system. The Odin Single Card System affords students faster check-out times, increasing the speed of service. By utilizing the MyKidsSpending.com web portal, families can conveniently deposit money into a student account. In addition, parents can set monitoring for student spending and spending limits for different spending areas. Parents will receive an email in mid-August from statements@mks.com with instructions on logging into their student's account, adding funds, and the ordering process for the lower school.

Founded in 1927 in Philadelphia to serve factory workers, Brock is a third-generation family-owned and operated company based in Malvern, Pennsylvania. With more than 20 years of experience working with our private school partners, Brock has taken that knowledge and created a dining program specific to the needs of St. Paul's. We are confident our personalized and flexible approach to foodservice will create an enjoyable experience for the community.

We look forward to meeting the students, parents, and faculty. We are committed to exceeding everyone's expectations, so please reach out to us at askchef@brockco.com to offer feedback and suggestions.
