BELLEVUE INDEPENDENT SCHOOL DISTRICT CODE OF CONDUCT

Bellevue Independent Schools
219 Center Street, Bellevue, KY 41073
Mrs. Misty Middleton, Superintendent
859-341-BISD Fax 859-261-1708

This code was developed and continues to be revised each year through the cooperative efforts of the individuals on the Discipline Code of Conduct Committee spear headed by the District DPP. The committee meets in an effort to develop standards for the entire school community with the goal to provide a comfortable academic atmosphere for all. The committee meets annually at the end of the school year to review the discipline code and to consider any suggestions, comments, or other feedback from the school community and staff for implementation.

At the beginning of each year, a copy of this code shall be sent home so that students and families can familiarize themselves with its' content. Students, teachers, administrators and other personnel who join the school system during the course of the school year shall receive copies of the code upon registration into the district. All members of the school community (students, parents, teachers, administrators and other school personnel) are hereby reminded of their duty and obligation to familiarize themselves with the discipline code and abide by the content of the code.

Philosophy

All citizens of the United States are guaranteed certain rights as individuals. However, these rights also carry with them certain responsibilities, which help to preserve both the individual's rights and the rights of others. Students are no exception to this basic principle. It is within this context that the adult members of the local community, whether they are administrators, teachers or parents, have an obligation and responsibility to assure the rights of students while preserving an educational environment in which teaching and learning can take place effectively.

This is the purpose upon which the code of conduct is founded. It sets standards of conduct that will aid in assuring success for all individuals in the school community. Individual rights and responsibilities are inseparable. However, rights become limited when groups of people are involved due to the need for mutual respect.

Thus students have the responsibilities of obeying rules and respecting the authority of those adults whose duty it is to ensure a successful education for all children under their care.

Dear Bellevue Independent Families,

Welcome to the 2022-2023 school year! I am honored and enthusiastic for the opportunity to serve as Bellevue's Superintendent and look forward to working collaboratively with all stakeholders to ensure an environment focused on student safety and success.

Our teachers and support staff have worked hard throughout the summer to help ensure a wonderful start to the new year. This code of conduct is provided to clearly outline the high expectations we have for the learning environments at Grandview Elementary and Bellevue Middle/High School. Please partner with us by discussing the contents with your child(ren) so they understand the expectations in their approach to daily activities, academic integrity, and peer relationships. It takes all of us committing to our role in ensuring a positive school experience for everyone.

Each school year brings new beginnings filled with wonderful possibilities and opportunities. Student achievement is highest when school staff and families work together. Please engage in your student's school life by keeping an open line of communication between you and your child's teacher and reaching out with any questions or concerns.

Students are our #1 priority and we pledge to work and support our mission of providing students a creative and personalized framework so they can confidentially achieve their highest potential. We are proud of our schools and all of us in the Bellevue School District are honored to serve our families, students and community. Our students – your children – deserve our best. I look forward to your partnership, contributions, and support.

Together, let's make this a great school year!

With Tiger Pride,

Misty Middleton
Superintendent
Bellevue Independent Schools

Attendance

Pupils are required to attend regularly and punctually at the school in which they are enrolled.

Living Outside the School District

Children whose parents live outside the Bellevue Independent School District may be admitted to Bellevue Independent Schools based upon guidelines established by Kentucky House Bill 563 and board policy. Out of district students must attend school on a regular basis, achieve academically at a passing level and avoid behaviors that may result in disciplinary action at the discretion of the principal to be decided on a case by case basis.

Truancy Defined

Any student who has attained the age of six (6), but has not reached his/her eighteenth (18th) birthday, who has been absent from school without valid excuse for three (3) days or more, or tardy without valid excuse on three (3) days or more, is a truant.

Any student enrolled in a public school who has attained the age of eighteen (18) years, but has not reached his/her twenty-first (21st) birthday, who has been absent from school without valid excuse for three (3) or more days, or tardy without valid excuse on three (3) or more days, is a truant.

