MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management of the District School Board of Wakulla County have prepared the following discussion and analysis to provide an overview of the District's financial activities for the fiscal year ended June 30, 2015. The information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions and should be considered in conjunction with the District's financial statements and notes to the financial statements.

FINANCIAL HIGHLIGHTS

Financial highlights for the fiscal year 2014-2015 are as follows:

- The District's total net position increased by \$1,177,727.44 which represents a 1.8 percent increase from the 2013-14 fiscal year.
- During the current year, General Fund expenditures exceeded revenues by \$1,332,904.56. This may be compared to last year's results in which General Fund expenditures exceeded revenues by \$579,638.50.
- The unassigned and assigned fund balances for the General Fund, representing the net current financial resources available for general appropriation by the Board, totaled \$3,156,119.93, or 8.4 percent of General Fund expenditures totaling \$37,786,068.71. This represents a 21.4 percent decrease from the previous year's unassigned and assigned fund balances of \$4,017,195.80.

NON-FINANCIAL EVENTS

The following are some of the more significant non-financial related events that occurred during the reporting period:

- The District's funded student enrollment increased by 75.72 to 5,068.03 students.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements consist of three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the financial statements

In addition, this report presents certain required supplementary information which includes management's discussion and analysis.

Government-wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net position and a statement of activities that are designed to provide consolidated financial information about the governmental and business-type activities of the Primary Government presented on the accrual basis of accounting. The statement of net position provides information about the government's financial position, its assets and liabilities, using an economic resources measurement focus. The difference between the assets and liabilities, the net position, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net position, the results of operations, during the fiscal year. An increase or decrease in net position is an indication of whether the District's financial health is improving or deteriorating.

The government-wide statements present the District's activities in three categories:

- Governmental activities – This represents most of the District's services including its educational programs: basic, vocational, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the state's education finance program provide most of the resources that support these activities.
- Business-type activities – As the fiscal agent of the Small School District Council Consortium, the District charges fees to cover the cost of certain services it provides.

- Component units – The District presents Wakulla’s Charter School of the Arts, Science, and Technology as a separate legal entity in this report. Although the school is a legally separate organization, it is considered a component unit for financial reporting purposes and is included in this report because the school meets the criteria for inclusion provided by generally accepted accounting principles. Financial information for this component unit is reported separately from the financial information presented for the primary government.

Over a period of time, changes in the District’s net position is an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District’s property tax base, student enrollment, and the condition of the District’s capital assets including its school buildings and administrative facilities.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District’s financial activities, focusing on its most significant or “major” funds rather than fund types. This is in contrast to the entity-wide perspective contained in the government-wide statements.

All of the District’s funds may be classified within one of three broad categories:

- Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as balances of spendable resources available at the end of the fiscal year. Consequently, the governmental fund statements provide a detailed

short-term view that may be used to evaluate the District's near-term financing requirements.

This short-term view is useful when compared to the long-term view presented as governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds. The District's major funds are the General Fund, Special Revenue-ARRA Economic Stimulus Fund, and Capital Projects-Other Fund. Data from other governmental funds are combined into a single, aggregate presentation.

The District adopts an annual appropriated budget for its governmental funds. A budgetary comparison schedule has been provided for the General and other funds to demonstrate compliance with the budget.

- Proprietary Funds – Proprietary funds may be established to account for activities in which a fee is charged for services. Enterprise funds are used to report the same functions as business-type activities in the government-wide financial statements. The District uses an enterprise fund to account for the activities of the Small School District Council Consortium, for which the District is fiscal agent.
- Fiduciary Funds – Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes. The District uses agency funds to account for resources held for student activities and groups.

Notes to Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial health. The following is a comparison of the District's net position as of June 30, 2015, compared to net position as of June 30, 2014:

Net Assets, End of Year

Net Position increased by \$1,177,727.44 or 1.8 percent.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land; buildings; furniture, fixtures, and equipment), less any related debt still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending.

The restricted portion of the District's net position (1.9 percent) represents resources that are subject to external restrictions on how they may be used.

The unrestricted portion of the District's net position reported as of June 30, 2014 is restated as a result of the implementation of GASB Statement No. 68. Statement No. 68 requires the District to recognize its proportionate share of the unfunded pension obligation of the defined benefit plan and the health insurance subsidy plan administered by the Florida Retirement System. As explained in the Notes to Financial Statements, Section II Accounting Changes, a significant adjustment was made to Net Position that resulted in a negative balance for the unrestricted net position of the District. As of June 30, 2015 the unrestricted portion of the District's net position remains negative due to the recognized pension liability.

