

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

Students will be assessed in the Spring of 2022. The assessment data will be analyzed to identify students in need of additional support or who may be in danger of experiencing a "summer slide" in their skills. These students will be invited to attend a Summer Learning

Program for 4 hours a day 4 days per week for 6 weeks of the Summer. During this time, students will receive one-on-one, small group and whole group instruction aligned to their needs.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	150	Data will be collected and analyzed from a variety of tools: Exact Path Diagnostics, Keystones, PSSA, SAT, Curriculum Based Assessments, IEP Progress Monitoring, Fountas & Pinnell Benchmark Assessments

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

Students complete an Exact Path Diagnostic to determine improvement areas and are prescribed a digital improvement pathway. Students will be encouraged to complete progress on their pathway and receive instruction in areas where they struggle. Students who are most below the grade level expectation will receive small group instruction with sequentially leveled texts for the Fountas and Pinnell Leveled Literacy Intervention.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role

Number of Staff Members	Internal/Outside Provider	Role
1	Internal Provider	Out of School Time Coordinator
10	Internal Provider	Teachers
10	Internal Provider	Teaching Assistants

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Exact Path Diagnostic (Math, Reading & Lang. Arts)	3x Per year	Students make at least 1 year of improvement

6. How will the LEA engage families in the summer school program?

CCSA will provide periodic family workshops to discuss topics related to academic growth.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget

\$31,737.00

Allocation

\$31,737.00

Budget Over(Under) Allocation

\$0.00
