District Mission Statement: To enable learners, through a partnership among home, school, and community to live and learn and contribute to society.

PHS Mission Statement: The mission of Pittsburg High School, through a cooperative partnership with students, home, school, and community, is to provide every student with the necessary skills to live and learn in, and contribute to, an ever changing society.

A COMPREHENSIVE FOUR-YEAR EDUCATIONAL EXPERIENCE

Dear Students and Parents:

We are delighted to welcome you to Pittsburg High School!

The opportunity to join efforts with you for a comprehensive high school educational program is something to which we look forward. Personal development and progress in school are most dependent on your knowledge of our curriculum offerings.

This booklet is designed to assist you in developing your high school educational plans. This book contains the following:

1. Requirements for Graduation, Regents Qualified Admissions, and NCAA Guidelines
2. Course Descriptions
3. Scheduling Planning Forms

We have provided a brief description of each class to assist you in making your plans. Students or parents who desire more detailed information on specific classes are encouraged to contact guidance counselors or teachers.

Sincerely,

PHS Administrators

Kelynn Heardt, Principal
Chris Garzone, Assistant Principal
Jeff Johnson, Assistant Principal
Jeff Staley, Activities Director

and Counselors

Gina Ulbrich (students with last names beginning with A-G)
Jessica Stegman (students with last names beginning with H-O)
Stef Loveland (students with last names beginning with P-Z)
Maggie Serrano, Registrar
EDUCATIONAL PHILOSOPHY
The district’s educational program is designed to enable each student to develop to his or her maximum potential. The objectives for the educational program include helping each student to:

- Become a productive and responsible citizen
- Develop the fundamental skills essential to self-directed lifelong learning
- Make appropriate educational and career plans
- Learn and apply strategies for logical problem solving and decision making
- Develop self-discipline and a sense of personal responsibility for his or her learning, decisions, and actions
- Demonstrate consideration and respect for others
- Make choices consistent with a healthy lifestyle
- Demonstrate the ability to work well with others
- Use technology effectively

Students and the Student Advocate will review the student’s plan each year so that long-term curriculum goals can be planned and achieved as the student progresses through the high school years. All students have the opportunity to update their plans at any time. A planning worksheet is located at the back of this Curriculum/Enrollment Handbook.

SCHOOL DAY SCHEDULE
The school day at Pittsburg High School extends from 8:10 a.m. to 3:25 p.m. Students are expected to be in attendance during these hours. Our daily schedule has 50 minute classes with four minute passing periods and a 25 minute lunch. Alternative schedules are followed periodically throughout the year to allow for various activities and/or meetings

COURSE AVAILABILITY
All courses listed in the Curriculum/Enrollment Handbook require a sufficient number of student requests to run in a given year. If there is not sufficient interest in a particular course, it will not be provided during the upcoming school year.

COURSE SELECTION
Starting in the spring semester of each school year, students will choose electives and other academic courses not required for graduation. Course placement may be determined by examination scores on the Kansas State Assessment and/or other tests. The master schedule is created based on student selection of courses.

PLANNING WORKSHEET
We encourage all students to reach well beyond the minimum graduation requirements and to make the most of the educational opportunities Pittsburg High School provides.

ADMISSIONS REQUIREMENTS TO KANSAS REGENTS UNIVERSITIES (QUALIFIED ADMISSIONS)

It is important to emphasize that the graduation requirements listed above represent the minimum program of studies for Pittsburg High School students. Entrance requirements to particular colleges and universities may be considerably more stringent. The following standards will meet the Qualified Admissions (QA) Requirements for the Kansas Regents Universities (Emporia State University, Fort Hays State University, Kansas State University, Pittsburg State University, University of Kansas, and Wichita State University).

Emporia State, Fort Hays State, Pittsburg State, & Wichita State:
- An ACT score of 21
- Or a GPA of 2.25

Kansas State University:
- An ACT score of 21
- Or a GPA of 3.25

Kansas University:
- An ACT score of 21 and a GPA of 3.25
- An ACT score of 24 and a GPA of 3.0
Kansas Scholars Curriculum & State Scholar Quick Facts

What is the Kansas Scholars Curriculum?

The Kansas Scholars Curriculum is one of the requirements Kansas residents must meet in order to receive State Scholar designation during the Senior year. This curriculum is NOT the same as the Qualified Admissions Curriculum.

What are the other requirements to become a State Scholar?

- Students must have taken the ACT between April of the sophomore year and December of the senior year.
- Students must be a Kansas resident.
- Students must have their curriculum and 7th semester GPA certified on the official roster by the high school counselor, registrar, or similar official.

What is the benefit of completing the Kansas Scholars Curriculum?

Students that complete the curriculum, and meet the other requirements, may be designated as State Scholars, which makes them eligible to receive State Financial Aid as provided by the Kansas Legislature.

The academic profile of scholars included an average ACT of 30 and an average GPA of 3.90.

State Scholars may receive up to $1,000 annually for up to four undergraduate years (five, if enrolled in a designated five-year program) based on financial need and the availability of State funds.

How is financial need determined?

Financial need is measured by the Federal Methodology using data submitted on the FAFSA.

For more information about the Kansas Scholars Curriculum or State Scholar designation, contact the Kansas Board of Regents at (785) 296-3421 or visit the Board’s website at www.kansasregents.org.
SCHEDULE CHANGES
Each year a new master schedule is created to accommodate students’ course requests made in the spring semester. Faculty and staffing decisions are made, textbooks are purchased, materials are ordered, and rooms are assigned on the basis of these requests. Students must maintain a full schedule of courses during the fall semester and a minimum of five courses for credit.

Course requests are made with student, parent, teacher, and counselor input. Students must see their counselor on or before the first day of classes in a semester to request a schedule change. These requests will be honored for exceptional circumstances as space is available. Schedule change requests must adhere to the following guidelines:

Adding a Course
Students may add a course during the first 2 days of a semester if:

- Space is available
- And either
  - The student’s schedule does not need to be rearranged, or
  - The change moves the student from a larger class to a smaller class with the same teacher

Dropping a Course
In a full year course, students will have the first two days of the second semester to drop the second part of the course after obtaining approval from the teacher of that course, the parent/guardian, counselor and principal. Students may withdraw from a course after the first two days of the semester; however, students who drop a class after this time must have principal approval and may receive a grade of “WF” and have a failing grade included in their grade point average.

COURSE RETAKE POLICY
Student may retake any course. The original grade will remain on the transcript. Duplicate credit will not be issued unless the course is approved for repeat. Students wishing to retake a course in the summer or through the online program must consult their counselor prior to registering for any course. If a grade of “A” or higher was earned the first time, a course may not be retaken.

SUGGESTED PROGRAMS OF STUDY

1. All freshmen, sophomores and juniors are required to attend school full time. Seniors will be expected to meet full-time equivalency requirements. Changes in this rule may only be approved by the building principal.
2. In planning a course of study, the student must be continually aware of the need to fulfill the requirements for graduation.
3. Students are encouraged to investigate, with their counselors and/or parents, the requirements of the specific institution(s) of higher learning they may wish to enter, taking that information into consideration in designing their 4 year educational plan.

COURSE PLACEMENTS
Course level placement is used in English, mathematics and courses which require prerequisites. The underlying goals and purposes are provided below. Students are assigned to the appropriate level based upon a combination of the following criteria:

- Pittsburg High School placement inventories/assessments
- Kansas State Assessments
- Teacher Recommendations
- Student Interest
- Parent Interest

GRADING
Grades are administered by teachers according to their course descriptions and course requirements. Students and parents may view grades and monitor progress on PowerSchool. Two cumulative grades will appear on a student’s official transcript, weighted GPA and unweighted GPA.

Unweighted Cumulative Grade Point Averages (GPA) are based on the following scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>F</td>
<td>0.0</td>
</tr>
</tbody>
</table>

Weighted Cumulative Grade Point Averages (GPA) are based on the following:

- Students may receive a weighted factor for taking any of the following Honors or Advanced Placement (AP) courses: AP Art 2D, AP Art 3D, AP American Government, AP Calculus, AP Spanish IV, AP English Language & Composition, AP English Literature & Composition, Honors Algebra II, PreCalculus, Honors Biology, Honors World History, Honors American History, Honors English 9, Honors English 10, and college courses.

- Weighted gpa = standard gpa + (# AP year courses/26)

Exclusions from the GPA
The following courses are not included in the calculation of a student’s grade point average:

- Student Aide
- Pass/Fail courses

TRANSCRIPTS
Transcripts provide both weighted and unweighted grade point averages. Students may request transcripts for college admission, scholarship applications, NCAA eligibility center, etc. through their Parchment account. While ACT test scores are included on the student transcripts, students must typically request that these scores be sent directly to colleges, universities, and other institutions. This may be done through the web sites of the testing agencies: www.act.org and/or www.collegeboard.com.

ADVANCED PLACEMENT COURSES
Students have the opportunity to complete Advanced Placement (AP) courses in the following subject areas: Art 2D, Art 3D, American Government, English Language and Composition, English Literature and Composition, Spanish Language, and Calculus AB. The content of these college level courses is determined and approved by the College Board. Students who score well on the AP exam may be awarded college credit in many of the nation’s colleges and universities. In assessing a student’s college admissions application, many colleges also look favorably upon courses designated as AP since these courses represent more rigorous content than the standard high school curriculum. Students are encouraged to investigate the AP policy of the college of their choice. In preparation for some Advanced Placement courses at Pittsburg High School, students must complete prerequisite courses and/or summer work. Summer assignments are available in the late spring from the content area instructors.

EXTERNAL CREDITS
Pittsburg High School may accept external credits earned from organizations other than USD250. All external credits must come from accredited programs and must be approved by the counselor and/or principal. The approval process should be completed before the course is taken or Pittsburg High School credit may not be given. Upon completion of the course, the student will produce an official transcript from the program. Examples of external credit
include: Greenbush Virtual, Labette Community College, Fort Scott Community College, Pittsburg State University, distance learning credits, Alternative Education courses, correspondence courses, summer school, World Studies courses, etc. All tuition/fees and materials/book charges for any college or external course are the responsibility of the student.

**REDUCED SCHEDULE**

Seniors wishing to have a reduced schedule for the spring semester of their senior year must meet with their counselor to determine eligibility. Students participating in any KSHSAA activity or sport must be enrolled in five (5) courses and attend at least one course on the Pittsburg High School campus to remain eligible.

**COLLEGE COURSES**

Students wishing to take college courses should meet with their counselor to determine eligibility, course options and enrollment Costs for tuition, fees, books, and materials are the responsibility of the student. Students should demonstrate a successful experience in order to continue concurrent college enrollment in following semester(s). Lack of success at college would indicate that more preparation is needed through enrolling in high school full time. Students who enroll in first semester college courses will provide official verification of receiving a "C" grade or better in the course(s) in order to be granted permission to enroll during second semester. Students must understand the consequences for future college enrollment and financial aid opportunities post-high school if he/she fails, drops or withdraws from the course.

Students will ONLY receive dual credit for college courses when a student turns in a transcript/report w/ college grade and credit recorded.

Post-secondary enrollment and PHS enrollment must combine to equal at least full-time enrollment for the fall semester.