On the following page is the key elements of the changes in the District's net position for the fiscal years ended June 30, 2015, and June 30, 2014, are as follows:

FINANCIAL ANALYSIS OF INDIVIDUAL FUNDS

The largest revenue source is the State of Florida (65 percent). Revenues from State sources are primarily received through the Florida Education Finance Program (FEFP) funding formula. The FEFP formula utilizes student enrollment data, and is designed to maintain equity in funding across all Florida school districts, taking into consideration the District's funding ability based on the local property tax base. State revenues accounted for in the General Fund totaled \$28,003,965.15, an increase of \$1,139,816.23 from the prior year. Compare to the previous year, the BSA multiplied by the DCD increased by 8.4% from \$3,548.55 per FTE to \$3,848.32 per FTE. Overall State revenues totaled \$28,700,741.97, an increase of \$1,238,238.20.

Property tax revenue decreased by \$124,090.78 or 1.3 percent, primarily because of the decline in the property tax base from approximately \$1,170,623 in the 2013-14 fiscal year to approximately \$1,189,253,057 in the 2014-15 fiscal year.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The General Fund is the District's chief operating fund. For the current fiscal year, 82.5 percent of revenues and 83.5 percent of expenditures of the governmental funds were accounted for in the General Fund. During the fiscal year, the total fund balance decreased by \$618,970.58 to \$3,860,142.47. The unassigned and assigned fund balances of the General Fund are an important indicator of the District's financial condition. Through fiscal prudence, the District attempts to maintain an unassigned plus assigned fund balance of at least 5 percent of General Fund revenues for any given fiscal year. At the end of the current fiscal year, unassigned plus assigned fund balance is \$3,156,119.93, or 8.7 percent of General Fund revenues totaling \$36,453,164.15. The unassigned plus assigned fund balance decreased \$861,075.87 from the unassigned plus assigned fund balance of \$4,017,195.80 in the previous fiscal year.

The Special Revenue – ARRA Economic Stimulus Fund is used to account for certain Federal grant program resources related to the American Recovery and Reinvestment Act (ARRA). Revenues and expenditures totaled \$174,204.76 each for the 2014-15 fiscal year. Because revenue is recognized to the extent that eligible expenditures have been incurred for these Federal grant program resources, the fund does not maintain a fund balance.

The Capital Projects - Other Fund has a total fund balance of \$1,004,054.55. Fund balances for these funds are assigned for the acquisition, construction, and maintenance of capital assets. \$395,177 of fund balances has been encumbered for the Wakulla High Track and Gym renovations.

The only proprietary fund for the district is the Small School District Council Consortium Enterprise Fund which reported unrestricted net assets of \$20,791.46. This balance represents a 23.2 percent decrease from the previous year. This decrease occurred primarily because of increased costs for the consulting firm utilized by the Consortium.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the 2014-15 fiscal year, the District amended its General Fund budget several times, which resulted in an decrease in total budgeted revenues amounting to \$48,336.76, and an increase in final appropriations of \$180,702.90 from the original budgeted amounts. Budget revisions were due primarily to changes in estimated State funding levels and corresponding adjustments to planned expenditures to ensure maintenance of an adequate fund balance.

Actual revenues are \$357,806.91, or 1.0 percent, more than the final budgeted amounts while actual expenditures are \$1,298,248.04, or 3.3 percent, less than final budget amounts. The decrease in expenditures was mainly because instruction and school administration expenditures were less than planned. The actual ending fund balance exceeded the estimated fund balance contained in the final amended budget by \$1,703,885.93.

CAPITAL ASSETS AND LONG-TERM DEBT

The District's investment in capital assets for its governmental activities as of June 30, 2015 totaled \$80,338,082.59 (net of accumulated depreciation). This investment in capital assets includes land; land improvements; improvements other than buildings; buildings and fixed equipment; furniture, fixtures, and equipment; motor vehicles; construction in progress; audio visual materials; and computer software. Additional information on such assets can be found in Notes to the Financial Statements, section III.C.

As of June 30, 2015, the District had \$995,942.20 of long-term debt outstanding, which is comprised of \$367,000 in bonds payable and \$628,942.20 in installment-purchases payable. During the year, retirement

of debt totaled \$941,290.20. Additional information on the District's long-term debt can be found in Notes to the Financial Statements, sections III.D and III.I.

