

WHAT IS A JESUIT EDUCATION?

Jesuit High School is dedicated to engaging and forming young men and women intellectually, morally, and spiritually with rigor and compassion.

A Jesuit education:

- Develops the whole student – mind, body, and spirit.
- Models *cura personalis*, care of the whole person.
- Values academic excellence.
- Invites students to search for and find God in all things.
- Promotes interreligious dialogue and service to others, especially the poor and marginalized.
- Pays special attention to values, ethical issues, and the development of character.
- Encourages students to become lifelong learners.
- Helps students develop the habits of being open to growth, intellectually competent, religious, loving, and committed to doing justice.
- Is interdisciplinary, challenging, and rigorous.
- Engages students through a careful analysis of context, in dialogue with experience, internalized through reflection, for the sake of action, and with openness, always, to evaluation.
- Develops critical, analytical, and creative thinking skills.
- Teaches discernment – a process for making choices.
- Encourages student responsibility and accountability.
- Forms leaders who are “men and women for others.”
- Strives always for excellence, for the more, the *Magis*.
