Re: Transportation/ Walkers

Date: 8-15-22

The safety of our students is our top priority. Understanding this, the following procedures will be followed regarding students who walk to and from the school campus and any changes to transportation.

- Students will be released directly to parents/ guardians or the bus drivers.
- No student will be allowed to walk until approval is given from the principal and permission has been obtained and signed from the parent/ guardian.
- Fifth grade students will not be allowed to walk at any point, not even with a sibling.
- If a student is attending practice after school, they are to report immediately to practice. At no point will a coach or faculty member allow a student to walk off of campus for any reason.
- Students will not be allowed to walk off of campus at dismissal on game days for any reason.
- If transportation is changing for any reason, a student must bring a note written by the parent and obtain permission from administration.
- If transportation needs to change during the school day, the parent/ guardian must fax/ email a written request with I.D. attached.
- Early check outs will not be allowed after 2:30 p.m.

I have read and understand the transportation guidelines for the 2022-2023 school year.