In order to maintain KSHSAA (Kansas State High School Activities Association) eligibility, students will be required to enroll in and attend a minimum of five courses of unit weight. High school students dually enrolled in college who are relying on the college course for eligibility must:

1. have their college hours recorded on their high school transcript and
2. may count five hours of college credit as two subjects of unit weight or three hours of college credit as one subject of unit weight.
3. However, the student must attend at least one class of unit weight at the base school per semester.
4. Students must notify their counselor immediately before withdrawing or dropping the college course.

Credits will be granted: 4-5 college hours = 1.0 high school credit, 1-3 college hours = 0.5 high school credit

Release time will be granted to students enrolled in college courses so that they can attend courses that are not offered on the Pittsburg High School campus; amount of release time will be equivalent to time in college class which will include travel time, if necessary.

All students' post-secondary enrollment and their PHS enrollment must combine to equal a full time enrollment at the high school level. All tuition/fees and materials/book charges for any college or external course are the responsibility of the student.

**EARLY GRADUATION**

Students wishing to graduate early should meet with their counselor to determine eligibility. Once it is determined that the student can meet graduation requirements earlier than the scheduled semester of graduation, the student must obtain approval from parent, counselor and principal. Diplomas will be issued in May for all graduates.

**PHS CONCURRENT ENROLLMENT IN COLLEGE CLASSES**

Pittsburg High School offers six (6) concurrent enrollment courses that can be taken for Pittsburg State University college credit. The following courses are:

Advanced Composition = English Composition ENG101
Advanced Placement US History fall = American History to 1865 HIST201
Advanced Placement English Literature & Comp spring = English 113
Honors US History spring = American History From 1865 HIST202
Honors US History fall = American History to 1865 HIST201
Eligibility for High School Inter-Scholastic Activities
Any student who represents a school in activities must satisfy all scholastic requirements for participation. Students must be enrolled in and passing five classes of unit credit not previously passed. Courses that may be repeated for credit according to the program planning guide may count toward eligibility. Students must be bona fide students as defined by the Kansas State High School Activities Association (KSHSAA).

NCAA Requirements
All students considering participating in athletics in college should check with their counselor for more information and to review the National Collegiate Athletic Association eligibility guidelines. These guidelines are also found on the NCAA Eligibility Center website: www.NCAA.org/playcollegesports.

Test Score requirements for both Division I and Division II
The ACT score used for NCAA purposes is a sum of the following four sections: English, mathematics, reading, and science. When you register for the SAT or ACT, use the NCAA Eligibility Center code of 9999 to ensure all scores are reported directly to the NCAA Eligibility Center from the testing agency. Test scores that appear on the transcript will not be used.

NCAA Division I—16 Core Courses required
NCAA Division I will require 10 core courses to be completed prior to the seventh semester (7 or the 10 must be a combination of English, math or natural or physical science that meet the distribution requirements below).

**Full Qualifier**
There will be three possible initial-eligibility outcomes:
- **Qualifier**: May receive athletic aid (scholarship), practice and compete in the first full year of full-time enrollment at the Division I college or university. Must meet the sliding scale of core-course GPA (minimum 2.30) and SAT/ACT sum score, and graduate from high school.
- **Academic Redshirt**: May receive athletics aid (scholarship) in the first year of full-time enrollment and may practice in the first regular academic term (semester or quarter) but may not compete in the first year of enrollment. The student-athlete must successfully complete nine semester hours or eight quarters in the initial term at his/her college or university to continue to practice in the next term. Must meet the sliding scale of core-course GPA (minimum 2.0) and SAT/ACT sum score and graduate from high school.
- **Nonqualifier**: Cannot receive athletics aid (scholarship), practice or compete in the first year of full-time enrollment.

NCAA Division II—16 Core Courses required
The Division II core GPA requirement is a minimum of 2.200. Remember the NCAA GPA is calculated using NCAA core courses only.

**Full Qualifier**
There will be three possible initial-eligibility outcomes:
- **Qualifier**: May receive athletic aid (scholarship), practice and compete in the first full year of full-time enrollment at the Division I college or university. Must meet the sliding scale of core-course GPA (minimum 2.20) and SAT/ACT sum score, and graduate from high school.
- **Partial**: May receive athletics aid (scholarship) in the first year of full-time enrollment and may practice in the first regular academic terms (semester or quarter) but may not compete in the first year of enrollment. Must meet the sliding scale of core-course GPA (minimum 2.0) and SAT/ACT sum score and graduate from high school.
- **Nonqualifier**: Cannot receive athletics aid (scholarship), practice or compete in the first year of full-time enrollment.

PITTSBURG HIGH SCHOOL ACTIVITIES AND ATHLETICS

Pittsburg High School is a member of the Kansas State High School Activities Association (KSHSAA) and competes within the Southeast Kansas SEK (Cherokee, Neosho, Crawford counties) League. The primary purpose of Pittsburg High School Activities is to promote academic achievement; therefore, students engaged in those areas of the co-curricular program, which make significant demands on their time, must perform satisfactorily in the classroom in order to continue their participation in the co-curricular activities. In order to be eligible to participate in a co-curricular activity, students must pass at least five (5) classes in the preceding semester and be enrolled in at least five (5) classes during the current semester.

Art

(All Art classes fulfill the Fine Arts Elective requirement)

AP STUDIO ART 2D DESIGN (1517, 1518) 11, 12
Prerequisite: Intro to art, Drawing, Painting
1 year 1 credit
This course is equivalent to a first year college art class and all students are expected to investigate and challenge themselves to develop mastery in their ideas, skills and abilities in 2D art. Students will use a variety of concepts and approaches with techniques and mediums as they demonstrate work with an idea, concept or abstraction formed and existing in their mind. Students taking AP Art are required to submit an AP Portfolio. The portfolio can be created in both junior and senior year for submission senior year or, the portfolio can be completed each year separately.

AP STUDIO ART 3D DESIGN (1522,1523) 11, 12
Prerequisite: Intro to art, Ceramics, Ceramics II
1 year 1 credit
This course is equivalent to a first year college art class and all students are expected to investigate and challenge themselves to develop mastery in their ideas, skills and abilities in 3D art. Students will use a variety of concepts and approaches with techniques and mediums as they demonstrate work with an idea, concept or abstraction formed and existing in their mind. Students taking AP Art are required to submit an AP Portfolio. The portfolio can be created in both junior and senior year for submission senior year or, the portfolio can be completed each year separately.

ART, INTRODUCTION TO (101) 9, 10,11,12
Prerequisite: none
1 semester ½ credit
The purpose of Introduction to Art is to develop an understanding of art media, techniques, and processes through readings, activities, and independent problem solving through use of their intellectual skills and efforts. Students will be introduced to the Language of Art (the Elements and Principles of Art), pencil drawing, design fundamentals, one and two point perspective, color principles, theory, color mixing, acrylic painting, and Art Careers (lettering and cartooning).

CERAMICS I (104) 9,10,11,12
Prerequisite: Introduction to Art
1 semester ½ credit
The purpose of Ceramics is to provide the opportunities to design, form and experience the pottery medium through active participation in the clay processes, tools and equipment. During the semester the student will produce hand formed pieces. These pieces will be finished, glazed pieces.

CERAMICS II (110)
Prerequisite: Intro to Art, Ceramics I
1 semester ½ credit
The purpose of this course is to provide the opportunity to advance skills and continue work in the area of ceramics.

DESIGN CRAFTS (1336)
9,10,11,12
1 semester ½ credit
Craft Design is an art class with an eye on utility (use); you will study the aesthetics of handcrafting, involving ceramics, paper art (origami & quilling), weaving, jewelry, leatherwork, etching and printmaking, and wood crafts. Much time will be spent in the studio, experimenting with materials, developing your personal artistic vision, and working on technique.

DRAWING (788) 9, 10, 11, 12
Prerequisite: Intro to Art
1 semester ½ credit
The purpose of this course is to concentrate on developing and improving the student's drawing skill, through a variety of drawing media and technique processes. Students will gain competencies and skills in contours, gestures, value studies, perspective studies, realistic drawings, life drawing, and imaginative drawing.

PAINTING I (103) 10, 11, 12
Prerequisite: Intro to Art, Drawing
1 semester ½ credit
The purpose of Painting I is to acquaint the senior high student with a basic understanding of composition, painting techniques and art appreciation through active participation in the various painting media (watercolor, acrylics and oils).

PAINTING II (112) 10, 11, 12
Prerequisite: Intro to Art, Drawing, Painting I
1 semester ½ credit
The purpose of Painting II is to give the student interested in painting an opportunity to continue their work in this area.

SCULPTURE (106) 10, 11, 12
Prerequisite: Intro to Art
1 semester ½ credit
The purpose of this course is to concentrate on developing the student's drawing skill, through a variety of drawing techniques and processes of Sculpture. The student will analyze and evaluate the aesthetics of handcrafting, involving ceramics, paper art (origami & quilling), weaving, jewelry, leatherwork, etching and printmaking, wood crafts. Much time will be spent in the studio, experimenting with materials, developing your personal artistic vision, and working on technique.

PRINCIPLES OF ILLUSTRATION (DRAWING II) 1091 10, 11, 12
Prerequisite: Introduction to Art, Drawing
1 semester ½ credit
The purpose of this course is to offer an advance level drawing class to students who would like to explore areas of interest in a variety of mixed media and subject matter.
INTRODUCTION TO TRANSPORTATION & LAB (1212, 1213)  
9, 10, 11, 12  
1 semester, 2 hours  1 credit  
This career and technical education course instructs students in 
automotive shop safety procedures, hand & power tool use, automotive 
shop operation, and the operation and service procedures of automotive 
electrical systems. Students are trained on "live" vehicles and with 
mockup activities to diagnose, repair and service automotive electrical 
systems. Students will also learn basic workplace skills and participate 
in the SkillsUSA Professional Development Program to help prepare 
them for an entry level position or further training in the automotive 
industry.

AUTOMOTIVE TECHNOLOGY II (578, 579)  
10, 11, 12  
Prerequisite: Intro to Transportation & Lab  
1 year  2 credits (Two period course)  
This vocational career and technical course instructs students in the 
operation and service of lighting and gauge electrical circuits, ignition, 
fuel, exhaust, and emission control systems. Students are trained on 
"live" vehicles to diagnose, repair and service the above systems. 
Students will also continue to learn basic workplace skills and participate 
in the SkillsUSA Professional Development Program to help prepare them 
for an entry level position or further training in the automotive industry.

AUTOMOTIVE TECHNOLOGY III (582, 583)  
11, 12  
Prerequisite: Intro & Automotive Technology II  
1 year  2 credits (Two period course)  
This vocational career and technical course instructs students in the 
operation and service of the braking, steering, and suspension system. 
Students are trained on "live" vehicles to diagnose, repair and service the 
above systems. Students will also continue to learn basic workplace skills 
and participate in the SkillsUSA Professional Development Program to 
help prepare them for an entry level position or further training in the 
avtomotive industry. Students will also be participating in an internship 
with local businesses during Automotive III.

