There is no requirement for a COVID-19 vaccine for the 2022-2023 school year.

- Since January 1, 2016, **Personal Beliefs Exemptions** for currently-required vaccines are no longer allowed in any school, whether public or private.
- **Medical Exemptions for Required Immunizations** - Starting January 1, 2021, all new medical exemptions for school entry must be issued through the California Immunization Registry – Medical Exemption website CAIR-ME <https://cair.cdph.ca.gov/exemptions/home>. Parents and physicians can register and create an account in CAIR-ME at any time. Once registered, parents can log in to CAIR-ME to request a medical exemption. Parents take the exemption request number to their child's physician who can log in to CAIR-ME to issue the exemption. Once the exemption is issued, the physician prints the two-page form and provides a copy to the parents to give to their child's school.
- **Existing Medical exemptions issued before 2021** will remain on file at schools and do not need to be uploaded into CAIR-ME.
- **Existing Medical exemptions in CAIR-ME** can be accepted, but parents must update the school information listed in CAIR-ME for the exemption and provide a copy to the school.
- **Medical exemptions issued before January 1, 2020 by physicians who have been disciplined by their medical licensing board** were no longer valid after the beginning of the 2021-2022 school year. To find out if a physician has been disciplined by the Medical Board or Osteopathic Medical Board, please look up an issuing physician's name or medical license number on the [list of disciplined physicians](#).
