

LOGIN TO STUDENT PORTAL

This is how students can create their account on Student Portal and they can then check their own grades

01

GO TO THE STUDENT PORTAL LINK

<https://portals20.ascendertx.com/StudentPortal/login?distid=079910>

02

CREATE A ACCOUNT

Students need to create an account first, so go to the Create Account Tab

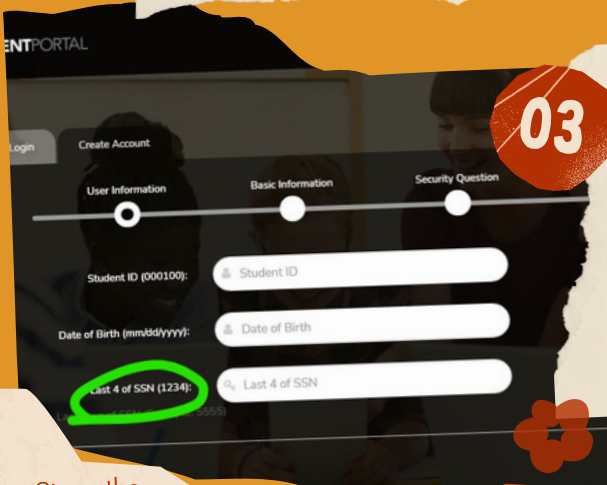

03

GIVE THE LAST 4 DIGITS

Students should know their ID number and birthday (make sure it is in mm/dd/yyyy format)

Look up their last 4 digits in the Excel spreadsheet. They go in the last section.

Since the students create their own username, password and security answers, they should save that info in a safe place!

04

CREATE A USER NAME ETC...

Students will create a username and password OF THEIR CHOICE, fill out the security questions and then login in with that information.