AUTOMOTIVE TECHNOLOGY IV (1394, 1220)  
12  
Prerequisite: Automotive Technology III  
1 year  2 credits (Two period course)  
This is the culminating course for auto technology. Students will 
participate in an internship in a local automotive business.
ACCOUNTING I (132, 532) 9, 10, 11, 12
Prerequisite: None
1 year 1 credit
Students are introduced to accounting, which they will be expected to understand and use as adult consumers and employees. Financial transactions are analyzed and recorded, and financial statements are produced. Students are expected to learn the principles and procedures needed to begin entry-level accounting careers. To further their study, computer applications will be introduced at this level. Virtual Accounting Simulations are used to enhance the understanding of a business’ operations as well as becoming an accountant and dealing with business decision making.

ADVANCED TOPICS IN MEDIA TECHNOLOGY (589, 590) 11,12
Prerequisite: Media Digital Graphics
1 year 1 credit
Students design projects involving multi-media, telecommunications, technological equipment, or other computer related technologies in collaboration with the instructor. Students create their large-scale projects using a variety of computer and video resources. Projects are client driven for a real world application of student skills.

BUSINESS ESSENTIALS (109) 9, 10, 11, 12
Prerequisite: None
1 semester ½ credit
This course is designed to give students an overview of the business, marketing & finance career cluster occupations. Students develop an understanding of how academic skills in mathematics, economics, and written and oral communications are key components of success in the business world and in their personal lives. Some of the many topics included are: business in the global economic environment, business organization and management, business operations & technology, & financial management. Students will be able to analyze their personal financial decisions, & then evaluate the costs and benefits. They learn to apply decision-making skills to evaluate career choices, set personal goals, utilize their rights and responsibilities as consumers, etc. The course is designed to help the student make wise spending, saving, and credit decisions so that they will become competent consumers.

CAPS APPLIED MARKETING (1502) 11,12

COMPUTERIZED ACCOUNTING II (133,1126) 10, 11, 12
Prerequisite: Accounting I
1 year 1 credit
This is a course designed for students who have definite interest in pursuing the study of accounting at the post-secondary level or who have a desire to seek a beginning position upon graduation from high school. The student is given the opportunity to further develop the fundamentals of accounting in the following areas: accrued items, depreciation, departmental accounting, partnership accounting, corporation accounting, automation, cost accounting, special sales. Virtual Accounting Simulations are used to enhance the understanding of a business’ operations as well as becoming an accountant and dealing with business decision making. Spreadsheet applications are used to teach selected concepts.

COMPUTER GRAPHICS & APPLICATIONS (1524) 9, 10, 11, 12
1 semester ½ credit
This course may be taken concurrently with media/digital graphics.
1 year 1 credit
This course is designed to prepare the student to use computer technology for State of Kansas Career Guidelines. Additionally, this course is designed to help any student become competent in the use of computers in business, school, and everyday life. It uses a “hands on” approach in the following areas: word processing, databases, spreadsheet & charts using Excel, presentation software as well as the integration of these applications. Also included in the course is an introduction to using graphic software such as Photoshop, etc.

ENTREPRENEURSHIP (111) 9, 10, 11, 12
1 semester ½ credit
Students will learn the knowledge and skills necessary to own and operate their own business. This course is a hands-on, engaging program that fosters value-based thinking, promotes positive character development & teaches business economics and principled entrepreneurship.

INTERNSHIP IN ACCOUNTING (129 spring) 12
Prerequisite: Computerized Accounting II
1 semester 1 credit (2 Blocks)
This capstone course applies knowledge of accounting fundamentals acquired throughout the Accounting Pathway to move students into a stronger position to enter the accounting field either out of high school or in preparation of the college environment. Students utilize live accounting software to complete accounting procedures and transactions dealing with the following: financial management decision programs, computer accounting simulations, and programming for general business operations. The second semester will leave the campus to complete a rotational internship at local businesses to complete their hands-on experience in accounting.

LAUNCH (1407) 11, 12
1 semester 1 credit (2 Blocks)
The Launch Program is a professional development student initiative offered by PHS. Launch provides high school students with educational opportunities that are driven by real-world, career-oriented experiences, and focuses on developing the “whole student” - both academically, interpersonally, and intrapersonally. Launch is committed to providing authentic, “hands on” experiences for all students, integrating critical thinking, communication, collaboration, and creativity into every day, providing authentic work experiences and mentoring opportunities with local business partners, and enhancing regional economic and community development by effectively preparing talent for in-demand, high skill careers.
MEDIA/DIGITAL GRAPHICS (587, 589) 10, 11, 12
Prerequisite: Computer Applications - This course may be taken concurrently with computer applications.
1 year 1 credit
Students learn to use a variety of digital tools to produce publishable works. This course incorporates desktop publishing, digital editing software (Photoshop), digital drawing, layouts, presentation software, digital cameras and scanners to create digital media for print and web applications. Students learn design principals to create unique and appealing projects.

PERSONAL FINANCE (1386) 9, 10, 11, 12
1 semester ½ credit
This one semester course is designed for students to achieve future personal finance success. Students will be introduced to topics including checking and bank systems, savings, investing, budgeting, completing taxes, understanding your paycheck, and other financial topics.

PRINCIPLES OF MARKETING (1500,1501) 9, 10, 11, 12
1 year 1 credit
Students will acquire an understanding of the importance of marketing, channel management, marketing information management, why items are priced how they are, product life cycles, role of promotion, customer relationships, and much more.

WEB DESIGN (124, 125) 9,10,11,12
Prerequisite: 8th grade Computer Applications or a graphic design class (can be concurrently enrolled)
1 year 1 credit
In this course, students engage in problem solving and higher-level thinking as they gain an understanding of successful web design concepts and techniques that are essential to planning, creating, testing, publishing, and maintaining Web sites. Students learn and apply ethical use of technology and the essentials of Web site layout, graphics, color, and multimedia, while demonstrating the maintenance and continuous improvement to a Web presentation. In order to develop real-world technology talents, students use HTML, CSS coding, Dreamweaver, and Photoshop, etc. to produce high quality Web pages.
DEBATE, Novice (164)  
Prerequisite: KSHSAA eligible  
1 semester ½ credit  
Novice Debate involves the study of basic competitive debate techniques and the current national debate topic for high schools across the United States. The class will involve actual competition. Students are expected to master fundamental debate techniques. At least 3 tournament competitions are required. This is a co-curricular class.

DEBATE, Experienced (168)  
Prerequisite: Novice Debate, permission of instructor, KSHSAA eligible  
1 semester ½ credit  
Experienced Debate is a continuation of debate skills learned in Novice Debate. Students will be expected to expand their skills in use of logical thinking, organization, arranging materials, and oral presentation. Students will explore various paradigms in debate and will practice adapting to a variety of paradigms during interscholastic competition. Students are required to attend 4 tournaments.

FORENSICS–COMPETITIVE SPEAKING & ACTING (1125)  
Prerequisite: KSHSAA eligible  
1 semester ½ credit  
Students will be exposed to a variety of speaking and acting events. Forensics is a co-curricular class that involves attendance at three tournaments outside of school. This is a competitive activity that is team taught by Mrs. Lafflen and Mr. Shaw.

SPEECH (162)  
Prerequisite: none  
1 semester ½ credit  
Beginning Speech will involve the study of basic communication. Students will learn speaking and speech preparation skills. Projects include: Informative Speech, Demonstrative Speech, Election Speech, and Creating Commercials. This course is available for concurrent college credit through Pittsburg State University; tuition and fees are the responsibilities of the student. This course fulfills an English elective.

SPRING DEBATE (1331)  
Prerequisite: Teacher Approval, Novice Debate, Forensics  
1 semester ½ credit  
Spring debate will focus on Student Congress, Public Forum Debate, Lincoln-Douglas Debate and Mock Trial. Competition at 3 Friday tournaments is required.

REAL WORLD COMMUNICATIONS (1372)  
Prerequisite: none  
1 semester ½ credit  
Students will learn real world communication skills to help them with job readiness, as well as working on day-to-day communications they may encounter. This is not a concurrent speech course, but will count as a speech/theatre requirement.
ADVANCED INDUSTRIAL TRADES INTERNSHIP (1360) 12
1 semester ½ credit
An advanced application level course that offers students an opportunity to apply knowledge and skills in an actual workplace setting, outside of the school setting, that explores all aspects of the selected industry, builds relationships with industry professionals, and creates a seamless transition from secondary to postsecondary pursuits and job satisfaction. Students should have completed other pathway courses at the technical and application level prior to this course.

CARPENTRY I (1520, 1521) 10,11,12
1 year 1 credit
A comprehensive course designed to instruct students in the basic knowledge and skills required for construction of residential structures.

INDUSTRIAL TRADES FIELD STUDY (1359) 11,12
1 semester ½ credit
This is an advanced level application course introducing workforce, interviewing, and presentation skills. Students will tour different companies related to the construction/manufacturing industry. After touring, they will get the opportunity to go through the application process with the company.

INTRODUCTION TO CRAFT SKILLS (834) 9,10,11,12
1 semester .5 credit
Major course goals include providing students the opportunity to earn a national accreditation (certification) through a standardized training program NCCER whose curriculum is designed by the industry, for the industry, to build a safe productive workforce of craft professional. Fall semester will include course projects and activities based on Basic Safety, Construction Math, Introduction to Hand Tools, Introduction to Power Tools, Introduction to Blueprint’s Basic Communication, and Employability skills. Spring semester will include introductory level CAD course that focuses on the basic principles of blueprint construction and design. Students will create both 2D and 3D CAD drawings, build models, and learn about the Architectural History. Students will engage in activities in which they will be required to design, construct, and test their ideas against other members of the class.

WOODWORKING PRINCIPLES (1357, 1358) 10,11,12
1 year 1 credit
Prerequisite: Intro to Craft Skills
This course introduces students to the various kinds of woods used in industry and offer experience in using selected woodworking tools. Students design and construct one or more projects and may prepare a bill of materials. Correct and safe use of tools and equipment is emphasized. As students advance, they focus on learning the terminology necessary to use power tools successfully, developing skills to safely use these tools in the workshop and becoming familiar with various kinds of wood-finishing materials. Advanced students typically design a project, prepare bills of materials, construct, and finish proposed projects.

WOODWORKING II (1399, 1400) 11, 12
1 year 1 credit
Prerequisite: Intro to Crafts Skills, Woodworking Principles
This course is a continuation from Woodworking Principles. Students are expected to go more in-depth in design and construction of a project. This course will prepare students for an internship program that may be taken senior year.
BAKING & PASTRY I (1503)  
Prerequisite: Culinary Essentials  
1 semester .5 credit  
This is an advanced class in the student of basic baking techniques. This class will cover basic knowledge of baking, pastry theory and practical application. In this course, students will learn a variety of quick bread batters, quick bread soft doughs, and yeast breads. We will also make cheesecake, custards and pies. Students will cover batters and doughs produced by the creaming method and will make cakes and frostings from scratch. Students will develop team-building skills necessary for employment.

CULINARY ESSENTIALS (1453)  
1 semester .5 credit  
Culinary essential students will develop and learn several topics, including food safety and sanitation, basic kitchen math skills, nutritional needs, and food source sustainability. Students will learn teamwork and compatibility while learning basic cooking methods. This course meets PHS fine arts requirements.