Any student who has been reported as a truant two (2) or more times is a habitual truant. Absence for less than a half day shall be considered tardiness.

Truants shall be reported to the Principal and then to the Director of Pupil Personnel both of whom shall take appropriate action.

Truancy Process (Consequences for Truancy)

After 3 unexcused absences or tardies, a letter is sent from the school principal or principal's designee to the parent/student. The letter explains the truancy law and consequences.

After 6 unexcused absences or tardies, another letter is sent from the school principal or principal's designee. The letter reiterates the truancy law and consequences. Additionally, the letter references the fact that the county attorney will aggressively prosecute truants. Students in selected grade levels may qualify for participation in the truancy diversion program.

All students having three or more unexcused absence events shall be referred to the School-based Attendance Committee. This Committee is composed of the Assistant Principal, Family Resource Youth Service Center (FRYSC) Director, Attendance Clerk and the Director of Pupil Personnel (DPP). The Attendance Committee will review and discuss each student's attendance record and determine appropriate interventions to be taken. In addition to the above 3 & 6 day attendance letters sent to the parent/guardians, the DPP and/or FRYSC director shall conduct a home visit based on the severity of the case. After an attempted home visit a letter of Final Notice shall be sent to the parent(s)/guardian(s) of the student when unexcused events continue defining possible legal actions.

If the unexcused absence or tardy events continue following the final notice, the Director of Pupil Personnel will file the appropriate charge. A charge of truancy will be filed against the parents or adult student in violation of **KRS 159.150** through the Court Designated Workers Office, as well as a complaint of “educational neglect” with the Cabinet for Health and Family Services. A complaint of “educational neglect” will be filed with the Cabinet for Health and Family Services on parents of juvenile students who are in violation of **KRS 159.150**.

Excused Absences: An excused absence or tardiness is one for which work may be made up, i.e.:

1. Death or severe illness in the pupil’s immediate family
2. Illness of the pupil
3. Religious holidays and practices
4. If approved in advance by the Principal, one (1) day for attendance at the Kentucky State Fair
5. Other valid reasons as determined by the Principal

Attendance notes will not be accepted 30 days after posting date of the absence event unless approved by principal or principal’s designee. Each school handbook may include specific attendance requirements.

Chronic Absenteeism

The Kentucky Department of Education defines chronic absenteeism as a student missing 10% or more of their enrolled days in school. Most Kentucky school districts have between 170-175 instructional days in their school calendar. Students missing 17 or more days of school, excused or unexcused, are considered chronically absent. This is simply an effort to make everyone aware and to help reduce chronic absenteeism as much as possible in our school district.

Educational Enhancement Opportunity Request

To request an absence to attend or participate in an educational activity, please contact your school principal to obtain the Educational Enhancement Opportunity Form (EHO) and return it to your school principal at least five (5) days prior to the absence. Such an absence as requested by this signed application and approved by the school principal, will be considered an excused absence. The major intent of the activity must be educational in order for the student to be granted this type of absence. The proposed activity must have significant educational value and be composed of an intensive program related to the core curriculum (e.g. art programs, dance programs, State Fair activities, workshops that are educational in nature, college visits, etc.). The Principal will use his/her good judgment to determine if the activity meets guidelines. A student may be approved for up to ten (10) days of absence per year for this purpose. Students who are granted an absence under this law will be allowed to make up all school work. Student grades cannot be affected by lack of attendance or participation in classes for approved days. **This type of absence cannot occur during the school’s state assessment or District-wide assessments, unless there are extenuating circumstances that are approved by the Principal.** Decisions may be appealed to the Superintendent and then to the Board of Education.

Home/Hospital Instruction

Home/hospital instruction provides educational services to students who cannot attend school for extended periods due to temporary or recurring conditions, including fractures, surgical recuperation, or other physical, health, or mental conditions. An “extended period” refers to an absence for more than five (5) consecutive school days. If you feel your child is going to be eligible for Home/Hospital Instruction please contact your school principal.