No changes were noted in the District's credit ratings.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE GOVERNMENT-WIDE STATEMENT OF NET POSITION
For the Fiscal Year Ended June 30, 2015

Total Fund Balances - Governmental Funds	5,602,868.79
Amounts reported for <i>governmental activities</i> in the statement of net position are different because:	
Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.	80,338,082.59
Interest on long-term debt is accrued as a liability in the governmental-wide statements, but is not recognized in the governmental funds until due	(20,887.14)
Revenue is recognized in the government-wide statements for receivable related to litigation settlement and recorded as a deferred inflow of resources under the modified accrual method for governmental funds.	1,000,000.00
Deferred outflows and inflows of resources related to the cost-sharing pensions are applicable to future periods and, therefore, are not reported in the funds	(3,231,654.00)
Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. Long-term liabilities at fiscal year-end consist of:	
Bonds Payable	(367,000.00)
Installment Purchases Payable	(628,942.20)
Compensated Absences Payable	(2,342,830.60)
Other Postemployment Benefits Payable	(2,577,007.00)
Unfunded Pension Payable	(11,273,273.00)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2015**

Net Change in Fund Balances - Governmental Funds (1,015,130.63)

Amounts reported for *governmental activities* in the statement of activities are different because:

Capital outlays are reported in the governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of depreciation expense in excess of capital outlays in the current fiscal year. (422,072.63)

Donated capital assets are reported as revenue in the statement of activities but do not provide current financial resources and therefore are not reported in the governmental funds. 22,869.04

Long-term debt proceeds provide current financial resources to the governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which proceeds exceed repayment in the current fiscal year.

Installment-Purchase Principal Payments	201,290.20
Bond Principal Repayments	763,000.00

Accrued interest expense reported in the statement of activities does not require the use of current financial resources and, therefore, is not reported as an expenditure in the governmental funds. This is the decrease in accrued interest during the current fiscal year. 8,795.90

Revenue is recognized in the government-wide statements for receivable related to litigation settlement and recorded as a deferred inflow of resources under the modified accrual method for governmental funds. 1,000,000.00

In the Statement of Activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds, expenditures are recognized based on the amounts actually paid for compensated absences. This is the net amount of compensated absences paid in excess of the amount earned in the current fiscal year. 2,647.27

Other postemployment benefits costs are recorded in the statement of activities under the full accrual basis of accounting, but are not recorded in the governmental funds until paid. This net increase in the other postemployment benefits liability for the current fiscal year. (231,623.00)

Contributions to the Florida Retirement System are reported as expenditures in the governmental funds. However, in the Statement of Activities the cost of pension benefits earned net of employee contributions is reported as a pension expense. This is the net amount of contributions paid to the Florida Retirement System in excess of the amount of pension benefits earned during the year 833,946.00

The purchases method of inventory accounting is used in the governmental funds for the transportation inventories, while the government-wide statement inventories are accounted for on the consumption method. 20,276.29

Change in Net Position of Governmental Activities	1,183,998.44

WAKULLA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees charged to external customers for support. Likewise, the primary government is reported separately from certain legally separated component units for which the primary government is financial accountable.

The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities and for each segment of the business-type activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expense associated with the District's transportation department is allocated to the pupil transportation services function, while remaining depreciation expense is not readily associated with a particular function and is reported as unallocated.

B. Reporting Entity

The Wakulla County District School Board (Board) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The Wakulla County School District (District) is considered part of the Florida system of public education, operates under the general direction of the Florida Department of Education, and is governed by State law and State Board of Education rules. The governing body of the District is the Board, which is composed of five elected members. The elected Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Wakulla County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any legally separate entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading.

Based on the application of these criteria, the following component unit is included within the District's reporting entity:

Discretely Presented Component Unit. The component unit columns in the government-wide financial statements include the financial data of the District's other component unit. A separate column is used to emphasize that it is legally separate from the District.

WAKULLA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

Wakulla's Charter School of Arts, Science, and Technology, Inc. is a not-for-profit corporation organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and Section 1002.33, Florida Statutes. The charter school operates under a charter approved by its sponsor, the Wakulla County District School Board. The charter school is considered to be a component unit of the District since it is fiscally dependent on the District to levy taxes for its support and there is a potential for the charter school to provide specific financial benefits to, or impose specific financial burdens on, the District.