CULINARY I (1454, 1455)  
Prerequisite: Culinary Essentials  
1 year 1 credit  
Culinary I students will begin to learn food safety and sanitation skills necessary for the Servesafe food handler testing. Students will learn meal format construction, farm to table education, kitchen math skills, and basic cooking methods. Students will also discover the basic needs of entry-level kitchen work and Industry and Hospitality management. This course meets PHS fine arts requirements.

CULINARY II (1456, 1457)  
Prerequisite: Culinary Arts I  
1 year 1 credit  
Culinary II students will learn developmental and advanced skills needed to flow in to the culinary world. Topics covered in culinary II include restaurant development, menu management, and recipe development. Students will also learn how to manage every day operations, budgeting, and managing costs. Servsafe Restaurant management testing will be available at the end of the course. This course meets PHS fine arts requirements.

CAPS CULINARY BUSINESS DEVELOPMENT
ADVANCED MEDIA PRODUCTION (1379, 1380) 10, 11, 12
Prerequisite: Media Production with a B or higher, application & instructor permission
The purpose of this course is to teach students advanced journalism skills necessary to produce print and online student media associated with the newspaper, yearbook, website, and social media. The skills include writing, marketing, design, and business management. Students are responsible for the leadership, conceptualization, design, creation, promotion and production of print and online media. To be successful in this course, students are expected to work on assignments outside of class. This course meets the English elective requirement.

ADVANCED MULTIMEDIA PRODUCTION (1375, 1376) 10, 11, 12
Prerequisite: Media Production with a B or higher, application & instructor permission
The purpose of this course is for students who have successfully completed Intro to Multimedia and want to further their skillset with photography and videography. This class will teach advanced technical skills to produce quality images and video for use in a variety of projects and publications. Topics include use of photo and video equipment, software and techniques to take, edit and manipulate digital images and video. This course is an avenue for learning the trade of photojournalism and videography and having photos and videos published. Students will create a portfolio to transition to the next level, whether college or career. To be successful in the course, students must be able to work individually and are required to work on assignments outside of class and attend events. This course meets the fine arts requirement.

EDITORIAL LEADERSHIP (1295, 1296) 9, 10, 11, 12
Prerequisite: Enrolled in a student publications course and permission of instructor
1 year 1 credit
Students must be on a student publications staff and have instructor approval. The purpose of this course is to cultivate leadership skills and focus on successful management and leadership techniques. It is an opportunity for the editorial board to conduct meetings and develop strategies to determine resources and tasks necessary for project completion and evaluate and assign resources to tasks. Students will implement project management skills to design and complete a collaborative project and learn various survey strategies to track progress and develop strategies for monitoring interconnected assignments. Students must maintain a C or better to remain enrolled in this course for the second semester.

MEDIA PRODUCTION (1377, 1378) 9, 10, 11, 12
1 year 1 credit
The purpose of this course is to train students in the journalism skills necessary to produce print and online student media associated with the newspapers, yearbooks and website and social media. The skills include writing, marketing, design and business management. Students are responsible for the design, creation, promotion and production of print and online media. To be successful in the course, students are expected to work on assignments outside of class. Note: Students must complete an application and have instructor permission after the application is evaluated. Applications are available from the instructor. Students must have a B or higher to remain in the course at semester or apply for the next year, unless approved by the instructor. This course meets the English elective requirement.

INTRODUCTORY to MULTIMEDIA (1373, 1374) 9, 10, 11, 12
1 year 1 credit
The purpose of this course is to teach technical skills to produce quality images for use in a variety of applications and publications. Topics include use of equipment, software and techniques to take, edit and manipulate digital images. This course is an avenue for learning the trade of photojournalism, have photos published, and create a portfolio to transition to the next level, whether college or career. To be successful in the course, students are required to work on assignments outside of class and attend events outside of school. Note: In order to enroll, students must complete an application and have instructor permission after the application is evaluated. Applications are available from instructor. Students must have a B or higher to remain in the course at semester or apply for the next year, unless approved by the instructor. This course meets the fine arts requirement.
APPLICATIONS OF TECHNOLOGY (1508) 10, 11, 12
Prerequisite: One of available from instructor: the following: Investigations of Design and Engineering Technology, or Investigations of Communication and Information Technology, or Investigation of Power, Energy, and Transportation Technology, or Investigation of Production and Construction Technology
1 semester 1½ credit
You must contract with the teacher in a specific technology area of your interest. These contracts may be: thematic, independent studies, small group projects, or mentoring in nature. You will plan, research, design, and present topics to evaluation panels or community groups. The nature of the project will enable you to develop advanced skills in the technology area of your choice.

APPLICATIONS OF TECHNOLOGY II (1509) 10, 11, 12
Prerequisite: Applications of Technology
This course is a continuation of applications of technology. Students must contract a project with the instructor.

ENGINEERING & ROBOTICS (1506, 1507) 10, 11, 12
Prerequisite: Intro to Tech & Engineering
1 year 1 credit
Engineering & Robotics is a lab-based course that uses a hands-on approach to introduce the basic concepts of robotics, focusing on the construction and programming of autonomous mobile robots.

INTRO TO TECH & ENGINEERING (1297, 1298) 9, 10, 11, 12
1 year 1 credit
This course prepares students to understand and use technology concepts and processes. Students will build projects, develop innovations, and engineer practical solutions to real world problems. A wide variety of technology equipment including: computer controlled cutting lasers; digital cameras and software; wood, metal and plastic fabrication equipment; engineering software; and many others will be experienced.

INTRO TO PROGRAMMING (1516) 9, 10, 11, 12
1 semester ½ credit
Students develop an introductory understanding of fundamental computer science concepts and apply computational thinking skills to solve problems through the use of entry level coding tools for computers and/or mobile devices.

CAPS ENGINEERING (1504) 11, 12
ADVANCED COMPOSITION (186) 
Prerequisite: English 9, 10, 11
1 semester ½ credit
The purpose of Advanced Composition is to improve students' writing skills in order to enhance their ability to be college ready. We will write using essay styles/report formats used at the college level. The course is centered around Carol Dweck’s Mindset: The New Psychology of Success. The primary activities involve reading assigned texts, class discussion of those texts, various writing assignments (both shorter & longer papers). We will use a writing process that involves pre-writing, rough draft writing, self-editing, peer review, final draft writing, audience (teacher) evaluation using Pitt State rubrics, revision (as needed until the assignment meets expectations). Student may enroll concurrently in this class for PSU college credit in English Composition 101 (tuition/fees are the responsibility of the student).

ADVANCED CREATIVE WRITING 10, 11, 12
Prerequisite: Creative Writing
1 semester, ½ credit
The purpose of advanced creative writing is to use previous knowledge, skills, and work that were developed in Creative Writing to create a large portfolio of writing that fits their own personal writing goals. Students will choose specific skills they want to develop, while focusing on the editing and revision process. Students will also have a chance to enter contests, competitions, and learn more about the publishing process.

AP ENGLISH Language and Composition (187, 787) 11
Prerequisite: English 9, 10
1 year 1 credit
This is a college-level course, and students can, by passing the Advanced Placement Exam in May, obtain college credit in an English composition class. This course focuses on rhetoric and composition more than literature. There is an emphasis on analytical reading of most non-fiction prose, but students also read novels and plays and range of essays comprising topics from philosophy, psychology, science, ad religion. SUMMER READING IS REQUIRED. A student with a failing grade at semester will not be allowed to continue to the next semester. This class will receive a weighting in the GPA calculation.

AP ENGLISH Literature and Composition (199, 1233) 12
Prerequisite: AP English Language and Composition or English 11
1 year 1 credit
While AP Lit requires students to read and write extensively outside of class, it's also a fun course that is similar to book club. We’ll examine novels, plays, short stories, and poems from a variety of time periods. Writing assignments include in-class essays and dialectical journals. As a college-level course, students will read challenging, provocative, dense, and sometime controversial material. This course is available for PSU General Literature credit, which students may earn either by paying tuition and fees or by passing the AP Lit exam in May. This class will receive a weighting in the GPA calculation.

APPLIED ENGLISH & COMMUNICATIONS (1217) 11, 12
Prerequisite: English 9, 10
1 semester ½ credit
Applied English & Communication Skills (reading, writing, listening, speaking and collaboration) will serve an English elective for those who intend to pursue a career in the workplace or receive vocational training immediately following graduation. Concentration on the real world applications (problem solving, technical reading and writing) will be the emphasis to better prepare graduates in a competitive work environment.

BRITISH LITERATURE (207) 11, 12
Prerequisite: English 9, 10
1 semester ½ credit
This course is a reading intensive course designed for college bound students. Students will be introduced to the Old English, Middle English, Renaissance, Restoration, Romantic, Victorian, and 20th Century periods. It is recommended for juniors and seniors. The grading in this class is based mainly on projects and test grades. Students will have the opportunity to participate in a field trip to the Kansas City Renaissance Festival in October of the fall semester.

CREATIVE WRITING (183) 9, 10, 11, 12
1 semester ½ credit
The purpose of Creative Writing is to encourage students to use their imagination and personal experiences in writing short stories and poems. We’ll study professional writers’ stories and poems as examples of the craft, and we will workshop each other’s writing as well. Students should walk out of this class with a collection of work they can be proud of.

ENGLISH 9 (156, 157) 1 credit
Prerequisite: Required for 9th Grade
1 year 1 credit
English 9 students study three books and one play as well as literary excerpts. The goal is that students can read closely, participate in thoughtful discussions of literature and literary devices, and engage in effective writing/research related to text studied. Students review grammar/usage concepts to use language more skillfully in written and oral communication.

ENGLISH 9 HONORS (642, 643) 1 credit
Prerequisite: English 9, 10, 11, 12
1 year 1 credit
English 9 Honors is for high-ability students who wish to encounter rigorous material in preparation for Honors 10, Advanced Placement English, or college-level classes. Core components of the English 9 curriculum are studied plus an additional novel each semester as well as more essay writing and research projects. If a student were to finish the semester with a D, a conversation with the teacher needs to occur to determine if Honors is the appropriate placement. This class will receive a weighting in the GPA calculation.

ENGLISH 10 (180, 179) 1 credit
Prerequisite: Required for 10th grade, English 9
1 year 1 credit
English 10 students will review writing skills and correct usage, review basic paragraph and essay structure, and use the writing process to produce essays. Students will use the 6-trait analytical writing assessment model. Students will also read traditional, multicultural, and contemporary literature to understand the concept of literary
genres, techniques, and themes. A career unit and a library research unit are included.

**ENGLISH 10 HONORS (190, 191)**
Prerequisite: It is strongly suggested that students have a B or above in English 9 or English 9 Honors.
1 year 1 credit
This is a rigorous, weighted, yearlong course. The purpose of this class is to offer promising students challenging material and research-based strategies that will prepare them for future AP English courses or college-level courses. The goal of Honors English 10 is to ensure that students acquire the ability to read closely, understand the conventions of literary discourse, engage with the discourse through writing accurately and insightfully, and encounter challenging material. The core texts will comprise a survey of canonical literature from various genres and independent reading of canonical literature from various genres. Independent reading of Accelerated Reading novels is required. NOTE: Students with a failing grade after the first semester will not be allowed to continue to the next semester. A student who finishes the first semester with a D can be enrolled for the second semester with teacher recommendation following a conference to determine if Honors is the appropriate placement. This class will receive a weighting in the GPA calculation.

