DONATIONS

Mrs. Tramont made a presentation of the Award from the Geauga Safety Council for our outstanding job in keeping our workmen’s compensation claims down in the last year. By having Mrs. Shirkey attend the required number of meetings and track our claims we also earn a 4% discount on our workmen’s compensation premium.

APPROVAL TO REQUEST SCHOOL BUS BIDS:
Motion made by Mr. Miller, seconded by Mr. Honkala, to request bids for a new 71 passenger bus to update the District’s aging fleet and to beat the price increase coming in 2008.

Mrs. Shirkey stated that she talked with the bus dealers about the current bus costs and availability. There are stock buses available that meet the EPA requirements and are at a savings to the district. As Mrs. Tramont passed out to you we would be saving substantial funds on the fuel costs and maintenance costs by replacing one of our older buses with a new bus.

Mr. Manfredi asked for an average number of miles per day our buses run. Mrs. Shirkey replied about 1,291 miles a day with 10 buses on the road. The many stops and goes add wear and tear to the bus and the costs of a bus are going up about $10,000 next year.

Mr. Miller asked what would be the cost of a bus that we would bid for. Mrs. Shirkey stated about $70,000.

Mr. Manfredi said with the cost of fuel going up and the added maintenance for older vehicles, he can understand the need to purchase now to save the cost of running older buses. Mrs. Shirkey said she knew he would understand as he deals with vehicles on a regular basis. She also thanked the board for approving this item.

Roll Call: All Ayes. Motion carried.

RESOLUTION TO TERMINATE TRANSPORTATION AGREEMENT:
Motion made by Mrs. Timmons, seconded by Mr. Manfredi, to terminate the agreement for a Transportation System for Students with Disabilities for schools in Lake and Geauga Counties.

Mr. Knapp stated that we haven’t used East Shore in a while but we have used one of their buses. It has been returned. This is just a formality to disband East Shore.

ACCEPT INVENTORY APPRAISAL PROPOSAL:
Motion made by Mr. Honkala, seconded by Mr. Miller, to accept the proposal for Valuation Engineers to do a complete inventory appraisal of the District’s fixed assets and supply the appropriate reports.

Mrs. Tramont stated that it would be a good idea to have a complete appraisal of the District’s fixed asset inventory especially since we have sold two buildings, consolidated furniture and held an auction. This would give us a clear count of our inventory for reporting purposes as well as for insurance purposes.

Mrs. Timmons asked if we have had an appraisal before. Mrs. Tramont responded yes, but it has been several years since we have had a full appraisal.

Mr. Manfredi asked about the depreciation value and how it is set. Mrs. Tramont said that she has worked with this company before with her last job and they are up on the depreciation schedules that the State Auditor’s suggest. They do a great job with the whole process.

Roll Call: All Ayes. Motion carried.

APPROVAL TO CHANGE SERVICES:
Motion made by Mr. Miller, seconded by Mr. Manfredi, to approve changing waste disposal services from Universal Disposal to Waste Management at a cost savings of nearly $100 a month, to begin in June, 2007.

Roll Call: All Ayes. Motion carried.

TREASURER’S OVERVIEW:
Brief overview of two beneficial on-line programs to help maintain fiscal responsibilities in the District.

PaySchools – on-line payment processing system to be used by the parents to pay the various fees associated with their child’s education.

Esber Cash Register – computerized lunchroom system, designed to make the lunchroom run more efficiently, increase the number of students participating in free and reduced lunch programs by eliminating the “stigma” of being on the program and recouping the initial set-up fees within 2-3 years.

Mrs. Tramont stated that the PaySchools program is connected to our school website, where a parent can go online to shop for the student fees they need to pay for their child and then can pay for them with a credit card or
with an electronic check direct from their checking account. This program gives the parents an opportunity to pay by credit card and has been proven to increase the number of fees paid in a timely manner and reduce the number of outstanding fees by year end. There is no set-up fee or maintenance fee. We are only charged a 3.5% processing fee each month on the total cost of the parent’s shopping. If nothing has been paid that month then we are not charged anything. We are able to set up the program to meet our needs. The parent’s payment information is secured and the school district does not have access to it. It is not currently connected to our EMIS program but it does have the state accounting codes and they are working on the EMIS connection. Shaker Hts. School District is currently using this program and has seen an increase in fees paid on time.