The financial data reported on the accompanying statements was derived from the charter school's audited financial statements for the fiscal year ended June 30, 2015. The audit reports are filed in the District's administrative offices.

C. Basis of Presentation: Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The effects of interfund activity have been eliminated from the government-wide financial statements except for interfund services provided and used.

D. Basis of Presentation: Fund Financial Statements

The fund financial statements provide information about the District's funds, including the fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

- General Fund – to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Special Revenue – Federal Economic Stimulus Fund – to account for certain Federal grant program resources related to the American Recovery and Reinvestment Act (ARRA).
- Capital Projects – Other Fund – to account for the financial resources generated by various State sources and local sources to be used for educational capital outlay needs, including new construction, and renovation and remodeling projects.

Additionally, the District reports the following proprietary and fiduciary fund types:

- Enterprise Fund – to account for the financing of the Small School District Council Consortium for which the District is fiscal agent.

WAKULLA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

- Agency Funds – to account for resources of the school internal funds, which are used to administer moneys collected at several schools in connection with school, student athletic, class, and club activities.

During the course of operations the District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column. Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in and out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

E. Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditures are generally recognized when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, claims and judgments, other postemployment benefits, and compensated absences, are only recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds.

WAKULLA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources. Allocations of cost, such as depreciation, are not recognized in governmental funds.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

The charter school is accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

F. Assets, Liabilities, and Net Position/Fund Balance

1. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term, highly liquid investments with original maturities of three months or less. Investments classified as cash equivalents include amounts placed with the State Board of Administration (SBA) in Florida PRIME, formerly known as the Local Government Surplus Funds Trust Fund Investment Pool.

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

2. Investments

Investments consist of amounts placed in the SBA debt service accounts for investment of debt service moneys and amounts placed with the SBA for participation in the Florida PRIME investment pool created by Section 218.405, Florida Statutes. These investment pools operate under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in Florida PRIME, which the SBA indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. These investments are reported at fair value, which is amortized cost.

Types and amounts of investments held at fiscal year-end are described in a subsequent note.

3. Inventories

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost on the first-in, first-out basis (or, if applicable, last invoice, which approximates the first-in, first-out basis), except that the United States Department of Agriculture donated foods are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of food service and transportation inventories are recorded as expenditures when used rather than purchased. Inventories are equally offset by a nonspendable fund balance which indicates they do not constitute "available spendable resources."

WAKULLA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

4. Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$750. However, for renovations to buildings, the threshold of capitalization is \$50,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation.

Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets are depreciated using the weighted average composite method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Improvements Other than Buildings	8 - 35 years
Buildings and Fixed Equipment	10 - 50 years
Furniture, Fixtures, and Equipment	3 - 10 years
Motor Vehicles	5 - 10 years
Audio Visual Materials and Computer Software	5 - 7 years

Current year information relative to changes in capital assets is described in a subsequent note.

5. Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due.

Changes in long-term liabilities for the current year are reported in a subsequent note.

6. Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS's and the HIS's fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including

WAKULLA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS

refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

The District's retirement plans and related amounts are described in a subsequent note.

7. Net Position Flow Assumption

The District occasionally funds outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. To calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. Consequently, it is the District's policy to consider restricted - net position to have been depleted before unrestricted – net position is applied.

8. Fund Balance Flow Assumptions

The District may fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). To calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

9. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board has by resolution authorized the finance director to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

G. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

2. State Revenue Sources

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of five months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. State Board of Education rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same educational programs. The Department generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the balance of categorical and earmarked educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

3. District Property Taxes

The Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

WAKULLA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Wakulla County Property Appraiser, and property taxes are collected by the Wakulla County Tax Collector.

The Board adopted the 2014 tax levy on September 8, 2014. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Wakulla County Tax Collector at fiscal year-end but not yet remitted to the District.

Millages and taxes levied for the current year are presented in a subsequent note.

4. Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

5. Compensated Absences

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations and retirements. The liability for compensated absences includes salary-related benefits, where applicable.

6. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's enterprise fund are charges for services relating to the Small School District Council Consortium. Operating expenses include purchased services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

II. ACCOUNTING CHANGES

Governmental Accounting Standards Board Statement No. 68. The District participates in the Florida Retirement System (FRS) defined benefit pension plan and the Health Insurance Subsidy (HIS) defined benefit plan administered by Florida Division of Retirement. As a participating employer, the District implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, which requires employers participating in cost-sharing multiple-employer defined benefit pension plans to report the employers' proportionate share of the net pension liabilities and related pension amounts of the defined benefit pension plans. The beginning net position of the District was decreased by \$15,338,873 due to the adoption of this Statement. The District's proportionate share of the net pension liabilities at July 1, 2014 totaled \$17,030,092.

III. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

A. Cash Deposits with Financial Institutions

Custodial Credit Risk-Deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk. All bank balances of the District are fully insured or collateralized as required by Chapter 280, Florida Statutes.

Cash balances from all funds are combined and invested to extent available. Earnings are allocated monthly to each fund balance on average daily balances.

B. Investments

As of June 30, 2015, the District has the following investments and maturities:

<u>Investments</u>	<u>Maturities</u>	<u>Fair Value</u>
SBA:		
Florida PRIME (1)	34 Day Average	\$ 4,964,820.94
Debt Service Accounts	6 Months	10,275.22
Total Investments, Primary Government		<u>\$ 4,975,096.16</u>

Notes: (1) Investments reported as a cash equivalent for financial statement reporting purposes.

➤ Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses from increasing interest rates.

Florida PRIME had a weighted average days to maturity (WAM) of 34 days at June 30, 2015. A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes. Due to the nature of the securities in Fund B, the interest rate risk information required by GASB Statement No. 40 (i.e., specific identification, duration, weighted average maturity, segmented time

DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS

distribution, or simulation model) is not available. An estimate of the weighted average life (WAL) is available. In the calculation of the WAL, the time at which an expected principal amount is to be received, measured in years, is weighted by the principal amount received at that time divided by the sum of all expected principal payments. The principal amounts used in the WAL calculation are not discounted to present value as they would be in a weighted average duration calculation. The WAL, based on expected future cash flows, of Fund B at June 30, 2014, is estimated at 2.86 years.

➤ **Credit Risk**

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(17), Florida Statutes, limits investments to the SBA's Florida PRIME, or any other intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; Securities and Exchange Commission (SEC) registered money market funds with the highest credit quality rating from a nationally recognized rating agency; interest-bearing time deposits in qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury. The District does not have a formal investment policy that limits its investment choices.

The District's investments in the SBA debt service accounts are to provide for debt service payments on bond debt issued by the State Board of Education for the benefit of the District. The District relies on policies developed by the SBA for managing interest rate risk and credit risk for this account.

E. Pension Obligations

1. Florida Retirement System

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any state-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered Florida Retirement System (FRS). Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. The FRS is a single retirement

system administered by the Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. These include a defined-benefit pension plan (Plan), a Deferred Retirement Option Program (DROP), and a defined-contribution plan, referred to as the Florida Retirement System Investment Plan (Investment Plan). A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' Web site (www.dms.myflorida.com).

The District's pension expense totaled \$1,032,795 for the fiscal year ended June 30, 2015.

FRS Pension Plan

Plan Description. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program (DROP) for eligible employees. The general classes of membership are as follows:

- *Regular Class* – Members of the FRS who do not qualify for membership in the other classes.
- *Elected County Officers Class* – Members who hold specified elective offices in local government.

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Members of both Plans may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating

the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

Regular Class members initially enrolled before July 1, 2011	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
Regular Class members initially enrolled on or after July 1, 2011	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 or more years of service	1.68
Elected County Officers	3.00

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2014-15 fiscal year were as follows:

<u>Class</u>	<u>Percent of Gross Salary</u>	
	<u>Employee</u>	<u>Employer (1)</u>
FRS, Regular	3.00	7.37
FRS, Elected County Officers	3.00	43.24
DROP - Applicable to		
Members from All of the Above Classes	0.00	12.28
FRS, Reemployed Retiree	(2)	(2)

Notes: (1) Employer rates include 1.26 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.04 percent for administrative costs of the Investment Plan.

(2) Contribution rates are dependent upon retirement class in which reemployed.

The District's contributions, including employee contributions, to the Plan totaled \$1,562,459 for the fiscal year ended June 30, 2015. This excludes the HIS defined benefit pension plan contributions.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2015, the District reported a liability of \$3,965,098 for its proportionate share of

the Plan's net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The District's proportionate share of the net pension liability was based on the District's 2014-15 fiscal year contributions relative to the 2013-14 fiscal year contributions of all participating members. At June 30, 2014, the District's proportionate share was .0649859 percent, which was an increase of .000049811 from its proportionate share measured as of June 30, 2013.

