

Stephens County School System Facility Additions/Modifications Procedures

Stephens County School System adheres to the following procedure when building additions/modifications or new construction.

- When planning additions/modifications or new construction projects Stephens County Board of Education and system leadership review current facilities to ensure adherence to Title IX regulations.
- SCSS follows the state bid procedures as indicated in GA 20-2-260
- Architects, construction managers and other contract providers are bound by federal ADA, OSHA, and Georgia Department of Education's laws, guidelines, and mandates to assure compliance. The Fire Marshall will not grant occupancy without compliance to appropriate codes
- The Stephens County Board of Education carefully reviews credentials and qualifications of architects, construction managers and/or other contract providers to ensure that they are appropriate for the scope of work for each project

If non-compliance is identified due to updated standards and/or codes, the facility will be modified or renovated to meet the requirements by the ADA, OCR, OSHA, and Georgia Department of Education when necessary.