Mrs. Tramont also discussed the Esber Cash Register program. This is a lunch room program that has been proven to save time in the lunch lines and increase the number of lunches served. The student is given a 4-5 digit code number which they enter into the system when they enter the lunch line. The child’s picture and account information comes up on the screen for the cashier. She then uses a touch screen to enter the lunch purchased and the amount is deducted from the student’s account. The parents are able to send in money to apply to the student’s account or they can pay by credit card with the PaySchools program. It is currently being connected to this program. The system will print out letters for the parents if the account is low or if the student had to charge a lunch. It will also print out the necessary reports for state reporting purposes and well as balance the cash drawer for the day. There is an inventory program that will help with tracking food purchases as well. Ledgemont Local Schools has had this program for a year now and Newbury Local Schools had it installed last month.

Mr. Manfredi asked if the kids get a card to swipe. Mrs. Tramont said they get a number that stays with them through high school. Ledgemont gave their kindergarten students a popsicle stick with the number on it and within a month they did not need to use the sticks.

Mrs. Ducca said that the kindergarten lunch will be changed to better accommodate the class and this system will greatly help to ease lunch time. It can get crazy.

**APPROVE FINAL 5 YEAR FORECAST:**
Motion made by Mr. Miller, seconded by Mr. Honkala, to approve the final five year forecast for FY2007.

Mrs. Tramont stated that we need to approve this final forecast and submit it to our A-site prior to the end of May so they can process it and file it with the State by the required May 31st deadline. It was nice to have the levy pass and make the forecast process much easier than to have to plan for major cuts in our budget.
Mr. Knapp reported that there is a line of interest on our website that will connect you to the State five-year forecasts of all school districts. We will get this forecast out on our website soon.

Roll Call: All Ayes. Motion carried.

**VOCATIONAL REPORT**

Mr. Miller stated that the levy did not pass, so they will need to step back and look at where to go from here. The student project house is up for sale.

**COMMITTEE REPORTS**

Levy Committee – Mr. Honkala stated it was a great day yesterday. Susie Burzanko received the Wal-Mart Teacher of the Year award and the levy passed. He then read the following news release:

> The Board of Education is grateful to the voters of the Berkshire School District of their support of Issue 2. This issue will bring local financial stability to the District for the next few years as efforts continue at the State level to resolve that piece of school funding crisis. The Board pledges to continue the close monitoring of its expenses so that maximum resources can be applied to student achievement.

> The Board is also grateful to the Levy Committee co-chaired by Linda Stone and Tom Curtin, the Levy Committee Treasurer, Shellie McDermott, and all the countless staff, business and community volunteers. Special thanks to Preston Motors and ComDoc for their assistance in disseminating levy information. Ultimately this success is the result of teamwork and shows us the great things possible when many work for the common good.

> The Board will now move forward and consider the facility needs of the District as it prepares to close Troy Elementary at the end of the 2007/08 school year. The Strategic Plan’s recommendations will be carefully considered and the community’s input will be vital as this process moves to the finalization of a plan.

> The Berkshire Schools are everyone’s schools and we invite all of our residents to be involved in the exciting things that lie ahead of us as we close out the first decade of the 21st century.

Mr. Honkala went on to say that there was a lively meeting at Linda’s sister’s house where two folks in attendance were against the teachers. He listened to their comments and then asked them “Other than parents who has the biggest impact on your children?” After some thought they said, “Teachers.” Tim then asked, “Do you want unqualified folks teaching your children? Because you get what you pay for.” Tim then said thanks to all who helped out and in particular to our community for showing us their support.

Mr. Knapp stated that over 2,200 voters came out and that is the highest turnout in a special election for us. Great job to everyone!

**SUPERINTENDENT’S REPORT AND RECOMMENDATIONS (PRINCIPALS’ UPDATES)**

Mr. Knapp said that we have been looking at different ways to call parents in emergency situations. Ohio Schools Council went out for bids to help districts with this situation. It is a web-based program that would download the parent information and then within 10 minutes the system can relay to the parents any emergency message we have typed in. It is a worthwhile investment at only $2.50/student. We can program it to contact only certain building parents for certain reminders if wanted to. But they caution against overuse of the system. Mrs. Sethna also attended the program.

Mrs. Sethna said they randomly took our cell phone numbers and entered them into the system to demonstrate how quickly the system can get a message out. Of the numbers entered a few were selected and were quickly notified of an emergency situation.

Mrs. Timmons asked if the district determines what an emergency is. Mr. Knapp replied yes.

Mrs. Timmons also asked if we are able to update for new students. Mrs. Sethna said yes.
