

# Gifted Math at Northmont

## Grades 3–6

Students who are gifted in math attend a daily STEM class. This class is taught by a gifted intervention specialist and takes the place of a student's science time.

**Focus Skills:** Grade level science standards, advanced math problem solving, communication/collaboration, critical thinking, creativity.

## Grades 7–8

Students who are gifted in math take advanced math at the middle school. In 7th grade, students take a class that covers both 7th and 8th grade state standards. In 8th grade, students take HS Algebra.

**Focus Skills:** Advancement of state content standards

## Grades 9–12

Students who are gifted in math have the option to take honors, Advanced Placement (AP) and College Credit Plus (CCP) coursework.

**Focus Skills:** Advancement of state content standards
