

## ***Welcome to 5th Grade!!***

We are looking forward to our first day of school on Wednesday, August 24th. We hope you have had a great summer and are as eager as we are to begin a SUPER fifth grade year! There are many new adventures in learning awaiting your return.

Remember when we met in June, we explained how our team works in that you spend half of your day in Mrs. Freedland's classroom for math, science, and social studies, and half in Mr. Fakolt's classroom for ELA. We will be using the hybrid instructional model in which you will rotate among three stations.

Learning is exciting and challenging and, no matter what we do, we'll expect you to give your best effort at all times.

There will be hands-on science experiments! We'll learn about American History from early exploration to Lewis and Clark. You'll experience new challenges in math, reading, and writing. Take some time this summer and brush up on your math facts. You can also read.....READ.....READ!!

You will want to bring a pair of earbuds or a pair of over the ear headphones. Through experience, we have found that you will need a better quality pair to last the whole school year. We use them every day. You may want to bring a wireless mouse for your chromebook, too.

Looking forward to seeing you!

Mrs. Freedland & Mr. Fakolt
