The coach was broke and was walking down the street with his new girl friend when they passed a jewelry store. "Gee, that's a gorgeous watch," the girl friend said. "Would you like to have it?" he asked. "I sure would," she replied. So he took a brick and threw it through the window and gave her the watch.

A few minutes later, they passed a fur shop. "That's a glamorous fur," she said. "Would you like to have it?" he asked. "Oh yes," she said. He took another brick and threw it through the glass and pulled out the fur. A few minutes later they passed a dress shop and the girl friend said, "Oh I'd really like that gown." The coach said. "Hey do you think I'm made of bricks?"
