Fall 2020 and Spring 2021 ACTC CTE Dual Credit Opportunities

FAQs

How many different courses can you add to what is already offered at your high school?

· If students are coming to campus, this is a first come, first serve based on availability. See individual program information for more details. **Students coming on the ACTC campus do not affect the number of courses you can add to your total ACTC courses.**

· If you are requiring students to do work on online courses while they are at your school during school hours, the number of different courses you can offer students depends on the number of credit hours you already offer through ACTC (per SACSCOC policies). ACTC may not offer more than 50% of a certificate or degree without applying to SACSCOC for a substantive change designation, which limits high schools to no more than 29 hours.

At Boyd County Career and Technical Center, assuming you are approved as a site, you may offer any new courses to students who are required to work on them during the school day at the Boyd County Career and Technical Center.

Which students can take these courses?

· Students should be vetted carefully. The CTE placement criteria is not as stringent General Education criteria, **yet these students will need the same skills**. *ACTC strongly recommends the high schools impose higher criteria than the CTE placement criteria, which is:*

- An ACT Composite Score of 16;
- OR ACT Mathematics 16 AND ACT Reading 16;
- OR any accepted equivalent from the KCTCS Assessment and Placement Policy;
- OR a high school grade point average (GPA) of 2.5;
- AND any course-specific requirements noted in the KCTCS course catalog.

· ***Please see the full dual credit placement policy for complete details on placement in courses (provided separately).***

What scholarships can students use?

· Students may use 2 Work Ready Dual Credit Scholarships per school year on CTE courses.

· Students may use Dual Credit scholarships on CTE courses if they have not used them yet.

· It is the high school's responsibility to work with KHEAA and the students to get their requests in for scholarships at the beginning of the semester.

· *Please remember, asking for scholarships is not a guarantee of scholarships, and students must purchase their own textbooks.*
