

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the [Return on Investment of Afterschool Programs in Pennsylvania](#) study determined that for every dollar invested in after-school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link to PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students, examine disproportionate impacts on specific student groups, and highlight the LEA's promising practices in supporting students' needs since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in after-school programming. Include a brief description of the indicators used in the decision-making process.

The academic impact of lost instructional time will be determined by comparing a combination of state tests results and local assessments. Data will be disaggregated by grade level and content area to, vertically and horizontally, to identify potential learning gaps. The district will analyze data from the following assessments to determine the specific groups of students that were negatively impacted by the pandemic: Acadience Reading, MAPs, Classroom Diagnostic Tools, PSSAs, Keystone Exams, WIDA, WIDA Model, and Advanced Placement exams.

Section: Narratives - After-school Program

After-school Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide after- school programming for their students.

- Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
English Learners	Academic Growth	200	Tutors will consist of certified classroom teachers, most often by teachers in the school, who will provide supplemental instruction to students in effort to address learning gaps identified through local and state assessment tools.
Children with Disabilities	Academic Growth	52	Tutors will consist of certified classroom teachers, most often by teachers in the school, who will provide supplemental instruction to students in effort to address learning gaps identified through local and state assessment tools.

- Describe the evidence-based resources that will be used to support student growth during the after- school program.

The WIDA Model will be implemented during the 21-22 school year to measure the growth of

EL students in between the annual state WIDA assessments. The district will analyze data from the following assessments to determine the specific groups of students that were negatively impacted by the pandemic: Acadience Reading, MAPs, Classroom Diagnostic Tools, PSSAs and Keystone Exams. . IXL diagnostics will also be used to closely monitor student growth in specific skills.

4. Describe the staff that will provide the after- school program (i.e., Internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
20	Internal	Approximately 20 extra-pay-for-extra duty jobs will be created to provide the before and after school tutoring programs during the school year.

- a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

- b. The LEA assures it understands it is responsible to ensure that all after-school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the after-school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Acadience Reading, MAPs, The Classroom Diagnostic Tools, and IXL Diagnostics	quarterly	Disaggregation of data for students based on socio-economic status, English Learner, and children with disabilities will be examined to ensure that growth is made by

Tool Used to Evaluate Success	Frequency of Use	Expected Results
		students who were negatively impacted to the greatest degree by the pandemic

6. How will the LEA engage families in the after-school program?

Explanation of the program will be available on our website. Targeted students will be contacted through correspondence with the school building in the form of email, letter to the home, and phone calls. Teachers will identify students in need and reach out to parents of the students who do not respond. Progress will be shared with families throughout the program.
