

## Welcome to all participants in the Wakulla Innovative Educational Approach distance and remote learning program!

We are excited for the start of the 20-21 School Year. Even though we are all facing unprecedented challenges, our hope is that here at each of our Wakulla County Schools sites we can be a resource for you and your student in these times.

Attached are support resources including a PDF file of the WIEA Parent Training Night power-point presentation. Parents first viewed this full power point during the Parent Training Night presentations. You will also find the WIEA Parent Night handout with some general information, which is meant to address some of our most frequently, asked questions.

Additionally, you can find the distance-learning version of the training presentation at the link below:

<https://youtu.be/cGHNYIRPQcc>

This is your source of information for all official WCSB video trainings and correspondence regarding our LMS Canvas and the Wakulla Innovative Educational Approach, our distance-learning program implemented through all school sites.

As we move into the school year and begin distance learning on August 27<sup>th</sup> keep in mind you are not alone! For more information on scheduling, instruction, and extra/co-curriculars be sure to reach out to your child's school. For more detailed information on our student 1:1 technology initiative, laptops, and hardware, our WCSB IT Department is your point of contact. Of course, we are always available at the District Office for any general help or questions you may need answers to.

Hoping everyone is as safe, well, happy and healthy as possible.
