

# Student Academic Support

## Middle & High School

FCS is a rigorous college preparatory school. The Student Academic Support (SAS) program can accommodate students with mild learning challenges. The mission of the SAS program is to provide students with the opportunity to maximize their learning abilities in order to reach their full academic potential.

Each student is evaluated through the admissions process to determine the level of support needed to be academically successful within the FCS program. The level of support is determined by the Student Academic Support team based on the documentation provided. FCS is not equipped to provide support for behavior challenges, accommodations outside of list below or any modification that fundamentally alters the college preparatory program.
