IIBD SCHOOL LIBRARIES

The School Board recognizes that an effective school library media center is an important and integral part of the instructional resources of each school building. Consequently, the school district will provide and maintain adequate school library media centers.

Materials in the school libraries will include a full range of printed, and audio-visual media. Library services will include instruction and help in the use of library resources. A school librarian will be employed in accordance with state regulations. The school librarian and assistants will act as teachers in the use of these resources.

The school librarian, together with the administration, will develop such teaching programs and rules for library use as necessary to ensure maximum use of the library services and materials, and control of material.

The superintendent, upon the recommendation of the school librarian, will annually request sufficient funds from the Board to maintain library services at an adequate level.
