

## Reopening Plan (Option A: In-Person)

Based on KDE Guidance Documents

### 1. Social Distancing

- Students will be expected to be distanced as far apart as possible in all areas.
- Class sizes will be reduced when possible to allow for social distancing.
- Markings will be on the floor as reminders to distance.
- No sharing of school supplies.
- Reduce the number of items students bring into school and take home from school.
- Students will go straight to classrooms instead of common areas to avoid congregating.

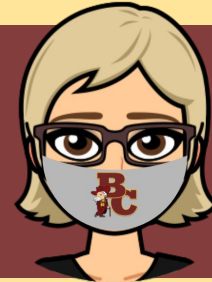

### 2. Bus Transportation

- Parents will sign a Certificate of Assurance at the beginning of the school year that states they will take their child's temperature each morning and only allow the child to ride the bus with a temperature of less than 100.4.
- A hand sanitizer station will be located in the vicinity of the first seat.
- All buses will be cleaned and sanitized between routes.
- Students will wear masks at all times while on the bus
- Students will have an assigned seat on the bus and students from the same household will be seated together.

### 3. Mask and PPE

- All students, Kindergarten and above, will be required to wear masks at all times, except when eating or drinking.
- Masks must fit into the normal dress code policy with appropriate logos or images.

### 4. Screening and School Exclusion

- Temperature check (with touchless thermometer) and screening for all students and staff at point of entry.
- Students or staff should stay home OR be sent home if any of the following occur:
  - Temperature greater than 100.4
  - Cough not related to allergies
  - GI (vomiting/diarrhea)
  - New rash
- All schools will have an isolation area for sick students until a parent can pick up their child. **Students must be picked up within one hour.**
- Sick students may not be transported by school bus.
- Students will be assigned to virtual learning when in isolation, if they are well enough to participate.
- Students may return to school when the local health department provides documentation to the school.

### 5. Sanitation and Environmental Standards

- Students will be encouraged to practice proper hygiene.
- Hand sanitizer stations will be available throughout the buildings.
- All schools and buildings on campus will be thoroughly cleaned and disinfected throughout the day.
- Systems in place to disinfect frequently touched surfaces.
- All cleaning supplies will be properly labeled and kept out of reach of children.

### 6. Contact Tracing

- School officials will notify our District Health Coordinator and our local health department of any positive cases of Covid-19 to execute their contact tracing investigation.
- The local health department will contact students who have met contact tracing requirements.
