## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

The Management of the District School Board of Wakulla County have prepared the following discussion and analysis to (a) assist the reader in focusing on significant financial issues, (b) provide an overview and analysis of the District's financial activities, (c) identify changes in the District's financial position, (d) identify material deviations from the approved budget, and (e) highlight significant issues in individual funds.

Because the information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events and conditions, it should be considered in conjunction with the District's financial statements and notes to financial statements found within the Superintendent's Annual Financial Report.

### **FINANCIAL HIGHLIGHTS**

Financial highlights for the fiscal year 2007-2008 are as follows:

- The District's total net assets increased by \$13,907,121.47 which represents a 23.1 percent increase from the 2006-07 fiscal year.
- During the current year, General Fund revenues exceeded expenditures by \$934,603.48. This may be compared to last year's results in which General Fund revenues exceeded expenditures by \$1,396,325.09.
- The unreserved fund balance for the General Fund, representing the net current financial resources available for general appropriation by the Board, totaled \$3,585,590.70, or 9.7 percent of General Fund Expenditures (\$37,037,220.08). This represents a 14.1 percent increase from the previous year's unreserved fund balance percentage of 8.5 percent.

### **NON-FINANCIAL EVENTS**

The following are some of the more significant non-financial related events that occurred during the reporting period:

- The District's funded student enrollment increased by 128.65 to 5,116.35 students.

## OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements consist of three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the financial statements

In addition, this report presents certain required supplementary information which includes management's discussion and analysis.

### Government-wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net assets and a statement of activities that are designed to provide consolidated financial information about the governmental and business-type activities of the Primary Government presented on the accrual basis of accounting. The statement of net assets provides information about the government's financial position, its assets and liabilities, using an economic resources measurement focus. The difference between the assets and liabilities, the net assets, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net assets, the results of operations, during the fiscal year. An increase or decrease in net assets is an indication of whether the District's financial health is improving or deteriorating.

The government-wide statements present the District's activities in three categories:

- Governmental activities – This represents most of the District's services including its educational programs: basic, vocational, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the state's education finance program provide most of the resources that support these activities.
- Business-type activities – The District charges fees to cover the cost of certain services it provides. These activities include participation by other small counties in the Small School Districts Council Consortium. The District serves as the fiscal agent.
- Component units – The District presents the separate legal entity Coast Charter School in this report. Although the school is a legally separate organization, it is considered a component unit for financial reporting purposes and is included in this report because the school meets the criteria for inclusion provided by generally accepted accounting principles.

Over a period of time, changes in the District's net assets are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District's property tax base, student enrollment, and the condition of the District's capital assets including its school buildings and administrative facilities.

### Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the government-wide statements.

All of the District's funds may be classified within one of three broad categories:

- Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, the governmental funds utilize a spendable financial resources measurement focus rather than the economic resources measurement focus found in the government-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources as well as balances of spendable resources available at the end of the fiscal year. Consequently, the governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the government-wide financial statements. To facilitate this comparison, both the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.
- Proprietary Funds – Proprietary funds may be established to account for activities in which a fee is charged for services. Two types of proprietary funds are maintained
  - Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements, only in more detail. Enterprise funds are appropriate for activities in which a fee is charged to external users of the District's goods and services.
  - Internal service funds are used to report activities that provide goods and services to support the District's other programs and functions through user charges. Currently, the District reports no such activity.
- Fiduciary Funds – Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net assets may serve over time as a useful indicator of a government's financial position. The following is a comparison of the the Districts Net Assets for the current and previous fiscal year:

Net Assets increased by 23.1 percent resulting from the approximately \$13.9 million increase in net assets for governmental activities. This can be attributed to several factors, but primarily to the increase in invested in capital assets net of related debt. On the following page is a comparison of current and prior year governmental activities operating results. The difference in revenue and expenses results in the increase to net assets:

## **FINANCIAL ANALYSIS OF INDIVIDUAL FUNDS**

**Exhibit A-1**  
**Page 1e**

The largest revenue is the State of Florida. Revenues from State sources are primarily received through the Florida Education Finance Program (FEFP) funding formula. The FEFP formula utilizes student enrollment data, and is designed to maintain equity in funding across all Florida school districts, taking into consideration the District's funding ability based on the local property tax base. State revenues accounted for in the General Fund totaled \$28,311,146.78, an increase of \$1,650,322.83 from the prior year. This increase was primarily due to the increase in student enrollment and in funding for the Class Size Reduction requirement. Overall State revenues totaled \$48,167,209.96, an increase of \$17,736,936.16. This increase was, in addition to the General Fund increases mentioned above, was primarily due to the \$13,794,701 received in PECO Special Facilities fund received for the construction of Riversink Elementary.

## **FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS**

The unreserved fund balance of the General Fund is an important indicator of the District's financial condition. Through fiscal prudence the District attempts to maintain an unreserved fund balance of at least 5 percent of General Fund revenues for any given fiscal period. For the current fiscal year, the unreserved fund balance of \$3,585,590.70 is 9.4 percent of General Fund revenues totaling \$37,971,823.56. The unreserved fund balance increased by \$657,656.02.

The General Fund is the main operating fund of the District. For the current fiscal year, approximately 57 percent and 58 percent, respectively, of the governmental funds' revenues and expenditures were accounted for in the General Fund.

## **CAPITAL ASSETS AND LONG-TERM DEBT**

By using various State funds, the District has successfully constructed four new schools since 1989. The District also completed extensive renovations at the high school in 1995 using funds received through a local bond referendum.

In early July 2006 the District purchased 101 acres in northern Wakulla County as a site for as many as three future schools. In May 2007, the District began construction on a new 655 student station elementary school at this site. The new school named Riversink Elementary was completed and opened to students in August 2008.

The District's investment in capital assets for its governmental activities as of June 30, 2008 totaled \$78,665,848.14 (net of accumulated depreciation). This investment in capital assets includes land; land improvements; improvements other than buildings; buildings and fixed equipment; furniture, fixtures, and equipment; motor vehicles; construction in progress; audio visual materials; and computer software. Additional information on such assets can be found in Note 4 to the financial statements.

As of June 30, 2008, the District had \$4,935,000 of long-term debt outstanding, which is comprised of bonds payable. During the year, retirement of debt totaled \$545,000. Additional information on the District's long-term debt can be found in Notes 5 and 7 to the financial statements.

No changes were noted in the District's credit ratings.

## **SIGNIFICANT ECONOMIC FACTORS**

The property tax base was approximately \$1,370,000,000 in the 2006-07 fiscal year and \$1,576,000,000 in the 2007-08 fiscal year, a 15 percent increase equal to approximately \$206,000,000.

During the fiscal year 2007-08, in reaction to declining economic conditions in Florida, the State Legislature convened twice to reduce the overall funding of the FEFP and related State programs. Overall, the District received 4.63 percent less funding per equivalent student funded than what was originally budgeted. The overall funding per equivalent student decreased by \$331.18 to \$6,819.10.

## **REQUESTS FOR INFORMATION**

This report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate compliance and accountability for its resources. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the finance department of the District. Randy Beach, Chief Financial Officer, is the contact person for the District and he can be reached at (850) 926-0065 or at Wakulla County School Board, Post Office Box 100, Crawfordville, Florida 32326. Any questions regarding this report should be directed to his attention.

**AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE**  
**STATEMENT OF ACTIVITIES**  
**For the Fiscal Year Ended June 30, 2008**

<b>Net Change in Fund Balances - Governmental Funds</b>	\$ 2,042,972.09
---	-----------------

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay expenditures exceeds depreciation expense in the current period.	17,314,543.31
--	---------------

Donated assets reported in the statement of activities do not provide current financial resources and therefore, are not reported as revenues in the governmental funds.	9,622.30
--	----------

The purchase method of inventory is used in the governmental funds, while in the government-wide statements inventories are accounted for on the consumption method.	53,010.33
--	-----------

