The Mental Health Resource Guide was developed as a project of Washington County Family & Children First Council's "Access to Mental Health Initiative". Acknowledging that mental health funding in Washington County is inadequate, a stakeholder's group convened and determined that information about existing mental health resources would be valuable. A Core Team developed the following mission and vision statements:

MISSION STATEMENT

The mission of the "Access to Mental Health Initiative" is to improve access to available mental health services for Washington County residents.

VISION STATEMENT

All residents of Washington County seeking, or in need of, mental health services shall have available complete and accurate resource information to better access services.

The Mental Health Resource Guide, which will be updated annually, may be reproduced and can be found on the Washington County Family & Children First Council website at www.wcfcfc.org. For questions or to provide additional or corrected information for this guide, please contact Family & Children First at 740-376-7081.