Medical Excuse Form

Students at Bellevue Independent Schools will be allowed up to six (6) absence events to be excused with a written parent note for the entire year (see individual school handbooks for more information). Bellevue Independent Schools will excuse up to ten (10) absence events with doctor/medical excuse/note. Any absence event due to a medical reason in excess of ten (10) will require the presentation of The Bellevue Independent Schools Medical Excuse Form before the absence will be excused. The form will be available at each school, central office and some medical facilities upon parent request.

Arrival and Dismissal

Pupils shall not be admitted to the building until time designated by the principal per the school handbook. The Principal will use his/her best judgment in regards to weather.

Loitering, to move slowly, or to linger in, or near school without any specific reason, or written permission, is in violation of KRS 525.090. Students are not to assemble on private property near or around school property, before or after school. The same is true for the school building itself. Students are to report directly to school property in the morning and leave school property promptly in the afternoon. When permitted to remain, a teacher must be present.

Withdrawal/Moving to a New District

Parents/Guardians shall give notice to the Principal whenever they are going to withdraw from school or move to another district. If said pupil is moving to another district, the Principal shall provide the guardian with the “Parental Authorization for Release of Student Information and Records” form to be filled out at the school in the presence of authorized office personnel

Should the Principal’s office receive a request for student information and/or records from any other school or other agency, the Principal shall first have the “Parental Authorization for Release of Student Information and Records” form completed by the parent. If said parent has moved from the district and cannot be contacted, the form should be mailed to the school or agency requesting stated information and records. Upon receipt of the completed form, the Principal shall then forward the information.

In any case involving a student eighteen years of age or older, the student shall be required to complete the “Parental Authorization for Release of Student Information and Records” form.

Discipline

It is in the best interest of the students that the Bellevue Schools foster the maintenance of a classroom environment which is conducive to the learning process. That process works best when the students are cooperative, attentive, and well behaved. Non-attentive, uncooperative, ill-behaved students not only detract from their own education, but also from the education of others. Students are not to show displays of affection at school or at school-sponsored activities. Also, any action that endangers the wellbeing of any other person shall be dealt with in an appropriate manner in order to assure the safety of all students. It is the responsibility of teachers and administrators to take steps to modify the behavior of the non-attentive, uncooperative, ill-behaved students. Teachers may detain pupils at the close of school in the afternoon to make up work, or for the purpose of discipline.

“No Pass, No Drive” Education Law (KRS 159.051)

Any applicant for a driver’s permit, who is under the age of eighteen (18), and who has not graduated from high school shall provide proof, issued by Bellevue High School (School Compliance Verification Form) that the applicant is currently enrolled or has been enrolled in **the prior semester of school and is not** or has not been found academically deficient. Students in regular or alternative education are defined as academically deficient if they fail to **pass three full credit** classes or their equivalent for the semester. If a special education student is failing a class in which he/she is being ‘mainstreamed’ into a regular classroom at the end of the first quarter of each semester, the Admissions and Release Committee will determine if such placement should continue or if more appropriate placement should be sought.

The Principal or Assistant Principal will immediately report to the Superintendent any sixteen or seventeen-year-old student who has withdrawn from school, or has at least nine unexcused absences or is academically deficient in the preceding semester. The Superintendent or his designee shall report the name(s) of such student(s) to the Transportation Cabinet within ten days of receiving notification from the individual school. (A student who wishes his license reinstated has a right to a hearing if the removal is resulting in one of the following: 1. academic deficiency 2. the loss of license was an undue hardship on the student or family). Alternatives that Bellevue High School may provide to assist deficient students include alternative school, tutorial programs for at risk youth, school guidance counseling and summer school.

Notification of FERPA Rights

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

FERPA gives parents certain rights with respect to their children's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students."

