

CHOCTAW-NICOMA PARK SCHOOLS RETURN TO LEARN

CONTINUATION OF SERVICES

This document includes various efforts that our district continues to make in order to provide a safe climate for our students and faculty during the 2022-2023 school year.

Any changes made to this document will occur with continued input from our entire community of CNP educators, staff, parents, and administrators as well as OSDE, CCOSA, OSSBA, the OKC/OK County Health Department, health professionals, and state and local leaders.

Updates to the document will be posted on our website. We appreciate the support of our stakeholders as we do our best to provide a safe and appropriate learning environment for all of our students.

We ask that all patrons remain understanding and flexible as needed.

We remain committed to transparency and will notify all stakeholders if and when changes have been made to our Return to Learn Plan.

The united efforts of our community will ensure continued excellence in CNP schools.

CLEANING & DISINFECTING

CNP schools will continue sanitization of high-contact surfaces throughout the school day. Disinfecting sprayers will be used in class-rooms and on buses as needed. Frequent hand-washing and other healthy protocols will be practiced and highly encouraged.

New Air Filtration Systems

Needlepoint

Bi-Polar Ionization systems have been installed at all sites in the district. Scientific research has proven that the system:

- ⇒ Reduces the transmission of Covid
- ⇒ Reduces and eliminates pathogens, mold and viruses
- ⇒ Significantly reduces Asthma and Allergy triggers
- ⇒ Has been installed throughout the nation in various schools, institutions and hospitals such as The Mayo Clinic

Hand Sanitizer

Hand sanitizer will be available throughout school buildings and in classrooms.

MASKS

In compliance with SB 658, masks will not be required unless Oklahoma is declared in a state of emergency by the Governor. Face masks are optional. In accordance with CDC guidance, masks are recommended for students in schools and for un-vaccinated individuals and for those unable to maintain social distancing.

Positive Cases

If a student or staff member tests positive for Covid, they should isolate for 5 days and may return on the sixth day if symptoms are mitigated. CDC guidelines should be followed.