**ENGLISH 11 (182, 181)**
Prerequisite: English 10
1 year 1 credit
English 11 students will continue instruction in the writing process with emphasis on advanced theme writing for effective communication. Students will use the 6-trait analytical writing assessment model. The student will write an internal research paper. Students will increase their understanding of how American language and literature reflect cultural values through reading American literature and studying American authors.

**MYTHOLOGY (202)**
9, 10, 11, 12
1 semester ½ credit
Mythology explores myths from Greece, the Middle East, Northern Europe, the Far East, Africa, and North and South America. Students will be studying motifs such as pantheons, creation, apocalypse, underworld, heroes, mythical creatures, and mythical places as well as other common threads among world myths. This is a reading intensive course that will use projects, simulations, essays, and objective tests to show student growth throughout the semester.

**TECHNICAL READING & WRITING (1452)**
11, 12
1 semester ½ credit
This course will serve as an English elective for those students who currently participate in our Career and Technical Education programs (such as CTEC classes, Culinary Arts, Health and Occupational Science, etc.) and plan to find employment or further training immediately following graduation. Emphasis will be on supporting and supplementing the individual CTE program graduates in an academic environment.
Family & Consumer Science

CAREER CONNECTIONS (1514) 11, 12
Prerequisite: Teacher Approval
1 semester ½ credit
This class is the application level for the Human Services Pathway. The student will apply the essential academic, communication, problem solving, information tech, safety and career development skills as they complete rotations through various jobs in the Human Services Pathway (Social Work, Therapy, Counseling, Volunteer Coordinator, Nutrition Educator, Geriatric Work, Youth Coordinator and other related careers).

CAREER & LIFE PLANNING (1510) 9, 10, 11, 12
1 semester ½ credit
Career and Life Planning will introduce students to the skills and strategies helpful in becoming more focused, productive individuals. These courses typically emphasize goal-setting; decision-making; managing time, energy, and stress; and identifying alternatives and coping strategies. They may also allow students to explore various career and lifestyle choices.

COMMUNITY CONNECTIONS (1513) 11, 12
Prerequisite: Teacher Approval
1 semester ½ credit
This class is the application level for the Human Services Pathway. This class will provide community based/school based learning experiences within the class. Goals are set by the student, teacher & community partners to create experiences and/or discussions to enhance the development of the 21st century skills needed to be successful in the human services/family related careers.

CONSUMER ED (347) 10, 11, 12
1 semester ½ credit
This course facilitates the opportunity for high school students to learn about managing resources to achieve personal and family goals; making informed consumer decisions; creating financial stability; and maintaining a healthy living environment.

FAMILY STUDIES (1512) 9, 10, 11, 12
1 semester ½ credit
Family Studies will emphasize building and maintaining healthy interpersonal relationships among family members and other members of society. This course will emphasize (but not limited to) topics such as social/dating practices, human sexuality and reproduction, marriage preparation, parenthood and the function of the family unit, and the various stages of life. This course may also cover topics related to self-development, career development, personal awareness, and preparation for the responsibility of a family member and wage earner.

FOUNDATIONS OF EARLY CHILDHOOD DEVELOPMENT 11, 12 (486, 487)
Prerequisite: Child Development, Parenting
1 year 1 credit
QA Elective
Child development classes provide students with knowledge about the physical, mental, emotional, and social growth and development of children from conception to pre-school age, emphasizing the application of this knowledge in a child care setting. These courses typically include related topics such as the appropriate care of infants, toddlers, and young children.

HUMAN GROWTH & DEVELOPMENT (1195) 9, 10, 11, 12
1 semester ½ credit
This course will provide students with knowledge about the physical, mental, emotional, and social growth and development of humans from conception to old age, with a special emphasis on birth through school age. Course content will provide an overview of life stages, with a strong tie to prenatal and birth processes; fundamentals of children’s emotional and physical development; and the appropriate care of children.

NUTRITION & WELLNESS (1511) 9, 10, 11, 12
1 semester ½ credit
This course introduces high school students to the food laboratory providing the opportunity to competently plan strategies for choosing, acquiring, preparing and storing foods that will affect overall health and wellness. Students will understand the principles of nutrition and that quality lifestyle impacts physical, emotional, and social health on a daily basis.

TEACHING AS A CAREER (1190, 1191) 11, 12
1 year 1 credit
Teacher approval
Teaching as a Career will introduce students to the principles underlying teaching and learning, the responsibilities and duties of teachers, and the techniques of imparting knowledge and information. This course will expose students to and train in classroom management, student behavior, leadership and human relations skills, assessment of student progress, teaching strategies, and various career opportunities in the field of education.

TEACHING INTERNSHIP (1193, 1194) 11, 12
1 year 1 credit
Prepares students to teach and guide others. This course will provide the opportunity for students to develop their own teaching objectives, design lesson plans, and to experience teaching in a controlled environment. Students will examine teaching strategies, learning styles, time management and planning strategies, classroom management, and evaluation techniques.
Students will be placed based on assessment scores and teacher recommendations. Students for whom English is not their first language will receive areas of instruction in listening, speaking, reading and writing in the English language.

ESOL Justice Studies (1332)
ESOL Algebra B (1391, 1392)
ESOL Health (1389)
ESOL World History (1393)
SPANISH I (236, 534)  9, 10, 11, 12
Prerequisite: strongly advised to have a C average in classes
1 year  1 credit
Spanish I is a study of the basic vocabulary, greetings, phrases, and verb usage, which would be a foundation for further study and simple communication with native speakers. Listening, speaking, reading, and writing skills are exercised through class recitation, exercises and use of cassettes, guests and films.

SPANISH II (238, 535)  10, 11, 12
Prerequisite: Spanish I & a C or better in Spanish I
1 year  1 credit
A review and expansion of vocabulary, phrases, and verbs learned in Spanish I, adding more practice in listening, repeating, reading, writing and speaking. Native speakers are listened to through the use of cassettes, guests and films.

SPANISH III (239, 539)  11, 12
Prerequisite: Spanish II & a C or better in Spanish II
1 year  1 credit
The learning begun in preliminary courses is reviewed and continued, further developing listening, speaking, reading, and writing skills. Spanish vocabulary used in a number of various vocations may be studied and/or stories or short novels may be read based on the student’s interest and ability. Movies will be watched as well as videos of current events in Hispanic countries. More emphases will be placed on conversation, reading and writing skills. There is also an emphasis on the history and culture of Spain and Latin America with an introduction to literature.

AP SPANISH IV (241, 541)  12
Prerequisite: Spanish III & a C or better in Spanish III
1 year  1 credit
The AP Spanish Language and Culture course is a college level course taught almost exclusively in Spanish. Students will improve their proficiency in the following modes of communication: writing, reading, speaking, and listening. Vista Higher Learning text, TEMAS with its online component and Exam Preparation workbook will be used to integrate authentic resources including online print, audio, and audiovisual resources, as well as traditional print resources that include literature, essays, and magazine and newspaper articles with the goal of providing exposure to different regions and accents of the Spanish-speaking world. The goal is for students to be able to communicate using rich, advanced vocabulary and linguistic structures as they build proficiency in all modes of communication. This class will receive a weighting in the GPA calculation.
### INTRO TO HEALTH CARE (1447)
- **Prerequisite:** None
- **Credit Information:** 1 credit, 1 semester
- **Description:**
  This course explores the health care industry and requirements for entry into health careers. The content relates to the organization of health care, trends in health care, working environments, responsibilities of the health care worker, safety and infection control practices. Curriculum includes up-to-date information about critical health issues and assists students in making responsible decisions regarding their personal health as well as possible career choices.

### HEALTH CARE II (1383, 1384)
- **Prerequisite:** Health Care I
- **Credit Information:** 1 year, 1 credit
- **Description:**
  This course is designed to allow students to assess human anatomy and physiology functions and descriptive results of abnormal physiology with clinical consequences, demonstrating a workable knowledge of medical terminology. Students will explore the legal responsibilities, limitations, and implications of actions within the health delivery system; and analyze how employability skills enhance employment opportunities and job satisfaction. During this course, students will obtain First Aid & CPR certification.

### HEALTH SCIENCE III CNA (1228)
- **Prerequisite:** Health Care I, Health Care II, Anatomy & Physiology or concurrent enrollment in Anatomy & Physiology
- **Credit Information:** 1 credit, 1 semester
- **Description:**
  This course is designed to allow students the opportunity to develop skills that are essential to all health care workers in the delivery of quality health care, and to explore successful job-seeking strategies. This will be accomplished by student participation in a variety of activities to demonstrate skills in patient care, measuring/recording vital signs, preparation of a job application, and job interview strategies. The curriculum relates to trends in health care, respecting cultural diversity, legal and ethical responsibilities of health care workers. Student can obtain their Certified Nurse Assistant (CNA) certification.

### HEALTH CARE III Clinical Experience (1385)
- **Prerequisite:** Health Care I, Health Care II, Health Sciences III, Anatomy & Physiology
- **Credit Information:** 1 credit, 1 semester, 2 class periods
- **Description:**
  This course builds upon the concepts introduced in Health Science I, II, and III. Students will be given the opportunity to acquire clinical experience through job shadowing in community health care facilities. Students will experience 7 different clinical rotations of 20 hours each. Upon completion of the course, students will have achieved 140 hours of supervised clinical experience.

### HEALTH SCIENCE III: EMT (1485 spring)
- **Prerequisite:** Health Science II
- **Credit Information:** 1 credit, 1 semester, 3 class periods
- **Description:**
  This course is a dual credit course through Ft. Scott Community College offered in the Spring semester. FSCC EMT is a technical level course in the Health Science Pathway designed to provide skills and knowledge necessary to sit for the EMT certification test. The course is taught by a certified EMT instructor and follows competencies set forth by the certifying agency.

### MEDICAL TERMINOLOGY (1085)
- **Prerequisite:** Health Science II or instructor approval
- **Credit Information:** ½ credit, 1 semester
- **Description:**
  Presents basic concepts and elements of medical terms pertaining to the study of the human body and assists in the development of the ability to read and understand the language of medicine. Commonly used abbreviations will also be addressed. This course is completed online through LCC.
BAND (1127, 1128)  9, 10, 11, 12
1 year  1 credit
This band will perform in parades, half-time shows, State Music Festival, clinics and trips. This band performs concert works of grade II and III during second semester. Members are also required to attend band camp at PHS during the summer. Additional performance opportunities include All-District Band All-State Band and KSHSAA Solo and Small Ensemble Festival.

JAZZ ENSEMBLE (338, 738)  9, 10, 11, 12
1 year  1 credit
Jazz Ensemble is a class designed to teach fundamentals of jazz style. Jazz Ensemble will perform in concerts, contests, clinics and trips. Additional performance opportunities include All-District and All-State Jazz Band. Membership is open to any current band member.

ORCHESTRA (342, 742)  9, 10, 11, 12
1 year  1 credit
Orchestra, at the high school level, is a continuation of the performance skills in elementary/junior high school. Additional performance opportunities include All-district Orchestra, All-State Orchestra and KSHSAA Solo and Small Ensemble Festival.