Proceeds from PECO Special Facilities Advances provide current financial resources to governmental funds, but increase long-term liabilities in the statement of net assets. Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which proceeds exceeded repayments in the current period.	(6,039,606.00)
--	----------------

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which repayments exceeded proceeds in the current period.	545,000.00
--	------------

In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in governmental funds expenditures are recognized based on the amounts actually paid for leave balances remaining at an employee's termination. This is the net amount of compensated absences earned in excess of the the amount paid in the current period	(21,794.35)
--	-------------

Accrued interest expense reported in the statement of activities does not require the use of current financial resources and, as a result, is not reported in the governmental funds statements.	(39,549.22)
--	-------------

Interest expenditures reported in the governmental funds were reported as expenses in the previous year for government-wide purposes	42,923.01

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2008**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

- **Reporting Entity**

The District School Board has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The Wakulla County School District is considered part of the Florida system of public education. The governing body of the school district is the Wakulla County District School Board which is composed of five elected members. The elected Superintendent of Schools is the executive officer of the School Board. Geographic boundaries of the District correspond with those of Wakulla County.

Criteria for determining if other entities are potential component units which should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the District School Board is financially accountable and other organizations for which the nature and significance of their relationship with the School Board are such that exclusion would cause the District's basic financial statements to be misleading or incomplete. Based on the application of these criteria, the following component unit(s) are included within the District School Board's reporting entity:

- **Discretely Presented Component Unit(s)**. The component unit(s) columns in the basic financial statements, Exhibits B and C, include the financial data of the Wakulla's Charter School of Arts, Science, and Technology, Inc. (Charter School). The Charter School is a separate, not-for-profit corporation organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act. The Charter School operates under a charter approved by its sponsor, the Wakulla County District School Board. An audit of the charter School for the fiscal year ended June 30, 2008, was conducted by an independent accounting firm and is on file at the District Office.

- **Basis of Presentation**

**Government-wide Financial Statements** - Government-wide financial statements, including the statement of net assets and statement of activities, present information about the School District as a whole. These statements include the nonfiduciary financial activity of the primary government and its component units. **The statements distinguish between governmental activities of the District and those that are considered business-type activities.**

Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities and for each segment of the business-type activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2008**

The effects of interfund activity have been eliminated from the government-wide financial statements, except for the net residual amounts between governmental and business-type activities.

Fund Financial Statements - Fund financial statements report detailed information about the District in the governmental, proprietary, and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, a reconciliation is presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

- General Fund - to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Debt Service - Other - to account for the accumulation of financial resources for the payment of, debt principal, interest, and related costs for the PECO Special Facilities Advance Payable.
- Capital Projects-Public Education Capital Outlay (PECO) – to account for the financial resources received from state gross receipt tax revenues to be used for educational capital outlay needs, including new construction, repair, renovation and remodeling projects
- Capital Projects – Local Capital Improvement Fund - to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, and debt service payments on capital leases for relocatable school buildings.
- Capital Projects – Other Capital Projects Fund - to account for the financial resources generated by various State sources, including Classrooms For Kids funds, to be used for educational capital outlay needs, including new construction, renovation and remodeling projects.

Additionally the District reports the following fund types:

**-Enterprise Fund – To account for the financing of the Small School District Council Consortium for which the District is the fiscal agent.**

Agency Fund(s) - to account for resources of the school internal funds which are used to administer moneys collected at the several schools in connection with school, student athletic, class, and club activities.

- **Basis of Accounting**

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2008**

The government-wide financial statements are prepared using the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are prepared using the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred. The principal exceptions to this general rule are: (1) prepaid items are generally not accrued; (2) interest on general long-term debt is recognized as expenditures when due; and (3) expenditures related to liabilities reported as general long-term debt are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

The Proprietary Funds are accounted for as proprietary activities under standards issued by the Financial Accounting Standards Board through November 1989 and applicable standards issued by the Governmental Accounting Standards Board. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

- **Deposits and Investments**

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance and collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes. The statement of cash flows considers cash as those accounts used as demand deposit accounts.

