

## **Middle School Science Teacher - For the 2022/23 Academic School Year**

Warren Walker School (WWS) is seeking a collaborative and visionary middle school teacher to join our team. WWS is a private school located in the Mission Valley area of San Diego. We are seeking a well rounded candidate who will be responsible to teach, mentor, and coach adolescent youths. The primary responsibility will be teaching 7th and 8th grade Science by developing lesson plans, evaluating student progress effectively through a variety of assessments, differentiating instruction, demonstrating an ability to motivate students, and maintain an atmosphere conducive to student learning.

Candidates must demonstrate the ability to integrate technology into the junior high curriculum. As a team member, you would be expected to work cooperatively with the administration and your colleagues as well as the support staff. You would be expected to demonstrate positive interpersonal relationships with both students and their parents. Other professional responsibilities include maintaining a professional manner in the classroom, demonstrating a sense of professional responsibility, and actively participating in professional growth opportunities.

Warren-Walker School is an Equal Opportunity Employer and we strongly encourage a diverse field of qualified applicants.

Qualified candidates will ideally have:

- 3-5 years classroom teaching experience (other youth work experience can apply)
- B.A. or credential in Science (Biology, Physics or Chemistry)
- Teaching credential a plus but not mandatory
- Interest in Robotics or other after school programs
- Strongly connected to WWS Mission and Values
- Interdisciplinary approach to teaching
- Strong curriculum writing skills
- Proven ability to work in middle school age setting
- Effective collaborator
- Proven ability to mentor youth
- Strong ability to communicate effectively with parents