PIANO LAB (1143)  9, 10, 11, 12
1 semester  ½ credit
Piano Lab is a non-auditioned music class designed for students who are interested in beginning piano instruction. Students will be introduced to the fundamentals of piano playing. Curriculum will include basic theory, music reading and daily piano playing. Piano Lab students must be able to practice independently during class. Assessment will include daily practice, progress and class recitals.
**Mathematics**

**ADVANCED MATHEMATICS (319, 819)**

- **Prerequisite:** Algebra II & Geometry
- **1 year**
- **1 credit**

The student is provided the opportunity to learn the mathematics of trigonometry and analytic geometry, while extending the concepts of algebra and geometry. Topics covered include circular functions, trigonometric functions, vectors, matrices, and analytic geometry.

**AP CALCULUS (326, 826)**

- **Prerequisite:** Advanced Mathematics or PreCalculus
- **1 year**
- **1 credit**

This course follows the recommendations of the Committee on Mathematics for the Advanced Placement Program. Topics include elementary functions, limits, differential and integral calculus with applications, techniques of integration. Grades received in this class will receive weighted based on the weighted grade factor, which will affect the weighted GPA and weighted ranking. There will be an assignment for students to complete over the summer, which will be due on the first day of school. A test will be administered in the first full week of school assessing knowledge of the skills reviewed from the summer assignment.

**ALGEBRA I (312, 812)**

- **1 year**
- **1 credit**

This is the first half of traditional Algebra I taken over the course of one year. Successful completion of both Algebra A and Algebra B will satisfy the algebra requirement for graduation and will result in 2.0 credits. A total of 3.0 math credits are required for graduation. Teacher recommendation is required to enroll in this course.

**ALGEBRA A (311, 318)**

- **9, 10**
- **1 credit**

This is the first half of traditional Algebra I taken over the course of one year. Successful completion of both Algebra A and Algebra B will satisfy the algebra requirement for graduation and will result in 2.0 credits. A total of 3.0 math credits are required for graduation. Teacher recommendation is required to enroll in this course.

**ALGEBRA B (513, 520)**

- **10, 11**
- **1 credit**

This is the second half of traditional Algebra I taken over the course of one year. Successful completion of both Algebra A and Algebra B will satisfy the algebra requirement for graduation and will result in 2.0 credits. A total of 3.0 math credits are required for graduation. Teacher recommendation is required to enroll in this course.

**ALGEBRA II (314, 814)**

- **Prerequisite:** Algebra I, Geometry
- **1 year**
- **1 credit**

The student is provided the opportunity to continue the study of the real number system, polynomial, exponential, logarithmic and trigonometric functions, and quadratic equations and inequalities.

**ALGEBRA II HONORS (194, 195)**

- **Prerequisite:** Algebra I, Geometry, Teacher recommendation
- **1 year**
- **1 credit**

The goal of Algebra II Honors is to ensure that students have the opportunity to surpass the traditional Algebra II curriculum and to prepare for Precalculus and Calculus. Topics include but are not limited to the study of functions, equations and inequalities, sequences and logarithms. There will be an assignment for students to complete over the summer, which will be due the first day of school. A test will be administered during the first full week of classes. This test will assess knowledge of the skills reviewed from the summer assignment.

**CALCULUS (1226, 1227)**

- **Prerequisite:** Advanced Math or PreCalculus
- **1 year**
- **1 credit**

This course will prepare students for college calculus. Topics include elementary functions, limits, differential and integral calculus with applications, and techniques of integration.

**COLLEGE ALGEBRA (540)**

- **Prerequisite:** Algebra II with a grade of C or higher both semesters. It is HIGHLY RECOMMENDED that students complete the fall semester of Advanced Math to increase their success of the college algebra course.
- **1 semester**
- **½ credit**

This course is designed for students to learn traditional college algebra concepts and problem solving skills. It should serve to prepare students to prepare students not only for their higher studies in math but also to use and appreciate the concepts of algebra in day-to-day activities. Topics include: operations with algebraic expressions, linear and quadratic functions, graphs of polynomial and rational functions, systems of equations, logarithmic and exponential functions, arithmetic and geometric progressions, and permutations and combinations. This course will offer students a concurrent enrollment opportunity where they may earn college credit through Pittsburg State University.

**CONSUMER MATHEMATICS (323, 324)**

- **1 year**
- **1 credit**

The student is provided the opportunity to learn the mathematics necessary in daily living and personal finance. Topics include taxes, real estate, loans, banking, renting, and budgeting.

**GEOMETRY (316, 817)**

- **Prerequisite:** Algebra I
- **1 year**
- **1 credit**

This course follows the recommendations of the Committee on Mathematics for the Advanced Placement Program. Topics include coordinate geometry, direct and indirect proofs, applications of formulas, ratio and proportion, translations, rotations, symmetry, congruence and linear and quadratic equations. Enrollment in the spring semester of this course requires passing the first semester course.

**INFORMAL GEOMETRY (1087, 1088)**

- **Prerequisite:** Algebra I
- **1 year**
- **1 credit**

Informal Geometry does not meet Regents requirements. Informal Geometry will emphasize a practical approach to the study of geometry and de-emphasize an abstract, formal approach. This course will be beneficial to students who are moving toward technical education.
PRECALCULUS (1141, 1142)

11, 12

Prerequisite: Algebra II and Geometry
1 year 1 credit

This is an honors-level course for accelerated students to Prepare for AP Calculus. Topics learned include advanced algebra and trigonometry, analytical geometry, curve-sketching, non-linear regression, systems of equations and matrices, and exponential and logarithmic functions. There will be an assignment for students to complete over the summer, which will be due on the first day of school. A test will be administered in the first full week of school assessing the knowledge of the skills reviewed from the summer assignment.
STUDENTS TAKING ACTIVE ROLES: ARMY STAR (1093, 1094)
1 year 1 credit
9, 10, 11, 12
This course is a partnership between PHS and the US Army that will utilize the expertise and resources of the US Army to help students develop skills that will enable and encourage them to take active roles in their own life, within their families, their school and community, with the ultimate goal of graduating high school and creating enriching post-secondary options. The STAR program is a four-year program modeled after Junior ROTC that emphasizes citizenship and leadership. Program outcomes include but are not limited to: (1) development of leadership skills, (2) incorporating principles of physical and mental wellness into behaviors and decisions, (3) building effective relationships with peers, co-workers and the community, (4) developing global awareness by applying physical and political geography knowledge, and (5) understanding rights and responsibilities of U.S. citizenship. Students are encouraged to remain in the program through graduation. Students will assume various leadership roles and will have the opportunity to compete/perform in military drills and other leadership activities. Parent/guardian consent is required for students to participate. Some physical fitness training will be part of each semester.

TEACHER STUDENT AIDE (414, 409)
11, 12
STUDENT AIDE OFFICE (416, 417)
11, 12
STUDENT AIDE COUNSELING OFFICE (428, 429)
11, 12
LIBRARY SCIENCE AIDE (430, 433)
11, 12
Prerequisite: Teacher permission/Administrative approval
1 semester 1/4 credit (Maximum 1/2 credit)

WORK EXPERIENCE (524, 525)
11, 12
Prerequisite: Counselor approval
1 semester (can be repeated) ½ credit (maximum of 2.0 credits)
The purpose of this course is to provide students an opportunity who are employed to earn high school credit. In order to receive credit, students must work 120 hours during the semester (average 7.5 hours each week) and must turn in pay stubs to the counseling office to verify employment. Students must provide own transportation to and from work. Students can earn ½ credit for every 120 hours of employment per semester for a maximum of 2.0.

DRIVERS EDUCATION (873)
9, 10, 11, 12
1 semester ½ credit
Driver’s Education will be held during the regular school day and the course will consist of both a classroom portion as well as a driving portion. Students must pass both the final exam and driving assessment in order to pass the course. The classroom phase operates as any academic course with lectures, discussions and tests over the basic principles of car control, turns, parking, the driver’s physical and psychological factors in driving, and Kansas driving laws. Driving time is scheduled in one-hour blocks on an individual basis and is separate from the classroom instruction. Students will need an instruction permit for the course, and the course instructor will assist those who lack their instruction permit in applying for one at the beginning of the course. Class size is limited and priority for enrollment will be given to older students. Successful completion of this course enables students to procure a Kansas driver’s license (16 years old) or a restricted license (15 years old) when the 50 hour supervised driving affidavit is also submitted.

DRAGON MENTOR (1042, 1043)
11, 12
Prerequisite: Teacher/Administrative approval
1 semester ½ credit
Dragon Mentor places qualified PHS students at the elementary, middle school, or PHS to serve as mentors to USD 250 students. In addition to academic mentoring, the student will serve as a positive role model and demonstrate both communicative and listening skills. The students will work closely with the teachers and counselors of the schools to which they are assigned. An application and interview are required for this class.

JAG: Jobs for America’s Graduates 11-12th (1367, 1368)
JAG: Jobs for America’s Graduates 9-10th (1365, 1366)
Prerequisite: Teacher/Counselor approval
1 year 1 credit
The Jobs for America’s Graduates program helps student develop their potential and job skills and prepares them for work life beyond graduation, and helps them open up opportunities in employment and post-secondary educational opportunities. The focus of the class is graduation, career exploration and planning, development of employability skills through a competency-based curriculum that includes field trips, participation in a student-led leadership organization, and experiential, project-based learning. Through mentoring and advisement, the program also helps students develop personally and socially in order to help address challenges they may have struggled with in the past.

STUDENT LEADERSHIP COUNCIL (1255, 1256)
9, 10, 11, 12
Prerequisite: Instructor approval
1 year 1 credit
Students will be required to plan, organize, implement, and evaluate projects or activities that not only serve, but enrich PHS community. Students will develop leadership and professional skills to help them complete their projects. Students will learn to establish healthy relationships with peers, teachers, and administrators. They will also develop personal responsibility and teamwork, effectively communicate, organize projects, and practice time management. Time outside of class will be necessary in order to fulfill the class requirements. A grade of C or better will be required to enroll in the next semester.
**Performing Arts**  
*(Stagecraft, Theatre)*

*(All Performing Arts classes fulfill the Fine Arts Elective requirement)*

---

**IMPROVISATION (1467)**

9, 10, 11, 12  
Prerequisite: Theatre  
1 semester  
½ credit  
Improvisation is a theatre course where students will learn the foundations of both long and short form improv. The class will consist of improv games, sketch comedy, characterization foundations, and acting techniques. Students will be required to participate in at least one out of school performance.

**MUSICAL REPERTORY THEATRE (641)**

9, 10, 11, 12  
Prerequisite: Theatre I and Audition and Permission of Instructor  
1 semester  
½ credit  
The purpose of this course is to form an acting company of experienced drama students who will produce at least one major musical theatre production and prepare material for college auditions. Out-of-school time performance is required.

**REPERTORY THEATRE (177)**

9, 10, 11, 12  
Prerequisite: Theatre I and permission/approval of instructor  
1 semester  
½ credit  
The purpose of this course is to form an acting company of experienced drama students who will produce at least one major fall or spring production and have a number of small productions and performances. Out-of-school time performance is required.

