

2.02 Plan and Design Your Child's Workspace List

Spanish Translation Available, [click here](#)

We always want to make sure we provide our Learning Mentors with resources that you can use to save time, generate ideas, or simply print and use them as they are.

Plan and Design Your Child's Workspace Template

- What ideas does your child have?
- Where would they be comfortable doing independent work?

Creating a checklist: put a check mark next to each item you already have in your home. Encourage creativity while teaching responsibility. We added a few examples in the table below, adjust accordingly.

Depending on the age of your child, do research and price out items. This will also teach them about: MUST have, would LIKE to have, and WISH list. This is an excellent opportunity to teach a great lesson on spending wisely and how one can "earn" the "wants".

MUST have	LIKE to have	WISH List
◦ Stable chair	◦ Storage container	◦ Wireless keyboard
◦ Stable table or desk surface	◦ Holder or Organizer for files/folders/notebooks	◦ Wireless mouse
◦ Adequate lighting	◦ Desk or Wall clock	◦ Desk lamp
◦ Power surge strip (age-appropriate use)	◦ Whiteboard	◦ Inspirational quotes on the wall
◦ Academy recommended supplies (see your list by grade)		◦ External monitor

Have a couple of games such as cards, puzzles, and board games that your child can play if they need a break from their work before refocusing. This is a fun way for the family to take a little break.