For the fiscal year ended June 30, 2015, the District recognized pension expense of \$510,825 related to the Plan. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$	\$ 245,372
Change of assumptions	686,689	
Net difference between projected and actual earnings on FRS pension plan investments		6,614,442

The deferred outflows of resources related to pensions, totaling \$1,562,459, resulting from District contributions to the Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Actuarial Assumptions. The total pension liability in the July 1, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary Increases	3.25 percent, average, including inflation
Investment rate of return	7.65 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB, with adjustments for mortality improvements based on Scale AA.

The actuarial assumptions used in the July 1, 2014, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Discount Rate. The discount rate used to measure the total pension liability was 7.65 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return

HIS Pension Plan

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Division of Retirement within the Florida Department of Management Services.

Benefits Provided. For the fiscal year ended June 30, 2015, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2015, the contribution rate was 1.26 percent of payroll pursuant to section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$304,282 for the fiscal year ended June 30, 2015.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2015, the District reported a net pension liability of \$7,308,177 for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The District's proportionate share of the net

pension liability was based on the District's 2013-14 fiscal year contributions relative to the total 2013-14 fiscal year contributions of all participating members. At June 30, 2014, the District's proportionate share was .0781603 percent, which was an increase/decrease of .000011978 from its proportionate share measured as of June 30, 2013.

For the fiscal year ended June 30, 2015, the District recognized pension expense of \$521,970 related to the HIS Plan. In addition, the District reported deferred outflows of resources related to pensions from the following sources:

<u>Description</u>	<u>Deferred Outflows of Resources</u>
Differences between expected and actual experience	\$ -
Change of assumptions	260,054
Net difference between projected and actual earnings on HIS pension plan investments	3,507
Changes in proportion and differences between District HIS contributions and proportionate share of HIS contributions	89,802
District contributions subsequent to the measurement date	304,282
	<hr/>
Total	\$ 657,645

The deferred outflows of resources related to pensions, totaling \$304,282, resulting from District contributions to the HIS Plan subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Fiscal Year Ending June 30</u>	<u>Amount</u>

Actuarial Assumptions. The total pension liability in the July 1, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary Increases	3.25 percent, average, including inflation
Municipal Bond Rate	4.29 percent

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

Discount Rate. The discount rate used to measure the total pension liability was 4.29 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 4.29 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.29 percent) or 1-percentage-point higher (5.29 percent) than the current rate:

	Decrease (3.29%)	Discount Rate (4.29%)	Increase (5.29%)

Pension Plan Fiduciary Net Position. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

1. FRS – Defined Contribution Pension Plan

The District contributes to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the SBA, and is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report. Service retirement benefits are based upon the value of the member's account upon retirement.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Allocations to the investment member's accounts during the 2014-15 fiscal year were as follows:

WAKULLA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

<u>Class</u>	<u>Percent of Gross Compensation</u>
FRS, Regular	6.30
FRS, Elected County Officers	11.34

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five year period, the employee will regain control over their account. If the employee does not return within the five year period, the employee will forfeit the accumulated account balance. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.04 percent of payroll and by forfeited benefits of Investment Plan members. For the fiscal year ended June 30, 2015, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

F. Other Postemployment Benefit Obligations

Plan Description. The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, employees who retire from the District are eligible to participate in the District's health and hospitalization plan for medical, prescription drug, and life insurance coverage. The District subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the OPEB Plan on average than those of active employees. The District does not offer any explicit subsidies for retiree coverage. Retirees are assumed to enroll in the Federal Medicare program for their

WAKULLA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS

primary coverage as soon as they are eligible. The OPEB Plan does not issue a stand-alone report, and is not included in the report of a public employee retirement system or other entity.

Funding Policy. Plan contribution requirements of the District and OPEB Plan members are established and may be amended through action from the Board. The District has not advance-funded or established a funding methodology for the annual OPEB costs or the net OPEB obligation, and the OPEB Plan is financed on a pay-as-you-go basis. For the 2014-15 fiscal year, 201 retirees received postemployment life and 18 retirees received postemployment healthcare benefits. The District provided required contributions of \$225,174 toward the annual OPEB cost, net of retiree contributions totaling \$150,103, (which represents .09 percent of covered payroll).

Annual OPEB Cost and Net OPEB Obligation. The District's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with parameters of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. The ARC represents a level of funding that if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the District's annual OPEB cost for the fiscal year, the amount actually contributed to the OPEB Plan, and changes in the District's net OPEB obligation:

<u>Description</u>	<u>Amount</u>
Normal Cost (service cost for one year)	\$ 158,985
Amortization of Unfunded Actuarial Accrued Liability	430,113
Interest on Normal Cost and Amortization	<u> </u>
Annual Required Contribution	589,098
Interest on Net OPEB Obligation	80,916

Net OPEB Obligation, Beginning of Year	<u>2,345,384</u>
Net OPEB Obligation, End of Year	<u><u>\$2,577,007</u></u>

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the OPEB Plan, and the net OPEB obligation as of June 30, 2015, and the two preceding fiscal years, were as follows:

WAKULLA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

Fiscal Year	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2012-13	392,713	46.3%	2,126,216
2013-14	403,790	45.7%	2,345,384
2014-15	456,797	49.3%	2,577,007

Funded Status and Funding Progress. As of October 1, 2014, the most recent valuation date, the actuarial accrued liability for benefits was \$4,651,679, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$4,651,679 and a funded ratio of 0 percent. The covered payroll (annual payroll of active participating employees) was \$23,705,183, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 19.62 percent.

Actuarial valuations of an ongoing OPEB Plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the OPEB Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The required schedule of funding progress immediately following the notes to financial statements presents multiyear trend information about whether the actuarial value of OPEB Plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive OPEB Plan provisions, as understood by the employer and participating members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The District's OPEB actuarial valuation as of October 1, 2014 used the entry age normal cost actuarial method to estimate the unfunded actuarial liability as of June 30, 2015, and the frozen entry age normal cost actuarial method to estimate the District's 2014-15 fiscal year annual required contribution. Because the OPEB liability is currently unfunded, the actuarial assumptions included a 3.45 percent rate of return on invested assets, which is the District's long-term expectation of investment returns under its investment policy. The actuarial assumptions also included a payroll growth rate of 3.45 percent per year, and an annual healthcare cost trend rate of 7.5 percent initially beginning October 1, 2014, reduced to an ultimate rate of 4.62 percent beginning October 1, 2040. The investment rate of return and payroll growth rate include a general price inflation of 2.5 percent. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2015, was 11 years.

H. Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Wakulla County District School Board is a member of the Panhandle Area Educational Consortium - Risk Management Consortium under which several district school boards have established a combined limited self-insurance program for property protection, general liability, automobile liability, workers' compensation, money and securities, employee fidelity and faithful performance, boiler and machinery, and other coverage deemed necessary by the members of the Consortium. Section 1001.42(12)(k), Florida Statutes, provides the authority for the District to enter into such a risk management program. The Consortium is self-sustaining through member assessments (premiums), and purchases coverage through commercial companies for claims in excess of specified amounts. The Board of Directors for the Consortium is composed of superintendents of all participating districts. The Washington County District School Board serves as fiscal agent for the Consortium.

For the governmental activities, compensated absences and other postemployment benefits are generally liquidated with resources of the General Fund.

J. Fund Balance Reporting

In addition to committed and assigned fund balance categories discussed in the **Fund Balance Policies** note disclosure, fund balances may be classified as follows:

- **Nonspendable Fund Balance.** Nonspendable fund balance is the net current financial resources that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Generally, not in spendable form means that an item is not expected to be converted to cash.
- **Restricted Fund Balance.** Restricted fund balance is the portion of fund balance on which constraints have been placed by creditors, grantors, contributors, laws or regulations of other governments, constitutional provisions, or enabling legislation. Restricted fund balance places the most binding level of constraint on the use of fund balance.
- **Unassigned Fund Balance.** The unassigned fund balance is the portion of fund balance that is the residual classification for the General Fund. This balance represents amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned for specific purposes.

K. Interfund Receivables and Payables

The following is a summary of interfund receivables and payables reported in the fund financial statements:

WAKULLA COUNTY

Also, a transfer was made to the Food Service fund to satisfy minimum school lunch price requirements under the National School Lunch program.

IV. CONSORTIUMS

The District is a member of, and the fiscal agent for, the Small School District Council Consortium. The Consortium is an association of small school districts organized to hire a consultant to collect, interpret, and disseminate information regarding educational matters affecting the member districts, as well as consult and communicate as directed to change, influence, and improve the conditions in the affected districts. The District

WAKULLA COUNTY