Investments consist of amounts placed with the State Board of Administration for participation in the Local Government Surplus Funds Trust Fund investment pool created by Section 218.405, Florida Statutes, and those made locally. This investment pool operates under investment guidelines established by Section 215.47, Florida Statutes. The District's investments in the Local Government Surplus Funds Trust Fund, a Securities and Exchange Commission Rule 2a7-like external investment pool, are reported at amortized cost.

- **Inventories**

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2008**

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost on the first-in, first-out basis (or, if applicable, last invoice, which approximates the first-in, first-out basis), except that United States Department of Agriculture surplus commodities are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of food service inventories are recorded as expenditures when used rather than purchased. The cost of transportation inventories are recorded as an expenditure at the time the individual item is purchased, and the reported transportation inventories are equally offset by a fund balance reserve which indicates they do not constitute "available spendable resources."

- **Capital Assets**

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net assets but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$750. However, for renovations to buildings, the threshold of capitalization is \$50,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation.

Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction

Capital assets are depreciated using the weighted-average composite method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Improvements Other than Buildings	8 – 35 years
Buildings and Fixed Equipment	10 – 50 years
Furniture, Fixtures and Equipment	3 – 10 years
Motor Vehicles	5 – 10 years
Audio Visual Materials and Computer Software	3 – 5 years

Current-year information relative to changes in general fixed assets is described in a subsequent note.

- **Long-Term Liabilities**

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2008**

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability is reported in the governmental fund financial statements only for the current portion of compensated absences expected to be paid using expendable available resources.

Changes in long-term debt for the current year are reported in a subsequent note.

- **State Revenue Sources**

Revenues from State sources for current operations are primarily from the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of nine months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs. The Department generally requires that categorical educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is reserved in the governmental funds financial statements for the unencumbered balance of categorical educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District also received an allocation under the Class Size Reduction Construction Program. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department. Accordingly, the District recognizes the allocation of such funds as deferred revenue until such time as an encumbrance authorization is received.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

- **District Property Taxes**

The School Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2008**

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Wakulla County Property Appraiser, and property taxes are collected by the Wakulla County Tax Collector.

The School Board adopted the 2007 tax levy on September 10, 2007. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become delinquent on April 1 of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Wakulla County Tax Collector at fiscal year-end but not yet remitted to the District. Because any delinquent taxes collected after June 30 would not be material, delinquent taxes receivable are not accrued and no delinquent tax revenue deferral is recorded.

Millages and taxes levied for the current year are presented in a subsequent note.

- **Federal Revenue Sources**

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

## **2. BUDGETARY COMPLIANCE AND ACCOUNTABILITY**

- **Budgetary Information**

The Board follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any School Board meeting prior to the due date for the annual financial report.

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2008**

- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

### **3. INVESTMENTS**

Section 218.415(17), Florida Statutes, authorizes the District to invest in the Local Government Surplus (LGIP) Funds Trust Fund, any intergovernmental investment pool, the money market funds registered with the Securities and Exchange Commission, interest-bearing time deposits or savings accounts, and direct obligations of the U. S. Treasury.

Investments for governmental and fiduciary funds of the District as of June 30, 2008, were as follows:

Investment Type	Fair Value	Weighted Avg. Maturity (Years)
State Board of Administration-LGIP	\$ 5,422,245.85	N/A
State Board of Administration-Pool B	246,957.96	9.22
State Board of Education-COBI	29,152.18	N/A
	<u>\$ 5,698,355.99</u>	

#### **Interest Rate Risk**

The School Board has limited its exposure to declines in fair values of investments by participating in the State Board of Administration Investment Pool (LGIP) where as of June 30, 2008 the average weighted maturity was 20.22 days. Such investments are deemed to be a SEC 2a7-like fund and consequently the fair value of our investment is carried at the amortized cost. The fair value reported is the same as our share value in the fund reported to the School Board by the State Board of Administration.

