

**CAROLINA®**

Dear Family Member,

Parkland School District is excited to be implementing **Building Blocks of Science 3D, Carolina Biological** across the district in Kindergarten through Grade 5! The Building Blocks of Science approach prepares K–5 learners by providing a foundation of hands-on investigation supported with powerful digital and print-based learning. This program is designed to engage and excite all students. They work like scientists and engineers as they navigate the world of science.

Lessons are centered on phenomenon-based investigations. Throughout each unit, students use evidence and reasoning to support claims, engage in the engineering process to design solutions, and work collaboratively to solve problems.

Your child can access Building Blocks of Science 3D at home through the Clever Portal!

1. Go to [clever.parklandsd.org](https://clever.parklandsd.org)
2. Click on Log in with Active Directory
3. Click on the Carolina Science Online icon

Thank you for being a partner in your child's journey through science!

Sincerely,

Kelly Rosario: Director of Elementary Teaching and Learning &  
Adrienne Kashner: Assistant Director of Elementary Teaching and Learning