- Parents or eligible students have the right to inspect and review the student's education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies.
- Parents or eligible students have the right to request that a school correct records which they believe to be inaccurate or misleading. If the school decides not to amend the record, the parent or eligible student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the parent or eligible student has the right to place a statement with the record setting forth his or her view about the contested information.
- Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However,

FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):

1. School officials with legitimate educational interest;
2. Other schools to which a student is transferring;
3. Specified officials for audit or evaluation purposes;
4. Appropriate parties in connection with financial aid to a student;
5. Organizations conducting certain studies for or on behalf of the school;
6. Accrediting organizations;
7. To comply with a judicial order or lawfully issued subpoena;
8. Appropriate officials in cases of health and safety emergencies; and
9. State and local authorities, within a juvenile justice system, pursuant to specific State law.

Schools may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. However, schools must tell parents and eligible students about directory information and allow parents and eligible students a reasonable amount of time to request that the school not disclose directory information about them. Schools must notify parents and eligible students annually of their rights under FERPA. The actual means of notification (special letter, inclusion in a PTA bulletin, student handbook, or newspaper article) is left to the discretion of each school.

Flexibility of Code

The Code of Conduct is a guide to administer discipline in a fair and consistent manner but should allow flexibility of individual cases and extenuating circumstances. It is not and was never intended for this code to be absolute. Depending upon the student's behavior, the Principals reserves the right to bypass any or all of the consequences in order to implement a consequence deemed more appropriate.

Asbestos

An inspection for building materials that contain asbestos has been completed for all buildings owned, leased or otherwise occupied by the Bellevue Independent Schools.

Each building is routinely inspected to ensure materials are well maintained.

Additionally, a complete Asbestos Management Plan for the school district is on file at the Bellevue Independent Administration Offices. A copy is also available for each individual school at the respective School's office.

We will continue to notify the public at least once each year on the status of the Asbestos Management Plan.

Bellevue Board of Education **Internet Acceptable Usage Policy**

The use of telecommunications and other new technologies has changed the way that information is accessed, communicated and transferred and has altered instruction and student learning. Electronic information, services and networks provided directly or indirectly by the Bellevue Independent School District should be readily, equally and equitably accessible to all users. Since access to information is a fundamental right of citizenship, access to rich information resources should be provided to everyone. The District generally supports the use of electronic resources provided that such is based upon appropriate usage of resources. Therefore, it is imperative that students and staff develop the appropriate skills to analyze and evaluate such resources.

Electronic resources provide unprecedented opportunities to expand the scope of information to users. Telecommunications, electronic information sources and networked services have significantly altered the information landscape of schools by opening classrooms to a broader array of resources and access to the global community. Providing access to electronic information, services and networks (i.e. Internet) is not the same thing as selecting and purchasing materials for a library collection. Bellevue Board of Education requires that materials be consistent with district-adopted guidelines, support and enrich curriculum and address instructional needs, student learning styles, abilities and developmental levels.

Since telecommunications and the use of the Internet opens classrooms to electronic resources that have not been screened by educators for use by various age levels, independent student use of such resources will be permitted upon submission of permission/agreement forms by parents of minors (under 18 years of age) and by the students themselves. The staff is expected to integrate use of such information throughout the curriculum and provide guidance and instruction to students in the appropriate use of such resources.

It is the teacher's responsibility to supervise student access to the Internet.

Safety Procedures and Guidelines

Students shall be provided instruction about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms and cyberbullying awareness and response.

Internet safety measures, which shall apply to all district-owned devices with internet access or personal devices that are permitted to access the district's network, shall be implemented that effectively address the following:

- Controlling access by minors to inappropriate matter on the internet and World Wide Web
- Safety and security of minors when they are using electronic mail, chat rooms, and other forms of direct electronic communications
- Preventing unauthorized access, including 'hacking' and other unlawful activities by minors
- Unauthorized disclosure, use and dissemination of personal information regarding minors
- Restricting minors' access to materials harmful to them

A technology protection measure may be disabled by the Board's designee during use by an adult to enable access for bona fide research or other lawful purpose.