Unfortunately, the School Board is involuntarily participating in the State Board of Administration Pool B Fund where the average maturity as of June 30, 2008 was 9.22 years. The purpose of this pool is to forbid any withdrawals by participants over a indeterminable period deemed necessary in order to liquidate the underlying troubled investments without loss of principal to the participants. These investments are accounted for as a fluctuating NAV pool. A fair value factor of .923331 was applied to our June 30, 2008 account balance in determining the reported fair value of our investments. For the period ended June 30, 2008, the School Board reported an unrealized loss of \$20,506.28 on these investments. Consequently, our fair value reported differs from our share value in the fund by this amount. Periodically, the State Board of Administration liquidates investments in Pool B and our portion of the proceeds are transferred into our account balance in the LGIP fund.

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2008**

Credit Risk

As of June 30, 2008, the only investment reported above that was rated was the State Board of Administration-LGIP fund which represents 95.15% of our total investments. Its current rating is AAAM as determined by Standards and Poors.

**6. DEFEASED DEBT**

In the fiscal year ending June 30, 2006 the State School Bonds, Series 1998A, were defeased in substance by placing a portion of the proceeds of new State School Bonds, Series 2005B, in an irrevocable trust to provide for a portion of future debt service payments on the old State School Bonds. Accordingly, the trust account assets and the liability for the in-substance defeased State School Bonds are not included in the District's financial statements. On June 30, 2008, State School Bonds, Series 1998A, totaling \$840,000 outstanding are considered defeased in substance.

	<b>\$4,213,396.73</b>			

For the governmental activities, compensated absences are generally liquidated with resources of the General Fund.

**8. RESERVE FOR ENCUMBRANCES**

Appropriations in governmental funds are encumbered upon issuance of purchase orders for goods and services. Even though appropriations lapse at the end of the fiscal year, unfilled purchase orders of the current year are carried forward and the next year's appropriations are likewise encumbered.

The Florida Department of Education requires that fund balances be reserved at fiscal year-end to report an amount likely to be expended from the 2008-2009 fiscal year budget as a result of purchase orders outstanding at June 30, 2008.

Because revenues of grants accounted for in the Special Revenue – Other Fund are not recognized until expenditures are incurred, these grant funds generally do not accumulate fund balances. Accordingly, no reserve for encumbrances is reported for grant funds. However, purchase orders outstanding for grants accounted for in the Special Revenue – Other Fund total \$32,934.10 at June 30, 2008.

**13. STATE RETIREMENT PROGRAM**

**STATE RETIREMENT PROGRAM**

Plan Description. All regular employees of the District are covered by the Florida Retirement System, a State-administered cost-sharing multiple-employer defined benefit retirement plan (Plan). Plan provisions are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238; Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code, wherein Plan eligibility, contributions, and benefits are defined and described in detail. Essentially all regular employees of participating employers are eligible and must enroll as members of the Plan. Benefits vest at specified number of years of service depending upon the employee's classification. The Plan also includes an early retirement provision but imposes a penalty for each year a member retires before the specified retirement age. The Plan provides retirement, disability, and death benefits, and annual cost-of-living adjustments, as well as supplements for certain employees to cover social security benefits lost by virtue of retirement system membership.

A Deferred Retirement Option Program (DROP) was established effective July 1, 1998, subject to provisions of Section 121.091, Florida Statutes. It permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payment while continuing employment with a Florida

DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS

Retirement System employer. An employee may participate in the DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the Florida Retirement System Trust Fund and accrue interest.

The Plan's financial statements and other supplemental information are included in the comprehensive annual financial report of the State of Florida which may be obtained by contacting the Florida State Comptroller's Office in Tallahassee, Florida. Also, an annual report on the Plan which includes its financial statements, required supplemental information, actuarial report, and other relevant information may be obtained from the State of Florida, Department of Management Services, Division of Retirement in Tallahassee, Florida.

