IPM statement

It is the goal of the Encinitas Union School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Our goal at EUSD is to provide effective long term pest prevention in an effort to create a safe and functional learning environment. We aim to use the safest methods possible for students and staff to achieve these goals.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Roque Ramos- Lead Groundsperson	Mechanical weed removal and pest monitoring.
Ezra Medico- Lead Maintenance	Pest monitoring.

Pest management contracting

- Pest management services are contracted to a licensed pest control business.
Pest Control Business name(s): **American Pest Control, Pro Pacific Pest Control, Empireworks**
- Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: Eric Smith, Roque Ramos, Ezra Medico
(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by **District maintenance and operations staff** and results are communicated to the IPM Coordinator.
(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:
(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Monitoring traps and visual inspections are done to monitor for pests as needed or requested.

Pests and non-chemical management practices

This child care center has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:
