

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

Since all of the 2020-21 school year was in-person instruction and the goal is the same for 2021-2022, the District will offer Summer Learning Opportunities for all K-12 students to participate in. The expectation would be that the students can attend all three (3) weeks of the

summer program.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Gender	Academic Growth	50	The Summer Learning Opportunities will continue to add onto the academic growth achieved during the 2021-2022 school year.

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

The teacher-developed curriculum will provide the resources needed to show and support growth of the students participating in the Summer Learning Opportunities. Learning opportunities outside of the normal classroom will be used in each of the classrooms including the addition of STEAM-related activities that may not have been part of the normal yearly curriculum.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
8	Internal Provider	At least 8 teachers in teams of 2 to teach in each classroom

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
End of Program Surveys	End of Program	Parent/Student Surveys will be used at the end of the program to measure program success and to help plan for future years
Teacher Observations of Student Progress	Throughout the Program	Teachers will handle grade levels of students they familiar with from the school year. This will help them identify where students are academically at the beginning the of the program and measure their progress throughout the Program.

6. How will the LEA engage families in the summer school program?

Invitations will be provided to all parents explaining the objectives of the Summer Learning Opportunities. Parents of students participating in the program will receive regular communications from the District and specific teachers throughout the program. A follow-up survey will be provided to the parents to measure the effectiveness of the programs offered in preparation for future years of the program.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget

\$12,393.00

Allocation

\$12,393.00

Budget Over(Under) Allocation

\$0.00

Budget Summary

Function	Object	Amount	Description
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$10,100.00	Teacher Salaries for Summer Learning Opportunities
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	200 - Benefits	\$2,293.00	1/2 FICA and PSERS based on Teacher Salaries for Summer Learning Opportunities
		\$12,393.00