Effective July 1, 2002, the Public Employee Optional Retirement Program (PEORP) was implemented as a defined contribution plan alternative available to all FRS members in lieu of the defined benefit plan. Employer contributions are defined by law, but the ultimate benefit depends in part on the performance of the investment funds. The PEORP is funded by employer contributions that are based on salary and membership class. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various available investment choices. Required employer contributions to the program for the fiscal year ending June 30, 2008, totaled \$208,982.71.

Funding Policy The contribution rates for Plan members are established, and may be amended, by the State of Florida. During the 2007-2008 fiscal year, contribution rates were as follows:

<u>Class or Plan</u>	Percent of Gross Salary	
	<u>Employee</u>	<u>Employer</u>
	(A)	
Florida Retirement System, Regular	0	9.85
Florida Retirement System, Elected County Officers	0	16.53

Deferred Retirement Option Program-Applicable to Members		
from All of the Above Classes or Plans	0	10.91
Florida Retirement System, Reemployed Retiree, Regular	(B)	(B)

Note: (A) Employer rates include the post-employment health insurance supplement of 1.11 percent and a 0.05 administration fee for the investment program.

(B) Dependent upon the retirement class in which reemployed.

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2008**

The District's liability for participation in the plan is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the district. The district's contributions to the Plan (including employee contributions) for the fiscal years ending June 30, 2006, June 30, 2007, and June 30, 2008, totaled \$1,701,980.41, \$2,305,731.52 and \$2,429,561.24 respectively, which were equal to the required contributions for each fiscal year

**14. SPECIAL TERMINATION BENEFITS**

School Board policy provides for the payment of special retirement incentive bonuses to qualifying employees up to 30 percent of the employee's annual salary, depending on the number of years of service in the District. One percent is given for each year of service in the District up to the maximum of 30 years. In addition to payments for accrued leave and regular termination benefits, the District reported expenditures totaling \$181,632.41 during the 2007-2008 fiscal year for special retirement incentive bonuses.

**15. CONSTRUCTION CONTRACT COMMITMENTS**

The following is a summary of major construction contract commitments remaining at fiscal year-end:

**16. CONSORTIUMS**

The District is a member, and the fiscal agent, of the Small School District Council Consortium. The Consortium is an association of small districts organized to hire a consultant to collect, interpret, and disseminate information regarding educational matters affecting the member districts, as well as consult and communicate as directed to change, influence, and improve conditions in the affected districts. which provides risk management, educational, and other services for the members. The District is not the predominant participant in the consortium and therefore has established an Enterprise Fund to account for the program.

June 30, 2008**

**17. RISK MANAGEMENT PROGRAMS**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Wakulla County District School Board is a member of the Panhandle Area Educational Consortium-Risk Management Consortium under which several district school boards have established a combined limited self-insurance program for property protection, general liability, automobile liability, workers' compensation, money and securities, employee fidelity and faithful performance, boiler and machinery, and other coverage deemed necessary by the members of the Consortium. Section 230.23(10)(k), Florida Statutes, provides the authority for the district to enter into such a risk management program. The Consortium is self-sustaining through member assessments (premiums), and purchases coverage through commercial companies for claims in excess of specified amounts. The Board of Directors for the consortium is composed of superintendents of all participating districts. The Washington County District School Board serves as fiscal agent for the Consortium.

Health and hospitalization coverage is being provided through purchased commercial insurance with minimum deductibles for each line of coverage.

The Panhandle Area Educational Consortium – Risk Management consortium reduced its insurance coverage for property, excluding coverage for fire damage, of all Consortium members from approximately \$204 million for the 2005-06 fiscal year to approximately \$24 million for the 2006-07 fiscal year or a reduction in coverage of approximately \$180 million. For the same period, Consortium insurance coverage for fire damage decreased from \$204 million to \$34 million, a reduction of approximately \$170 million.

The Panhandle Area Educational Consortium – Risk Management consortium maintained its \$50 million in property coverage, excluding flood and quake, from the 2007-08 fiscal year to the 2008-09 fiscal year. The amount of property coverage including flood and quake will remain the same at \$20 million. The amount of property coverage for fire will remain the same at \$50 million.
