

Title I -- Targeted Assistance Warren Local Schools

The Ramp Up program is a Targeted Assistance program at Warren Local School District.

Targeted Assistance programs are supplemental Title I services provided to a select group of eligible children—those identified as most at risk of failing to meet the state's standards for reading. Two or more academically related criteria must be used to determine student eligibility for the program.

Title I eligible buildings must have 35 percent or more low-income children or the same percent or more low-income children as the district's average. Title I-eligible buildings that do not have at least 40 percent low-income children must use the Targeted Assistance program. Buildings that have 40 percent or more low-income children may implement either the Targeted Assistance or Schoolwide program.

Title I Targeted Assistance services offered by school districts include additional services beyond what is offered in the required curriculum. Warren Local's services include instruction by a highly qualified teacher. No matter what targeted assistance method is used, it is recommended that the highest risk children be taught by the highest quality teachers.
