SUPERINTENDENT’S REPORT AND RECOMMENDATIONS (PRINCIPALS’ UPDATES)

Cindy Ducca introduced students from all three campuses to present the board members with certificates in honor of School Board Member Appreciation Month which was in January. The students thanked the board members for their hard work and dedication to the school district.

Mrs. Ducca introduced Mrs. Starr and Mrs. Klingman, second grade teachers, and some of their students for a presentation of the Reader Theater. The students took turns reading the book ‘A Bad Case of Stripes’ to the audience. They did a great job of reading the story.

Mrs. Ducca said that Lisa and Mary Jo Maxwell volunteer a lot of extra time with the Roots & Shoots group and she appreciates all of the hard work. The Roots & Shoots officers shared the program held at both Berkshire and Troy Elementary buildings. They told of the history, the purpose and some of the community service projects they have completed so far and the upcoming events for the remainder of the year. They have sold suckers for Relay for Life, character bracelets have been made and will be sold and they are planning a candle sale and a possible car wash. The candy canes were sold in December, with the $450 collected by BE going to Rescue Village and the $125 collected by Troy going to the Jane Goodall Organization for the care of a chimpanzee. They also collect food and gifts in November and December to give to their adopted family of a single mother and four children.

Mr. Miller said that we definitely have evidence of a great staff and parents who are involved with their students’ education. We have some very fine readers here in the group. They did a great job.

Gina Symsek gave a brief slide presentation on the Strategic Plan Update. This is the road map to ensure district organization is going in the right direction. The plan was first updated at the June 2007 board meeting and the continued changes and progress were highlighted in the presentation. Some of the items included:

- Changes due to AYE requirements.
- Differentiating Instruction – working towards more consistency in teaching.
- Improving instruction for gifted and special education students with enrichment education.
- Mr. Gardner has completed a WEP for all gifted students which involved the students, parents and the teachers.
- Working on consistent programming, communication, intervention and follow through.
- Looking to increase course options to challenge our students, especially the gifted and accelerated students.
- Improve and keep current with technology needs and course options.
- Encourage interests in fine arts and athletics.
- Continue staff development.
- Continue to recognize the value of the PTO and community support.

They appreciate the explanations and the time taken. Mrs. Ducca and Mrs. Symsek agree there have been many positives since Mrs. Tramont has joined the district. Mrs. Tramont responded with thanks and said that this was not an easy decision to make but with the changes in both districts through staffing and directions it was becoming more involved and to best serve each district a change had to be made. **Old Business**

**New Business**

**Open Public Participation**
Scott Weber – The second graders did a great job, are they the top readers? *Mrs. Ducca said no, this was a variety of the students.* Mr. Weber stated that he has a contact with Taylor Publishing for yearbooks and they could save you money over Herff Jones. He has a store and a blog and hears from many people. We need to be careful about the new school. He hears complaints that the people voted down a new school on the vacant land and now we are building one there anyway. The Board needs to make sure to tell people how much it will cost and how it is going to be paid for. Must be honest about needing a levy after it is built for operating and a levy for permanent improvement of the athletic fields. People are being taxed too much and aren’t going to go for more taxes. With the new fire department coming, it will be another tax burden for the community. He would like to know why we are trying to build a new building when we have declining enrollment.

*Mr. Manfredi responded that we have discussed this issue at great length and have not made a firm decision at this time. We are still getting information on costs and options and when we get it all together we will make a decision at that time. There are things each of us with our different backgrounds bring into this and we will have to decide what is best for the students of the district.*

Mr. Miller stated that none of us here want taxes to go up. But if we can get all buildings on one campus, we can best utilize our staff and resources. We can save money with less buildings to maintain.

*Mr. Honkala stated that if we did not close Claridon we would been taken over by the state due to the costs of running three elementary buildings.*

Mr. Manfredi stated again that they are still working on things and a decision of which direction to go will be made a later time.

Mr. Koster stated that the Berkshire Planning Committee meeting is tomorrow night at the Fire House at 7 p.m. The new fire house will be on the agenda for discussion.
Adjournment

Motion made by Mr. Honkala, seconded by Mrs. Timmons, to adjourn the meeting.
