

1:Web Boulder Valley School District Program Agreement

Through a collaboration between your school and Boulder Valley School District (BVSD), the BVSD 1:Web Program strives to ensure the highest quality student learning opportunities utilizing technology. This Agreement outlines the expectations for students and families as part of the BVSD 1:Web Program. The Chromebooks referenced in these expectations are those specifically assigned to a student: a BVSD 1:Web Chromebook and charging cord.

Requirements: Parents and students must complete the following in order to participate in the BVSD 1:Web Program:

- A. Read and agree to these expectations.
- B. Complete a brief orientation, provided by your school.
 - a. Students only: Complete additional 1:Web training through a school-provided course.
- C. Pay the annual BVSD 1:Web Program fee of one-quarter of the cost of the Chromebook (\$67.50) which covers the Chromebook and management software.

Section 1: Receiving the Chromebook

BVSD and the school have committed to providing a new Chromebook to each student in the 1:Web program. For the fall of 2022, BVSD will provide 5th and 9th grade students with new Chromebooks. In addition, any new 5-12th grade student attending a 1:Web school, will be enrolled in the 1:Web program and will be provided a 1:Web Chromebook. Beginning 5th grade, all students in the 1:Web program will pay a Tech Fee annually.

- A. **Student Withdrawal:** If the student withdraws from this school, and the student's assigned Chromebook and accessories are **not** in good condition at the time of withdrawal, the student will be responsible for the repair, replacement cost of the Chromebook and accessories, or other fees as outlined in BVSD School Board policy. If the student withdraws with a Chromebook in good condition, the following options are available:
 - a. If the student transfers to another 1:Web BVSD school, the student's Chromebook and all accessories assigned to the student remain the same.
 - b. If the student transfers to a non BVSD 1:Web school or out of the district, the student Chromebook and all accessories assigned to the student must be returned to the issuing school or the student can pay the remaining balance of the cost of the Chromebook and take ownership of the Chromebook.
- B. **High School Graduation:** If the cost of the Chromebook has been paid in full, the BVSD management software will be removed from the Chromebook and the student may take ownership of the Chromebook. If the student has outstanding fees, the Chromebook will be disabled.

Section 2: Student Responsibilities

- A. **Care and Handling:** Students must keep their Chromebooks secure and prepared for academic use at all times, and report any issues promptly. Students may customize their Chromebooks by installing approved software extensions, applications, or other components, but may not modify Chromebook management software installed by BVSD.
- B. **Loss or Damage**
 - a. The Chromebook is provided to the student for his or her use and is the responsibility of the student

including replacement in the event of theft or damage.

- b. The student must report any issues to school administration immediately, and may be required to complete a police report.
- c. The student may be provided with a temporary loaner Chromebook until a permanent replacement has been obtained. Replacement Chromebooks must be obtained through the school. This agreement applies to loaner Chromebooks as well.

C. As a responsible digital citizen I will:

- a. Keep personal information private.
- b. Encourage others to be responsible digital citizens.
- c. Use Chromebooks for school related purposes during academic time.
- d. Report to the school staff anyone using Chromebooks inappropriately.
- e. Respect the work of other individuals.
- f. Follow BVSD's **Appropriate Use of Technology** regulation JS link:

- <https://www.bvsd.org/about/board-of-education/policies> (See J Policies)

D. **Assessments:** While students may choose to use any Chromebook during class time, the 1:Web Chromebook is required for certain standardized tests and other evaluations at teacher discretion.

E. **Voluntary Insurance:** There are commercial insurance program options available to cover accidental damage.

Participation in these programs is not required. BVSD and your school hold no responsibility for the insurance. Check online or with your own insurer for options.

Section 3: Family Responsibilities

- A. Families will support students in their care and handling of the 1:Web Chromebook.
- B. Families will talk with their student about using their Chromebook as a good digital citizen.
- C. Families will communicate to the school any concerns related to the Chromebook.
