

Creating Norms

1. Think of pet peeves you have when you are in a meeting.
2. Reflect on and record behaviors that you would consider ideal behaviors for a group when meeting together.
3. Write one behavior on each sticky note.
4. Once you have broken into your grade level teams, share sticky notes aloud.
5. Use the sticky notes to create norms, or positive rules for operating and collaborating together, when your district grade level meets together.
6. Have one person record norms on a shared Google Doc.