**STAGECRAFT (205)**

10, 11, 12  
1 semester (fall)  
½ credit  
Stagecraft is the study of technical theatre. This course will introduce students, both novice and experienced, to a practical approach in both technical and production aspects of theatre. Students will learn the skills needed to construct scenery, hang and focus lighting instruments, and a variety of other techniques. In this course, students will also learn and explore areas of scenic, lighting, and sound design. This class is production oriented.

**THEATRE I (174)**

9, 10, 11, 12  
1 semester  
½ credit  
The purpose of this course is to develop qualities of poise, conduct, and self-expression, and an appreciation for performing arts. One out of class performance is required, as well as out of class crew work.

**THEATRE DESIGN (491)**

9, 10, 11, 12  
Prerequisite: Theatre I  
1 semester  
½ credit  
The purpose of this course is to develop qualities of poise, conduct, and self-expression, and an appreciation for performing arts. One out of class performance is required, as well as out of class crew work.

**THEATRE DESIGN II (1299)**

9, 10, 11, 12  
Prerequisite: Stagecraft, Theatre Design I or teacher approval  
Spring only  
½ credit  
This is an advanced technical theatre course for students who are interested in continuing their passion for theatre design.
HEALTH (350) 9, 10, 11, 12
Prerequisite: required for graduation
1 semester ½ credit
This class is designed to help the individual learn how and why to "care", for self, and for those around them. Health related subjects such as human sexuality, fitness, weight control, mental health, first aid, including CPR, will be reviewed and discussed. The emphasis will be on health related decisions and how these decisions will affect the individual, both now and in later years.

LIFETIME FITNESS CONCEPTS (651) 9, 10, 11, 12
Prerequisite: female only
1 semester ½ credit
This is an aerobic activity class in which students will participate in mainly rhythmic type activities such as aerobics, step aerobics, Pilates, dance, etc. Basic physical fitness concepts will be reinforced and emphasized. This class will promote and help students learn how to achieve lifetime wellness and activity.

PE - MALE ATHLETIC WEIGHT TRAINING AND CONDITIONING (657, 632) 9, 10, 11, 12
Prerequisite: 75% attendance of summer weights for incoming 9th grade
THIS COURSE IS HIGHLY RECOMMENDED FOR ALL ATHLETES
1 semester ½ credit
This class is an advanced class of conditioning and weight training with emphasis on muscular strength, muscular endurance, and cardiovascular conditioning. It involves high intensity training. This course is a requirement to all student-athletes.

PE - FEMALE ATHLETIC WEIGHT TRAINING AND CONDITIONING (357, 332) 9, 10, 11, 12
Prerequisite: 75% attendance of summer weights for incoming 9th grade.
THIS COURSE IS HIGHLY RECOMMENDED FOR ALL ATHLETES
1 semester ½ credit
This class is an advanced class of conditioning and weight training with emphasis on muscular strength, muscular endurance, and cardiovascular conditioning. It involves high intensity training. This course is a requirement to all student-athletes.

PE – SPORTS 11 & 12th (1387, 1388) 11, 12
Prerequisite: A grade of C or better in most recent PE class; may be repeated
1 semester ½ credit
This class will consist of cardiovascular conditioning, team type activities such as flag football, basketball, volleyball, etc.

PE - SPORTS 9th & 10th Male (1307) 9, 10
1 semester ½ credit
This class will consist of cardiovascular conditioning, team type activities such as flag football, basketball, volleyball, etc.

PE – SPORTS 9th & 10th Female (1308) 9, 10
1 semester ½ credit
This class will consist of cardiovascular conditioning, team type activities such as flag football, basketball, volleyball, etc.

PE – WEIGHT TRAINING (354, 351) 10, 11, 12
1 semester ½ credit
This class is an advanced, co-ed class of conditioning and weight training with emphasis on muscular strength, muscular endurance, and cardiovascular conditioning. It involves high intensity training.

POWERWALKING (1218) 9, 10, 11, 12
1 semester ½ credit
This class is designed to help students recognized the importance of physical health through various walking activities. Power walking will reinforce some skill-related components of physical fitness & combine them with daily improvement of health-related fitness components including cardiorespiratory endurance, muscular strength and endurance, muscular flexibility and body composition.
### Science

All Science courses will meet PHS graduation Science requirements.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Grade Levels</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANATOMY AND PHYSIOLOGY (308, 508)</td>
<td>11, 12</td>
<td>This elective course focuses upon the structure, functions, and development of various forms of animals with special emphasis on humans. Students will work with living and preserved specimens in the laboratory. Dissection makes up the majority of the activities in this class in the spring semester. Anatomy and Physiology is recommended for any student wishing to learn more about animal and human biology and particularly for students who are interested in pursuing careers in biology, medicine, dentistry, veterinary, nursing, or any of the mental or physical health professions.</td>
</tr>
<tr>
<td>BIOLOGY HONORS (391, 392)</td>
<td>10</td>
<td>The purpose of this class is to offer students at PHS the opportunity to excel and be challenged by life science curriculum. The goal of Honors Biology is to ensure that students have the opportunity to surpass the traditional biology curriculum by delving farther and deeper into the biological sciences curricula. The same textbook as Biology will be used for this class but additional outside readings, on-line assignments and a lab notebook will be part of this curriculum. This class will receive a weighted GPA.</td>
</tr>
<tr>
<td>CHEMISTRY HONORS (1202, 1203)</td>
<td>10, 11, 12</td>
<td>The intention of Honors Chemistry is to allow students to be challenged while examining the properties of chemistry at an accelerated pace and reinforcing concepts covered in class with more intensive laboratory work compared to the standard chemistry course. Honors Chemistry will study the composition, properties, and reaction of substances by exploring topics such as atomic structure; behavior of solids, liquids, and gases; chemical formulas and equations; oxidation/reduction reactions; acids and bases; and introducing concepts of organic chemistry. This course is recommended for students interested in Chemistry or planning to pursue careers in the fields of engineering, technology, medicine, pharmacy, and biotechnology. This class will receive a weighting in the GPA calculation.</td>
</tr>
<tr>
<td>CHEMISTRY (1294, 1306)</td>
<td>10, 11, 12</td>
<td>This course covers the fundamental concepts of matter: its structure, its reactions, its relationship to our environment. Students will use laboratory work to help understand these concepts. The problem solving techniques learned in this class will be useful to those who plan to take physics. This course is recommended for anyone interested in chemistry and for students planning to pursue any one of the majors in college: all science areas, all engineering areas, all areas related to medicine, home economics, and some areas of technology.</td>
</tr>
<tr>
<td>CHEMISTRY II (1095, 1096)</td>
<td>11, 12</td>
<td>This course expands on the knowledge base from the introductory Chemistry I course. This class deals with topics like Behavior of Gases, Water and Aqueous Solutions, Reaction Rates, Oxidation-Reduction reactions and Organic Chemistry. This class is recommended for any student who is planning to declare a major in college that requires Chemistry. These majors include science, engineering, medicine, healthcare, some areas of technology and others.</td>
</tr>
<tr>
<td>BIOLOGY (362, 363)</td>
<td>10, 11, 12</td>
<td>This class is designed so that students may enroll in botany as a semester or full-year course. Fall Semester will focus on the &quot;whole-plant&quot;. Students will study the plant cellular structure and form and function of plants (roots, stems, and leaves). Highlighting the major classifications of the plant kingdom and their life cycles. The course work includes various laboratory investigations and field studies. Spring Semester will focus on horticulture and the economic importance of plants. Including greenhouse management, current best practices in landscaping and gardening. As well as investigations specific to Kansas native plants and a native plant collection. The course work will include the propagation of plants and laboratory investigations.</td>
</tr>
<tr>
<td>EARTH &amp; SPACE SCIENCE (1199)</td>
<td>11, 12</td>
<td>This course will explore Earth's systems. We will be covering the following topics: space systems history of the earth's systems, and weather and climate. Throughout the year, students will be expected to participate in experimental labs that will enhance his or her understanding of these concepts.</td>
</tr>

ENVIRONMENTAL SCIENCE (1204, 1205) 11, 12
Prerequisite: Biology
1 year 1 credit
This course is designed to explore the earth’s natural and renewable resources and the general ecological and environmental concepts. Considerable amount of time is spent collaborating and doing research to complete projects.

HONORS PHYSICAL SCIENCE (1251, 1252)
Prerequisite: Recommendation by 8th grade science instructor. Aptitude in reading & math will be examined before selection.
1 year 1 credit 9
The purpose of this course is to provide students with fundamental knowledge of Physical Science through the exploration and experimentation of basic Chemistry and basic Physics principles. An accelerated pace and extended learning opportunity will provide greater depth to that knowledge. A variety of instructional methods including lecture, notes, videos, demonstrations, outside reading assignments and laboratory activities will provide the students with a general understanding of the concepts of Physical Science.

PHYSICAL SCIENCE (360, 561) 9, 10, 11, 12
Prerequisite: required for graduation
1 year 1 credit
The purpose of this course is to provide students with a fundamental knowledge of the world of physical science and to acquaint them with “scientific methods” in a laboratory setting. Basic principles of chemistry and physics will be emphasized in both semesters. This course will provide students with an understanding of science in their daily lives through a variety of instructional methods including notes, videos, and interactive practice sessions, demonstrations, and laboratory activities.

PHYSICS (371, 571) 11, 12
Prerequisite: Algebra II and Geometry; highly recommended that students pass Chemistry I before taking Physics
1 year 1 credit
This course is considered a college preparatory course for students who plan to major in Chemistry, Physics, Engineering, Engineering Technology, or the Medical or Dental fields but anyone interested in Physics (and who meets prerequisites) may take this course. Physics is concerned with mechanical energy, thermal energy, light, sound and nuclear energy. This class is required to meet Regents Scholars eligibility.

RESEARCH I (1369, 1370) 11, 12
Prerequisite: Enrolled in Physics or Chemistry II concurrently
1 semester ½ credit
This unique opportunity allows students to experience the rigor and rewards of real scientific research while still in high school. This course provides independent, self-motivated, keenly interested students a chance to gain confidence in public speaking, collaborate with peers, develop time management skills and work in a professional environment. Students will choose and explore a topic of interest; engaging in an original piece of research under the supervision of the classroom teacher and a mentor in the chosen area of study. This program furthers excellence in performance and achievement while drawing from and developing scientific capabilities of the student. All steps in a student’s progress are carefully and systematically monitored to assure that students engage in each phase of scientific research and have attained the desired capabilities. This course is designed for students who will pursue careers in STEM related programs.

WILDLIFE BIOLOGY (1445, 1446) 11, 12
Prerequisite: Biology
1 year 1 credit
This course will explore subjects such as, but not limited to, animal anatomy and physiology, statistics, technical writing, wildlife ecology, and wildlife management/conservation. Other topics include methods for introducing animals to an area, procedures for hunting animals for game, and plans for endangered animals. Students examine ecological principles in the context of animal management and become familiar with the regular growth and life cycles of different plant and animal populations. Wildlife is found outdoors so this class will focus on being outdoors as much as possible.
## Social Science

All Social Science courses will meet PHS graduation Social Science requirements.