Parental information regarding the use of internet and electronic mail:

The internet, a global electronic information infrastructure, is a system of networks used by educators, businesses, the government, and the military and other organizations. In schools and libraries, the Internet can be used to educate, inform and entertain. As a learning resource, the Internet is similar to books, magazines, video CD ROM and other electronic informational sources. To gain access to E-mail and the Internet, everyone must sign and return the attached form to the principal's designee. Students 18 and over may sign their own names without parental signature.

Access to E-mail and the Internet will enable everyone to explore thousands of libraries, databases, and bulletin boards while exchanging messages with Internet users throughout the world. Families should be warned that some material accessible via the internet might contain items that are illegal, defamatory, inaccurate or potentially offensive to some people. While our intent is to make the Internet access available to further educational goals and objectives, one may find ways to access other materials as well.

We believe that the benefits to everyone from access to the Internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. But ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. To that end, the Bellevue Board of Education supports and respects each family's right to decide whether or not to apply for access.

E-Mail & Internet Rules:

Everyone is responsible for good behavior on school computer networks just as they are in a classroom or school hallways. As communications on the network are often public in nature, general school rules for behavior and communications apply. The network is provided for research and for communication with others. Access to network services is given to students who agree to act in a considerate and responsible manner. Parent permission is required and access is a privilege-not a right.

Individual users of the district computer networks are responsible for their behavior and communications over those networks. Activities that may result in loss of privileges include, but are not limited to:

THE FOLLOWING ARE NOT PERMITTED

- Sending or displaying offensive messages or pictures
- Using obscene language
- Harassing, insulting or attacking others
- Damaging computer systems or computer networks, or school/District websites
- Violating copyright laws
- Using another's password
- Trespassing in another's folder, work or files
- Intentionally wasting limited resources
- Using the network for commercial purposes
- Using technology resources to bully, threaten or attack a staff member or student or to access and/or set up unauthorized blogs and online journals, including, but not limited to any type of social media.

It is presumed that users will comply with district standards and will honor the agreements they have signed. Beyond the clarification of such standards, the district is not responsible for restricting, monitoring or controlling the communications of individuals using the network. The district will not be responsible for cost incurred using the network or individual misconduct.

Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and insure that the users are using the system in a responsible manner. Users should not expect that files stored on the district servers will always be private.

Users who do not follow the guidelines of the Acceptable Use Policy will lose access to the network, be disciplined by the building principal, or will be subject to legal action.

Disregard of Rules

Individuals who refuse to sign required acceptable use documents or who violate District rules governing the use of District technology shall be subject to loss or restriction of the privilege of using equipment, software, information access systems, or other computing and telecommunications technologies.

Students shall be subject to disciplinary action, up to and including expulsion, for violating this policy and acceptable use rules and regulations established by the school or District.

Responsibility for Damages

Individuals shall reimburse the Board for repair or replacement of District property lost, stolen, damaged, or vandalized while under their care. Students who deface a District website or otherwise make unauthorized changes to a website shall be subject to disciplinary action, up to and including expulsion, as appropriate.

Responding to Concerns

School officials shall apply the same criterion of educational suitability used to review other educational resources when questions arise concerning access to specific databases or other electronic media.

Before a student can access the District network, the student must perform the following procedures:

- Read the Internet Acceptable Use Policy
- Sign the Network Access Form
- Parent or guardian must read the Acceptable Use Policy and sign the Network Access Form
- Give the signed agreement to the Principal's designee

Board Policy 08.2323

Volunteers

Volunteers are persons who do not receive compensations for assisting in school or District programs. All volunteers shall only provide assistance under the direction and supervision of a member of the professional administrative and teaching staff. Volunteers must show identification when entering in the elementary or middle/high school building and sign in the visitor log. Volunteers will wear a visitor named badge at all times when assisting in school/district programs and activities.

Background Check

The district shall conduct a state criminal background check on all volunteers who have contact with students on a regular or continuing basis. This includes have supervisory responsibility for children at a school site or on a school-sponsored field trip. You can pick up a background form up at the elementary/high school or central office. You will need to submit a copy of your driver's license with your background check. Official background checks are good for five years.
