Employee Access will allow MISD employees to view general demographics, time off balances, and payroll information. Employee Access is a program that provides assignment information, employment/salary verification information, check estimation tools, time off status, and W-2 PDF files. Best of all, check advice notices are at each employee's fingertips.

Employee Access can be opened through the MISD website (<http://www.misd.gs>).

- Select the Staff Tab
- Select Skyward (Employee Access) from the Directory

(The web address for Employee Access is also provided in the heading of this memo.)

The initial login and password will be computer generated. On the first entry, employees will need to select "Forgot your Login/Password?" Follow the prompts and the system will e-mail the user name/password. If an employee does not have a district e-mail address, a personal e-mail address must be on file in order to utilize this tool. In the event that an employee does not have a district or personal e-mail account, a password can be assigned by Payroll personnel upon the employee's request.

(Hint: Generally, the user name is the first 5 letters of the last name, followed by the first 3 letters of the first name, followed by three digits which in most cases are 000.)