This AP course is a college level class about the framework, traditions and values of the America political system. Students will develop a critical understanding of the strengths and weaknesses of U.S. government, as well as their rights and responsibilities as citizens. Students who enroll in this course should have successfully passed American History and should be willing to accept the challenge of a rigorous academic curriculum. This honors class demands high level critical thinking skills, and requires more reading and writing than regular American Government. The course satisfies the senior requirement for American Government needed for graduation. Upon successful completion of the course, a student will have the opportunity to take the AP U.S. Government Examination which could result in earning college credit. This class will receive a weighting in the GPA calculation.

This course will provide students with an understanding of American democracy and the organization, structure, and function of American government. Students will be encouraged to become informed citizens and participate in political affairs. **This class is required to be taken at PHS due to the requirements of social science state assessments.**

This course surveys the growth of the United States as an industrial and world power from the beginning of the 1900s until the end of the Cold War in the 1990s. The objective is to provide the student with a basic understanding of the development that our country underwent in the 20th century. This will be achieved by the study of particular events, ideas and concepts, as well as contributions by key leaders which helped to shape our nation today. This class is required for graduation.

This course is designed to be a study of history using primary source media (especially music and movies) as a starting point. It is more thematic than chronological with the primary themes being: musical America, political America, techno America, & Warrior America. Other themes will include African American/Slave, experience, immigrant America, blue collar America, & religious America.

This course encourages students to study political, economic, and social issues facing the world in the 21st Century. The course will include specific studies as well as topics of student selection. Discussion of current issues will incorporate examination of historical causes and possible solutions.

Students will be acquainted with the importance of the frontier in the development of American democracy. Emphasis will be placed on an understanding of the contributions of American Indians, explorers, exploiters, settlers and developers in the expansion of the country.

This course is available for concurrent college credit through Pittsburg State University; tuition and fees are the responsibilities of the student. This class will receive a weighting in the GPA calculation.
HONORS WORLD HISTORY (1450, 1451) 10, 11, 12
Prerequisite: none
1 year 1 credit
Honors World History is designed to be a challenging course that mimics the requirements and rigor of an Advanced Placement or college freshman level class. It is a class that covers world history of the European Middle Ages (1450 C.E.) through the Cold War. Solid reading and writing abilities as well as a willingness to commit to reading and studying outside of class are essential to the successful completion of the course. An emphasis is placed on critical and evaluative thinking skills, essay writing, and interpretation of primary source documents. This course is available for concurrent college credit through Pittsburg State University; tuition and fees are the responsibilities of the student and will be paid in January. This class will receive a weighting in the GPA calculation.

JUSTICE STUDIES (396) 9, 10, 11, 12
1 semester ½ credit
This course is designed to provide students with an understanding of both their responsibilities toward society and the legal rights available to them as juveniles and adults. Students are provided with general knowledge of civil and criminal law, with emphasis on criminal.

PSYCHOLOGY (384) 9, 10, 11, 12
1 semester ½ credit
This course introduces the basic concepts and principles of psychology. The science of psychology includes broad areas of research about the human person; information that will help students better understand themselves and others. A special emphasis is placed on applying the knowledge of psychology to everyday life.

SOCIOMETRY (386) 9, 10, 11, 12
1 semester ½ credit
As the students begin their study of Sociology, they will probably find that it is very different from the traditional classroom that they have experienced in the past. This difference is probably because Sociology looks at groups rather than individual behaviors. In the study of Sociology, the students will learn to think like a social scientist; while learning to question their beliefs, assumptions, and finally their conclusions.

TOPICS IN WORLD HISTORY: THE HOLOCAUST (789) 10, 11, 12
1 semester ½ credit
Students will learn about the choices that led to the isolation and extermination of groups identified by the German leadership for elimination during the 1930s and 1940s. Students will develop an understanding of human rights and identify patterns of similar episodes of genocide in the post-World War II era.

TOPICS IN WORLD HISTORY: WAR IN THE 20th CENTURY THROUGH FILM (1092) 11,12
1 semester ½ credit
This course will use film to approach significant problems in history. Students will be asked to rethink the relationships between “reality” and “representation” and to reconceptualize the boundaries between history and film. The course will be arranged around the theme of war in the Twentieth century. Each week students will view a film, read corresponding texts, and research the actual historical events. Because of the nature of the course and the amount of time that must be dedicated to screening the films, this class will be very different than a traditional lecture-based course. It requires students to be self-motivated learners and emphasizes individual close readings of the assigned texts, thoughtful individual critiques of the films and readings, and weekly discussions. Students who feel more comfortable in lecture or “fact-oriented” classes should be advised that this class might not be well suited to their needs. An emphasis is placed on critical and evaluative thinking skills, essay writing in a historical format, and interpretation of primary source documents.

WORLD CIVILIZATION (1448, 1449) 9, 10,11,12
Prerequisite: required for graduation
1 year 1 credit
This course is designed to provide students with a basic understanding of World History during the 15th through 19th centuries and its impact on modern society. This will include the Renaissance and Reformation, the Age of Exploration, the rise of Absolutism, the Enlightenment, the Scientific Revolution, the French Revolution, Industrial Revolution, Age of Imperialism, and concluding with the Cold War. This will be achieved by the study of particular events, ideas and concepts, as well as contributions by key leaders who have helped to shape our world today. This class is required for graduation and is to be taken the freshman or sophomore year.

WORLD WAR II (1300) 9, 10, 11, 12
1 semester ½ credit
This course will study how and why World War II came to be such a destructive force in history. The course will examine each phase of the war and how it affected the overall outcome. It will also view the significance of each phase, the goals and objectives of major offensives and operations within the war, the results and outcomes, and the important themes throughout.
Pittsburg High School provides a comprehensive programming for students with special needs. It is a continuum of service options ranging from collaboration in the general education classroom to direct services provided in special education classrooms. Individualized services and programming are provided as directed by an Individualized Education Program (IEP) Team to students with learning disabilities, emotional and behavioral needs, sensory and physical needs, cognitive and developmental disabilities, speech/language needs, hearing and vision needs, and for students who are gifted. Placement in these programs/services is determined by a Special Education team.

For more information regarding special education services, contact your high school administrator, school counselor or the school psychologist.

DRAGON DEN (550, 950)
ENCORE (346, 746) 9, 10, 11, 12
Prerequisite: audition only
1 year 1 credit
This course is a performance based ensemble. Students are expected to achieve and excel in the performance of choral music. Emphasis in performance along with District and State Choir auditions are part of the required curriculum. Academic eligibility and exemplary behavior is expected from all personnel. Inability to maintain this may result in removal from the class. Prerequisite: Students must audition for this group. Auditions will be held in the spring semester.

GIRLS’ GLEE (348, 748) 9, 10, 11, 12
Prerequisite: audition only
1 year 1 credit
Students will achieve the fundamentals of choral singing. The curriculum will include performance of choral music from all periods including both sacred and secular literature. This course will offer performance opportunities as well as competition opportunities as part of the required curriculum. Academic eligibility and exemplary behavior is expected from all personnel. Inability to maintain this may result in removal from the class. Prerequisite: Students must audition for this group. Auditions will be held in the spring semester.

MIXED CHORUS (345) 9, 10, 11, 12
Spring only ½ credit
Mixed Chorus is a non-audition vocal music class. Students will be introduced to the fundamentals of singing in a choir, and be provided with community service based opportunities to perform. The curriculum will include fundamentals of music theory, music history and sacred and secular choral music.

MUSICAL REPERTORY THEATRE (641) 9, 10, 11, 12
Prerequisite: Theatre I and Audition and Permission of Instructor
1 semester ½ credit
Musical Rep Theatre is an exploration of musical theatre through the vocal and theatre programs. Students will study the work of actor/singer/dancer and use their gained knowledge to develop as performers. There is heavy emphasis on vocal technique and character development. Class roster is determined the spring of the previous school year. Casting is done the first week of school.

FSCC INTRO TO COSMETOLOGY (1026)  
1 semester (spring)  
1.5 credits  
Students earn 7 credit hours towards a cosmetology degree from Fort Scott Community College.

FSCC CARPENTRY (584, 585)  
1 year  
Students earn credit hours from Fort Scott Community College as well as earning industry recognized credentials. Students must complete Intro to Craft Skills prior to completion of the program.

FSCC WELDING I (829, 830)  
Prerequisite: Fall start only  
1 year  
Students earn credit hours from Fort Scott Community College as well as earning industry recognized credentials. Students must complete Intro to Craft Skills prior to completion of the program.

FSCC WELDING II (703, 704)  
1 year  
Students earn credit hours from Fort Scott Community College as well as earning industry recognized credentials.

FSCC MASONRY I (580, 581)  
Prerequisite: none  
1 year  
Students earn credit hours from Fort Scott Community College as well as earning industry recognized credentials. Students must complete Intro to Craft Skills prior to completion of the program.

FSCC MASONRY II (705, 706)  
Prerequisite: FSCC Masonry I  
1 year  
Students earn credit hours from Fort Scott Community College as well as earning industry recognized credentials. Students must complete Intro to Craft Skills prior to completion of the program.

FSCC EMT  
Prerequisite: Health Science I, Health Science II, Health Science III  
1 semester (spring)  
1 credit  
Students earn 10 credit hours from Fort Scott Community College including CPR certification as well as taking both state and national EMT exams.

FSCC ENVIRONMENTAL WATER TECHNOLOGY (1263, 1264)  
1 year  
Students earn credit hours from Fort Scott Community College as well as earning industry recognized credentials.

FSCC HEATING, AIR CONDITIONING & VENTILATION- HVAC (481, 482)  
1 year  
Students earn credit hours from Fort Scott Community College as well as earning industry recognized credential

FSCC HORTICULTURE (1260)  
1 semester  
Students earn credit hours from Fort Scott Community College as well as earning industry recognized credentials. Course will not transfer to PSU.

FSCC HEAVY MACHINERY OPERATOR (1261, 1262)  
1 year  
Students earn credit hours from Fort Scott Community College as well as earning industry recognized credentials.
The Fire Science program through Coffeyville Community College prepares students for a career in firefighting, fire investigation, consulting, industrial safety, fire engineering, and fire prevention. The following entry level courses will be offered at the Pittsburg Fire Department to juniors and seniors to get a jumpstart on the program:

1) Firefighter Basics (Fire Science I)
2) Building Construction Related to Fire Science (Fire Science I)
3) Fundamentals of Fire Prevention (Fire Science II)
4) Introduction to Fire Origin & Cause (Fire Science II)

Upon high school graduation, students will be encouraged to complete the remaining Fire Science Program requirements through Coffeyville Community College.
Courses offer opportunities for students to explore various fields of interest and prepare for college and employment. Check course descriptions in this guide for prerequisites. Courses found in other departments are noted.

The Launch Program is a professional development student initiative offered by PHS. Launch provides high school students with educational opportunities that are driven by real-world, career-oriented experiences, and focuses on developing the “whole student” - both academically, interpersonally, and intrapersonal. Launch is committed to providing authentic, “hands on” experiences for all students, integrating critical thinking, communication, collaboration, and creativity into every day, providing authentic work experiences and mentoring opportunities with local business partners, and enhancing regional economic and community development by effectively preparing talent for in-demand, high skill careers.

½ semester (2 blocks) or 1 year if student chooses

Students may choose from the following pathways:

CAPS Finance
CAPS Applied Marketing
CAPS Culinary Business Development
CAPS Engineering
CAPS Media
