

George Wythe High School

Design Updates for the Richmond City School Board

Presented By: Dana Fox, Director of School Construction

Venue: Richmond City School Board Meeting

Date: August 15, 2022

Design Updates

Design Decisions for Front “Elevation” and Community Space

- Elevation 3A was the top choice selected by the George Wythe Reimagined Committee and by voting that took place at SummerFest and online.
- A hybrid option of a Welcome Center and Clinic was the preferred choice among voters. Specifications for the Welcome Center/Clinic will be defined in future meetings.

Programming

- The floor plan has been finalized and all spaces identified to include: 2D/3D art, digital art with a dark room, graphic design, AUTOCAD, podcast studio, guitar studio, drama/black box theater, recording studio, video broadcasting studio, dance studio, fashion and sewing labs, extended learning areas, child care lab with lactation rooms for nursing mothers, and more.

Early Site Work Package

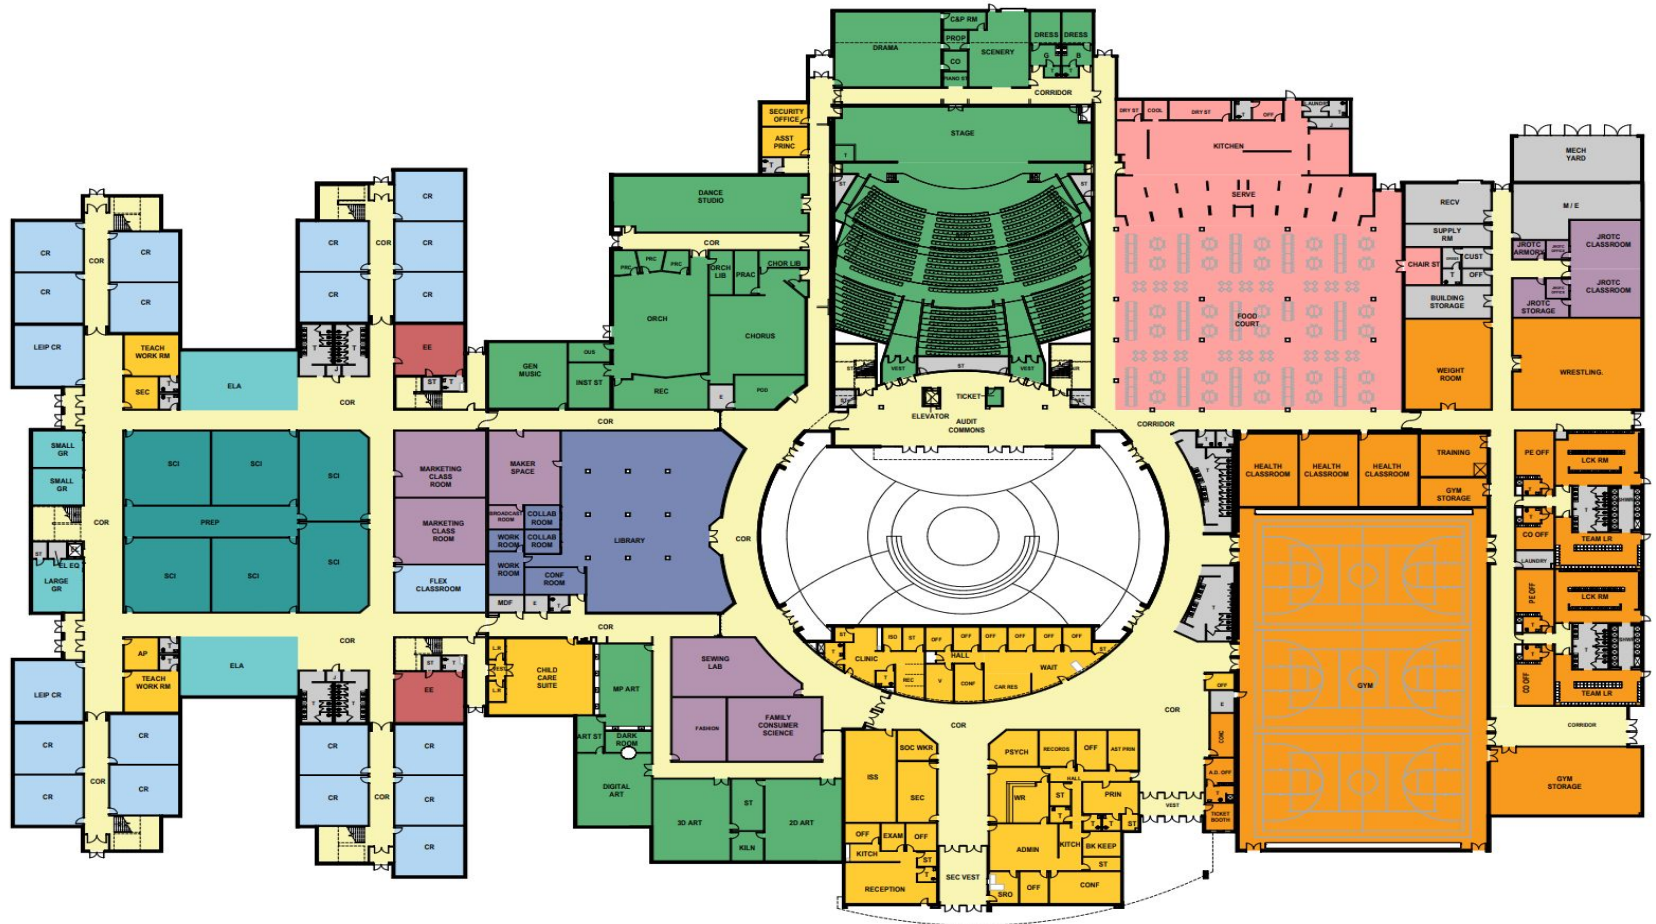

- The Civil Engineer is currently working on the early site work plans to submit to the City for approval.

Additional Updates

- This week, the application for the Urban Design Committee will be submitted for our conceptual drawing review.

Front “Elevation” Selection

Second Floor Plan
